INDEPENDENT AUDITOR'S REVIEW REPORT

To the shareholders

The Saudi Arabian Amiantit Company
 (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of The Saudi Arabian Amiantit Company (the "Company") and its subsidiaries (collectively referred to as the "Group") as at June 30, 2023, and the related interim condensed consolidated statements of profit or loss and comprehensive income for the three-month and six-month periods then ended, and the interim condensed consolidated statements of changes in equity and cash flows for the six-month period ended June 30, 2023, and notes, comprising significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 'Interim Financial Reporting' ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements do not present fairly, in all material respects, the financial position of the Group as at June 30, 2023, its financial performance for the three-month and six-month periods then ended, and its cash flows for the six-month period ended June 30, 2023 in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

3. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES

3.1. BASIS OF PREPARATION

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard IAS 34 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA") and should be read in conjunction with the Group's last annual consolidated financial statements for the year ended December 31, 2022.

These interim condensed consolidated financial statements do not include all of the information normally required for a complete set of consolidated financial statements; however, accounting policies and selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since December 31, 2022.

These interim condensed consolidated financial statements have been prepared on a historical cost basis, except for employees' termination benefits provision which are recognized at the present value of future obligations using the Projected Unit Credit Method, lands which are recorded at revaluation model and investment properties which are recorded at fair value model. These interim condensed consolidated financial statements are presented in Saudi Riyals which is also the functional currency of the Company and all values are rounded to the nearest thousand (SR '000), except when otherwise indicated.

3.2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended December 31, 2022.

Comparative interim condensed consolidated statement of financial position is extracted from annual financial statements as at December 31, 2022 whereas comparative interim condensed consolidated statement of profit or loss account and other comprehensive income, interim condensed consolidated statement of cash flows and interim condensed consolidated statement of changes in equity are extracted from unaudited interim condensed consolidated financial statements of the Group for the six-month period ended June 30, 2022.

3.3. FAIR VALUE MEASUREMENT

The Group measures financial instruments, such as financial derivatives, at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilise the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the interim condensed consolidated financial statements are categorised within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3. BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (continued)

3.3. FAIR VALUE MEASUREMENT (continued)

For assets and liabilities that are recognised in the interim condensed consolidated financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management determines the policies and procedures for both recurring fair value measurement and for non-recurring measurement.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

The valuation techniques used to determine the fair value of lands and investment properties are classified as level 3 fair value.

3.4. NEW IFRS STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS

There are no new standards issued, however, there are number of amendments to standards which are effective from 1 January 2023 and has been explained in Group annual consolidated financial statements for the year ended December 31, 2022, but they do not have a material effect on the Group's interim condensed consolidated financial statements.

4. GOING CONCERN BASIS OF ACCOUNTING

These interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes that the Group will be able to meet the mandatory repayment terms of the credit facilities as disclosed in note 11 and trade payables.

As at June 30, 2023, the Company had accumulated losses of SR 42.8 million (2022: SR 34.6 million) and had current liabilities exceeded current assets by SR 802.4 million (2022: SR 822.7 million) as at that date. In addition, the Group has bank borrowings and is in breach of certain financial covenants related to bank facilities as disclosed in note 11.

The accumulated losses are mainly attributable to the adverse results of the water sector. Also, the group has resulted into profit for the first quarter of the year. Management has formulated various performance improvements for the entities its control and the management of the equity-accounted investment companies have also take actions to enhance their profitability. The measures are taken by improving the efficiencies in the plants having the production units. The following are the improvements 1. Improvement HR and recruiting 2. Reduction of manpower cost 3. Reduction of redundant personnel. 4. Outsourcing of human resources. 5. Automation of the production, thus improving the efficiencies and reducing the rejections. Another factor which attributed the losses earlier was the higher raw material prices, which have started cooling down that will result in increase in the volumes of production and sales through better bargaining power with the suppliers.

Also on marketing and further development, management is extending the network by consulting engineers and experts, collaboration with technologically equipped associates to develop municipal business. Green initiatives by several governments in the business areas will also give edged to the same of the entities thus increasing the profitability of the losing segment. Also, management of the Company has close cooperation with TAWZEA for long-term operation and management of rural wastewater treatment plant in the several projects.

The Group has detailed business plan for the upcoming 3 years for the entire group, which reflects positive results in the coming years of the operations. During 2022, the Group has reduced capital from SR 320 million to SR 99 million in order to absorb the accumulated losses. The Group have optimistic prospects of receiving new orders for GRP and DUCTILE plants in the second half of the year. The company's cash-generating-units for Saudi Arabian Ductile Pipe Ltd. (SADIP) itself is nearing to closing the deal for around SR 180 million while the company's cash-generating-units for Amiantit Firberglass Ltd. Co. (AFIL) is expected to get order around SR 100 million in couple of months. Also expecting to have better payment terms for this order, which will enhance the liquidity of the company. Adding to it we are securing better supplier payment terms thus ending up in better cash cycle.

