Qualified opinion

We have audited the consolidated financial statements of Raydan Food Company (the "Company"), a Saudi Joint Stock Company, and its subsidiary (the "Group") which comprise the consolidated statement of financial position as at 31 December 2020, and the related consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes to the consolidated financial statements including a summary of significant accounting policies.

In our opinion, except for the potential effects of the matters described in the basis for qualified opinion paragraph, the accompanying consolidated financial statements present fairly, in all material respects, the consolidation financial position of the Group as at 31 December 2020 and the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by the Saudi organization for Certified Public Accountants.

**Basis for Qualified Opinion** 

- 1- The balance of the investment in Al-Jonah Sweets and Outside Catering Limited (the "Associate") in the consolidated statement of financial position as at 31 December 2020 and 31 December 2019 amounted to SR 80,439 thousand and SR 82,123 thousand, respectively. The Group's share of the Associate's net (loss) / profit for the year ended 31 December 2020 and the year ended 31 December 2019 amounted to SR 1,683 thousand and SR 875 thousand, respectively. We were unable to obtain sufficient appropriate audit evidence regarding the balance of the Group's investment in the Associate as at 31 December 2020 and 31 December 2019 and the Group's share of the Associate's net profit for the year ended 31 December 2020 and the year ended 31 December 2019, because we were unable to access the relevant financial information and working papers of the Associate's auditor. Accordingly, we were unable to determine whether any adjustments to these amounts were necessary.
- 2- International Accounting Standard 36 "Impairment of Assets" requires management to assess, at the end of each financial reporting period, whether there is any indication of impairment of assets. In the event of any such indication, the Group must estimate the recoverable amount of the asset and record an impairment loss, if any. Management did not perform an assessment of the impairment of property, plant and equipment as at 31 December 2020 and 31 December 2019, amounting to SR 166,990 thousand and SR 240,858 thousand, respectively. Management also did not perform impairment test for investment in associate as at 31 December 2020 amounting to SR 80,439 thousand. Accordingly, we were unable to determine whether any adjustments to the book value of property, plant and equipment and investment in associate were necessary.

We conducted our audit in accordance with International Standards on Auditing ("ISAs") that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the professional code of conduct and ethics endorsed in the Kingdom of Saudi Arabia, that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

# Material Uncertainty Related to Going Concern

We draw attention to note 3 to the consolidated financial statements which indicates, among other matters, that the Group incurred a net loss of SR 83.3 million for the year ended 31 December 2020. And as of that date, current liabilities exceeded current assets by SR 27.6 million. As mentioned in note 3, those events and circumstances, among other matters, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

To the Shareholders of Raydan Food Company a Saudi Joint Stock Company Jeddah- Kingdom of Saudi Arabia

# **Key Audit Matters**

Key Audit Matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Below is a description of each of the key audit matters and how they were addressed.

| Our audit procedures included, among other matters, the following:  - Evaluating the appropriateness of accounting policies related to the recognition of revenues for the Group by taking into consideration the requirements of the relevant accounting  |
|--|
| standards.   |
| <ul> <li>Testing samples of daily cash and credit sales and tracing deposits of cash receipts in banks and linking them to the revenues recorded in the journal entries.</li> <li>Testing a sample of sales transactions made before and after the end of the year to assess whether revenues were recognized in the correct accounting period.</li> </ul> |
| <ul> <li>Carry out analytical procedures regarding revenues.</li> <li>Assessing the adequacy of disclosures in the consolidated financial statements of the Group in accordance with the applicable accounting standard.</li> </ul>  |
|  |

To the Shareholders of Raydan Food Company a Saudi Joint Stock Company Jeddah- Kingdom of Saudi Arabia

## Other Information included in the Group's 2020 Annual Report

Other information includes the information included in the Group's annual report for the year ended 31 December 2020, other than the consolidated financial statements and our auditor's report thereon. Management is responsible for the other information in it is annual report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, we consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this to those charge with governance.

