**INDEPENDENT AUDITORS' REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL INFORMATION  
TO THE SHAREHOLDERS OF THE MEDITERRANEAN AND GULF COOPERATIVE INSURANCE AND REINSURANCE COMPANY (A SAUDI JOINT STOCK COMPANY)**

**INTRODUCTION**

We have reviewed the accompanying interim condensed statement of financial position of The Mediterranean and Gulf Cooperative Insurance and Reinsurance Company (a Saudi Joint Stock Company) (the "Company") as at 30 June 2018 and the related interim condensed statements of income and comprehensive income for the three and six month periods then ended and changes in equity and cash flows for the six months period then ended and other explanatory notes (the "interim condensed financial information"). Management is responsible for the preparation and presentation of this interim condensed financial information in accordance with International Accounting Standard 34 - "Interim Financial Reporting" (IAS 34) as modified by Saudi Arabian Monetary Authority ("SAMA") for the accounting of zakat and income tax. Our responsibility is to express a conclusion on this interim condensed financial information based on our review.

**SCOPE OF REVIEW**

Except as explained in the following paragraphs, we conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**BASIS FOR QUALIFIED CONCLUSION**

- 1) As disclosed in note 11 to the accompanying interim condensed financial information, all reinsurance treaties up to the underwriting year 2014 were managed by the Medgulf Group Corporate Reinsurance Center ("CRC"), a related party, who dealt with the Company's transactions, along with those of other related parties, on a consolidated basis with the reinsurers and brokers. All transactions with reinsurers and brokers were routed through CRC and the settlement of balances with these reinsurers and brokers were also made by CRC. The Company, together with CRC, have now initiated an exercise to separate the Company's transactions and balances with the respective reinsurers and brokers from those of other related parties. This exercise is still on-going and on completion certain parties included in the policyholders' and reinsurance balances receivable under note 7 amounting to Saudi Riyals 109.7 million may be identified as receivable from related parties and therefore may need to be disclosed under due from related parties. The underlying transactions with such related parties will then also require disclosure under related party transactions. Accordingly, management is currently unable to provide a complete list of all related parties balances and transactions which impacts both the presentation and disclosure of related party balances and transactions. Consequently, we were unable to determine whether any adjustments to the presentation and disclosure of the related party balances and transactions were necessary in the accompanying interim condensed financial information.
- 2) As disclosed in note 3, the Company is accounting for its reinsurance transactions related to the general line of business based on their understanding of the contractual terms of the reinsurance agreements. However, such accounting of reinsurance transactions may be subject to different interpretations. As a result, the Company's interim condensed financial information may require adjustments, if the terms of reinsurance agreements are interpreted differently. Management is still securing clarity on the terms of the reinsurance agreements. In the absence of information in this regard, we were unable to determine whether adjustments would be required in the accompanying interim condensed financial information.

**INDEPENDENT AUDITORS' REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL INFORMATION (Continued)**  
**TO THE SHAREHOLDERS OF THE MEDITERRANEAN AND GULF COOPERATIVE INSURANCE AND REINSURANCE COMPANY (A SAUDI JOINT STOCK COMPANY)**

**QUALIFIED CONCLUSION**

Based on our review, except for the possible effects of the matters described in the Basis for Qualified Conclusion paragraphs, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial information is not prepared, in all material respects, in accordance with IAS 34 as modified by SAMA for the accounting of zakat and income tax.

**EMPHASIS OF MATTERS**

1) We draw attention to note 1 and note 18 to the accompanying interim condensed financial information, which details various communications from SAMA to the Company. The Company did not meet the solvency margin requirements as at 31 December 2017 and 30 June 2018. The deficiency in solvency margin along with other matters as set forth in note 1 and note 18 indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.

2) We draw attention to the note 21 within the accompanying interim condensed financial information, which indicates that as of 30 June 2018, the Company's net asset position excluding the goodwill results in a negative equity position and the fact that at initial recognition the goodwill was recognized on the acquired Portfolio and net assets. Furthermore, the goodwill impairment assessment for the year ended 31 December 2017 was performed by applying Fair Value approach considering the Company as a single cash generating unit.

