## **INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM CONDENSED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF BALADY POULTRY COMPANY (A SAUDI JOINT STOCK COMPANY)**

### **Introduction**

We have reviewed the accompanying interim condensed statement of financial position of Balady Poultry Company (the "Company") as at 30 June 2026, and the related interim condensed statement of profit or loss and other comprehensive income for the three-month and six-month periods ended 30 June 2026, and the related interim condensed statements of changes in equity and cash flows for the six-month period then ended, and explanatory notes.

Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

### **Scope of review**

We conducted our review in accordance with International Standard on Review Engagements (2410), "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

**3. NEW AND AMENDED STANDARDS AND INTERPRETATIONS**

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2025, except for the adoption of new standards effective as of 1 January 2026. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

The IASB issued the accounting standards, amendments effective for periods beginning on or after 1 January 2026. The management has assessed that the amendments have no significant impact on the interim condensed financial statements of the Company.

| IFRS 19 Subsidiaries without Public Accountability: Disclosures | IFRS 19, which allows eligible entities to elect to apply its reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS accounting standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in IFRS 10, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements, available for public use, which comply with IFRS accounting standards. | 1 January 2027               |

***Expected impact of the initial application of IFRS 18 ("Presentation and Disclosure in Financial Statements")***

In April 2024, the International Accounting Standards Board ("IASB") issued IFRS 18 Presentation and Disclosure in Financial Statements, which replaces IAS 1 Presentation of Financial Statements and becomes effective for annual reporting periods beginning on or after 1 January 2027. The new standard introduces new requirements and updates to the statement of profit or loss, with the main objective of improving comparability in the statement of profit or loss and enhancing transparency over management-defined performance measures.

The key new concepts introduced by IFRS 18 include:

- A revised structure of the statement of profit or loss, requiring classification of income and expenses into 5 defined categories based on the entity's main business activities and presentation of mandatory subtotals;
- Enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general; and
- Required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures).

Balady Poultry Company (A Saudi Joint Stock Company) is in the process of assessing the estimated impact that the initial application of IFRS 18 will have on its financial statements.

**Structure of the Statement of Profit or Loss**

The standard is expected to result in changes to the presentation of certain line items and subtotals in the statement of profit or loss namely operating, investing, financing, zakat/income tax and discontinued operations. This classification depends on the main business activities of the entity.

Based on "Balady Poultry Company (A Saudi Joint Stock Company)" preliminary assessment and the nature of its main business activities, performed to date, Balady Poultry Company (A Saudi Joint Stock Company) expects changes to the current structure of Statement of Profit or Loss to result in:

# BALADY POULTRY COMPANY

## (A SAUDI JOINT STOCK COMPANY)

### NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

#### 4. NEW AND AMENDED STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE (CONTUNUED)

- The Company's principal activities comprise poultry production, hatchery operations, feed production, slaughterhouse operations and related agricultural activities, the Company does not have a specified main business activity related to investing or financing activities. Accordingly, management does not expect significant changes to the measurement of transactions; however, certain presentation changes will be required upon adoption of IFRS 18.
- The Company currently presents "Net profit for the period from operations" and "Net profit for the period before zakat". Under IFRS 18, the statement of profit or loss will be restructured to present the mandatory subtotal "Profit before financing and Zakat".
- The Company currently presents finance income and finance costs separately below operating results. Under IFRS 18, finance income is expected to be classified within the investing category, while finance costs are expected to be classified within the financing category.
- Finance cost on the Company's end-of-service benefit obligation will be classified and presented within the financing category.
- The Company currently presents changes in the fair value of biological assets within operating results. Management will continue to assess the presentation of this line item under IFRS 18 in light of the Company's principal operating activities and the requirements for classification of income and expenses into the operating category.

#### **Aggregation and disaggregation**

The new aggregation and disaggregation requirements will lead into changes to present the most useful structured summary. The Company is assessing how items are aggregated and disaggregated in the primary financial statements and the notes on the basis of similar and dissimilar characteristics.

Certain profit or loss line items description, aggregations and subtotals may change to provide useful structured summaries and disclose additional material information in the notes. The Company is performing a detailed assessment to determine the appropriate classification of items.

The Company currently presents expenses primarily by function. Accordingly, additional note disclosures may be required upon adoption of IFRS 18 to provide information about the nature of expenses included within functional line items. Such disclosures may include depreciation of property, plant and equipment, depreciation of right-of-use assets, employee benefit expenses, impairment losses, expected credit loss expenses and other significant operating expenses.

