INDEPENDENT AUDITORS' REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL INFORMATION TO THE SHAREHOLDERS OF ARABIAN SHIELD COOPERATIVE INSURANCE COMPANY (A SAUDI JOINT STOCK COMPANY)

INTRODUCTION

We have reviewed the accompanying interim condensed statement of financial position of Arabian Shield Cooperative Insurance Company (a Saudi Joint Stock Company) (the "Company") as at 30 September 2022 and the related interim condensed statements of income and comprehensive income for the three and nine month periods then ended and changes in equity and cash flows for the nine month period then ended and other explanatory notes (the "interim condensed financial information"). Management is responsible for the preparation and presentation of this interim condensed financial information in accordance with International Accounting Standard 34 - "Interim Financial Reporting" (IAS 34) as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim condensed financial information based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial information is not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi

1. GENERAL

The insurance industry in Saudi Arabia is regulated by the Law on Supervision of Cooperative Insurance Companies ("Cooperative Insurance Law") together with the Implementing Regulations ("Implementing Regulations") promulgated by Royal Decree No. M32 dated 22 Jumad Thani 1424 corresponding to 21 August 2003. Supervision is under the auspices of the Saudi Central Bank ("SAMA" or "Regulator").

Arabian Shield Cooperative Insurance Company ("Company") is a Saudi Joint Stock Company incorporated in Riyadh, Saudi Arabia through Ministerial Resolution issued on 19 May 2007 with Commercial Registration No. 1010234323 issued on 13 June 2007 following on from Royal Decree No. M60 dated 18 Ramadan 1427 corresponding to 11 October 2006. The Commercial Registration Certificate was amended with effect from 12 August 2021 to reflect the increase in share capital following the bonus share issue. The Company was listed on the Saudi Stock Exchange (Tadawul) on 26 June 2007. The registered address of the head office is as follows: 5th Floor, Cercon Building No. 15, Olaya Street, PO Box 61352, Riyadh 11565, Saudi Arabia.

The principal activities for which the Company was licensed were the conducting of insurance and reinsurance business in general and medical classes in Saudi Arabia in accordance with License No. TMN/6/20079 issued on 11 September 2007 by SAMA and the License was renewed for three year periods on 10 August 2010, 07 July 2013, 03 June 2016 and 28 January 2020. SAMA gave approval to the Company to conduct business in the protection and savings class on 26 April 2018. At the Company's request, SAMA approved an amendment to the License to exclude reinsurance business with effect from 30 September 2013.

As per the Articles of Association ("Articles"), the Company may undertake all activities required to transact cooperative insurance operations and related activities and to invest its funds. Its principal lines of business include motor, medical, marine, property, engineering, casualty and protection and savings.

In accordance with the Implementing Regulations, within six months from the date of publication of the annual financial statements each year, the Board of Directors approve the distribution of the surplus from insurance operations as follows:

- The shareholders of the Company receive 90% of the surplus from insurance operations including any surplus from investment activities of the policyholders' invested funds and the policyholders retain the remaining 10%.
- Any deficit arising on insurance operations is transferred to shareholders' operations in full.

The Company and its shareholders own and retain custody of all net assets related to both insurance operations and shareholders' operations and funds are allocated to insurance operations as required.

The fiscal year of the Company runs from 1 January to 31 December.

Cooperative insurance operations commenced with effect from 1 January 2009 following acquisition of the insurance portfolio and related business, assets and liabilities from Arabian Shield Insurance Company EC.

During the period, the share capital increased from 400,000 to 638,525 by issuing of 23,852,462 new shares to acquire Al Ahli Takaful Company (refer to Note 5).

The interim condensed financial statements of the period have been prepared by combining the portfolios after the merger and the numbers are consolidated accordingly (refer Note 5).

The formalities to update the legal documents are under process.

2. STATEMENT OF COMPLIANCE

These interim condensed financial statements for the three and nine month periods ended 30 September 2022 have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" as issued by the International Accounting Standards Board ("IASB"), as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA").

These interim condensed financial statements do not include all the information and disclosures required in the annual financial statements, therefore, these should be read in conjunction with the Company's annual audited financial statements as at and for the year ended 31 December 2021.

3. CHANGES IN SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and risk management policy used in the preparation of the interim condensed financial statements for the period ended 30 September 2022 are consistent with those followed in the preparation of the financial statements for the year ended 31 December 2021.

4. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Preparation

The accounting policies, estimates and assumptions used in the preparation of the interim condensed financial statements are consistent with those used in the preparation of the annual financial statements for the year ended 31 December 2021 and no new or amended accounting policies or accounting standards were adopted by the Company during 2022 to date.

Interim condensed financial statements are prepared under the going concern convention using the accrual basis of accounting. The historical cost convention is followed except for the measurement at fair value of available for sale investments.

Financial assets and financial liabilities are offset and the net amount reported only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously. Income and expense are not offset unless required or permitted by an accounting standard or interpretation as specifically disclosed in the accounting policies.

Presentation is in Saudi Arabian Riyals (SAR), the functional currency of the Company. All amounts are derived from Arabic and English computerised accounting records and except where otherwise indicated are rounded to thousands using the standard rounding convention.

As required by the Implementing Regulations, the Company maintains separate books of account for insurance operations and shareholders' operations and presents the financial information accordingly. Assets, liabilities, revenues and expenses clearly attributable to either activity are recorded in the respective accounts. The basis of allocation of expenses from joint operations is determined by management and approved by the Board of Directors

In preparing interim condensed financial statements in compliance with IFRS, balances and transactions of insurance operations are amalgamated and combined with those of shareholders' operations. Interoperation balances, transactions and unrealised gains or losses, if any, are eliminated in full during amalgamation. The accounting policies adopted for insurance operations and shareholders' operations are uniform for like transactions and events in similar circumstances.

The interim condensed statement of financial position and interim condensed statements of income, comprehensive income and cash flows of insurance operations and shareholders' operations presented in Note 24 of the interim condensed financial statements have been provided as supplementary financial information to comply with the Implementing Regulations which require the clear segregation of the assets, liabilities, income and expenses of insurance operations and shareholders' operations.

Accordingly, the interim condensed statement of financial position and interim condensed statements of income, comprehensive income and cash flows of insurance operations and shareholders' operations presented in Note 24 of the interim condensed financial statements reflect the assets, liabilities, income, expenses and comprehensive gains or losses of the respective operations.

The inclusion of separate information of insurance operations and shareholders' operations in the interim condensed statement of financial position and interim condensed statements of income, comprehensive income and cash flows as well as certain relevant notes to the interim condensed financial statements represent supplementary information required by the Implementing Regulations but not required by IFRS.

b) Critical accounting judgments, estimates and assumptions

The preparation of interim condensed financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies, the reported amount of assets and liabilities, contingent assets and liabilities, resultant provisions, changes in fair value and the reported amounts of income and expense.

These judgements and estimates are based on the Company's best knowledge of current events and actions and are continually evaluated and updated, however future events could result in outcomes requiring material adjustments to the reported amounts.

In preparing the interim condensed financial statements significant judgments made by management in applying accounting policies and the key sources of estimation uncertainty including the risk management policies were the same as those that applied for the year ended 31 December 2021.

The following judgments and estimates have the most significant effect on the amounts recognised.

Impairment losses on receivables

The Company assesses impairment for receivables that are individually significant and receivables included in a group of financial assets with similar credit risk characteristics. Receivables that are individually assessed for impairment and for which an impairment loss is or continues to be recognized are not included in a collective assessment of impairment. This assessment of impairment requires judgment. In making this judgment, the Company establishes if there is objective evidence that all amounts due may not be collectible in accordance with the original terms of the contract and evaluates credit risk characteristics that consider past-due status being indicative of the ability to pay all amounts due as per contractual terms.

Insurance contract liabilities

For insurance contracts, estimates have to be made both for the expected ultimate cost of claims reported at the reporting date and for the expected ultimate cost of claims incurred but not yet reported (IBNR) at the reporting date.

It can take a significant period of time before the ultimate claims cost can be established with certainty and for some type of policies IBNR claims form a significant part of the liability. The primary technique adopted by the Company in estimating the cost of reported and IBNR claims is that of using past claims settlement trends to predict future claims settlement trends.

Historical claims development is analyzed by underwriting year, accident year and further analyzed by significant business lines and claim types. Large claims are usually separately addressed, either by being reserved at the face value of loss adjustor estimates or separately projected to reflect their future expected development.