Based on our review of the underlying fair value approach used within the goodwill impairment assessment report issued by the management's consultant dated 11 February 2018, and, considering the present circumstances, the management subsequent to the period ended June 30, 2018, revisited the goodwill impairment assessment approach by applying Value-In-Use (VIU) based on the Company's business plan. The management is also in the process of obtaining an independent opinion from a consultant over the VIU assessment for the goodwill impairment which is expected to be furnished within the period ending 30 September 2018. As of the approval of the interim condensed financial statements, the Company's management believes that no impairment is required on goodwill.

Our conclusion is not further qualified in respect of the above emphasis of matters.

**OTHER MATTER**

The financial statements of the Company for the year ended 31 December 2017, were audited by other auditors who expressed a qualified opinion on the matters explained in our basis of conclusion, in their report dated 15 April 2018.

## NOTES TO THE INTERIM CONDENSED FINANCIAL INFORMATION (UNAUDITED) (Continued)

---

### 1. ORGANIZATION AND PRINCIPAL ACTIVITIES

The Mediterranean and Gulf Cooperative Insurance and Reinsurance Company (the "Company") is a Saudi Joint Stock Company registered in the Kingdom of Saudi Arabia under Commercial Registration No. 1010231925 dated 8 Rabi Thani 1428H (corresponding to 26 April 2007). The registered address of the Company's head office is as follows:

Medgulf Insurance  
Futuro Tower  
King Saud Road  
P.O. Box 2302  
Riyadh 11451, Saudi Arabia

The objectives of the Company are to transact cooperative insurance and reinsurance business and related activities in the Kingdom of Saudi Arabia. Its principal lines of business include all classes of general insurance. The Company was listed on the Saudi Arabian Stock Exchange (Tadawul) on 28 Rabi Al-Awal 1428H (corresponding to 16 April 2007).

The Company in its extra-ordinary general meeting held on 22 September 2017 approved the reduction of share capital from Saudi Riyals 1 billion to Saudi Riyals 400 million to absorb the accumulated losses in order to comply with the requirements of the Regulations for Companies. This resulted in the accumulated losses to decline below one-half of the Company's share capital as at 30 September 2017. The reduction of capital was approved by the regulatory authorities.

As indicated in Note 18, due to the continuous decline in the financial performance of the Company, the Company did not meet the solvency margin requirements as at 31 December 2017 and consequently SAMA issued a letter number 391000054425 dated 29 January 2018, preventing the Company from writing any new policies and renewing the existing policies. SAMA in its aforesaid letter also instructed the Company to increase its share capital before 30 July 2018 to address the issue of its deteriorating solvency margin. The Company's Board of Directors in their meeting held on 6 February 2018, recommended a rights issue amounting to SAR 400 million in order to improve the solvency margin and the Company's future business activities. Such right issue was subject to approval of the regulatory authorities and general assembly of the company. SAMA issued a letter dated 15 April 2018 allowing the Company to write new policies and renewing the existing policies starting from 17 April 2018 subject to certain conditions. The aforesaid conditions amongst others include, the Company's commitment to increase its share capital before 31 October 2018. In addition SAMA instructed the Company to take necessary steps for continuous recovery of Company's receivables, implementation of best governance practices by the Board of Directors and the executive management and submit weekly progress report on the measures taken by the management in this regard and intimated that in case of non compliance of the above, SAMA will take necessary actions as required by the law. These events and conditions indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Further, during the period ended June 30, 2018, the Company submitted its request to Capital Market Authority to proceed with the rights issue on June 28, 2018. The Company is yet to call for an extraordinary general assembly of shareholders to approve the rights issue.

Management has performed an assessment of its going concern assumption under different scenarios. Based on the underlying cash flow projections under the various scenarios, management believes that the Company will be able to continue the business and meet its obligations as and when they fall due over the next 12 months. As a result, the interim condensed financial information have been prepared on a going concern basis. Management's assessment is based on number of estimates and assumptions including significant recoveries from major policyholders, reinsurers and related parties and other cost saving measures

