**1. Organisation**

Chimera UCITS ICAV (the “ICAV”) is an Irish collective asset-management vehicle registered in Ireland pursuant to the Irish Collective Asset-Management Vehicles Act 2015 (the “ICAV Act”) on 21 January 2019 with registration number C188915 and was authorised by the Central Bank of Ireland (the “CBI”) on 18 November 2020 as an Undertaking for Collective Investment in Transferable Securities (“UCITS”) under the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, (as amended) (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”).

The ICAV is structured as an umbrella fund with segregated liability between Funds (individually a “Sub-Fund” and collectively “Sub-Funds”). The Instrument of Incorporation provides that the ICAV may offer separate classes of shares, each representing interests in a Sub-Fund comprising a distinct portfolio of investments. In addition, each Sub-Fund may be further divided into a number of different classes within the Sub-Fund. With the prior approval of the CBI, the ICAV from time to time may create additional Sub-Funds. The creation of further share classes shall be notified to and prepared and submitted to the CBI in accordance with the CBI requirements.

As at 30 June 2025, the ICAV consisted of five Sub-Funds - Chimera S&P UAE UCITS ETF (the "Sub-Fund"), launched on 23 February 2021; Chimera S&P Pakistan UCITS ETF (the "Sub-Fund"), launched on 17 August 2023; Chimera JP Morgan UAE Bond UCITS ETF (the "Sub-Fund"), launched on 25 March 2024; Chimera S&P Japan UCITS ETF (the "Sub-Fund"), launched on 28 May 2024; and Chimera S&P Germany UCITS ETF (the "Sub-Fund"), launched on 25 September 2024.

The Sub-Funds seek to provide investors with a total return, taking into account capital and income returns, which reflects the returns of equity and bond indices called the S&P UAE BMI Liquid 20/35 Capped Index (the “Index”), the S&P Pakistan BMI Liquid 35/20 Capped Index (the "Index"), J.P. Morgan MECI UAE Investment Grade Custom Index (the "Index") , the S&P Japan BMI Liquid 35/20 Capped Index (the "Index") and the S&P Germany BMI Liquid 35/20 Capped Index (the "Index"), respectively.

The Index for Chimera S&P UAE UCITS ETF is a modified weighted total return index measuring the performance of 30 of the largest constituents of the S&P UAE BMI Index. The S&P UAE BMI Index is a leading benchmark for tracking performance of the UAE equity markets. The Index is comprised of the constituents of the S&P UAE BMI Index that meet the following eligibility requirements: (i) companies must have no more than ten non-trading days over the previous quarter; and (ii) have a three-month average daily value traded volume of at least US\$ 500,000 for at least one of the two quarterly periods preceding the rebalancing reference date.

The Index for Chimera S&P UAE UCITS ETF applies a UCITS capping screen of 20/35. This is to allow the Fund, whose policy is to replicate the Index, to invest up to 20% of its net assets in individual securities with the 20% limit being raised up to 35% in the case of a single issuer were justified by exceptional market conditions which may include the dominance of a particular issuer in the relevant market. The Index provider, S&P, has set triggers in place of at 33%/19% respectively to reset levels to ensure UCITS compliance at all times.

The Index of Chimera S&P Pakistan UCITS ETF is a modified weighted total return index measuring the performance of the top 15 Pakistan domiciled companies ranked in the S&P Pakistan BMI Index. The S&P Pakistan BMI Index is a leading benchmark for tracking performance of Pakistani companies. The Index follows a six-month average daily traded value of  $\geq$  \$200,000. Stocks failing to meet this level will drop out of the Index once this liquidity screen fails to be met for the six-month period preceding the rebalancing reference date.

The Index of Chimera JP Morgan UAE Bond UCITS ETF is a subset of the J.P. Morgan Middle East Composite Index (MECI) (the "Parent Index"). **1. Organisation (continued)**

Index rebalancing occurs monthly on the last business day of each month. The Index applies a dual capping methodology, where all issuers are initially capped at 9.0%. The Index is then recalculated until all issuers are below the cap. The issuers above 4.5% are ranked, and the aggregate of these issuers must be below the 38.0% threshold, the highest ranked issuer that breaches the threshold and all remaining issuers in the index are capped at 4.5% after reweighting is applied. These reset triggers of 4.5%/9.0%/38.0% have been set by the Index Provider, JP Morgan, to ensure compliance with the UCITS diversification rules (ie. the 5/10/40 Rule) by creating a buffer below the regulatory limits.

The Index of Chimera S&P Japan UCITS ETF is modified weighted total return index measuring the performance of the top 30 Japan domiciled companies ranked in the S&P Japan BMI Index. The constituents of the S&P Japan BMI Index meet the following eligibility requirements: (i) companies must have no more than ten non-trading days over the previous quarter; and (ii) have a six-month average daily value traded of at least US\$1,000,000 for at least one of the two quarterly periods preceding the rebalancing reference date.

The Index applies a UCITS capping screen of 35%/20%. This is to allow the Fund, whose policy is to replicate the Index, to invest up to 20% of its net assets in individual securities with the 20% limit being raised up to 35% in the case of a single issuer where justified by exceptional market conditions which may include the dominance of a particular issuer in the relevant market. The Index provider, S&P, has set triggers in place at 33%/19% respectively to reset levels to ensure UCITS compliance at all times.

The Index of Chimera S&P Germany UCITS ETF is a modified weighted total return index measuring the performance of the top 30 German domiciled companies ranked in the S&P Germany Index. The constituents of the S&P Germany BMI Index meet the following eligibility requirements: (i) companies must have no more than ten non-trading days over the previous quarter; and (ii) have a six-month average daily value traded of at least US\$1,000,000 for at least one of the two quarterly periods preceding the rebalancing reference date.

