Independent auditor's report on review of condensed interim financial statements

To the Shareholders of
Arab Sea Information Systems Company
(A Saudi Joint Stock Company)

Introduction:

We have reviewed the accompanying condensed interim statement of financial position of **Arab Sea Information Systems Company** ("the company") as of June 30, 2021, and the related interim condensed statements of profit or loss and other comprehensive income for the three month and six month periods ended June 30, 2021 and interim condensed statement of changes in equity and cash flows for the six month period then ended, and other explanatory notes. Management is responsible for preparation of this condensed interim financial statements in accordance with International Accounting Standard (34) "Interim Financial Reporting" endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of review:

We conducted our review in accordance with International Standard on Review Engagements (2410) "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia and consequently doesn't enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements is not prepared, in all material respects, in accordance with International Accounting Standard (34) "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia.

Other matter:

The condensed interim financial statements of the company for the three months and six months periods ended June 30, 2020, were reviewed by another auditor who expressed an unmodified opinion of those condensed interim financial statements on Muharam 5, 1442 H, (corresponding on August 24, 2020). Further, the company financial statements for the year ended December 31, 2020 were audited by another auditor who expressed an unmodified opinion of those financial statements on Shaaban 16, 1442H (corresponding March 29, 2021).

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)
FOR THE SIX MONTHS PERIOD ENDED JUNE 30, 2021

17 FINANCIAL INSTRUMENTS

Fair value is the amount that will be received against an asset or a liability to convert a liability under a systematic transaction between the market participants on the measurement date. Within the definition of fair value, it is assumed that the Company will continue to operate as there is no intention or requirement to substantially reduce the volume of its operations or to conduct a transaction on adverse terms.

A financial instrument is included in an active market if the quoted prices are readily and regularly available from a cash dealer, an industry group broker, a pricing service or a regulatory body, and these prices represent actual and regular market transactions on a commercial basis.

When measuring fair value, the Company uses observable market information whenever possible. Fair values are classified at different levels in the fair value hierarchy based on the inputs used in valuation methods as follows:

- Level 1: quoted prices (unadjusted) in active markets for similar assets and liabilities can be obtained at the measurement date.
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for assets or liabilities directly (eg. prices) or indirectly (derived from prices).
- Level 3: inputs for assets and liabilities not based on observable market information (unobservable inputs).

All financial assets and financial liabilities of the Company are not measured at fair value and are measured at amortized cost.

18 COVID-19 IMPACT ON COMPANY'S OPERATIONS OF CONDENSED INTERIM FINANCIAL STATEMENTS

The World Health Organization declared during March 2020 that the outbreak of the Coronavirus (Covid-19) constitutes a pandemic due to its rapid spread throughout the world. The outbreak of this virus has also affected the GCC region, including Saudi Arabia. Governments around the world have taken steps to contain the spread of the virus. Saudi Arabia in particular has implemented border closures, issued directives for social distancing and imposed a nationwide closure and curfew.

The extent of the impact of the Corona pandemic on the company's business, operations and financial results is something the management believes, but the amounts are not specific and depend on many factors and future developments. This required the company's management to reassess the main assumptions, estimates and sources applicable to the company's financial statements for the year ended December 31, 2020, and the condensed interim financial statements for the period ended June 30, 2021.

During the period, and with the discovery of vaccines for this pandemic and the decline of the effects resulting from that pandemic, the management evaluated all effects on the operations and activities of the company, and based on this evaluation, there was no need to make substantial adjustments in the condensed interim financial statements for the period ended June 30, 2021, however, In view of the current uncertainty, any future change in assumptions and estimates results may arise thereof, that require substantial adjustments to the carrying values of assets and / or liabilities in future periods. In view of the rapid development of the current situation with the existence of uncertainty about the future, management will continue to evaluate the impact based on future developments.