During the year ended 31 December 2016, SAMA issued a letter to the Company that highlighted certain weaknesses in claims processing including non-compliance with legal limits for settling claims and required the submission of a detailed report regarding the corrective actions taken or to be taken by the management. SAMA also prohibited the Company from issuing any new motor insurance policies with effect from 29 November 2016. The Company was however allowed to add vehicles to existing insurance policies and renew insurance policies issued prior to 29 November 2016. On 22 January 2017, SAMA issued another letter that highlighted certain additional matters related to claims including ineffectiveness of system used to handle and process claims and certain actions that needed to be taken by the Company. SAMA also instructed the Company to take serious actions and to provide a detailed plan with procedures and timeframes approved by the Company's board of directors to address the current situation. The detailed plan was submitted to SAMA after approval by the Company's Board of Directors. On 2 March 2017, SAMA permitted the Company to issue new motor insurance policies effective 5 March 2017 and instructed the Company to submit a monthly report for the actions taken in regard to the improvement of the current information technology system and the migration process from old information technology system to the new system. The Company has signed up for new ERP system, the update of which has been provided to SAMA. Accordingly, the Company has impaired its ERP system during the year ended 31 December 2017.

### 2. BASIS OF PREPARATION

#### *(a) Basis of presentation*

The interim condensed financial information has been prepared under the going concern basis on a historical cost basis except for the measurement at fair value of available for sale investments and end of service benefits of present value.

The Company's interim condensed statement of financial position is not presented using a current/non-current classification. The following balances would generally be classified as non-current: available for sale investments, property and equipment, land, intangible assets, statutory deposit, investment in an associate, accrued commission on statutory deposit, good will and employees end of service benefits. All other assets and liabilities are classified as current.

#### *Statement of compliance*

The interim condensed financial information of the Company ("Company") has been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting ("IAS 34") as modified by SAMA for the accounting of zakat and income tax', which requires, adoption of all IFRSs as issued by the International Accounting Standards Board ("IASB") except for the application of International Accounting Standard (IAS) 12 - "Income Taxes" and IFRIC 21 - "Levies" so far as these relate to zakat and income tax. As per the SAMA Circular no. 381000074519 dated April 11, 2017 and subsequent amendments through certain clarifications relating to the accounting for zakat and income tax ("SAMA Circular"), the Zakat and Income tax are to be accrued on a quarterly basis through shareholders equity under accumulated losses.

As required by Saudi Arabian insurance regulations, the Company maintains separate accounts for Insurance Operations and Shareholders' Operations and presents the financial statements accordingly (refer note 21). The physical custody of all assets related to the Insurance Operations and Shareholders' Operations are held by the Company. Revenues and expenses clearly attributable to either activity are recorded in the respective accounts. The basis of allocation of other revenue and expenses from joint operations is as determined by the management and Board of Directors.

The functional and presentational currency of the Company is Saudi Arabian Riyals. The interim condensed financial information is presented in Saudi Riyal rounded to nearest thousand (SAR'000) unless otherwise stated.

The Company is required to distribute 10% of the net surplus from insurance operations to policyholders and the remaining 90% to be allocated to the shareholders of the Company in accordance with the Insurance Law and Implementation Regulations issued by the Saudi Arabian Monetary Authority ("SAMA"). In case of losses, losses are absorbed by shareholders.

The insurance operations' deficit for the six month period ended 30 June 2018 amounted to SR 33,271 thousand (30 June 2017: deficit of SR 510,555 thousand). Accordingly, full deficit amounting to SR 33,271 thousand for the period ended 30 June 2018 (30 June 2017: SR 510,555 thousand) has been transferred to shareholders' operations.

The interim condensed statement of financial position, statements of income, comprehensive income and cash flows of the insurance operations and shareholders' operations which are presented in note 21 of the financial information have been provided as supplementary financial information to comply with the requirements of the guidelines issued by SAMA implementing regulations. SAMA implementing regulations requires the clear segregation of the assets, liabilities, income and expenses of the insurance operations and the shareholders' operations. Accordingly, the interim condensed statements of financial position, statements of income, comprehensive income and cash flows prepared for the insurance operations and shareholders operations as referred to above, reflect only the assets, liabilities, income, expenses and comprehensive gains or losses of the respective operations.

In preparing the Company-level financial information in compliance with IFRS, the balances and transactions of the insurance operations are amalgamated and combined with those of the shareholders' operations. Interoperation balances, transactions and unrealised gains or losses, if any, are eliminated in full during amalgamation. The accounting policies adopted for the insurance operations and shareholders' operations are uniform for like transactions and events in similar circumstances.

The accompanying interim condensed financial information do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Company's annual financial statements as of and for the period ended 31 December 2017.