The Company is also assessing line items currently labeled as "Other income, net" and will use more informative labels that describes the aggregated items as precisely as possible.

#### **Management-defined Performance Measures "MPMs"**

Management-defined Performance Measures (MPMs) is a subtotal of income and expenses that entity uses in public communication outside the financial statements that communicates management's view of an aspect of the financial performance of the entity as a whole. Where applicable, these measures may require quantitative reconciliation to IFRS-defined subtotals together with expanded explanatory disclosures.

"Balady Poultry Company (A Saudi Joint Stock Company)" currently reviewing its public communications (including annual reports, Board reports, Tadawul disclosures, investor communications and press releases) to identify whether any subtotals of income and expenses reported outside the financial statements meet the definition of an MPM under IFRS 18.

**4. NEW AND AMENDED STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE (CONTUNUED)**

**Management-defined Performance Measures “MPMs”(Continued)**

Based on the assessment performed to date, the Company does not disclose non-GAAP performance measures such as adjusted EBITDA, adjusted EBIT, underlying profit or similar measures within its interim condensed financial statements. The assessment of public communications remains ongoing, and if any MPMs are identified, the required disclosures (including quantitative reconciliations to the most directly comparable IFRS subtotals) will be prepared and included in the financial statements upon adoption of IFRS 18.

**Consequential amendments**

“Balady Poultry Company (A Saudi Joint Stock Company)” is also evaluating the consequential amendments arising from IFRS 18, including amendments to IAS 7 Statement of Cash Flows and IAS 34 Interim Financial Reporting.

The Company currently prepares its statement of cash flows using the indirect method and uses profit before zakat as the starting point for determining cash flows from operating activities. Under the amended IAS 7 requirements, the starting point for the reconciliation will change to operating profit or loss.

The consequential amendments also introduce specific requirements relating to the classification of interest and dividend cash flows. The Company is assessing the impact of these amendments on the presentation of its cash flow. Based on the assessment performed to date, management expects the principal impact to relate to the presentation and classification of financing-related cash flows arising from long-term financing arrangements and lease liabilities.

The Company’s assessment remains ongoing and further refinements to the expected impact may arise as implementation activities progress and additional industry and regulatory guidance becomes available.

**5. SEGMENTAL INFORMATION**

Operating segments that are participating in the Company’s business activities are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker, who has been identified as the Chief Executive Officer (CEO). The Board of Directors of Balady Poultry Company has appointed a CEO responsible for managing operational decisions, assessing the Company’s financial performance and position, making strategic decisions, and participating in the Company’s business activities. The CEO has determined that the Company’s operations are organized into a single operating segment that is entirely related to poultry breeding and the sale of chilled and frozen poultry products.

**6. USE OF JUDGMENTS AND ESTIMATES**

The preparation of the interim condensed financial statements require management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expense, noting that actual results could differ from the estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

The significant judgements made by management in applying the Company’s accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

#### (a) Plant and Equipment:

Capital work in progress related to plant and equipment amounted to ﷲ 299.9 million as at 30 June 2026 (31 December 2025: ﷲ 231.3 million). The balance primarily relates to the ongoing development of the Wadi Al Dawasir Slaughterhouse project. During the period, substantial construction and installation expenditures were incurred across these projects. Management expects the remaining projects under plant and equipment to be completed during the second half of 2026.

As at 30 June 2026 and 31 December 2025, the Company had pledged machinery and equipment relating to the Wadi Al Dawasir Slaughterhouse project with a collateral value of ﷲ 176.5 million as collateral in connection with the Agricultural Development Fund financing contract (note 17).

#### (b) Buildings:

Capital work in progress related to buildings amounted to ﷲ 4.5 million as at 30 June 2026 (31 December 2025: ﷲ 1.78 million). This balance relates mainly to the construction of the new administrative building located in Wadi Bin Hashbal, which is intended to replace the existing facility and provide improved operational space. During the period, construction activities continued, resulting in additional expenditures and the capitalization of borrowing costs in accordance with IAS 23. As construction progressed, completed portions of the project totaling ﷲ nil were transferred to property, plant and equipment (2025: ﷲ 5.79 million). The project remains under development at the reporting date and is expected to be completed during the year ending 31 December 2027.