Management acknowledges that uncertainty remains over the Group's ability to meet its funding requirements and to refinance or repay its credit facilities as they fall due. However, as described above, management has a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. If for any reason the Group is unable to continue as a going concern, then this could have an impact on the Group's ability to realise assets at their recognised values and to extinguish liabilities in the normal course of business at the amounts stated in the consolidated financial statements.

5. SIGNIFICANT ACCOUNTING ESTIMATES, JUDGEMENTS AND ASSUMPTIONS

The preparation of the Group's interim condensed consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of asset or liability affected in future periods. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

The significant areas of estimation uncertainty and critical adjustments in applying accounting policies that have most significant effect on the amounts recognized in the accompanying interim condensed consolidated financial statements are as follows:

- a) Uncertain zakat and tax positions,
- b) Impairment loss on financial assets - trade receivables, non-current receivables and contract assets.
- c) Impairment of equity accounted investments,
- d) Impairment of property, plant and equipment
- e) Economic useful lives of property, plant, equipment
- f) Use of percentage of completion and estimated cost to complete a contract,
- g) Long-term assumptions for employees' termination benefits,
- h) Right-of-use assets and lease liabilities,
- i) Revenue recognition – judgements in respect of nature and timings of the satisfaction of performance obligation including significant payment terms and related revenue recognition policies. This results in decision on whether revenue is to be recognised overtime or at appoint in time.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2023

10. PROPERTY, PLANT AND EQUIPMENT (continued)

- Reference to the Capital Market Authority (CMA) Board of Commissioners resolution dated 15/01/1438H corresponding to 16/10/2016G, which obligated listed companies to apply the cost model to measure the property, plant, equipment, investment property, and intangible assets upon adopting the International Financial Reporting Standards (IFRS) for three years period starting from the IFRS adopting date, while continuing to abide by the disclosure requirements of the IFRS that are endorsed in Saudi Arabia, which require or encourage the disclosure of the fair value within the notes to the financial statements. The resolution indicated that CMA will analyze the feasibility of continuing to apply the cost model upon completing the aforementioned period, or the feasibility of allowing the application of the fair value or the revaluation model.
- Based on the CMA's role in regulating and monitoring the works and activities of parties subject to the monitoring and supervision of the CMA, and its role in regulating and monitoring the full disclosures of information regarding financial securities and their issuers, CMA announces the Board of Commissioners resolution, which includes allowing listed companies to use the fair value model or the revaluation model to measure property, and investment property in the financial statements prepared for financial periods within fiscal years starting during the calendar year 2022 or thereafter.
- As at June 30, 2022, the Company has changed its accounting policy to fair value model to measure investment properties and revaluation model to measure lands while continuing to apply the cost model to measure other items of property, plant and equipment and intangible assets. Management appointed at least two independent valuers licensed by the Saudi Authority for Accredited Valuers ("TAQEEM") to evaluate each of the lands and investment property when preparing the unaudited interim condensed consolidated financial statements for the second quarter of 2022, provided that the re-evaluation takes place on an annual basis, in line with the requirements of the Capital Market Authority and when using the fair value model and the revaluation model for the first time and has chosen the lower of the two valuations. The change from cost model to fair value or revaluation model in recording investment properties and lands is considered a change in accounting policy. Hence, prior period adjustments on accumulated losses of SR 0.96 million were made on 1 January 2021 and a revaluation reserve of SR 375.78 million recorded as at that date.

(A Saudi Arabian Joint Stock Company)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2023****12. REVENUE (continued)****12.3. PERFORMANCE OBLIGATIONS****a) Sale of goods:**

The performance obligation is satisfied upon delivery of the goods and payment is generally due in advance or within 90 days from delivery.

b) Construction contracts:

Revenue is recognised over time based on the cost-to-cost method. The related costs are recognised in the statement of profit or loss when they are incurred. Payment terms comprise a long-term advance, progress payments and payment of retentions one or two years after completion of the project. The duration of each project depends on the size and complexity of customer design and normally span for more than one year.

The Group's performance obligation is satisfied over time and the Group does not create an asset with an alternative use to the Group and it has an enforceable right to payment for performance completed to date.

13. INVENTORIES

	<i>June 30, 2023</i>	<i>December 31, 2022</i>
Raw materials	89,473	74,592
Work in process	11,059	10,976

	<u>268,579</u>	<u>276,389</u>

During the period ending June 30, 2023, the Group recorded SR nil provision (December 31, 2022: SRSR 0.3 million reversal) on write down of cost of inventories to net realizable value under cost of revenue. The allowance for obsolete and slow moving inventories is based on nature of inventories, ageing profile, their expiry and sales expectation based on historic trends and other qualitative factors.