In management's opinion, the interim condensed financial information reflect all adjustments (which include normal recurring adjustments) necessary to present fairly the results of operations for the interim periods presented. The interim results may not be indicative of the Company's annual results.

**2. BASIS OF PREPARATION (Continued)**

***(b) Critical accounting judgments, estimates and assumption***

The preparation of interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Estimates and judgments are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In preparing this condensed financial information, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty including the risk management policies were the same as those that applied to the annual financial information as at and for the year ended 31 December 2017.

***(c) Seasonality of operation***

There are no seasonal changes that may affect insurance operations of the Company.

**3. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS**

The preparation of the interim condensed financial information requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these estimates and assumptions could result in an outcome that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

The key assumptions concerning the future and other key sources of estimation uncertainty at the date of interim statement of financial position, that have a significant risk of causing a material adjustment to the carrying amounts of the assets and liabilities within the next financial period are discussed below.

***i) The ultimate liability arising from claims made under insurance contracts***

The estimation of the ultimate liability arising from claims made under insurance contracts is the Company's most critical accounting estimate and involves a significant degree of judgment. There are several sources of uncertainty that needed to be considered in estimating the liability that the Company will ultimately pay for such claims.

The provision for claims incurred but not reported (IBNR) is an estimation of claims which are expected to be reported subsequent to the date of interim statement of financial position, for which the insured event has occurred prior to the date of interim statement of financial position. The primary technique adopted by management in estimating the cost of notified and IBNR claims, is that of using the past claims settlement trends to predict future claims settlement trends. The liabilities are based on the best-estimate of ultimate cost of all claims incurred but not settled at a given date, whether reported or not, together with the related claims handling costs. A range of methods such as Chain Ladder Method, Bornhuetter-Ferguson Method and Expected Loss Ratio Method are used by the actuaries to determine these provisions. Underlying these methods are a number of explicit or implicit assumptions relating to the expected settlement amount and settlement patterns of claims.

The Company is exposed to disputes with, and possibility of defaults by, its reinsurers. The Company monitors on a quarterly basis the evolution of disputes with and the strength of its reinsurers.

***(ii) Premium deficiency reserve***

Estimation of the premium deficiency for medical and motor business is highly sensitive to a number of assumptions as to the future events and conditions. It is based on an expected loss ratio for the unexpired portion of the risks for written policies. To arrive at the estimate of the expected loss ratio, the actuary looks at the claims and premiums relationship which is expected to realize in the future.

**3. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS (Continued)**

*iii) Impairment losses on receivables*

The Company assesses receivables that are individually significant and receivables included in a group of financial assets with similar credit risk characteristics for impairment. Receivables that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment. This assessment of impairment requires judgment. In making this judgment, the Company evaluates credit risk characteristics that consider past-due status being indicative of the ability to pay all amounts due as per contractual terms.

*iv) Goodwill*

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. Management believes that fair value less cost to sell analysis provides a higher value compared to value in use, and therefore, fair value less cost to sell analyses are used for impairment assessments. The fair value less cost to sell calculation is based on the quoted share price of the Company as of period close and subsequent events that occurred till measurement date.

*v) Reinsurance*

The Company accounts for its reinsurance transactions based on their understanding of the contractual terms of the reinsurance treaties.

**4. CHANGE IN ACCOUNTING POLICIES AND RESTATEMENT**

The accounting policies and risk management policy used in the preparation of the interim condensed financial information are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2017, except as explained below:

*Standards issued but not yet effective*

**IFRS 9, Financial Instruments (including amendments to IFRS 4, Insurance Contracts)**

In July 2014, the IASB published IFRS 9 Financial Instruments which will replace IAS 39 Financial Instruments: Recognition and Measurement. The standard incorporates new classification and measurements requirements for financial assets, the introduction of an expected credit loss impairment model which will replace the incurred loss model of IAS 39, and new hedge accounting requirements. Under IFRS 9, all financial assets will be measured at either amortised cost or fair value. The basis of classification will depend on the business model and the contractual cash flow characteristics of the financial assets. The standard retains most of IAS 39's requirements for financial liabilities except for those designated at fair value through profit or loss whereby that part of the fair value changes attributable to own credit is to be recognised in other comprehensive income instead of the income statement. The hedge accounting requirements are more closely aligned with risk management practices and follow a more principle based approach.

