## 2. CORPORATE GOVERNANCE PRACTICES

### 2.1. Corporate Governance Rules

The Board of NMDC is committed to implementing strong corporate governance practices to a standard derived from amalgam of UAE guidelines and international best practices. Underpinning these legislative, regulatory and best practice requirements are NMDC's values and philosophies, which provide the framework against which we measure behavior and practices to assess the characteristics of good governance. Our values require that directors and employees act with integrity and conduct themselves to promote and maintain trust.

Sound corporate governance is therefore implicit in our values, culture, processes, functions and organizational structure. Structures are designed to ensure that our values remain embedded in all businesses and processes. We continually refine these structures and a written statement of values serves as our code of ethics. NMDC undertakes a frequent review of its strategic and operational environment, including communication with its stakeholders, in order to determine an appropriate balance, scope and sophistication of the corporate governance framework which is proportionate to NMDC's nature, size and complexity.

The corporate governance culture of NMDC is driven by:

- A well informed and effective Board to direct the Company's affairs and set its objectives;
- Clearly defined roles and responsibilities of the Board, its members, its committees, and key Company officers and executives;
- Selection of productive strategies and management of risks;
- Appropriate delegation and monitoring of responsibility and accountability to Management;
- Satisfying the interests of stakeholders through relevant and material disclosures;
- Ensuring compliance with all regulatory obligations;
- Ensuring that the Company's performance and financial reporting are properly directed and controlled through an effective internal control system;
- Engaging with the community; and
- Adopting high ethical standards and practices by the Company, its officers, and employees.

To achieve these aims, and to ensure compliance with the specific requirements of the Corporate Governance Guide issued by SCA, the Company has developed and implemented its Corporate Governance Manual, which contains policies on the following subjects:

- Board and Director Matters;
- Board Committees and their Charters;
- Delegation of Authority;
- Relationship with Shareholders;
- Company's Disclosure Obligations;
- Internal Control System;

- Engagement of Auditors;
- Code of Conduct; and
- Share Dealing Policy.

The Board is currently reviewing the Corporate Governance Guide and amendments in Federal Law No. 2 of 2015 concerning commercial Companies and will update the Corporate Governance Manual to align with these requirements.

The Board is responsible to the Company's shareholders for creating and delivering sustainable value through the management of the Company's businesses. Although day-to-day management of these businesses is delegated to the Management, the Board is responsible for providing strategic direction, management supervision and adequate controls with the ultimate objective of promoting the success and long-term value of the Company. The Board retains responsibility for the overall performance of the Company, and must ensure that Management strikes an appropriate balance between promoting long-term growth and delivering short-term objectives.

### 2.2. Corporate Governance Structure

Corporate Governance is the system by which the business of the Company is directed and controlled. The implemented corporate governance structure specifies the distribution of rights and responsibilities among different stakeholders within the Company, such as, the Board Chairman, Chief Executive Officer, Chief Officers, Managers and shareholders; and establishes the rules and procedures for making decisions on corporate affairs. The primary goal of the Company's corporate governance policy is to create and sustain value within the Company.

The Company believes that it is important that these principles of governance are made transparent to all the stakeholders and to safeguard their rights and promote their participation in the Company's corporate governance process.

The Board plays a central role in the Company's corporate governance framework. It is ultimately responsible for ensuring that the Company complies with its legal and regulatory obligations, the Company's Memorandum and Articles of Association, and its duties to shareholders. The Board is assisted in this process by various Board committees (particularly Audit Committee, Nomination and Remuneration Committee, Technical Committee and Strategy Committee), external and internal auditors, and company officers and employees (including the Chief Executive Officer, Chief Financial Officer, Head of Internal Control and other members of Management).

In addition to the Articles of Association and regulating laws, the NMDC Board has approved a wide range of charters, codes, policies and carefully defined business structures and processes in order to record their decisions and delegations, and regulate the operations and overview activities of the Company and its subsidiaries. The Board has also issued general principles of behavior and personal conduct for which all directors and staff are accountable as individuals and as a collective entity.

