REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

TO THE SHAREHOLDERS
NASEEJ INTERNATIONAL TRADING COMPANY
(A SAUDI JOINT STOCK COMPANY)

REPORT ON THE REVIEW OF THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTHS PERIOD ENDED MARCH 31, 2023

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of NASEEJ INTERNATIONAL TRADING COMPANY (the "Company") as at March 31, 2023 and the related condensed interim consolidated statements of profit and loss and comprehensive income for the three-months periods ended March 31, 2023 and the condensed consolidated interim statements of changes in equity and condensed consolidated interim cash flows for the three-month period then ended and condensed consolidated interim notes, comprising a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

2. Significant accounting policies

2.1. Statements of compliance

The condensed consolidated interim financial statements for the three months ended March 31, 2023 have been prepared in accordance with IAS 34 Interim Financial Reporting as adopted in the Kingdom of Saudi Arabia as well as other standards and announcements endorsed by Saudi Organization for Chartered and Professional Accountant (SOCPA).

The condensed consolidated interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements as at December 31, 2022.

As required by Capital market authority (CMA) through its circular issued at October 16, 2016, the Group should apply cost model to measure the property, plant and equipment, investment properties, and non-tangible assets upon adoption of the International Financial Reporting Standards for three years, commencing from the application of IFRSs. However, subsequently, this has been extended until December 31, 2021.

2.2. Basis of preparation

These interim condensed consolidated financial statements have been prepared on the historic cost basis except for the following material items in the condensed consolidated statement of financial position.

- Derivative financial instruments are measured at fair value.
- Equity investment is measured at fair value through OCI.
- The employees' defined benefit obligation is recognised at the present value of future obligations using the Projected Unit Credit Method.

The condensed consolidated financial statements have been prepared in accordance with the International Financial Reporting Standards, and require management to make judgments, estimates and assumptions that may affect the application of accounting policies and the reported amounts of the interim condensed consolidated financial statements. These significant estimates and assumptions have been disclosed in the annual consolidated financial statements for the year ended December 31, 2022.

The Group's condensed consolidated interim financial statements are measured using the currency of the primary economic environment in which the Group operates ("the functional currency"). The condensed consolidated interim financial statements are presented in Saudi riyals, which is the functional and presentation currency. The numbers were rounded to the nearest thousand riyals, unless otherwise stated.

2. Significant accounting policies (continued)

2.3. Basis of consolidation

These condensed consolidated interim financial statements includes the financial statement of the Parent company and the following subsidiaries (herein after referred to as "Group").

| | | Ownership | holding |
|---|---|-----------|---------|
| Name | Main activity | 2023 | 2022 |
| The Home Style Company (a) LLC | Retail trade in carpets, rugs, floors, furniture, blankets, curtain fabrics and accessories | 100% | 100% |
| Al Sorayai Company for Operations and Maintenance Ltd. | Maintenance services for factories, governmental and private institutions | 100% | 100% |
| Al Sorayai for Projects Company LLC (The activity is suspended) | Government and private project services for furniture, rugs and carpets | 100% | 100% |

a) The Home Styles Company LLC ("the subsidiary"), was incorporated in November 2010. As the Parent Company is the 100% beneficial owner of the subsidiary, these consolidated financial statements include 100% of the results of the subsidiary. Under the restructuring of the Group and upon the approval of the Board of Directors in 2017 meetings, the Group will consolidate the operations of the subsidiary in the Group under the commercial segment.

Control is achieved when the Company has:

- The ability to control the investee
- The emergence of the company's right to variable returns as a result of its association with the investee
- The ability to use its control to influence investment returns

The company re-evaluates whether it controls any of the investees or not, if the facts and circumstances indicate changes to one or more of the control elements referred to above.

When the voting rights of the company, in any of the investees, are less than the majority of the voting rights in them, the company has control over that investee. When the voting rights are sufficient to give it practical ability to direct the activities related to the investee with a separate manner. The company takes into account all relevant facts and conditions when assessing whether the company has voting rights in the investee to grant it control. These facts and circumstances include:

- The amount of voting rights the group owns in relation to the size and extent of ownership of other voting rights holders
- Potential voting rights owned by the company and other voting rights holders or other parties
- Rights arising from other contractual arrangements
- Any additional facts and circumstances that may indicate that the company has, or does not have, the current ability
 to direct relevant activities when needed to make decisions, including how to vote at previous shareholders
 'meetings

2. Significant accounting policies (Continued)

2.3. Basis of consolidation (Continued)

The consolidated process of the subsidiary starts when the company can control the subsidiary, while that process is discontinued when the company losses the control over the subsidiary. In particular, revenue and expenses of the acquired or disposed of subsidiary are included during the period in the statement of consolidated profit or loss and the comprehensive income from the date of the control until the date of expiry of control of the company over the subsidiary.

Statement of consolidated profit or loss and all elements of the other comprehensive income are distributed to the shareholders of the company. The total other comprehensive income of the subsidiary is also distributed to the shareholders.

If necessary, adjustments would be made to the financial statements of the subsidiary so as its accounting policies to be in conformity with those used by the group.

All transactions and balances, including assets, liabilities, equity, revenue, expenses and cash flows arising from transactions between the companies of the group upon consolidation are disposed of.

Changes in the group's equity in existing subsidiaries

Changes in the group's ownership in subsidiaries that do not lead to a loss of control are accounted for as equity transactions. The reported values of the group's equity and the non-controlling interests are adjusted to reflect changes in their ownership in the subsidiaries. Any difference between the value of the amendment of non-controlling interests and the fair value of the consideration paid or received is directly included in the equity and is attributable to the shareholders of the company.

When the group loses control of the subsidiary, any profit or loss is recognized in the consolidated income statement and calculated based on the difference between

- 1. the total fair value of the amount received and the fair value of any retained interest and,
- 2. the previously recorded book value of the assets (including goodwill), the liabilities of the subsidiary and any non-controlling interests. All amounts previously recognized in other comprehensive income related to that subsidiary are accounted for as if the group had directly disposed of the assets or liabilities of the subsidiary (i.e. reclassification to profit, loss, or transfer to another classification in equity as specified/permitted) in accordance with international standards for financial reporting.

The fair value of the percentages that are retained from the investment in the previous subsidiary at the date of loss of control is considered as a fair value for the remaining investment upon initial recognition in subsequent periods and is in accordance with IFRS 9, and in the event the company becomes an associate or a joint venture, the fair value is considered as cost for initial recognition of investment in an associate or a joint venture.

2.4. New Standards, Amendments to Standards and Interpretations

There are no new standards issued, however, there are number of amendments to standards which are effective from 1 January 2022 and has been explained in Group annual Consolidated Financial Statements, but they do not have a material effect on the Group's Condensed Consolidated Interim Financial Statements.