### 4. CHANGE IN ACCOUNTING POLICIES AND RESTATEMENT (Continued)

In September 2016, the IASB published amendments to IFRS 4 Insurance Contracts that address the accounting consequences of the application of IFRS 9 to insurers prior to the publication of the forthcoming accounting standard for insurance contracts. The amendments introduce two options for insurers: the deferral approach and the overlay approach. The deferral approach provides an entity, if eligible, with a temporary exemption from applying IFRS 9 until the earlier of the effective date of a new insurance contract standard or 2021. The overlay approach allows an entity to remove from profit or loss the effects of some of the accounting mismatches that may occur before the new insurance contracts standard is applied.

The Company is eligible and have chosen to apply the deferral approach under the amendments to IFRS 4. The impact of the adoption of IFRS 9 on the Company's financial information will, to a large extent, have to take into account the interaction with the forthcoming insurance contracts standard. As such, it is not possible to fully assess the effect of the adoption of IFRS 9.

IFRS 17 - "Insurance Contracts", applicable for the period beginning on or after 1 January 2021, and will supersede IFRS 4 "Insurance Contracts". Earlier adoption permitted if both IFRS 15 'Revenue from Contracts with Customers' and IFRS 9 'Financial Instruments' have also been applied. The Company expects a material impact on measurement and disclosure of insurance and reinsurance that will affect both the income statement and the balance sheet. The Company has decided not to early adopt this new standard.

### **RESTATEMENT**

#### **Effect of error**

During the year ended 31 December 2017, the Company restated its retained earnings as at 1 January 2016 and comparative financial statements as of 31 December 2016 as a result of erroneous recording in prior year of transaction amounted to SR 33,070 thousand relating to medical reinsurance treaty managed by Medgulf BSC Bahrain (major shareholder) on behalf of the Company. The restated amount was part of receivable from Medgulf BSC Bahrain and was confirmed by Medgulf BSC Bahrain in earlier years without any differences. Subsequently, as a result of reconciliation of medical reinsurance treaty, an error pertaining to prior year was identified which was ultimately accepted by Medgulf BSC Bahrain and the Company. Also, there are certain amounts reclassified from the previously reported numbers as at 31 December 2016 to conform with the presentation as at 31 December 2017.

#### **Reclassification**

The reclassifications mainly related to inclusion of TPA, SAMA and CCHI fees in prepayment and other assets and intangible assets which were previously presented in deferred policy acquisition costs and property and equipment respectively in the interim condensed statement of financial position. These changes were made for better presentation of balances in the interim condensed statement of financial position of the Company. Accordingly the above said restatement and reclassifications also have an impact on the previously issued interim condensed financial information for the three and six month period ended 30 June 2017.

The restatement and reclassifications does not have impact on interim condensed statements of financial position, income, comprehensive income and cash flows for the period ended 30 June 2018.

Cash at banks and short-term time deposits maturing within 3 months are placed with counterparties who have credit ratings equivalent to A+ to BBB ratings under Standard and Poor's, Fitch and Moody's ratings methodology.

These time deposits are placed with local and licensed foreign banks' branches in Kingdom of Saudi Arabia with an original maturity of less than three months from the date of acquisition and earned special commission income at an average rate of 1.6% per annum (2017: 1.7% per annum). The carrying amounts disclosed above reasonably approximate the fair value at the interim statement of financial position date.

Deposits against letters of guarantee comprise amounts placed with a local bank against issuance of payment guarantees in favour of the Company's customers and service providers. As deposits against letters of guarantee cannot be withdrawn before the end of guarantee and are restricted in nature. The said deposit against letter of guarantee have an original maturity of less than three months from the date of acquisition.

**6. SHORT TERM DEPOSITS**

Short term deposits are placed with counterparties that have credit ratings of at least equivalent to A- to BB+ ratings under Standard and Poor's, Fitch and Moody's ratings methodology.

Short term deposits are placed with local and licensed foreign banks' branches in Kingdom of Saudi Arabia with a maturity of more than three months from the date of original acquisition and earned special commission income at an average rate of 2.2% per annum (31 December 2017: 2.14% per annum).

The carrying amounts of the short term deposits reasonably approximate the fair value at the interim statement of financial position date.