14. CONTINGENCIES AND COMMITMENTS

14.1. The Group was contingently liable for bank guarantees issued in the normal course of the business amounting to SR 54.9 million at June 30, 2023. The Company, collectively with other shareholders of associated companies, is also contingently liable for corporate guarantees amounting to SR 161.7 million at June 30, 2023 in relation to the borrowing facilities of related associated companies.

14.2. The capital expenditure contracted by the Group but not yet incurred till June 30, 2023 was approximately SR 0.3 million.

14.3. The Group owns a parcel of industrial land in Jeddah which was acquired in 2009 through the acquisition, from a related party, of a subsidiary that owns this land. The ownership of this parcel is being contested in the Saudi Arabian judicial system thus a dispute has arisen over this land. In light of this, "the Company" has booked an impairment for the full value of the land of SR 150.0 million, while the same dispute has already been decided and a royal order has been issued to prove the land to its current owners. Currently, in furtherance of the previous royal order, another royal order has been issued, a copy of which we have not received, but the Jeddah Municipality has begun to take the necessary measures to stabilize the land for its current owners, and work is underway to develop a divisional scheme for the entire Al-Melissa general plan in preparation for the issuance of electronic deeds.

15. SHARE CAPITAL

The authorized share capital of the Company comprised 9.9 million ordinary shares stated at SR 10 per share. All shares are issued and fully paid. (December 31, 2022: 9.9 million ordinary shares stated at SR 10 per share).

16. COVID-19 UPDATES

In response to the spread of the Covid-19 in GCC and other territories where the Group operates and its resulting disruptions to the social and economic activities in those markets over the last three years, management continues to proactively assess its impacts on its operations. In particular the Group is closely monitoring the current surge in cases due to the outbreak of a new variant - Omicron. The preventive measures taken by the Group in 2020 are still in effect including the creation of ongoing crisis management teams and processes, to ensure the health and safety of its employees, customers, consumers and the wider community as well as to ensure the continuity of supply of its products throughout its markets.

Access of fully vaccinated individuals to farming and manufacturing facilities has been restored. Employee health continues to be a key area of focus with programs being implemented to assist with increasing awareness, identification, support and monitoring of employee health. More than 99% of the employees of the Group have been fully vaccinated for at least two doses of vaccines and the management is working on a plan to encourage booster shots.

The management of the Group believes that any lockdown measures being reintroduced will not materially affect the underlying demand from customers for the Group's products. Based on these factors, management believes that the Covid-19 pandemic has had no material effect on Group's reported financial results for the period ended June 30, 2023 including the significant accounting judgements and estimates. The Group continues to monitor the surge of the new variant closely although at this time management is not aware of any factors that are expected to change the impact of the pandemic on the Group's operations this year or beyond.

THE SAUDI ARABIAN AMIANTIT COMPANY

(A Saudi Arabian Joint Stock Company)

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)**FOR THE SIX-MONTH PERIOD ENDED JUNE 30, 2023****17. PRIOR PERIOD ADJUSTMENTS****17.1 Prior period adjustments with an impact on equity:****17.1.1 Change in accounting policy from cost model to fair value/revaluation model**

During 2022, the Company has changed its accounting policy to fair value model to measure investment properties and revaluation model to measure lands while continuing to apply the cost model to measure other items of property, plant and equipment and intangible assets. The change from cost model to fair value or revaluation model in recording investment properties and lands is considered a change in accounting policy. Hence, prior period adjustments on accumulated losses of SR 0.96 million were made on 1 January 2021 and a revaluation reserve of SR 375.78 million recorded as at that date.

Impact on accumulated losses

The effect of changing the Company's accounting policy to fair value model for investment properties and revaluation model for lands on the accumulated losses and on the carrying amount of property, plant and equipment and other non-current assets as at January 1, 2021 is as follows:

	<i>Accumulated losses</i>	<i>Property, plant and equipment</i>	<i>Investment Property</i>
Impact as at January 1, 2021	<u>(960)</u>	<u>375,780</u>	<u>(960)</u>

17.1.2 Restatements reported share on other comprehensive income from equity accounted investments

During 2021, one of the Group's associates, namely Tawzea, had recorded the movement on other comprehensive income with respect actuarial on employees' defined benefit obligation and hedging reserve. The Group erroneously recorded both share on other comprehensive income as actuarial on employees' defined benefit obligation. Hence, prior period adjustments were made and a hedging reserve of SR 2.4 million recorded and was reclassified from accumulated losses as at that date.

Impact on accumulated losses

The effect of the above corrections on the Group's hedging reserve and the corresponding adjustments to the Group's accumulated losses for the comparative period is as follows:

	<i>Accumulated losses</i>	<i>Hedging reserve</i>
Impact as at January 1, 2022	<u>(2,430)</u>	<u>2,430</u>

18. DATE OF AUTHORIZATION:

These interim condensed consolidated financial statements were authorized for issue by the Company's Board of Directors on July 29, 2023 (corresponding to Muharram 11, 1445H).
