■ Net Profit Margin

NCLE maintained healthy financial growth in Q2 2023

Key highlights for Q2 2023

- The increase in net profit during the current quarter compared to the same quarter of the previous year is due to an increase in revenue by 48% compared to the same quarter of the previous year which resulted mainly from the increase in the number of students enrolled in the company's schools by 43% from 16.4 thousand students in the same quarter of the previous year to 23.4 thousand students during the current quarter.
- All educational campuses of the company witnessed a growth in the number of students during the current year compared to the previous year. In addition, a new educational campus for TNS was opened in the city of Dhahran in the Eastern Province at the beginning of the current year 2022-2023. Also, the acquisition of Al-Salam Private Schools during the current quarter contributed to an increase in revenue and the number of students.
- The government grants and subsidies also have increased during the current quarter compared to the same quarter of the previous year as a result of the company benefiting during the current quarter from the initiative of wages subsidies for the Saudi teachers from the Human Resources Development Fund.
- Overall, the net profit has increased during this quarter by 50% compared to the same quarter of the previous year, with a net profit margin of 24.1%.
