Report on review of condensed consolidated interim financial statements

To the shareholders of Thob Al-Aseel Company (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Thob Al-Aseel Company and its subsidiary (collectively referred to as the "Group") as at 30 September 2022 and the related condensed consolidated interim statements of income, comprehensive income for the three-month and nine-month periods ended 30 September 2022 and the condensed consolidated interim statements of changes in shareholders' equity and cash flows for the nine-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting", that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

The Subsidiary practices its activities through 33 branches (2021: 33 branches, each having a separate commercial registration.

2 Basis of preparation

2.1 Statement of compliance

These condensed consolidated interim financial statements have been prepared in compliance with IAS 34 "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (SOCPA).

These condensed consolidated interim financial statements do not include all required information and disclosures in the annual consolidated financial statements and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2021. However, the accounting policies and explanatory notes of important events and transactions have been included to understand the changes in the Group's financial position and performance since the last annual financial statements which were prepared in accordance with International Financial Reporting Standards that are issued by the International Accounting Standard Interpretations Committee as endorsed in the Kingdom of Saudi Arabia and other standards, interpretations and pronouncements that are issued by SOCPA, hereinafter collectively referred to as "International Financial Reporting Standards".

2. Basis of preparation (continued)

2.2 Preparation of the condensed consolidated interim financial statements

These condensed consolidated interim financial statements are prepared under the historical cost convention except for the following significant items included in the condensed consolidated interim statement of financial position:

- investment in equity instruments is measured at fair value through profit or loss;
- employees' termination benefits are recognized at the present value of future obligations using the projected unit credit method; and
- lease obligations are measured at net present value of future lease payments.

2.3 Use of estimates, assumptions and judgments

The preparation of the Group's condensed consolidated interim financial statements requires the management to use certain critical estimates, assumptions and judgments that affect the reported amounts of revenues, expenses, assets and liabilities and disclosures of contingent liabilities at the reporting date. However, the uncertainty about these assumptions and estimates may result in conclusions causing a material adjustment to the carrying amounts of the asset or liability affected in the future periods. The significant estimates made by the management when applying the Group's accounting policies and important sources for uncertainty cases regarding the estimates were similar to those included in the last annual consolidated financial statements.

3 Basis of consolidation

The condensed consolidated interim financial statements comprise the financial statements of the Company and its subsidiary as at 30 September 2022.

Subsidiary

Subsidiary is an entity over which the Group has control. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- control over the investee (i.e. existing rights that give the Group current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has control over an investee, including:

- the contractual arrangement with the other votes holders of the investee; and
- rights result from other contractual arrangements; the Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of a subsidiary to bring its accounting policies into line with the Group's accounting policies. All intra-Group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation. Unrealised gains and losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

4 Functional and presentation currency

These condensed consolidated interim financial statements are presented in Saudi Riyals, which is the Company's functional and Group's presentation currency.

5 New Standards, Amendment to Standards and Interpretations

There are no new standards issued, however, a number of amended standards became which are effective from 1 January 2022 and has been explained in the Group annual consolidated financial statements, but they do not have a material effect on the Group's condensed consolidated interim financial statements. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these amended standards.

6 Financial assets at fair value through profit or loss

During the nine-month period ended 30 September 2022, the Group invested Saudi Riyals 10.3 million in a private investment portfolio for the purpose of trading in various investment categories. The investment was classified as a financial asset at fair value through profit or loss and the unrealized losses and gains from remeasurement is included in the condensed consolidated interim statement of income.

The movement of financial asset at fair value through profit or loss during the period is as follows:

Shareholders	Rentals	1,752,721	1,190,212

8 Dividends

Final dividends are recorded in the period in which they are approved by the shareholders during the General Assembly meeting .The Board of Directors, in its meeting held on 20 February 2022, decided to distribute Saudi Riyals 30 million (Saudi Riyals 0.75 per share) as dividends for the second half of the fiscal year 2021 in accordance with the authorization granted by the Ordinary General Assembly held on 28 June 2021 to the Board of Directors to distribute interim dividends for the year 2021. Dividends have been paid on 26 April 2022. The Board of Directors, in its meeting held on 27 July 2022, have also decided to distribute Saudi Riyals 30 million (Saudi Riyals 0.75 per share) as dividends for the first half of the fiscal year 2022 in accordance with the authorization of the Ordinary General Assembly of the Board of Directors to distribute interim dividends or the year 2022, which was held on 26 June 2022. Dividends have been paid on 17 August 2022.

The Board of Directors, in its meeting held on 14 July 2021, decided to distribute Saudi Riyals 22.5 million (Saudi Riyals 0.75 per share) as dividends for the first half of the fiscal year 2021 in accordance with the authorization granted by the Ordinary General Assembly to the Board of Directors to distribute interim dividends for the year 2021, which was held on 28 June 2021. Dividends have been paid on 30 September 2021.

9 Share capital

The share capital of the Group as at 30 September 2022 comprises of 40 million shares (31 December 2021: 40 million shares) stated at Saudi Riyals 10 per share.