The cumulative change in fair values of available for sale investments for shareholders' operations amounting to SR 5,028 thousand (31 December 2017: SR 5,428 thousand) is presented within shareholders' equity in the statement of financial position.

**Fair value**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or the most advantageous) market between market participants at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. The fair values of recognised financial instruments are not significantly different from the carrying values included in the interim condensed financial information. The estimated fair values of financial instruments are based on quoted market prices, when available. The fair values of these available for sale investments are disclosed below.

For financial instruments that are recognised at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level of input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The unlisted security of SR1.92 million (31 December 2017: SR 1.92 million) held as part of Company's shareholder operations, were stated at cost in the absence of active markets or other means of reliably measuring their fair value.

During the six month periods ended 30 June 2018, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of level 3 fair value measurements.

**Determination of fair value and fair value hierarchy**

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: quoted market price: financial instruments with quoted unadjusted prices for identical instruments in active markets.
- Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data.
- Level 3: valuation techniques for which any significant input is not based on observable market data

**11. TRANSACTIONS AND BALANCES WITH RELATED PARTIES (Continued)**

**11. a (iv)** This represent reinsurance claims recoverable from Addison Bradley International. Most of the reinsurance claim recoveries in respect of run-off treaties for the underwriting years up to 2014 have been collected by the related party either directly or through a broker (refer note 11.c).

**11. a (v)** Reinsurance placement was made by the said related party. There is a claim recovery from the reinsurer which related party needs to recover.

**11. b Compensation of key management personnel**

*The remuneration of the Board of Directors, committees and other key management personnel during the period/ year is as follows:*

	<b>SR'000</b>	
	<b>30 June 2018</b>	<b>30 June 2017</b>
	<b>(Unaudited)</b>	<b>(Unaudited)</b>
Short term benefits	<b>10,076</b>	5,918
End of service benefits	<b>(496)</b>	171
	<b>9,580</b>	6,089

**11. c** All reinsurance treaties up to the underwriting year 2014 were managed by the Medgulf Group Corporate Reinsurance Center ("CRC"), a related party, who dealt with the Company's transactions, along with those of other related parties, on a consolidated basis with the reinsurers and brokers. All transactions with reinsurers and brokers were routed through CRC and the settlement of balances with these reinsurers and brokers were also made by CRC. The Company, together with CRC, have now initiated an exercise to separate the Company's transactions and balances with the respective reinsurers and brokers from those of other related parties. This exercise is still on-going and on completion certain parties included in the policyholders' and reinsurance balances receivable under note 7 amounting to Saudi Riyals 109.7 million may be identified as receivable from related parties and therefore may need to be disclosed under due from related parties. The underlying transactions with such related parties will then also require disclosure under related party transactions.

**12. STATUTORY DEPOSIT**

In accordance with the Law on Supervision of Cooperative Insurance Companies in the Kingdom of Saudi Arabia. The Company is required to maintain a statutory deposit at 10%. Further, SAMA has increased the statutory deposit by 5%, and accordingly, the Company has transferred the same to arrive at 15% statutory deposit. This statutory deposit cannot be withdrawn without the consent of SAMA. During the year ended 31 December 2017, the Company in its extraordinary general meeting held on 22 September 2017 reduced the share capital from Saudi Riyals 1 billion to Saudi Riyals 400 million. (Refer Note 1). The Company is in the process of seeking SAMA's guidance in respect of effect on statutory deposit for the said reduction in share capital.

### 14. BASIC AND DILUTED EARNINGS / (LOSSES) PER SHARE

Basic and diluted earnings per share for the period was calculated by dividing the net income for the period by the weighted average number of shares issued and outstanding during the three and six month period ended 30 June 2018 amounting to 40 million shares (31 December 2017: 40 million shares).

### 15. SHARE CAPITAL

The authorized and paid up share capital of the Company was SR 1,000 million divided into 100 million shares of SR 10 each. The founding shareholders of the Company have subscribed and paid for 75 million shares (SR 750 million) with a nominal value of SR 10 each, which represent 75% of the shares of the Company and the remaining 25 million shares (SR 250 million) with a nominal value of SR 10 each which represent 25% of the shares of the Company, was subscribed by the general public. The Share capital represents foreign shareholders by 45.5% and Saudi shareholders by 54.5% as at the period end. The Company in its extra ordinary general meeting held on 22 September 2017 approved the reduction of share capital from Saudi Riyals 1 billion to Saudi Riyals 400 million by reducing the number of shares from 100 million to 40 million shares of SR 10 each to comply with the requirements of the Regulations for Companies. This resulted in accumulated losses to decline below one half of Company's share capital. The reduction of capital has been approved by the regulatory authorities. The Company incurred transaction cost of SR 691 thousand in respect of reduction in share capital, which has been charged directly to the interim statement of changes in shareholders' equity.

