REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL INFORMATION

**TO THE SHAREHOLDERS OF METLIFE, AMERICAN INTERNATIONAL GROUP AND
ARAB NATIONAL BANK COOPERATIVE INSURANCE COMPANY
(A SAUDI JOINT STOCK COMPANY)**

INTRODUCTION

We have reviewed the accompanying interim condensed statement of financial position of Metlife, American International Group and Arab National Bank Cooperative Insurance Company (A Saudi Joint Stock Company) (the "Company") as at 30 June 2018 and the related interim condensed statement of income, interim condensed statement of comprehensive income for the three and six month periods then ended and interim condensed statement of changes in shareholders' equity and the interim condensed statement of cash flows for the six month period then ended and the related notes which form an integral part of this interim condensed financial information. Management is responsible for the preparation and presentation of these interim condensed financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting" as modified by Saudi Arabian Monetary Authority ("SAMA") on accounting for Zakat and Income Tax. Our responsibility is to express a conclusion on this interim condensed financial information based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagement 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of the interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia and consequently, it does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting" as modified by Saudi Arabian Monetary Authority ("SAMA") on accounting for Zakat and Income Tax.

REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL INFORMATION

TO THE SHAREHOLDERS OF METLIFE, AMERICAN INTERNATIONAL GROUP AND ARAB NATIONAL BANK COOPERATIVE INSURANCE COMPANY (A SAUDI JOINT STOCK COMPANY)

EMPHASIS OF MATTER

We draw attention to Note 2 to the interim condensed financial information, which indicates that on 26 March 2018, the Company announced on Tadawul that as of 28 February 2018, its accumulated losses exceeded its share capital by 51.62%. Further, on 18 April 2018, in an Extraordinary General Assembly Meeting, it was resolved to reduce the Company's share capital by 48.57% from SR 350 million to SR 180 million. Accordingly, the Company absorbed SR 170 million of accumulated losses against its share capital of 17 million shares. Subsequent to the reduction, the accumulated losses represent 11 % of the Company's share capital as of June 30, 2018.

On 29 March 2018, the Company received a final warning letter from SAMA indicating issues related to delays in medical claims processing, ineffective risk assessments and weaknesses in internal control functions among other things. Further, SAMA instructed the Company to hire an independent consultant to identify weaknesses and provide recommendations and report back to SAMA within a stipulated time. Furthermore, SAMA required the Company to provide detailed report and updates on weekly basis. The Company has taken necessary actions to comply with SAMA's warning letter and have received the report from the consultant. Based on the report, Company has developed an action plan and submitted to SAMA dated 28 June 2018. These conditions raise material uncertainty on the Company's ability to continue as a going concern. Further, the management is in the process of developing a new business plan under different scenarios which is under review by the Board of Directors of the Company. Based on the plan, the Company's management has made an assessment of its ability to continue as a going concern and is satisfied that the Company's operations shall continue for foreseeable future under normal course of the business. Accordingly, the interim condensed financial information has been prepared on the going concern basis and do not include any adjustments, which may be required, if the Company is not able to continue as going concern.

Our conclusion is not qualified in respect of the above matter.

(a) Basis of presentation (continued)

The interim statement of financial position, statements of income and statement of comprehensive income and cash flows of the insurance operations and shareholders operations which are presented on Note No. 16 of the financial information have been provided as supplementary financial information and to comply with the requirements of the guidelines issued by SAMA implementing regulations. SAMA implementing regulations requires the clear segregation of the assets, liabilities, income and expenses of the insurance operations and the shareholders operations. Accordingly, the interim condensed statements of financial position, statements of income, comprehensive income and cash flows prepared for the insurance operations and shareholders operations as referred to above, reflect only the assets, liabilities, income, expenses and comprehensive gains or losses of the respective operations.

In preparing the Company-level financial information in compliance with IFRS, the balances and transactions of the insurance operations are amalgamated and combined with those of the shareholders' operations. Interoperation balances, transactions and unrealised gains or losses, if any, are eliminated in full during amalgamation. The accounting policies adopted for the insurance operations and shareholders operations are uniform for like transactions and events in similar circumstances.

The inclusion of separate information of the insurance operations with the financial information of the Company in the interim condensed statement of financial position, the interim condensed statement of income, interim condensed statement of comprehensive income, interim condensed statement of cash flows as well as certain relevant notes to the interim condensed financial information represents additional supplementary information required as required by the implementing regulations.

The interim condensed financial information do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's annual financial statements as at and for the year ended 31 December 2017.

The interim condensed financial information are expressed in Saudi Arabian Riyals (SAR) and are rounded off to the nearest thousands.

Going Concern

As on 26 March 2018, the Company announced on Tadawul that as of 28 February 2018, its accumulated losses exceeded its share capital by 51.62%. Further, on 18 April 2018, in an Extraordinary General Assembly Meeting, it was resolved to reduce the Company's share capital by 48.57% from SR 350 million to SR 180 million. Accordingly, the Company absorbed SR 170 million of accumulated losses against its share capital of 17 million shares. Subsequent to the reduction, the accumulated losses represent 11 % of the Company's share capital as of June 30, 2018.