#### (c) Advance payments

As at 30 June 2026, the balance of projects under construction includes advance payments for new building, plant and equipment and enhancement for the farms, amounting to ﷲ 242,799,252 (31 December 2025: ﷲ 179,431,959). These advances relate to contracts for the execution and implementation of buildings and plant and equipment that will be received in accordance with the contract terms during the implementation stages and are expected to be completed by 2026.

#### (d) Capitalized borrowing cost

During the period ended 30 June 2026, the Company capitalized borrowing costs amounting to ﷲ 6,161,835 as part of the cost of qualifying assets under construction (31 December 2025: ﷲ 3,150,610). These borrowing costs relate to finance cost incurred on long-term financing loans used to fund the construction and development of projects under progress, including ongoing building construction, and major plant and equipment projects such as the Wadi Al Dawasir slaughterhouse, and the central warehouse. The capitalization of borrowing costs has been performed in accordance with IAS 23 Borrowing Costs, until the related assets become substantially ready for their intended use.

##### Valuation of biological assets and sensitivity to the valuation inputs

Fair value measurements for broiler chickens are classified as Level 3, fair values based on the inputs used in the valuation techniques. Valuation techniques and significant unobservable inputs used to value biological assets are as follows:

| Biological assets | Valuation technique                                                                                                                                                                                                                                                               | Significant unobservable inputs                                                                                                                                                    | Relationship between the key unobservable principal inputs and fair value measurement                                                                                                                                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Broiler           | The valuation model considers the average live weight of the birds, the mortality rate, and the estimated selling price less the cost to sell [including the additional cost required to bring the birds ready for sale (i.e. the cost of feed, medicines and overhead expenses). | <ul style="list-style-type: none"> <li>- Mortality</li> <li>- Average live weight</li> <li>- Fully-grown broiler</li> <li>- selling price less</li> <li>- cost to sell.</li> </ul> | <p>the estimated fair value would increase / (decrease) if:</p> <ul style="list-style-type: none"> <li>- Mortality decreased / (increased)</li> <li>- Average live birds weight increased / (decreased)</li> <li>- Fully-grown broiler selling price less cost to sell increased / (decreased)</li> </ul> |

Key inputs used in the valuation of biological assets are as follows:

- The mortality rate of broiler chickens was determined based on the historical rate and environmental elements.
- Broiler chickens grow at different rates. There may be a large margin of quality and weight of the chicken that affects the price achieved. An assumption is made for the average weight of broiler chickens that can be slaughtered and whose weight has not yet reached marketability.

##### Other disclosures

#### 22. FINANCIAL INSTRUMENTS RISK MANAGEMENT

The Company's activities are exposed to a variety of financial risks which mainly include market risk (including foreign exchange risk, interest rate risk and price risk) credit risk and liquidity risk. The interim condensed financial statements do not include all the financial risk management information and disclosures required in the annual financial statements; and therefore, should be read in conjunction with the Company's annual financial statements for the year ended 31 December 2025. There have been no changes in the risk management policies during the three-month and six-month periods ended 30 June 2026.

The Company's financial assets consist of cash and cash equivalents, amounts due from related parties, accounts receivables and other receivables. Its financial liabilities consist of accounts payables, lease liabilities, term loans includes loans below market rate, and other current liabilities.

Management believes that the fair value of the financial instruments of the Company at the reporting date approximate their carrying value.

#### 23. CONTINGENCIES AND CAPITAL COMMITMENTS

As at 30 June 2026, the Company had capital commitments related to the renovation of the Company's production lines, facilities and factories amounted to ﷲ263,211,861 (31 December 2025: ﷲ427,139,451).

#### 24. SUBSEQUENT EVENT

In the opinion of the management, there have been no significant subsequent events since the period ended 30 June 2026 which would have a material impact on the financial position of the Company as reflected in these interim condensed financial statements.

**25. Recent geopolitical developments in the Middle East**

During the current period, geopolitical tensions in parts of the Middle East have increased. Public communications from government and regulatory authorities have continued to emphasize the resilience of the economy and the continuation of business operations across key sectors, supported by established business continuity and risk management frameworks.

The Company has assessed the potential implications of these events on its operations, financial position and performance. Based on information currently available, including the continuation of core business activities, it is not practicable to reliably estimate the full financial effect of these geopolitical events on future periods.

Management has also considered the impact of these events on the Company's ability to continue as a going concern and has concluded that the going concern basis of preparation remains appropriate.