In most cases, no explicit assumptions are made regarding future rates of claims inflation or loss ratios. Instead, the assumptions used are those implicit in the historic claims development data on which the projections are based. Additional qualitative judgment is used to assess the extent to which past trends may not apply in future, (for example to reflect one-off occurrences, changes in external or other factors such as public attitudes to claiming, economic conditions, levels of claims inflation, judicial decisions and legislation, as well as internal factors such as portfolio mix, policy conditions and claims handling procedures) in order to arrive at the estimated ultimate cost of claims that present the likely outcome from the range of possible outcomes, taking into account all the uncertainties involved.

In addition a range of technical methods are used by the Company's actuaries to independently assess and critically review the estimates made by the Company.

Prior claims estimates are continually reviewed and adjusted as claims develop.

Insurance contract liabilities are not discounted for the time value of money as substantially all claims are expected to be paid within one year of the reporting date. The liabilities are derecognised when the obligation to pay a claim expires is discharged or is cancelled.

Impairment of financial instruments

Financial instruments are considered impaired when it is determined there has been a significant or prolonged decline in fair value relative to cost. This determination requires judgement. In making this judgement factors are considered such as normal share price volatility, financial status of the investee including cash flow and sector and technology status and development.

c) Seasonality of operations

There are no seasonal changes that may affect insurance operations of the Company.

d) Segmental reporting

A segment is a distinguishable component of the Company that is engaged either in providing products or services (a business segment) or in providing products or services within a particular economic environment (a geographic segment), which is subject to risks and rewards that are different from those of other segments.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors.

5. BUSINESS COMBINATION

The Company entered into a Memorandum of Understanding ("MoU") on 11 April 2021 (corresponding to 29 Sha'ban 1442) with Al Ahli Takaful Company ("ATC") to begin a reciprocal due diligence process and to negotiate the final terms and conditions of the potential Merger ("Merger" or "Transaction") between ATC and the Company.

Later on 12 July 2021 (corresponding to 02 Dhul Hijjah 1442), the Company announced its entry into a binding merger agreement with ATC ("Merger Agreement") in an effort to acquire all shares held by the shareholders of ATC through the submission of an offer to exchange shares without any cash considerations, such exchange to be effected by way of increasing the capital of the Company through the issuance of new ordinary shares to all shareholders in ATC. Accordingly, the Company received a no-objection from SAMA and other regulatory authorities on the merger transaction on 29 October 2021 (corresponding to 23 Rabi Al Awwal 1443).

The shareholders in the Extraordinary General Assembly meeting ("EGAM") held on 09 December 2021 (corresponding to 05 Jumada Al Oula 1443) approved the proposed merger of the Company and ATC to be affected by way of a merger pursuant to Article 191, 192, and 193 of the Companies Law issued under Royal Decree No. M3 dated 10 November 2015 (corresponding to 28 Muharram 1437), through the issuance of 1.43114769137705 new shares in the Company for each share in ATC subject to the terms and conditions of the Merger Agreement.

The Company has announced the effectiveness of the merger of ATC into the Company on 12 January 2022 (corresponding to 09 Jumada Al-Thani 1443) after satisfying the Merger conditions agreed between the two companies in the Merger agreement and set out in the Shareholder Circular and the Offer Document issued by the Company with respect to the Merger, including the expiry of the creditors' objection period with no outstanding or unsettled objections. The merger resulted in the increase of the paid-up capital from 400,000 to 638,525.

The formalities to update the legal documents are under process.

The merger has been accounted for using the acquisition method under IFRS 3 — Business Combinations (the "Standard") with the Company being the acquirer and ATC being the acquiree. The Company has accounted for the acquisition based on provisional fair values of the acquired assets and assumed liabilities as at 12 January 2022 "acquisition date". Adjustment to the provisional values and their impact on the goodwill and acquired net assets of the Company will be finalised within twelve months of the date of acquisition as allowed by the Standard.

Purchase consideration

The purchase consideration was determined to be 594,404 which consisted of the issue of 23,852,462 new shares to the shareholders of ATC.

The fair value of the new issued shares of the Company was determined on the basis of the closing market price of the ordinary shares of SAR 24.92 per share on the Tadawul on the last trading date prior to the acquisition date of 12 January 2022. Issue costs which were directly attributable to the issue of the shares were not material. As a result, there was an increase in share capital and share premium of 238,525 and 355,879, respectively.

10.3 Fair Values of Financial Instruments

Determination of fair value

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between knowledgeable and willing market participants at the measurement date.