The Group's 2020 annual report is expected to be made available to us after the date of this audit report.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidation financial statements in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by the Saudi organization for Certified Public Accountants and Regulations for Companies and the Company's Bylaw, and for such internal control as management determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Those charged with governance, i.e. the board of directors, are responsible for overseeing the Group's financial reporting process.

# Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidation financial statements.

To the Shareholders of Raydan Food Company a Saudi Joint Stock Company Jeddah- Kingdom of Saudi Arabia

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)
As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.
   We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

To the Shareholders of Raydan Food Company a Saudi Joint Stock Company Jeddah- Kingdom of Saudi Arabia

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements (continued)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore included in our report as key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(A Saudi Joint Stock Company)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

## FOR THE YEAR ENDED 31 DECEMBER 2020

#### 2 BASIS OF PREPARATION

The consolidated financial statements of the Group for the year ended 31 December 2020 have been prepared in accordance with International Financial Reporting Standards as adopted in the Kingdom of Saudi Arabia and other standards and pronouncements adopted by the Saudi Organization for Certified Public Accountants (IFRS). Details of the Group's significant accounting policies are disclosed in note 30.

The consolidated financial statements have been prepared on a historical cost basis. The consolidated financial statements are presented in Saudi Riyals which is also the functional currency of the Company and all values are rounded to the nearest Saudi Riyal (SR), except when otherwise indicated.

## 2.1 CHANGES TO THE ACCOUNTING POLICIES

The accounting policies and methods of computation adopted in the preparation of the consolidated financial statements for the year ended 31 December 2020 are consistent with those followed in the preparation of the Group's consolidated financial statements for the year ended 31 December 2019, except for the application of the new amendment on the International Financial Reporting Standards No (16) which was effective on 1 June 2020. The Group did not early adopted any other standards, interpretation or amendment that has been issued but is not yet effective.

#### Amendment to IFRS 16 'Leases'

In May 2020, IFRS 16 was amended to provide a practical means for rent reduction that arise as a direct consequence of the COVID-19 pandemic allowing a lessee not to assess whether a rent concessions that meets certain criteria is a lease modification and account for such rent concession as if it was not a lease adjustment.

Excluding this amendment, IFRS 16 requires lessees to assess whether changes to lease contracts are lease modifications as defined in the standard and, if so, a lessee must remeasure the lease liabilities to reflect the revised lease payments using a revised discount rate, with the effect of the change in the lease liabilities recorded against the right-of-use asset.

The practical expedient provided by the amendment applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the following conditions are met:

- (a) The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change.
- (b) Any reduction in lease payments affects only payments originally due on or before 30 June 2021.
- (c) There is no substantive change to other terms and conditions of the lease.

The Group has elected to adopt the amendments and has applied the practical means introduced by the amendment to all qualifying COVID-19-related rent concessions received by the Group during the year.

Accordingly, the qualifying rent concessions received are recorded as a reduction from right of use assets and lease liabilities. Practical means have been applied to all eligible rent contracts.

The application of the practical means has resulted in the reduction of right of use assets and lease liabilities by SR 2,358,320.

# 3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Other disclosures relating to the Group's exposure to risk and uncertainties' includes:

Financial instruments risk management
 Sensitivity analysis disclosures

 Note 16

(A Saudi Joint Stock Company)

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

## FOR THE YEAR ENDED 31 DECEMBER 2020

#### 3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (Continued)

## 3.1 Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

#### Going concern basis of accounting

The consolidated financial statements have been prepared on the going concern basis, which assumes that the Group will continue its activities for the foreseeable future. As shown in the consolidated financial statements, the Group incurred a net loss during the year ended 31 December 2020. Also, the Group's current liabilities exceeded its current assets as at that date. The ability of the Group to continue its operations depends on achieving more revenue from its operation and obtaining sufficient cash to pay off its current liabilities.