### 2.3. Disclosure Practices

The Company is committed to comply with all of its disclosure obligations, including to the SCA, the Abu Dhabi Stock Exchange (hereafter referred as "ADX") and to shareholders, so that trading in its shares can take place in an informed market. In 2020, the Company made regular disclosures to SCA and ADX including upcoming Board meetings and decisions, publication of Annual Report, Corporate Governance

Report and other announcements on key financial and/or operational matters/transactions, copies of which are generally available or updated on the Company's website.

### 2.4. Delegation of Authority

The Board bears ultimate responsibility for the operations of the Company, and within the provisions of the Articles of Association, UAE Companies Law and approved Corporate Policies and Procedures, the Board has the authority to delegate its powers to the committees and senior management.

The Board has approved revised Delegation of Authority in 2020. The revised Delegation of Authority outlines authority limits delegated by the Board to the executive committees, management and employees in order to run the Company's affairs and operations within the United Arab Emirates and overseas locations.

The Board has also delegated certain authority to its committees, being the Audit Committee, the Nomination and Remuneration Committee, the Strategy Committee and the Technical Committee, as defined within their Charters, and updates to which were approved in 2019.

### 2.5. Code of Business Conduct and Fraud Control Policy

The Company recognizes the importance of establishing and maintaining a set of core values and approaches to the process of doing business. The Company demands, and will maintain, the highest ethical standards in its business activities through a detailed Code of Business Conduct and Fraud Control Policies, which address the following areas:

- Compliance with Laws, Rules and Regulations;
- Personal Conduct;
- Standard of Conduct;
- Confidentiality and Intellectual Property Rights;
- Integrity and Conflicts of Interest;
- Competition and Fair Dealing;
- Corporate Opportunities;
- Protection and Proper Use of the Company's Assets;
- Environment and Community Service;
- Health and Safety;
- Reporting any Violations of the Code;
- Compliance Procedure; and
- Disclosure in Reports and Documents.

Company officers and employees are required to comply with these Codes in performing their duties.

## 2.6. Director's Induction Policy

The Company's policy on director induction requires all new Directors to participate in the Company's induction program. This program includes presentations by Management to familiarize new Directors with the Company's objective and strategic plans, business operations and activities, business units and departments, and principal officers and employees. The program aims at providing the information required to ensure that a new Director understands his/her duties and responsibilities under the applicable laws and regulations, the Company's corporate governance framework, and understands the Company's policies in its field of operations.

## 2.7. Share Dealing Policy

The purpose of the Company's share dealing policy is to ensure that the Company's Directors and employees (and their Connected Persons) do not deal or trade in securities issued by the Company or its subsidiary or sister companies based on undisclosed confidential information or in circumstances of conflict.

The Company's share dealing policy is that no Director or employee of the Company (or any subsidiary or other company controlled by the Company) may Deal in the Securities of the Company whilst they are in possession of any information which could affect the price of the Securities of the Company, where such information has not been disclosed to the ADX. Directors who are not in such possession may only deal in the securities of the Company with the prior written consent of the Chairman (or, in his absence, of the Vice-Chairman), whilst employees who are not in such possession may only do so with the prior written consent of the CEO (or, in his absence, the Company Secretary).

This policy does not avoid the need to obtain the consent of the ADX Board of Directors before trading in the Company's Securities, and does not permit any Director or employee to Deal in the Securities of the Company during any Blackout Period, as defined Company's Corporate Governance Manual. This policy is also in addition to, and does not avoid the legal requirement to comply with, any applicable laws or regulations. Directors and employees remain personally liable for their non-compliance with any applicable laws and regulations.

## 2.8. Follow-up & Supervision Committee

The Follow-up & Supervision Committee has responsibility for the Register of Insiders including monitoring, follow up, supervising and managing the dealings of all Insiders, registering their dealings and ownership in the Register and to communicate and report to ADX regularly on all such matters.