Underlying the definition of fair value is a presumption that the enterprise is a going concern without any intention or need to liquidate, curtail materially the scale of its operations or undertake a transaction on adverse terms and that the transaction takes place either:

- in the accessible principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous accessible market for the asset or liability.

The fair value of financial instruments is based where possible on quoted prices for marketable securities. The fair value of commission bearing items is estimated based on discounted cash flows using commission rates for items with similar terms and risk characteristics.

For financial instruments where there is no active market, fair value is determined by reference to the market value of similar financial instruments or where this cannot be determined, they are calculated using a variety of valuation techniques. The assumptions are taken from observable market data where possible and where this is not possible judgment is relied upon to establish fair values.

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: Quoted prices in active markets for the same or identical instrument that an entity can access at the measurement date;
- Level 2: Quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and
- Level 3: Valuation techniques for which any significant input is not based on observable market data.

The fair values of on-balance sheet financial instruments are not significantly different from their carrying amounts included in the interim condensed financial statements.

Carrying amounts and fair values

The following table shows the carrying amounts and fair values of financial assets and liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and liabilities not measured at fair value if the carrying amount is a reasonable approximation to fair value.

	Level 1	Level 2	Level 3	Carrying Value

13. PROVISION FOR ZAKAT AND INCOME TAX

Zakat and income tax have been provided in accordance with regulations currently in force in Saudi Arabia.

The temporary and permanent differences between financial and adjusted taxable results are mainly due to adjustments to depreciation, provisions and other items in accordance with the income tax regulations. Deferred tax arising out of these differences is not significant and accordingly was not provided for.

Zakat is calculated on Saudi shareholders' share of adjusted equity subject to a minimum base equal to the relevant share of adjusted net profit. Foreign shareholders are subject to income tax calculated on the relevant share of adjusted net profit.

Status of assessments

The Company has filed zakat and income tax returns for the period from incorporation to 31 December 2008 and for each of the years ended 31 December 2009 to 31 December 2021.

The returns filed covering periods to 31 December 2014 have been agreed and finalised with Zakat, Tax and Customs Authority (ZATCA) and zakat and income tax liabilities arising thereon have been discharged in full. Final assessments are awaited for the remaining outstanding years.

14. SHARE CAPITAL

The Board of Directors resolved in their meeting held on 12 January 2021 to increase the share capital subject to receiving the required approvals of the relevant authorities and thereafter the approval of shareholders.

The resolution provided for a share capital increase from 300,000 to 400,000 by issuing one bonus share for every three shares held thereby increasing the number of shares in issue from 30,000,000 shares to 40,000,000 shares with the additional 100,000 share capital generated by capitalising 80,000 from retained earnings and 20,000 from statutory reserve.

Approval was received from the Saudi Central Bank (SAMA) and the Capital Market Authority (CMA) on 08 April 2021 and 06 May 2021, respectively. Approval from shareholders was obtained in the general assembly meeting held on 09 June 2021 and the bonus shares were issued on 10 June 2021. The total transaction costs relating to the bonus share issue amounted to 35.

The shareholders of the Company in their Extraordinary General Assembly meeting ("EGAM") held on 09 December 2021 (corresponding to 05 Jumada Al Oula 1443) approved increasing share capital to acquire Al Ahli Takaful Company. The Company has announced the effectiveness of the merger of ATC into the Company on 12 January 2022 (corresponding to 09 Jumada Al-Thani 1443) after satisfying the Merger conditions agreed between the two companies in the Merger agreement and set out in the Shareholder Circular and the Offer Document issued by the Company with respect to the Merger, including the expiry of the creditors' objection period with no outstanding or unsettled objections. The merger resulted in the increase of the paid-up capital from 400,000 to 638,525.

15. STATUTORY RESERVE

In compliance with the Cooperative Insurance Law, the Implementing Regulations and the By-Laws, 20% of shareholders' net profit (as defined below) is transferred to statutory reserve at the end of each financial year until the statutory reserve amounts to 100% of the paid capital.

In calculating Statutory Reserve, shareholders' net profit is stated after deducting zakat and income tax charges and excludes unrealised investment gain.

The Statutory Reserve is not available for distribution but it may be converted to share capital in funding a bonus share issue.

16. EARNINGS PER SHARE

Earnings per share is calculated by dividing shareholders' net profit (as defined below) by the weighted average number of issued shares during the period.

In calculating earnings per share, shareholders' net profit is stated after deducting zakat and income tax charges and excludes unrealised investment gains.

