# Report on review of condensed consolidated interim financial statements

To the Shareholders of Kingdom Holding Company (A Saudi Joint Stock Company)

### Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Kingdom Holding Company (the "Company") and its subsidiaries (collectively referred to as the "Group") as at 30 June 2021 and the related condensed consolidated statements of profit or loss and comprehensive income for the three-month and six-month periods ended 30 June 2021 and the condensed consolidated statements of changes in equity and cash flows for the six-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

## Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

Notes to the condensed consolidated interim financial statements For the three-month and six-month periods ended 30 June 2021

(All amounts in Saudi Rivals thousands unless otherwise stated)

### 1 Corporate information

Kingdom Holding Company (the "Company" or "KHC") is a Saudi Joint Stock Company ("JSC") operating in the Kingdom of Saudi Arabia. The Company was previously formed as a limited liability company and operated under commercial registration number 1010142022 dated 11 Muharram 1417H (corresponding to 28 May 1996). The Ministry of Commerce approved, pursuant to resolution number 128/S dated 18 Jumad Awwal 1428H (corresponding to 4 June 2007), the conversion of the Company into a joint stock company. The majority shareholder of the Company is His Royal Highness Prince Alwaleed Bin Talal Bin Abdulaziz AlSaud ("Ultimate controlling party").

The Company and its subsidiaries (the "Group") carry out activities through the entities as listed in Note 1.5 to the annual audited consolidated financial statements for the year ended 31 December 2020. The principal activities of the Group are hotel management and operations, commercial services, education, investments and medical services.

The shares of the Company commenced trading on the Saudi Stock Exchange on 28 July 2007 after approval by the Capital Market Authority of Kingdom of Saudi Arabia.

The Company's head office is in Riyadh at the following address: Kingdom Holding Company 66th Floor, Kingdom Centre P.O. Box 1, Riyadh 11321 Kingdom of Saudi Arabia

Impact of COVID-19

Across the world, governments have taken different protective measures against COVID-19 causing disruptions to businesses and economic activity, ranging from partial to complete lockdown of countries. The impact of the pandemic has evolved rapidly and to contain the virus, the governments and other authorities across the world, including the geographies where the Group operates, imposed strict measures. These included restrictions on movement, social gatherings, travel bans, border closures, business closures, quarantines, stay-at-home requirements, shelter-in-place orders, density limitations and social distancing measures. The Group's businesses in hospitality and airlines (subsidiaries and equity-accounted investees) have been impacted by the mandated closures to affect social distancing. As a result, the Group experienced reductions in income associated with these businesses. The majority of the Group's business is customers' driven and the pandemic has impacted the customers' confidence and purchasing power globally. Consequently, the Group has experienced reduction in income and revenues in the corresponding periods of financial year 2020. However, with the adoptions of protective measures under the regulatory guidelines and world-wide vaccination drives the world economy has shown upward trajectory at a steady pace. Similarly, the income and revenues of the Group have improved during the current period as compared to the corresponding periods.

The impact of COVID-19 is determined by factors that continue to evolve, including but not limited to the success of support measures introduced by governments; the volume and velocity of the tourism trade; customer behaviour and sentiment; the ability of the wider economy to recover; and the timing and manner of the easing of restrictions (such as lockdowns and social distancing). The results for the three-month and six-month periods ended 30 June 2021 and the business outlook for the full year ending 31 December 2021 are already showing improvements in operational and financial performance as the negative economic and social impacts of aforesaid factors are continuously being eliminated with global economic adjustments to the new norms.

Management has taken a series of preventive measures to ensure the health and safety of its employees, customers and wider community as well as to ensure the continuity of its operations.

As at the date of approval of these condensed consolidated interim financial statements, even though most of the territories have eased the lockdowns, the extent of impact on the businesses and economies in general, remains uncertain and is dependent on the future developments that cannot be reasonably estimated.

Notes to the condensed consolidated interim financial statements For the three-month and six-month periods ended 30 June 2021 (All amounts in Saudi Riyals thousands unless otherwise stated)

### Corporate information (continued)

Critical judgements and estimates

The Group has considered the potential impact of the Covid-19 pandemic on its significant accounting judgements and estimates (Note 3).

### Liquidity and financial position

As at 30 June 2021, the Group had net current liabilities amounting to Saudi Riyals 4,463 million (31 December 2020: Saudi Riyals 3,087 million). This is mainly due to maturity of certain current borrowings amounting to Saudi Riyals 4,285 million (31 December 2020: Saudi Riyals 3,499 million). KHC has undrawn amounts of the other borrowing facilities of Saudi Riyals 3,375 million (31 December 2020: Saudi Riyals 1,650 million) and based on a review of the existing liquid unpledged investments portfolio and an analysis of cash flow projections over the next twelve months, management is confident that the Group will be able to meet its obligations as and when they fall due.

Accordingly, these condensed consolidated interim financial statements are prepared on going concern basis.

There are no changes to the Group structure as reported in Note 1 to the annual audited consolidated financial statements of the Group for the year ended 31 December 2020.

These condensed consolidated interim financial statements were authorized for issue by the Company's Board of Directors on 22 August 2021.