On 21 October 2021, the extra ordinary general assembly meeting approved the board of directors recommendation to increase share capital from Saudi Riyals 300 million to Saudi Riyals 400 million equivalent to 33% to increase the number of the Group's shares from 30 million shares to 40 million shares, by granting one free share for every three shares and the eligibility to be for shareholders who are registered in the Group's shareholder register with the Securities Depository Center at the end of the second trading day following the date of extra ordinary general assembly meeting. The value of the share capital increased through transferring an amount of Saudi Riyals 57.1 million from retained earnings and transferring an amount of Saudi Riyals 42.9 million from other reserves. The Group aims to strengthen its capital to match the size of its business and expansion of its business during the coming years and maintaining financial solvency.

10 Segment information

10-1 Description of segments and principal activities

The Group manages its operations by business segments. Management treats the operations of these segments separately for the purposes of monitoring, decision making and performance assessment. The Group mainly trades in fabrics and thobes where all activities are carried out in the Kingdom of Saudi Arabia. All of the Group's business segments are located in the Kingdom of Saudi Arabia. The Chief executive Officer ("CEO") is the primary responsible for making operational decisions. The following is a statement of the main activities of these segments:

Segment	Principal Activity		
Thobes	Main activities include sales of readymade		
	clothes.		
Fabrics	Main activities include sales of Fabrics.

11 Earnings per share (EPS)

Earnings per share has been calculated by dividing net profit for the three-month and nine-month periods ended 30 September 2022 and 2021 by 40 million shares.

12 Seasonality of activity

The Group's activity and revenues are influenced by seasonal factors during the year due to the different purchasing patterns, and these changes are reflected in the financial results of the Group's business during the period. The period results are not an accurate indicator about the Group's annual results.

13 Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and will cause the other party to incur a financial loss. The Group seeks to manage its credit risk with respect to customers by setting credit limits for individual customers and by monitoring outstanding receivables.

The table below shows the maximum exposure to credit risk for significant components of the condensed consolidated interim statement of financial position:

_	30 September	31 December
	2022	2021
	(Unaudited)	(Audited)
Bank balances	68,111,813	134,251,137
Trade receivables, prepayments and other receivables	273,344,761	242,399,581
	341,456,574	376,650,718

Credit risk on trade receivables and bank balances is limited to the following:

Bank balances

Cash balances are held with banks having a credit rating of BBB- and above.

Trade receivables

The Group applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, permits the use of the lifetime expected loss provision for all lifetime trade receivables. The loss provision as at 30 September 2022 and 31 December 2021 is determined as follows:

In monitoring customer credit risk, customers are grouped according to their credit characteristics (including the type of customer such as retail/ wholesale, etc), trading history with the Group and existence of previous financial difficulties. As at 30 September 2022, the exposure to credit risks for trade receivables by types of customers was as follows:

Trade receivables as at 30 September 2022 (Unaudited)

At 1 January 2022 (Audited) Charge for the period	50,038,359 43,138,952	1,820,577 -	51,858,936 43,138,952
At 30 September 2022 (Unaudited)	93,177,311	1,820,577	94,997,888

14 Zakat related matters

Zakat status

The Group is subject to zakat according to the regulations of the Zakat, Tax and Customs Authority ("ZATCA") in the Kingdom of Saudi Arabia. The Group files its zakat returns on consolidated basis, starting from the financial year ended 31 December 2018 and thereafter, it includes both the parent company and its subsidiary. Zakat declarations were submitted until 2021 to ZATCA and the payment of zakat due thereunder. The Group also obtained a certificate of zakat valid until 10 Shawwal 1444H corresponding to 30 April 2023.

The Group received zakat assessments from ZATCA on zakat returns for the years from 2014 to 2018 claiming zakat differences amounting to Saudi Riyals 7.51 million compared to the zakat paid for those years. The Group appealed to these amendments and the amount was reduced to Saudi Riyals 3.50 million. Then the appeals for the years mentioned have been escalated to the General Secretariat of Tax Committees. The General Secretariat of Tax Committees issued its ruling that did not accept the appeal with the right of the Group to file an appeal. On 28 December 2021, the Group submitted a request to the appeal committees within the legal period to object to the ruling issued by the General Secretariat of the Zakat and Tax Committees, and the application is being studied by the appeal committees. Management believes that it has good reasons to rebut these assessments and has concluded that there is no need to adjust the zakat provision.

For the years 2019 and 2020, ZATCA examined the zakat returns submitted by the Group and based on the notification received from ZATCA, the examination case was closed without any additional claims.

15 Impact of Covid pandemic

In response to the spread of the new Coronavirus (Covid-19) in the Kingdom of Saudi Arabia, where the Group operates, and the consequent disruption of some aspects of economic and social activities in the Kingdom. The management has assessed the impact of the pandemic on its operations and took a series of preventive measures, to ensure the health and safety of its employees, its customers and the wider community as well as to ensure the continuity of supplying its products to the market. Despite these challenges, the Group was able to create additional sales channels, which supported the Group's operations during the first nine months of 2022. The Covid-19 pandemic did not have a material negative impact on the condensed consolidated interim financial statements except for the increase in the balance of trade receivables as of 30 September 2022 (Note 13). The Group continues to monitor the situation closely to take any necessary actions when needed.

16 Subsequent events

In management's view, there have been no significant subsequent events since 30 September 2022 till the approval date of these condensed consolidated interim financial statements that may have significant impact on the Group condensed consolidated interim statement of financial position nor the disclosure of the condensed consolidated interim financial statement.

17 Board of directors' approval

These condensed consolidated interim financial statements have been approved by the Board of Directors on 29 Rabi' al-Awal 1444H (corresponding to 25 October 2022).
