INDEPENDENT AUDITOR'S REPORT

ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders of
Anaam International Holding Group Company
(A Saudi Joint Stock Company)
Jeddah, Kingdom of Saudi Arabia

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Anaam International Holding Group Company (the "Company") and its subsidiaries (together "the Group"), a Saudi Joint Stock Company as of 30 June 2023 and the related interim condensed consolidated statement of profit or loss and other comprehensive income for the three-month and six-month periods then ended, and the interim condensed consolidated statement of changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes.

Management is responsible for the preparation and presentation of this interim condensed consolidated financial statements in accordance with International Accounting Standards 34 – "Interim Financial Reporting" (IAS 34) that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Material uncertainty related to going concern

We draw attention to note 2.1 to the interim condensed consolidated financial statements which indicates that the Group's accumulated losses amounted to SR 34.8 million as at 30 June 2023 and as of that date the Group's current liabilities exceeded its current assets by SR 245.4 million. These events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Emphasis of Matters

We draw attention to the following:

- As stated in note no. 4 to the accompanying interim condensed consolidated financial statements, the property, plant and equipment includes a plot of land amounting to SR 14 million for which the ownership and the title deed is not yet registered in the name of the Company.
- As stated in note no. 5 to the accompanying interim condensed consolidated financial statements, the investment properties include a plot of land with a fair value of SR 16.5 million of which the ownership and the title deed is not registered in the name of the Company.

Our conclusion is not modified in respect to these matters.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

For Dr. Mohamed Al-Amri & Co.

There has been no change in the Group's interest in its subsidiaries since its last annual consolidated financial statements for the year ended 31 December 2022.

2. BASIS OF PREPARATION

The interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" "IAS 34" that is endorsed in the Kingdom of Saudi Arabia.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements. These interim condensed consolidated financial statements should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2022. In addition, results for the interim period ended 30 June 2023 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2023.

These interim condensed consolidated financial statements are prepared under the historical cost convention, using the accruals basis of accounting, except for provision for employee benefits, which are measured at present value for the future obligations as well as investment properties and investments at fair value through profit and loss which are measured at fair value.

The interim condensed consolidated financial statements are presented in Saudi Riyals ("SR"), which is also the functional currency of the Company.

FOR THE SIX-MONTH PERIOD ENDED 30 JUNE 2023
(All amounts are in Saudi Riyals unless otherwise stated)**

2. BASIS OF PREPARATION (Continued)

2.1 Going concern assessment

The Group's accumulated losses amounted to SR 34.8 million and its current liabilities exceeded current assets by SR 245.4 million as at interim period ended 30 June 2023. These events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. These interim condensed consolidated financial statements have been prepared on a going concern basis as, amongst others:

- Alinma Bank waived the Company with respect to a breach of covenants during the period;
- Total equity is positive at 30 June 2023; and
- The Group is planning to further increase its share capital.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Significant accounting judgments, estimates and assumptions

The preparation of the Group's interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Actual results may differ from these estimates.

The significant judgments made by management in applying the Group's key sources of estimation uncertainty were the same as those described in the consolidated financial statements for the year ended 31 December 2022. However, the Group has also reviewed the key sources of estimation uncertainties disclosed in its 2022 annual consolidated financial statements. Management believes that all sources of estimation uncertainty remain similar to those disclosed in 2022 annual consolidated financial statements. The Group will continue to monitor the situation, and any changes required will be reflected in future reporting periods.

3.2 Significant accounting policies

The fair value for financial instruments traded in active markets at the reporting date are based on quoted prices for marketable securities or estimated fair values. The fair value of commission-bearing items is estimated based on discounted cash flows using commission for items with similar terms and risk characteristics.

The fair value of financial instruments where no active market exists or where quoted prices are not otherwise available are determined by using valuation techniques. In these cases, the fair values are estimated from observable data in respect of similar financial instruments or using models. Where market observable inputs are not available, they are estimated based on appropriate assumptions. Where valuation techniques (for example, models) are used to determine fair values, they are validated and periodically reviewed by qualified personnel independent of those that sourced them. All models are certified before they are used, and models are calibrated to ensure that outputs reflect actual data and comparative market prices. To the extent practical, models use only observable data; however, areas such as credit risk (both own credit risk and counterparty risk), volatilities, and correlations require management to make estimates.

3.3 New standards, interpretations and amendments adopted by the Group

The accounting policies used in the preparation of these interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended 31 December 2022, except for the following amendments which apply for the first time in 2023. However, not all are expected to impact the Group as they are either not relevant to the Group's activities or require accounting which is consistent with the Group's current accounting policies.

The following new standards and amendments are effective for the period beginning 1 January 2023:

- Disclosure of Accounting Policies (Amendments to IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2);
- Definition of Accounting Estimates (Amendments to IAS 8 Accounting policies, Changes in Accounting Estimates and Errors); and
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12 Income Taxes).
- Insurance Contracts (IFRS 17)

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

3.3 New standards, interpretations and amendments adopted by the Group (Continued)

These amendments had no impact on the interim condensed consolidated financial statements of the Group as there are no such transactions under the above amendments during the current period.

Impact of accounting standards to be applied in future periods

There are a number of standards and interpretations which have been issued by the International Accounting Standards Board that are effective for periods beginning on or after 1 January 2024 that the Group has decided not to adopt early. The Group does not believe these standards and interpretations will have a material impact on the interim condensed consolidated financial statements once adopted.

4. PROPERTY, PLANT AND EQUIPMENT

For purpose of preparing the interim condensed consolidated statement of cash flows, movement in property, plant and equipment during the six-month period ended 30 June as follows:

	For the six-month period ended 30 June	
	2023	2022

18. FAIR VALUE MEASUREMENT

All assets and liabilities for which fair value is measured or disclosed in the interim condensed consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Suppose the inputs used to measure the fair value of an asset or liability falls into different levels of the fair value hierarchy. In that case, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest input level that is significant to the entire measurement.

Set out below is a comparison, by class, of the carrying amounts and fair value of the Group's financial instruments, other than those with carrying amounts that are reasonable approximations of fair values:

Assets measured at fairValue	Date of valuation	Total	Fair value measurement using		
			Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Short term investments	30 June 2023 (Unaudited)	7,582,476	7,154,470	428,006	-