During the period ended 30 June 2018, the Company's Board of Directors in their meeting held on 6 February 2018, recommended a rights issue amounting to SAR 400 million. The Company has submitted its right issue request to Capital Market Authority on June 28, 2018. The Company is yet to call for an extraordinary general assembly of shareholders to approve the rights issue.

### 16. CAPITAL MANAGEMENT

The Company manages its capital requirements by assessing shortfalls between reported and required capital levels on a regular basis. Adjustments to current capital levels are made in light of changes in market conditions and risk characteristics of the Company's activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue shares.

The company is not in compliance with the solvency margin required by SAMA (refer note 1 and 18).

### 17. STATUTORY RESERVE

In accordance with its By-laws, the Company shall allocate 20% of its net income each year to the statutory reserve until it has built up a reserve equal to the share capital. The reserve is not available for distribution. Since there was accumulated deficit for the period ended 30 June 2018 and year ended 31 December 2017, no transfer was made to statutory reserve.

### 18. SOLVENCY MARGIN

During the period ended 31 March 2016, SAMA issued a letter to the Company that highlighted the deteriorating solvency margin of the Company and the rectification measures to be taken by the Company according to Article 68 of the Insurance Implementing Regulations. The Company was not able to meet the solvency margin requirement by 30 September 2016 as instructed by SAMA and had not submitted the final approved plan as required by the aforesaid letter. On 27 December 2016, SAMA issued another letter binding the Company to provide an approved plan to meet the requirement of solvency margin by 18 January 2017 and take necessary measures to ensure the fulfilment of the rights of the policy holders. The detailed plan was subsequently provided to SAMA during the period ended 31 March 2017, after approval by the Company's Board of Directors. On 2 October 2017, SAMA issued a follow-up letter to the Company to comply with solvency margin requirement by 31 December 2017 and intimated that failure to do so will result in the suspension of the Company's operations. Further, on 23 October 2017, SAMA issued another letter highlighting the critical financial condition of the Company and significant deterioration in its solvency margin despite repeated follow-ups. SAMA in its aforesaid letter also highlighted the irregularities in governance issues and delays in the collection of long outstanding related parties' balances. Furthermore, SAMA in its letter urged the Company's Board of Directors to come up with an urgent and effective solution for its critical financial condition. Moreover, SAMA reiterated that it may suspend the operations of the Company at any time even before 31 December 2017 if no tangible actions are taken to improve the deteriorating solvency margin situation. The Company's Board of Directors in their meeting held on 2 October 2017 resolved to appoint a new consultant to formulate a new business plan and submit its report to SAMA before 31 December 2017. Accordingly, the plan submitted by the consultant was approved by the Board of Directors in their meeting held on 1 November 2017.

### 18. SOLVENCY MARGIN (Continued)

As per the revised business plan, the solvency margin situation is expected to improve gradually after taking certain measures as mentioned in the plan, including, amongst others, exiting unprofitable accounts, reinsurance of medical business, recoveries from policyholders and related parties and finally a capital injection amount that may vary depending on the strategic measures adopted as outlined in the plan in order to be in full compliance with the solvency margin requirement. As explained in Note 1, the Company did not meet the solvency margin requirements as at 31 December 2017 and consequently SAMA issued a letter dated 29 January 2018, preventing the Company from writing any new policies and renewing the existing policies. SAMA also instructed the Company to increase its share capital before 30 July 2018 to address the issue of its deteriorating solvency margin. The Company's Board of Directors in their meeting held on 6 February 2018, recommended a rights issue amounting to SAR 400 million in order to improve the solvency margin and the Company's future business activities. Such rights issue is subject to approval of the regulatory authorities and general assembly of the Company. SAMA issued a letter dated 15 April 2018 allowing the Company to write new policies and renewing the existing policies starting from 17 April 2018 subject to certain conditions. The aforesaid conditions amongst others include, the Company's commitment to increase its share capital before 31 October 2018. The Company has also initiated measures to address the governance issues in light of matters raised by SAMA that includes reconstitution of the Board and Board committees. The Company submitted a revise plan to SAMA which was approved by them on 22 April 2018. Further, during the period ended June 30, 2018, the Company submitted its request to Capital Market Authority to proceed with the rights issue on June 28, 2018. The Company is yet to call for an extraordinary general assembly of shareholders to approve the rights issue.