### 2 Basis of preparation

### 2.1 Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 - "Interim Financial Reporting" ("IAS-34") that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

These condensed consolidated interim financial statements should be read in conjunction with the Group's annual audited consolidated financial statements as at and for the year ended 31 December 2020 and do not include all of the information required for a complete set of financial statements under International Financial Reporting Standards (IFRS) that are endorsed in the Kingdom of Saudi Arabia. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual audited consolidated financial statements.

The interim results may not be an indicator of the annual results of the Group.

### 2.2 Historical cost convention

These condensed consolidated interim financial statements have been prepared under the historical cost convention, except for certain financial assets that are measured at fair value. Further, the employee termination benefits are calculated using the Projected Unit Credit Method (PUCM) and actuarial assumptions.

### 2.3 Functional and presentation currency

These condensed consolidated interim financial statements are presented in Saudi Riyals, which is the Company's functional and Group's presentation currency.

Notes to the condensed consolidated interim financial statements For the three-month and six-month periods ended 30 June 2021 (All amounts in Saudi Riyals thousands unless otherwise stated)

### 3 Use of estimates, assumptions and judgments

The preparation of the Group's condensed consolidated interim financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, costs, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

These estimates and assumptions are based upon experience and various other factors that are believed to be reasonable under the circumstances and are used to judge the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised or in the revision period and future periods if the changed estimates affect both current and future periods.

Management has reassessed the significant inputs in its estimates of recoverable amounts of investments in equity-accounted investments, goodwill and intangible assets, as disclosed in Notes 3.1, 12 and 15 of the annual audited consolidated financial statements for the year ended 31 December 2020, directly impacted by Covid-19 and recoverable amount of these assets are still higher than the carrying values and therefore no impairment was recognized for the six-month period ended 30 June 2021.

### 4 Significant accounting policies

The accounting policies applied in these condensed consolidated interim financial statements are the same as those applied in the Group's last annual audited consolidated financial statements as at and for the year ended 31 December 2020, except as mentioned in Note 4.1.

### New IFRS standards, amendments to standards and interpretations not yet adopted

There are no new standards issued, however, there are number of amendments to existing standards which are effective from 1 January 2021 and have been explained in the Group's annual consolidated financial statements, but they do not have a material effect on these condensed consolidated interim financial statements.

### 4.1 Derivative financial instruments

The Group utilizes derivative financial instruments to manage certain market risk exposures. The Group does not use derivative financial instruments for speculative purposes; however, it may choose not to designate certain derivatives as hedges for accounting purposes. The use of derivative instruments is subject to limits and the positions are regularly monitored and reported to senior management.

### Written options

The Group uses 'European Style' written options contracts to manage its exposure to fair value movements on its certain investments at fair value. These contracts permit net settlement in cash or other financial assets equivalent to the change in the contract's fair value and hence these contracts are accounted for as a derivative financial instrument in the period between trade and settlement date. On initial recognition, the net fair value of these contract itself is recognized as a derivative financial liability at the trade date. The Group receives an option premium as consideration for entering written options contracts on the trade date from the counter party (i.e. seller of the written options contract). The components of an option premium include its intrinsic value and its time value. On trade date, the Group determines intrinsic and time value of the option premium. The income from time value component of option premium is recognised over the time till the settlement date while the income from intrinsic value component is recognised on the trade date. At each reporting date, the Group determines fair value of derivatives and recognizes only the corresponding fair value loss, if any.

During the six-month period ended 30 June 2021, the Group collected a premium of Saudi Riyals 158 million (2020: Nil) related to certain option contracts with a bank. The premium has already been collected and, based on management's assessment regarding the exposure to fair value movements through marked-to-market valuation, the whole amount of aforementioned option premium has been recognised as 'other gains' in the condensed consolidated interim statement of profit or loss. These options are maturing on 23 December 2021. There are no corresponding derivative financial assets or liabilities related to these options that need to be recognized as of the balance sheet date.

Notes to the condensed consolidated interim financial statements For the three-month and six-month periods ended 30 June 2021 (All amounts in Saudi Riyals thousands unless otherwise stated)

### 5 Segment information

The Group is a diversified organization and derives its revenues and profits from a variety of sources. The investment committee, comprising senior management and the Chief Executive Officer, organize and manage its operations by business segments and have identified the following segments separately for the purposes of monitoring, decision making and performance assessment.

Description of segments and principal activities

The Group's primary operations are organized into the following segments:

Equity investments International - The principal activity includes investments in international

quoted securities

Domestic and regional The principal activity includes investments in securities quoted on the Saudi

Stock Exchange, regional Stock Exchanges and investments in associates

other than real estate.

Private equity The principal activity includes investments in private equities, managed

funds and other entities existing within the structure of the Group.

Hotels The principal activity of this segment includes investments in subsidiaries

and associates that are in the business of managing and owning hotel

properties and related activities.

Real estate The principal activity includes investments in activities relating to ownership

and development of land and real estate projects.

Healthcare The principal activity includes hospital, pharmacy and consulting clinics.

All other segments The principal activities include operations of Kingdom School and other

trading activities carried out by the Group.
