INDEPENDENT AUDITOR'S REVIEW REPORT ON
THE INTERIM CONDENSED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF
YANBU NATIONAL PETROCHEMICAL COMPANY (YANSAB) - (A SAUDI JOINT STOCK COMPANY)

#### Introduction

We have reviewed the accompanying interim condensed statement of financial position of Yanbu National Petrochemical Company (YANSAB) - (a Saudi Joint Stock Company) (the "Company") as at 31 March 2020 and the related interim condensed statements of income, comprehensive income, changes in equity and cash flows for the three-month period then ended and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of these interim condensed financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

#### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

#### NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

For the three-month period ended 31 March 2020

(All amounts in Saudi Riyals '000 unless otherwise stated)

#### 1 COMPANY INFORMATION

Yanbu National Petrochemical Company (YANSAB) (the "Company") is a Saudi Joint Stock Company registered in Yanbu, Kingdom of Saudi Arabia under Commercial Registration number 4700009432 dated 14 Muharram 1427H (corresponding to 13 February 2006) in accordance with the Ministerial Resolution No. 49 dated 12 Muharram 1427H (corresponding to 11 February 2006) for the incorporation of the Company. The Company obtained its Industrial Licence number S/1367 on 18 Rajab 1426H (corresponding to 23 August 2005) and is engaged in the manufacturing of petrochemical products in accordance with the Company's by-laws and other Saudi Arabian applicable regulations. The Company commenced commercial operations on 1 March 2010. The registered office is located at Yanbu, P.O. Box 31396, Yanbu industrial city 41912.

The interim condensed financial statements of the Company for the three-month period ended 31 March 2020 have been approved by the Board of Directors on 29 Sha'ban 1441H, corresponding to 22 April 2020.

#### 2 BASIS OF PREPARATION

#### 2.1 Statement of compliance

These interim condensed financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") endorsed in Kingdom of Saudi Arabia ("KSA").

These interim condensed financial statements do not include all the information and disclosures required in full set of annual financial statements and should therefore be read in conjunction with the Company's annual financial statements for the year ended 31 December 2019. In addition, results for the interim period ended 31 March 2020 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2020 (refer to note 2.4 below).

#### 2.2 Basis of measurement

These interim condensed financial statements are prepared under the historical cost convention. For employee and other post-employment benefits, actuarial present value calculations are used.

#### 2.3 Functional and presentation currency

These interim condensed financial statements are presented in Saudi Riyals (SR), which is the functional currency of the Company. All figures are rounded off to nearest thousands (SR '000) unless when otherwise indicated.

#### 2.4 Significant accounting judgements, estimates and assumptions

The preparation of the Company's interim condensed financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. The outbreak of novel coronavirus ("COVID-19") since early 2020, its spread across mainland China and then globally caused disruptions to businesses and economic activity globally including the Kingdom of Saudi Arabia and the declaration of this pandemic by the World Health Organization necessitated the Company's management to revisit its significant judgments in applying the Company's accounting policies and the methods of computation and the key sources of estimation applied to the annual financial statements for the year ended 31 December 2019. Whilst it is challenging now, to predict the full extent and duration of its business and economic impact, the Company's management carried out an impact assessment on the overall Company's operations and business aspects including factors like supply chain, travel restrictions, oil prices, product demand, etc. and concluded that, as of the issuance date of these interim condensed financial statements, no significant changes are required to the judgements and key estimates. However, in the view of the current uncertainty, any future change in the assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future periods. As the situation is rapidly evolving with future uncertainties, management will continue to assess the impact based on prospective developments.

#### 3 CHANGES TO THE COMPANY'S ACCOUNTING POLICIES

The accounting policies and methods of calculation adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2019, except for the adoption of new standards effective as of 1 January 2020. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Several amendments and interpretations apply for the first time in 2020, but do not have an impact on the interim condensed financial statements of the Company. As required by IAS 34, the nature and effect of these changes are disclosed below.

#### 3.1 Amendments to IFRS 3: Definition of a Business

The amendment to IFRS 3 clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. Furthermore, it clarified that a business can exist without including all of the inputs and processes needed to create outputs. These amendments had no impact on the interim condensed financial statements of the Company, but may impact future periods should the Company enter into any business combinations.

#### 3.2 Amendments to IAS 1 and IAS 8: Definition of Material

The amendments provide a new definition of material that states "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity." The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. These amendments had no impact on the interim condensed financial statements of, nor is there expected to be any future impact to the Company.

#### 4 RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

Set out below, are the carrying amounts of the Company's right-of-use assets and lease liabilities and the movements during the period/year:

	Three-month period ended 31 March 2020		Year ended 31 December 2019		
	Right-of-use assets	Lease liabilities	Right-of-use assets	Lease liabilities	
At the beginning of the period/year Addition	170,935	168,244	179,331	171,789

At the end of the period/year	168,475	162,884	170,935	168,244	

#### 5 SHORT-TERM INVESTMENTS

Short-term investments represent Murabaha commodity placements with original maturity exceeding three month and maintained with local and foreign banks.

#### 6 SHARE CAPITAL

The Company's authorized, issued and fully paid share capital is SR 5,625 million which is divided into 562.5 million shares of SR 10 par value each. The Company is 51% owned by Saudi Basic Industries Corporation ("SABIC") (the "Parent"), and 49% owned by others or publicly traded.

Earnings per share (Saudi Riyals) – Basic and diluted	0.19	0.69

There has been no item of dilution affecting the weighted average number of ordinary shares.

#### 10 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (UNAUDITED) (continued)

For the three-month period ended 31 March 2020

(All amounts in Saudi Riyals '000 unless otherwise stated)

#### 10 FAIR VALUE MEASUREMENT (continued)

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

- Level 1: quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: valuation techniques for which the lowest level input that is significant to the fair value measurement is directly
  or indirectly observable.
- Level 3: valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

If the inputs used to measure the fair value of an asset or liability falls into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest input level that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers among the levels during the period.

The management assessed that the fair value of cash and cash equivalents, short-term investments, trade and other receivables and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

#### 12 SEGMENT INFORMATION

The Company's President and Board of Directors monitor the results of the Company's operations for the purpose of making decisions about resource allocation and performance assessment. They are collectively the chief operating decision makers (CODM) for the Company. The CODM review the results of the Company as a whole, as they believe that decision making cannot be done effectively in isolation for single products of the Company due to complex nature of the business, integrated facility where multiple products including downstream product movement are simultaneous and the nature of the products market. Hence, the whole Company is treated as a single operating segment, the results and financial position of which has been presented already.

The key evaluation criteria for segment performance is the net profit and this is evaluated and measured consistently throughout the accounting period. The non-current assets of the Company are based in Kingdom of Saudi Arabia and petrochemical products sales by the Company are made primarily to its parent company which is also based in Kingdom of Saudi Arabia.