### 19. STATUS OF ZAKAT, WITHHOLDING AND INCOME TAXES

#### a) Zakat Charge for the period

The zakat charge for the period consists of the current period's provision amounting to SR 3,779 thousand (31 December 2017: SR 9,038 thousand). The zakat provision is based on Saudi Shareholders' share of capital at 54.5% (31 December 2017: 54.5%).

The company's has released a Zakat provision of SAR 6,274,529 due to their related assessment for prior years.

#### b) Income tax charge for the period

There was no income tax provision in the current period and for the period ended 31 December 2017 due to the losses.

#### c) Appeal on assessment

The Company has filed its zakat and income tax declarations for the year from 16 April 2007 to 31 December 2017 with the General Authority of Zakat and Income Tax (GAZT). Further, the Company has filed two appeal for zakat, income tax and withholding tax for assessment years 2008 to 2012 and another one for assessment year 2013 to 2016. The management has made appropriate provisions in this interim condensed financial information based on the advice of the Company's zakat and tax consultant.

### 20. CONTINGENCIES AND COMMITMENTS

#### a) Legal proceedings

The Company operates in the insurance industry and is subject to legal proceedings in the normal course of business. While it is not practicable to forecast or determine the final results of all pending or threatened legal proceedings, management does not believe that such proceedings (including litigations) will have a material effect on its results and financial position.

#### b) Operating lease commitments

The minimum future lease payments for the use of the Company office premises are as follows:

	SR'000	
	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Less than one year	-	-
One to five years	19,061	19,061
	<b>19,061</b>	<b>19,061</b>

#### c) Contingencies and capital commitments

As at 30 June 2018, the Company's banker has issued letters of guarantee of SR 34,729 thousand (31 December 2017: SR 29,565 thousand) to various customers, motor agencies and workshops as per the terms of the agreements with them (also see note 5). The Company had no capital commitments during the period ended 30 June 2018 (31 December 2017: nil).

**21. GOODWILL**

The Company held an ordinary general assembly meeting on 22 December 2008 and approved the purchase of the insurance portfolio and the related net assets and liabilities of the Saudi Arabian Operations of the Mediterranean and Gulf Insurance and Reinsurance Company (MEDGULF) B.S.C (closed) ("Portfolio") effective 1 January 2009. The acquisition resulted in goodwill of SR 480 million.

Determining whether goodwill is impaired requires an estimation of the recoverable amount of cash-generating units ('CGU') to which goodwill has been allocated. To assess the Goodwill impairment impact as of 31 December 2017, the Company appointed a consultant and a report dated 11 February 2018 was issued. Considering the Company as a single CGU, the consultant applied 'Share Price' and 'Market' approach on the trading activity of the Company's stock and the capitalization of the earnings using value metrics of broadly comparable listed companies and Mergers and Acquisitions transaction multiples. Accordingly, as of the date of the approval of the financial statements for the year ended 31 December 2017 based on the aforementioned approach, the valuation result concluded the recoverable amount of goodwill to be higher than the carrying value.

Considering that as of June 30, 2018, the Company's net asset position excluding the goodwill results in a negative equity position. The management, subsequent to the period ended June 30, 2018, revisited the assessment approach by using Value-In-Use (VIU) assessment for the goodwill impairment based on a detailed five year business plan. As per the management's assessment, the goodwill will be impaired if WACC (Weighted average cost of capital) will have to increase to over 30% and terminal value growth rate reduce to 1% for goodwill to be impaired.

The management is also in the process of obtaining an independent opinion from a consultant over the VIU assessment for the goodwill impairment which is expected to be furnished within the period ending 30 September 2018. As of the approval of the interim condensed financial statements, management believes that no impairment is required on goodwill.