Earnings per share is calculated based on the revised number of shares following the business combination share issue on 12 January 2022. The weighted average number of issued shares in 30 September 2022 is 63,852,462 (30 September 2021: 40,000,000).

As there are no dilutive effects, basic and diluted SAR earnings per share are the same.

17. CAPITAL MANAGEMENT

Objectives are set by the Company to optimise the structure and sources of capital and maintain healthy capital ratios to support its business objectives and consistently maximise returns to shareholders and policyholders.

The Company's approach to managing capital involves managing assets, liabilities and risks in a coordinated way, assessing shortfalls between reported and required capital levels on a regular basis and taking appropriate actions to influence the capital position of the Company in the light of changes in economic conditions and risk characteristics.

The primary source of capital used by the Company is equity shareholders' funds. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares.

The Company manages its capital to ensure that it is able to continue as going concern and comply with the regulators' capital requirements of the markets in which the Company operates while maximising the return to stakeholders. The capital structure of the Company consists of equity attributable to equity holders comprising paid share capital, statutory reserves, retained earnings and fair value reserve on investments.

The Implementing Regulations detail a minimum solvency margin requirement calculated as the highest of the following:

- Minimum net assets of 100,000 calculated after adjusting for admissibility factors
- Premium solvency margin calculation
- Claims solvency margin calculation

The Company is in compliance with all externally imposed capital requirements. The capital structure of the Company as shown in the statement of interim condensed financial position as at 30 September 2022 totals 1,104,282 consisting of paid-up share capital 638,525, share premium 355,879, statutory reserves 26,097, retained earnings 83,394, fair value reserve gain on investments 3,147 and re-measurement reserve for end of service indemnities (2,760), 31 December 2021 totals 488,713 consisting of paid-up share capital 400,000, statutory reserves 26,097, retained earnings 64,386, fair value reserve loss on investments 990 and re-measurement reserve for end of service indemnities (2,760).

In the opinion of the Board of Directors, the Company has fully complied with all externally imposed capital requirements during the reported financial period.

18. RELATED PARTY TRANSACTIONS AND BALANCES

Definitions and explanations

Related parties represent shareholders, both individual and corporate, directors, members of the audit, executive, investment, risk and nomination and remuneration committees, the board secretary, key executives and entities controlled (including jointly controlled) or significantly influenced by such parties. The immediate families of the above are related parties.

All transactions with related parties are made on an arm's length basis and no conflicts or potential conflicts of interest were identified during the nine month period ended 30 September 2022 and 2021. Amounts due to related parties do not include amounts provided for outstanding claims under processing or IBNR. Balances due to or from related parties are unsecured, interest free and are settled in cash and no guarantees have been made or received in relation to any related party transaction or balance.

The following are the details of the major related party transactions during the period and the related balances.

19. SEGMENT REPORTING

Segment reporting is not undertaken for shareholders' operations, assets and liabilities.

Insurance operations - geographic segments:

The Company has since incorporation operated primarily in Saudi Arabia.

Insurance operations - operating segments:

Operating segments are identified on the basis of internal reports concerning components of the Company that are regularly reviewed by the Company's Board of Directors in their function as chief operating decision maker in order to allocate resources to segments and assess performance.

Transactions between operating segments are on normal commercial terms and conditions.

The revenue from external parties reported to the Board of Directors is measured in a manner consistent with that in the statement of income.

There have been no changes to the basis of segmentation or the measurement basis for segment profits or losses since 31 December 2021.

Unallocated assets not subject to segmentation are cash and cash equivalents, short term fixed income deposits, premiums and reinsurers' receivable – net, investments, due from related parties – net, prepaid expenses and other assets, property and equipment – net, intangible assets – net, goodwill, statutory deposits and accrued income on statutory deposits.

Unallocated liabilities not subject to segmentation are accrued and other liabilities, due to related parties, accounts payable, withholding tax provision, regulators' levies provision, end-of-service indemnities, policyholders' surplus distribution payable, zakat, income tax and accrued commission income payable to SAMA.

The unallocated assets and liabilities are not reported to chief operating decision maker under related segments and are monitored on a centralised basis.

The segment information provided to the Company's Board of Directors for the reportable segments for the Company's total assets and liabilities at 30 September 2022 and 31 December 2021 and for its total revenues, expenses and net income for the three and nine month periods then ended are as follows:
