Independent auditor's report on review of condensed interim financial statements

To the Unitholders of AlAhli REIT Fund (1) managed by SNB Capital Company (formerly NCB Capital Company)

Introduction

We have reviewed the accompanying 30 June 2021 condensed interim financial statements of AIAhli REIT Fund (1) (the "Fund"), managed by SNB Capital Company, formerly NCB Capital Company (the "Fund Manager") which comprises:

- the condensed statement of financial position as at 30 June 2021;
- the condensed statement of profit or loss and other comprehensive income for the six-month period ended 30 June 2021:
- the condensed statement of changes in net assets (equity) attributable to the Unitholders for the six-. month period ended 30 June 2021:
- the condensed statement of cash flows for the six-month period ended 30 June 2021; and .
- the notes to the condensed interim financial statements. .

The Fund Manager is responsible for the preparation and presentation of these condensed interim financial statements in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia and to comply with the applicable provisions of the Real Estate Investment Funds Regulations issued by Capital Market Authority and the Fund's Terms and Conditions. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410. 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries. primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2021 condensed interim financial statements of AIAhli REIT Fund (1) are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia.

1 THE FUND AND ITS ACTIVITIES

AlAhli REIT Fund (1) ("Fund") is a closed-ended Shariah compliant real estate investment traded fund, established and managed by SNB Capital Company, formerly NCB Capital Company ("Fund Manager"), a subsidiary of the Saudi National Bank ("SNB"), for the benefit of the Fund's unitholders. The Fund is ultimately supervised by the Fund Board.

As per license number 37-06046 granted by the Capital Market Authority ("CMA"), the Fund Manager is authorized to carry out the following activities with respect to securities:

- a) Dealing as principal and agent, and underwriting;
- b) Arranging;
- c) Managing;
- d) Advising; and
- e) Custody.

The Fund's objective is to provide periodic rental income to its unitholders by investing mainly in developed income-generating properties and to potentially provide capital growth by developing and/or expanding and/or selling assets.

The Fund invests mainly in developed income-generating real estate assets and may invest part of its assets and cash surplus in Murabaha transactions and short term deposits in Saudi Riyals with banks that are licensed by the Saudi Central Bank ("SAMA") and operate in Saudi Arabia. The Fund may also invest in public money market funds approved CMA.

The terms and conditions of the Fund were approved by CMA on 11 Rabi AlAwwal 1439H (corresponding to 29 November 2017). The offering period for the subscription of the units was from 6 December 2017 to 19 December 2017. Unitholders subscribed for the units of the Fund during the offering period and cash was held in collection account of SNB Capital. The cash was transferred to the bank account of the Fund on its commencement date which was used to purchase the investment properties and units were issued to the unitholders simultaneously. The Fund commenced its activities on 25 December 2017 (the "Inception Date"). On the Inception Date, the Fund issued 137,500 units for SR 1,375 million, which was considered as an initial capital contribution of the Fund.

The Fund's term is ninety nine (99) years. The term of the Fund may be extended at the Fund Manager's discretion, subject to CMA approval.

The Fund was established and units were offered in accordance with the Real Estate Investment Traded Funds Instructions issued by CMA pursuant to Resolution No. 6-130-2016, dated 23/1/1438H, corresponding to 24/10/2016G amended by Resolution No. 2-115-2018, dated 13/2/1440H corresponding to 22/10/2018G.

As per the terms and conditions of the Fund, the Fund will distribute at least 90% of its net income to its unitholders.

2 BASIS OF ACCOUNTING

2.1 Statement of compliance

These condensed interim financial statements (the "Interim Financial Statements") for the sixmonth period ended 30 June 2021 have been prepared in accordance with the requirements of IAS 34 "Interim Financial Reporting" that is endorsed in Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA") and should be read in conjunction with the Fund's last annual financial statements as at and for the year ended 31 December 2020.

2 BASIS OF ACCOUNTING (CONTINUED)

2.1 Statement of compliance (continued)

These interim financial statements do not include all the information and disclosures required in the annual financial statements in accordance with requirements of IFRS endorsed in Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA"). However, these interim financial statements include certain disclosures to explain some significant events and transactions to understand the changes in the Fund's financial position and performance since the last annual financial statements.

2.2 Summary of significant accounting policies

The accounting policies adopted in the preparation of these condensed interim financial statements are consistent with those followed in the preparation of the fund's annual financial statements for the year ended 31 December 2020.

2.3 Basis of measurement

These interim financial statements have been prepared under the historical cost convention using the accrual basis of accounting and the going concern assumption except for investment at fair value through profit or loss ("FVTPL") which is recorded at fair value.

On 31st December 2019, CMA has examined the suitability of continuing to use the cost model or permitting the use of the fair value model or revaluation option and made the following decisions:

- Obligating listed funds to continue to use the cost model to measure property (under IAS 16) and investment property (under IAS 40) in the financial statements prepared for financial periods before the calendar year 2023.
- Allowing listed funds to choose between fair value model and revaluation model to measure property (under IAS 16) and investment property (under IAS 40) for the financial periods starting from the calendar year 2023 or thereafter.

