CONDENCED INTERIM FINANCIAL STATEMENTS

TO: THE SHAREHOLDERS OF WAFRAH FOR INDUSTRY AND DEVELOPMENT COMPANY (A Saudi Joint Stock Company)

Introduction:

We have reviewed the accompanying condensed interim statement of financial position of WAFRAH FOR INDUSTRY AND DEVELOPMENT COMPANY (the "Company") as at 31 March 2021, and the related condensed interim statement of comprehensive income, changes in shareholders' equity and cash flows for the three-months period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Accounting Standard (34) "Interim Financial Reporting" endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review:

We conducted our review in accordance with International Standard on Review Engagements - 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard (34) "Interim Financial Reporting" endorsed in the Kingdom of Saudi Arabia.

Emphasis of matter:

We draw attention to note (2-e) to the accompanying condensed interim financial statements, which indicates that the current liabilities of the Company exceeded its current assets amounting to SAR 12,470,986 as at 31 March 2021. These conditions or events to indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

2. BASIS OF PREPARATION

(a) Applicable accounting principles:

These condensed interim financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for chartered and professional Accountants (SOCPA) and should be read in conjunction with the Company's last annual financial statements as at and for the year ended 31 December 2020 ("last annual financial statements"). They do not include all of the information required for a complete set of IFRS financial statements, however, accounting policies and selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements.

(b) Preparation of the interim condensed financial statements:

These condensed interim Financial Statements have been prepared on the historical cost basis except for the following material items in the interim condensed Statement of Financial Position.

- Equity investments is measured at fair value at FVOCI.
- The defined benefit obligation is recognized at the present value of future obligations using Projected Unit Credit Method.

(c) Functional and presentation currency:

The condensed interim financial statements are presented in Saudi Riyal, which is the Company's functional currency.

2. BASIS OF PREPARATION (continued)

(d) Use of Judgments and Estimates

In preparing these condensed interim financial statements, management has made judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual Financial Statements.

(e) Going concern:

The company's current liabilities as on 31 March 2021 exceeding its current assets by SAR 12,470,986, which indicates Due to the existence of fundamental uncertainty, it may cast great doubt about the company's ability to survive as a going concern and the company may not be able to realize its assets and fulfil its obligations in the normal course of activity. The management conducted an assessment of the company's ability to continue as an existing entity, and concluded that the company has the necessary resources to continue operating in the foreseeable future for a period of not less than 12 months from the date of approval of these financial statements. The company's management seeks to improve the financial conditions by increasing sales and reducing expenses in order to reduce the cost of production to enhance the competitiveness of the company's products and the management intends to benefit from the initiatives launched by the Saudi Industrial Development Fund through a request to reschedule the balance of the existing loan, which will affect the balance of current liabilities, and accordingly, these financial statements were prepared on the basis of going concern.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied to these condensed interim financial statements are the same as those applied to the last year's financial statements as in the year ended December 31, 2020.

New standards and amendments to standards and interpretations

No new standards have been issued. However, a number of amendments to the standards are in effect as of January 1, 2021 and are shown below, but they have no material impact on the Company's condensed interim financial statements.

The following is a statement of the new standards and amendments to the standards applied for the years beginning on or after January 1, 2020:

Amendments to IAS 1, "Presentation of Financial Statements" on the classification of liabilities

These narrow-scope amendments to IAS 1, "Presentation of Financial Statements" clarify that liabilities are classified as current or non-current, depending on the rights existing at the end of the reporting period. The rating is not affected by the entity's expectations or by events after the reporting date (for example, the receipt of a waiver or a breach of an undertaking). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of an obligation.

Amendments to IFRS 3 and IAS 16 and 37

- IFRS 3 "Business Combinations" is an update of a reference in IFRS 3 for the conceptual framework for financial reporting without changing the accounting requirements for business combinations.

- International Accounting Standard No. 16, "Property, Plant and Equipment" prohibits the company from deducting from the cost of property, plant and equipment the amounts received from the sale of the items produced while the company prepares the asset for its intended use. Instead, the company will recognize these sales revenue and related costs in its profit or loss statement.