#### 4.5. Qualified Opinion of External Auditors

The qualified opinions made by the external auditors EY in the financial statements for 2020 were as follows:

- Basis of Qualified Conclusion in Interim and Annual Financial Statements:

Trade and other receivables at 31 December 2020 include unbilled receivables relating to certain contracts with the Government of Abu Dhabi, its departments or its related parties. We were unable to obtain sufficient and appropriate evidence to support the recoverability of amounts totalling AED 455,049 thousand (verbal contracts) and AED 150,621 thousand (signed contracts) included in these balances, due to the absence of signed contracts and/or significant delays in the billing and collection. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

- Emphasis of matters in Interim and Annual Financial Statements:

As stated in note to the accompanying consolidated financial statements, unbilled receivables include an amount of AED 600,000 thousand recognized on the basis of claims submitted to a customer in prior periods. The final amount of the claims is still under negotiation and is subject to a review by a consultant, the finalization of which could have a significant impact on the amount of receivables recognized. Our opinion is not qualified in respect of this matter.

### 6.2. Independent Assessment of Internal Control System

Internal control is designed to mitigate, not eliminate, significant risks faced. It is recognized that such a system provides reasonable, but not absolute, assurance against material error, omission, misstatement or

loss. This is achieved within the Company through a combination of risk identification, evaluation and monitoring processes, appropriate decision and oversight forums, assurance and control functions such as External Audit, Internal Audit, Ethics & Compliance, Quality, Health, Safety and Environment function. These ongoing processes, which comply with leading practices and the Corporate Governance Guide, were in place throughout the year under review and up to the date of approval of the annual report and financial statements.

During the year 2020, the Company was subject to the following independent assessments of its internal control system:

- Annual external audit and interim reviews of NMDC consolidated financial statements through EY, a professional services firm. The external audit work covers assessment of internal controls over financial reporting, although the same does not entail expressing an opinion on the effectiveness of the Company's internal control.
- Process reviews of NMDC business processes and functions through the Internal Audit Function, according to an Internal Audit Plan approved by the Audit Committee. The scope of internal audit for the year 2020 covered both core and support processes at NMDC, and were prioritized in accordance with Risk Analysis Methodology.

The internal audit procedures are designed on the assumption that the responsibility for a sound system of internal controls rests with Management, and work performed by internal audit might not lead to identifying all strengths and weaknesses that may exist, but so that any material irregularity has a reasonable probability of discovery. The internal audit procedures also focus on areas identified by Management as being of greatest risk and significance, and the internal audit plan therein is subject to approval of the Audit Committee.

The internal audit function reports directly to the Audit Committee. Internal audit reports on any control recommendations, to Senior Management and the Audit Committee. The internal audit function considers and includes focus areas for audit in the annual audit plan. Material incidents and losses and significant breaches of systems and controls are reported to the Audit Committee.

External audit function discusses their management letter with the Audit Committee, highlighting control deficiencies, if any. Appropriate processes, including review by the audit function, ensure that timely corrective action is taken on matters raised by external audit. Action plan is obtained from the Management to remediate gaps and improve internal controls to avoid similar instances in the future. Internal audit regularly follows up on implementation of action plan and reports to the Audit Committee if not implemented by the due date.

Internal financial controls are based on established policies and procedures. Management is responsible for implementing internal financial controls, ensuring that personnel are suitably qualified, that appropriate segregation exists between duties, and that there is suitable independent review. These areas are monitored by the Board through the Audit Committee, and are independently assessed by the internal audit and the compliance functions. Processes are in place to monitor internal control effectiveness, identify and report material breakdowns, and ensure that timely and appropriate corrective action is taken. NMDC finance coordinate, review and comment on the monthly financial and regulatory reports, and facilitate the interim and annual financial reporting process, including the independent audit process.

All internal control weaknesses noted during the year were discussed with Management and Audit Committee with proposed corrective actions. Material internal control deficiencies noted and discussed during the year were in relation to delays in finalizing project contracts, problems in setting up of overseas

branches, high inventory, adequacy of insurance policy, reducing margins and/or losses from projects and its impact on the profitability of the organization, and security and backup of various IT applications.

The Company, in 2014, has developed and implemented policies and procedures on Fraud Control, Whistle Blowing and Investigation. These policies have been formulated to provide employees an opportunity to report in good faith in case they observe any unethical or improper practices in the Company. Responsibility for overseeing and implementing the policy has been delegated to the Ethics and Compliance Manager. The Company's management also has specific responsibility for facilitating operation of the policy.