The consequences of the Corona virus (Covid-19) have significantly affected the Group's operations, since the Group has closed part of its branches either on permanent or temporary basis as a result of the measurements imposed by the government of the Kingdom of Saudi Arabia, which resulted in a significant decline in sales while the Group continued to incur fixed and semi-variable expenditures which has affected the financial performance and cash flows of the Group.

In assessing the Group's going concern situation, management, with the board of directors, has developed comprehensive cash flow projections to ensure that sufficient and appropriate financing is available to meet the Group's liabilities for at least the next twelve months. Upon the assessment, the current measures that the Group has put in place to preserve cash and reduce discretionary expenditures over the next twelve months were taken into consideration.

Specifically, the members of the Board of Directors have taken into consideration the following:

- A- Postponing the payment of the investment purchase by the group in associate Al-Jonah Sweets and Outside Catering Ltd. Which will be repaid upon having sufficient liquidity.
- B- The due installment related to the long term loan have been rescheduled.
- C- Stopping the completion of the capital work in progress related to the expansion of the Group's branches until conditions improve and liquidity becomes available.
- D- Adopting expansion through granting franchises to increase the sources of revenue.
- E- Working to reduce the rent payment of the Group's branches and to negotiate the payment of due amounts and to reschedule them in accordance with available liquidity.
- F- Maximum utilization of all initiatives granted by government to companies during the period from the beginning of the Corona to date. Also, make agreement with government authorities to schedule the due payments.
- G- Restructuring the operational sector to reduce labor cost.
- H Review the Group food menu of recipes for the approved items for the Group and stop the less-selling and most wasteful items.
- I- Working to increase the Company's capital by submitting an application to the Capital Market Authority.

The Board of Directors took into consideration the extent of the impact of government measurement and their impact on the cash flows of the Group as a result of the decrease in the demand for restaurants. Currently, the members of the Board of Directors believe that the Group can maintain adequate liquidity and meet the liabilities of the Group during the next twelve months as at 31 December 2020. and this plan depends significantly on the success of the Group in generating more revenue and increase the Company capital.

(A Saudi Joint Stock Company)

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 31 DECEMBER 2020

#### 3 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

# 3.1 Judgements (continued)

## Going concern basis of accounting (continued)

Given that the situation is rapidly evolving, the impact of this virus outbreak is subject to significant levels of uncertainty, with the full range of potential unknown outcomes regarding future levels of revenue resulting from potential changes in restaurants costumers behaviors during the current and future periods. These uncertainties may create substantial doubt about the Group's ability to continue accordance to the going concern principle. However, taking into consideration the above-mentioned assessment, the consolidated financial statements for the year ended 31 December 2020 have been prepared on the going concern basis.

#### 3.2 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

The outbreak of the Coronavirus ("Covid-19") emerging since early 2020 and its spread throughout the country of China and at the global level has caused disruption in business and economic activity globally, including the Kingdom of Saudi Arabia. The World Health Organization's has declared this virus as a pandemic. The Group's management had to review it is significant estimates when applying the Group's accounting policies, methods of calculation, and the main sources of estimates applied to the consolidated financial statements for the year ended 31 December 2020.

During the year ended 31 December 2020, management assessed the overall impact on the Group's operations and aspects of it is business, looking at factors such as impacts on the supply chain, travel restrictions, oil prices and product demand. Based on this assessment, there was no need to make material adjustments to the consolidated financial statements for the year ended 31 December 2020, in addition to the amendments that been already performed. However, in light of the continuing uncertainty, any future change in assumptions and estimates may require a material adjustment to the carrying values of assets and liabilities or both in future periods, and as the situation is rapidly developing in light of uncertainty about the future, management will continue in assessing the impact based on future estimates.

# Long-term assumptions for employees' termination benefits

Employees' termination benefits represent obligations that will be settled in the future. Management is required to make further assumptions regarding variables such as discount rates, rate of salary increase, mortality rates, and employment turnover. Periodically, management of the Group consults with external actuaries regarding these assumptions. Changes in key assumptions can have a significant impact on the projected benefit obligations and periodic employee defined benefit costs incurred.