2.4 Impact of coronavirus (COVID-19) outbreak

The Fund's operations have been affected by the recent and ongoing outbreak of the coronavirus disease (COVID-19) which was declared a pandemic by the World Health Organization in March 2020. The ultimate disruption which may be caused by the outbreak is uncertain. The COVID-19 pandemic has spread across various geographies globally, causing disruption to business and economic activities. COVID-19 has brought about uncertainties in the global economic environment. The fiscal and monetary authorities, both domestic and international, have announced various support measures across the globe to counter possible adverse implications. The Fund is closely monitoring the situation and has activated its business continuity planning and other risk management practices to manage the business disruptions COVID-19 outbreak has caused to its operations and financial performance.

As the COVID-19 outbreak continues to evolve, it is difficult to forecast its full extent and duration of the economic impact as of now. The Fund Manager is continuously monitoring the situation and its impact on the Fund's operations, cash flows and financial position and has concluded that no adjustments are required to the amounts reported in these interim financial statements (30 June 2020: SR 32.2 million). Moreover, the Fund Manager believes, based on their assessment, that the Fund has sufficient liquidity available to continue to meet its financial commitments for the foreseeable future as and when they become due.

2.5 Presentation and functional currency

The presentation and functional currency of the Fund is Saudi Riyals (SAR).

3 STANDARDS ISSUED BUT NOT YET EFFECTIVE

4 CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements requires management to make judgment, estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

4 CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (CONTINUED)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

In the process of applying the Fund's accounting policies, management has made the following estimates and judgments, which are significant to the financial statements:

- Provision for expected credit losses on receivables against operating leases
- Useful lives of investment properties
- Determining fair values of investment properties
- Impairment of non-financial assets "Value in use calculation"

5 INVESTMENT AT FAIR VALUE THROUGH PROFIT OR LOSS

13 FINANCIAL RISK MANAGEMENT

Financial risk factors

The Fund is subject to various financial risks due to its activities including: Market risk (including currency risk, fair value and cash flows of commission rate risk), credit risk and liquidity risk. The Fund's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Fund.

Fund manager is responsible for risk management. Financial instruments carried on the statement of financial position include cash and cash equivalents, investment at fair value through profit or loss, receivables from operating leases, certain other current assets, long-term debt, due to related parties, trade payables, accrued expenses and other current liabilities. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item. A financial asset and liability is offset and net amount is reported in the financial statements, when the Fund has a legally enforceable right to set off the recognized amount and intends either to settle on a net basis, or to realize the asset and liability simultaneously.

a. Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates, profit rates and equity prices will affect the Fund's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

13 FINANCIAL RISK MANAGEMENT (CONTINUED)

b. Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Fund's transactions are principally in Saudi Riyals and hence the Fund is not exposed to any significant current risk.

c. Commission rate risk

Commission rate risks are the exposures to various risks associated with the effect of fluctuations in the prevailing commission rates on the Fund's financial positions and cash flow.

The Fund's commission rate risks arise mainly from its borrowings and short-term deposits, which are at fixed rate of interest and are not subject to re-pricing on a regular basis.

d. Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Fund is exposed to credit risk in respect of its receivables from lessees under operating leases, investment at fair value through profit or loss, cash and cash equivalents, due from related parties and certain other debit balances.

The carrying amounts of financial assets represents the maximum credit exposure on these assets.

Credit risk on receivables and bank balances is limited as:

- Cash balances are held with local banks having sound credit ratings;
- Financial position of related parties is stable.

The Fund has receivables from lessees against operation leases in the Kingdom of Saudi Arabia. The Fund manages credit risk with respect to receivables from customers by monitoring in accordance with defined policies and procedures. The Fund seeks to limit its credit risk with respect to customers by setting credit limits for individual customers and by monitoring outstanding receivables on an ongoing basis. The receivable balances are monitored with the objective that the Fund's exposure to bad debts is not significant.

e. Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at an amount close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available through committed credit facilities to meet any future commitments.

The Fund 's objective is to maintain a balance between continuity of funding and flexibility using bank overdrafts and bank loans.

14 FAIR VALUE

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and at prevailing market conditions regardless if the price is directly identified or estimated using other valuation technique.

All assets and liabilities whether measured at fair value or their fair values are disclosed in the financial statements in accordance with the hierarchical levels of fair value measurements as stated below are classified into the lowest level of measuring input which is considered significant for measuring the fair value as a whole.

14 FAIR VALUE (CONTINUED)

- Level 1: Declared (unadjusted) and quoted market prices in active markets for identical assets or liabilities.
- Level 2: Inputs that are directly or indirectly observable or tracked for an asset or a liability other than declared prices mentioned in level 1.
- Level 3: Inputs that are unobservable or not tracked for an asset or a liability.

Fair values of financial instruments

The Fund is exposed to risks as a result of using financial instruments. The following explains the Fund's objectives, polices and operations to manage these risks and methods used to measure them in addition to quantitative information related to these risks in the accompanying financial statements.

There were no significant changes that may expose the Fund to financial instrument risks through its objectives, polices and operations to manage these risks and methods used that are different from what have been used in prior years unless otherwise indicated.

- The Fund's management considers the fair value for lessees' receivables, balances of related parties, accruals and other payables approximate to their carrying values because of the short terms nature of the financial instruments.
- The Fund's management estimated the fair value for long-term debt, which are classified in level 3, to be approximate to their carrying value.
- There were no transfers between level 1, 2 or 3 during the reporting period.

Financial instruments are exposed to change in value risk as a result of changes in commission rates of the financial assets and liabilities with variable commission. Actual commission rate and period of re-pricing or maturity of financial assets and liabilities were mentioned in the related notes.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.