International Accounting Standard No. 37, "Provisions, Liabilities and Contingent Assets" specifies the
costs that a company includes when assessing whether the contract will cause a loss.

Annual amendments to IFRSs (2018-2020 cycle)

These amendments are effective on or after January 1, 2021.

- IFRS 9, "Financial Instruments" clarifies the fees that the company includes when performing a "10% test" in order to assess whether the recognition of a financial liability will be cancelled.

 1FRS 16, "Leases", eliminates the possibility of confusion regarding rental incentives by amending Illustration 13 accompanying IFRS 16.

10. PROFIT PER SHARE

Profit per share is calculated from the net profit of major operations by dividing the net profit of major operations for the year by the weighted average number of shares during the year. Profit per share is calculated from the net profit for the year by dividing the net profit for the year by the weighted average number of shares during the year.

Diluted profit per share for the period ended 31 March 2021 and ended 31 March 2020 was calculated by dividing the net profit from main operations and net profit for the year by the weighted average number of shares outstanding during the year adjusted for the potential reduction in ordinary shares. As there is no contingent liability for equity instruments, the diluted profit per share are not different from basic profit per share.

The weighted average number of shares for the two periods ended 31 March 2021 and 31 March 2020 was reached by taking the effect of the capital decrease from the beginning of the nearest offered period (January 1, 2020) to comply with the requirements of IAS 33.

The following table reflects the loss and share data used in the basic and diluted loss per share computations:

	31 March 2021 (Unaudited)	31 March 2020 (Unaudited)

11. FINANCIAL INSTRUMENTS (continued)

Credit risk

Credit risk represents the risk that the Company will incur a financial loss as a result of a failure of the customer or the counterparty to meet a financial instrument with its contractual obligations. These risks arise mainly from its bank balances, trade and other receivables.

The Company's exposure to credit risk is mainly affected by the specificity of each customer. The demographic nature of the Company's customers, including the default risk of the activity and the country in which the customer operates, has a lower impact on credit risk.

The carrying amount of the financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the interim condensed financial position date was as follows:

	Requested value as of	
	31 March 2021 (Unaudited)	31 December 2020 (Audited)
Accounts receivable, net Cash at banks Accrued revenue Other assets	21,377,124 5,689,449 65,906 5,152,656	20,630,795 2,342,669 65,906 5,816,567
	32,285,135	28,855,937

Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its financial liabilities as they fall due to its financial liabilities that are settled through the provision of cash or other financial assets. The Company's liquidity management is to ensure, to the extent possible, that the Company always maintains sufficient liquidity to meet its obligations when it becomes payable under normal and stressful circumstances without incurring unacceptable losses or risks that may affect the Company's reputation.

The Company ensures that it has sufficient cash to cover expected operating expenses including coverage of financial liabilities but without any potential impact on difficult and unpredictable conditions such as natural disasters. In addition, the Company maintains a credit source from its banks to meet any sudden cash needs.

Market risk

Market risk is the risk that arises from changes in market prices such as foreign exchange rates and equity prices that affect the Company's profits or the value of the Company's financial instruments. The objective of market risk management is to control the Company's exposure to market risk within acceptable limits and to maximize returns.

Currency risk

Most of the Company's financial assets and liabilities are denominated in Saudi Riyals and most of the Company's transactions are denominated in Saudi Riyals and US Dollars. Since the exchange rate of the dollar against the riyal is stable, the management of the company believes that it is not exposed to the risk of exchange rate fluctuations substantially.

Capital Management:

The company's policy regarding capital management is to maintain a strong capital base to maintain shareholders, creditors and market confidence as well as the continued development of the company's activity in the future. The capital consists of ordinary shares, unpaid redeemable shares, retained earnings and the non-controlling interests of the company.

The management monitors the return on equity, which is determined by dividing net operating profit on shareholders' equity.

The Company aim to maintain the balance between the highest return possible in case of borrowing as high as possible and the preference and safety of a strong capital center.

The Company did not have any change in capital management during the year and the Company is not subject to any external capital requirements.