On March 29th 2018, the Company received a final warning letter from SAMA indicating issues related to delays in medical claims, ineffective risk assessment and weaknesses in internal control environment among other things. Further, SAMA instructed the Company to hire an independent consultant within maximum 15 working days to perform a detailed review over the weaknesses and observations identified and to submit final report to SAMA within 60 working days from the date of the original warning letter. In case the Company failed to meet the deadlines, SAMA would take necessary regulatory measure against the Company in accordance with article (19) of the Cooperative Insurance Law, which includes forbidding the Company from accepting new clients, investors or subscribers in its insurance activities or part of these activities. The Company has taken necessary actions to comply with SAMA's warning letter and have received the report from the consultant. Based on the report, Company has developed an action plan and submitted to SAMA dated 28 June 2018. These conditions raise material uncertainty on the Company's ability to continue as a going concern. Further, the management is in the process of developing a new business plan under different scenarios which is under review by the Board of Directors of the Company. Based on the plan, the Company's management has made an assessment of its ability to continue as a going concern and is satisfied that the Company's operations shall continue for foreseeable future under normal course of the business.

Accordingly, the interim condensed financial information has been prepared on the going concern basis and do not include any adjustments, which may be required, if the Company is not able to continue as going concern. Accordingly, the interim condensed financial information has been prepared on the going concern basis.

2 BASIS OF PREPARATION (continued)

(b) Critical accounting judgments, estimates and assumptions

The preparation of interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed financial information, the significant judgments made by management in applying the accounting policies and the key sources of estimation uncertainty including the risk management policies were the same as those that applied to the annual financial information as at and for the year ended December 31, 2017.

(c) Seasonality of operations

There are no seasonal changes that may affect insurance operations of the Company.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies, estimates and assumptions used in the preparation of this interim condensed financial information are consistent with those used in the preparation of the annual financial information for the year ended December 31, 2017 except as explained below:

New standards, interpretations and amendments adopted by the company

The Company has adopted the following amendments and revisions to existing standards, which were issued by the International Accounting Standards Board (IASB):

Standard	Description	Effective date
IFRS 15	Revenue from Contracts with Customers	1 January 2018
IFRS 2	Amendments to IFRS 2 Classification and Measurement of share-based Payment transactions.	1 January 2018
IAS 40	Amendments to IAS 40 Transfers of investment property.	1 January 2018
IFRIC 22	Foreign Currency Transactions and Advance consideration.	1 January 2018
IFRS 1 and IAS 28	Annual Improvements 2016 to IFRS 2014- 2016 cycle.	1 January 2018

The adoption of the relevant new and amended standards and interpretations applicable to the Company did not have any significant impact on this interim condensed financial information.

Standards issued but not yet effective

Standards issued but not yet effective up to the date of issuance of the Company's interim condensed financial information are listed below. The listing is of standards and interpretations issued, which the Company reasonably expects to be applicable at a future date. The Company intends to adopt these standards when they are effective.

IFRS 16 - "Leases", applicable for the period beginning on or after 1 January 2019. The new standard eliminates the current dual accounting model for lessees under IAS 17, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Instead, IFRS 16 proposes on-balance sheet accounting model. The Company has decided not to early adopt this new standard.

IFRS 17- "Insurance Contracts", applicable for the period beginning on or after 1 January 2021, and will supersede

IFRS 4 "Insurance Contracts". Earlier adoption is permitted if both IFRS 15 "Revenue from Contracts with Customers" and IFRS 9 "Financial Instruments" have also been applied. The Company has decided not to early adopt this new standard.

IFRS 9 - "Financial Instruments", in July 2014, the IASB published IFRS 9 Financial Instruments which will replace IAS 39 Financial Instruments: Recognition and Measurement. The standard incorporates new classification and measurements requirements for financial assets, the introduction of an expected credit loss impairment model which will replace the incurred loss model of IAS 39, and new hedge accounting requirements. Under IFRS 9, all

financial assets will be measured at either amortised cost or fair value. The basis of classification will depend on the business model and the contractual cash flow characteristics of the financial assets. The standard retains most of IAS 39's requirements for financial liabilities except for those designated at fair value through profit or loss whereby that part of the fair value changes attributable to own credit is to be recognised in other comprehensive income instead of the income statement. The hedge accounting requirements are more closely aligned with risk management practices and follow a more principle-based approach.

In September 2016, the IASB published amendments to IFRS 4 Insurance Contracts that address the accounting consequences of the application of IFRS 9 to insurers prior to the publication of the forthcoming accounting standard for insurance contracts. The amendments introduce two options for insurers: the deferral approach and the overlay approach. The deferral approach provides an entity, if eligible, with a temporary exemption from applying IFRS 9 until the earlier of the effective date of a new insurance contract standard or 2021. The overlay approach allows an entity to remove from profit or loss the effects of some of the accounting mismatches that may occur before the new insurance contracts standard is applied. The Company has decided to defer the implementation of IFRS 9. The Company believes that IFRS 9 would have an impact on the classification of financial instruments required to be measured mandatorily at fair value. At present it is not possible to provide a reasonable estimate of the effects of application of this new standard as the Company is yet to perform a detailed review.

17 CAPITAL MANAGEMENT

Objectives are set by the Company to maintain healthy capital ratios in order to support its business objectives and maximise shareholders' value.

The Company manages its capital to ensure that it is able to continue as going concern and comply with SAMA's capital requirements in the Kingdom of Saudi Arabia while maximising the return to stakeholders through the equity balance. The capital structure of the Company consists of equity attributable to equity holders comprising paid share capital and reserves.

The operations of the Company are subject to local regulatory requirements within the jurisdiction where it is incorporated. Such regulations not only prescribe approval and monitoring of activities but also impose certain restrictive provisions e.g. capital adequacy to minimise the risk of default and insolvency on the part of the insurance companies and to enable them to meet unforeseen liabilities as these arise.

The Company continuously reassesses its capital needs to maintain sufficient liquid resources and accordingly comply with the prescribed requirements for maintaining solvency margins (see note 12).