The Index applies a capping screen of 35%/20%. This will mean that the Sub-Fund, through investing in equity securities, may invest up to 20% of its net assets in a single security with the 20% limit being raised up to 35% in the case of a single issuer where justified by exceptional market conditions such as a material price movement impacting the weighting of that single component within the Index and necessitating a larger exposure. The Index provider, S&P, has set triggers in place at 33%/19% respectively to reset levels to ensure UCITS compliance.

In order to achieve its investment objective, the investment policy of the Sub-Funds are to invest 100% of their net assets in a portfolio of equity and bond securities that consists of the equity and bond securities of each Index. Lunate Capital Limited (the "Investment Manager"), may deviate from the 100% investment where it is, for whatever reason, not possible to buy and hold a particular Index security.

The Sub-Funds attempt to replicate, before fees and expenses, the performance of each Index. The Investment Manager will seek to do this by replicating so far as possible the investments in each Index by holding all of the securities comprising each Index in approximately the same proportion as its weighting in each Index.

The base currency of Chimera S&P UAE UCITS ETF (the "Sub-Fund"), Chimera S&P Pakistan UCITS ETF (the "Sub-Fund"), Chimera JP Morgan UAE Bond UCITS ETF (the "Sub-Fund"), Chimera S&P Japan UCITS ETF (the "Sub-Fund") and Chimera S&P Germany UCITS ETF (the "Sub-Fund") is the United Arab Emirates Dirham ("AED"), Pakistani Rupee ("PKR"), U.S. Dollar ("USD"), Japanese Yen ("JPY") and Euro ("EUR") respectively. The base currency of the ICAV is AED. The Net Asset Value per Share will be published and settlement and dealing will be affected in the designated currency of each Class.

The shares of the active Sub-Funds are listed and admitted for trading on the following stock exchanges: Class A Accumulating Shares are listed on the Dubai Financial Market while Class D Distributing Shares are listed on Abu Dhabi Securities Exchange.

**(a) Basis of preparation**

These condensed interim report and unaudited financial statements have been prepared in accordance with IAS 34, "Interim Financial Reporting", the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations and should be read in conjunction with the annual report and audited financial statements for the financial year ended 31 December 2024.

Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the financial position and performance of the Sub-Fund since the last annual report and audited financial statements.

They do not include all the information required for a full set of annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS").

The condensed interim report and unaudited financial statements have been prepared on a going concern basis which assumes that the ICAV will continue in operational existence for the foreseeable future and have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The preparation of the condensed interim report and unaudited financial statements in conformity with IFRS requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the reporting date and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

The Directors make estimates and assumptions concerning the future of the ICAV. The resulting accounting estimates will, by definition, seldom equal the related actual results. There are no estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

**International Financial Reporting Standards**

**New and revised IFRSs applied with no material effect on the condensed financial statements**

In the current period, the ICAV has applied a number of amendments to IFRS Accounting Standards and Interpretations issued by the International Accounting Standards Board (IASB) that are effective for an annual period that begins on or after 1 January 2025.

- Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates relating to Lack of Exchangeability Other than the above, there are no other significant IFRS Accounting Standards and amendments that were effective for the first time for the financial year beginning on or after 1 January 2025.

**New and revised IFRSs in issue but not yet effective**

The ICAV has not early adopted any new and revised IFRSs that have been issued but are not yet effective.

**3. Fair Value**

IFRS 13 'Fair Value Measurement' requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised as assets and liabilities in the Statement of Financial Position.

The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value. The fair value of financial assets and financial liabilities traded in an active market (such as trading securities) are based on quoted market prices at the close of trading on the reporting date.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. These instruments are included within Level 1 of the hierarchy.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques. The ICAV uses a variety of methods and makes assumptions that are based on market conditions existing at the reporting date. These instruments are included within Level 2 of the hierarchy. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

Transfers are deemed to occur at the end of the financial period.

**Assets and liabilities not carried at fair value but for which fair value is disclosed**

The ICAV's assets and liabilities (by class) not measured at fair value at 30 June 2025 and 31 December 2024 but for which fair value is disclosed within the fair value hierarchy are considered Level 2, except for cash and cash equivalents, which are considered Level 1.

Cash and cash equivalents include cash on hand and demand deposits held with banks and brokers.

**4. Share Capital**

The issued share capital of the ICAV shall be not less than the currency equivalent of €2 represented by two subscriber shares of no par value and the maximum issued share capital of the ICAV shall not be more than 500 billion shares of no par value. The share capital of the ICAV shall at all times equal the Net Asset Value of the ICAV.

Subscriber shares entitle the holders to attend and vote at all meetings of the ICAV but do not entitle the holders to participate in the dividends or net assets of any Sub-Fund or of the ICAV. The holders of the subscriber shares shall have one vote for each subscriber share held.

Each of the redeemable shares entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of a Sub-Fund attributable to the relevant Class in respect of which they are issued, save in the case of dividends declared prior to becoming a Shareholder.

The Directors reserve the right to predesignate any class of shares from time to time, provided that Shareholders in that class shall first have been notified by the ICAV thirty calendar days in advance that the shares will be predesignated and shall have been given the opportunity to have their shares redeemed by the ICAV, except that this requirement shall not apply where the Directors predesignate shares in issue in order to facilitate the creation of an additional class of shares.

**4. Share Capital (continued)**

Each of the redeemable shares entitles the holder to attend and vote at meetings of the ICAV and of the relevant Sub-Fund represented by those shares. No class of shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other class of shares or any voting rights in relation to matters relating solely to any other class of shares.

Any resolution to alter the class rights of the shares requires the approval of three quarters of the holders of the shares represented or present and voting at a general meeting duly convened in accordance with the Instrument of Incorporation.