## Useful lives of property, plant and equipment

The Group determines the estimated useful lives of its property, plant and equipment for calculating depreciation after considering the expected usage of the assets or physical wear and tear. Management has not put any residual value as it was considered as insignificant. Management reviews the useful lives annually.

#### Lease Payments Discount

Rental payments are discounted using the Group's incremental borrowing rate (IBR). The management has applied judgments and estimates to determine the incremental borrowing rate at the inception of the lease.

|  | 76,039,662 | 76,815,518 |

#### 15 LONG-TERM LOAN

The Group obtained a long-term loan amounting to SR 35.1 million in the form of a long-term finance lease to finance capital expansion. This loan is granted of collateral with lands from the Group (note 4). This loan is subject to annual interest rate of 8%.

The total finance charges related to this loan have been fully deducted in advance from the amount received. The amount withdrawn is to be repaid in quarterly installments. The long-term loan is denominated in Saudi riyals.

On 28 October 2020, the Company reached an agreement to reschedule the loan installments, including additional financing charges amounting to SR 3,216,731 to be paid during the new loan period. Accordingly, the quarterly installments were reduced and the loan repayment period was extended until 15 October 2024.

The Group had the following outstanding balances relating to this loan as at 31 December:

| 1                      | $\mathcal{C}$ | U | $\boldsymbol{c}$ |             |             |

#### 18 ZAKAT AND INCOME TAX

#### **Basis for Zakat:**

The Company is subject to zakat. Zakat is payable at 2.5% of the approximate zakat base or adjusted net profit, whichever is higher. The most important components of the zakat base according to the zakat regulations consist mainly of equity, provisions, long-term loans and adjusted net profit minus the net book value of non-current assets. The subsidiary is subject to income tax, which is payable at 22.5% of the taxable net profit.

Zakat and income taxes charged to the consolidated statement of profit or loss:

|---|------------------|------------------|
|   | SR               | SR               |
| Due from related parties                        | 6,216,929        | 7,652,249        |
| Trade Receivables                               | 1,423,235        | 532,049          |
| Employees' receivables and other debit balances | 2,320,469        | 2,270,144        |
| Bank balances                                   | 4,614,606        | 866,675          |
|   | 14,575,239       | 11,321,117       |

The carrying amount of financial assets represents the maximum credit exposure.

The Group manages credit risk in relation to due from related parties and trade receivables by setting credit limits for each customer and monitoring uncollected receivables on an ongoing basis. Debit balances are monitored so that the Group does not incur material bad debts.

Bank cash balances are maintained with high credit rating financial institutions.

#### **Liquidity Risk:**

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from the inability to sell a financial asset quickly at an amount close to its fair value. Following are the contractual maturities at the end of the reporting period of financial liabilities.

(A Saudi Joint Stock Company)

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 31 DECEMBER 2020

## 29 FAIR VALUES AND RISK MANAGEMENT OF FINANCIAL INSTRUMENTS (continued)

# 29.2 Risk Management of Financial Instruments (continued)

**Liquidity Risk (continued):** 

|                        |                  | 31 December 2020 |             |             |

Liquidity risk is managed by monitoring on a regular basis that sufficient funds and credit facilities are available to meet the Group's future commitments.

#### Market Risk:

Market price risk is the risk that value of a financial instrument will fluctuate as a result of changes in market prices, such as foreign exchange rates and interest rates, and will affect the Group's profit or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

# **Currency Risk:**

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognized assets and liabilities are denominated in a currency that's not the Group's functional currency. The Group exposure to foreign currency risk is primarily limited to transactions in United State Dollars ("USD") and Egyptian Pound. The Group's management believes that their exposure to currency risk associated with USD is limited as Saudi Riyal currency is pegged to USD. The fluctuation in exchange rates against other currencies is monitored on a continuous basis.

#### **Interest Rate Risk**

Interest rate risk is the exposure associated with the effect of fluctuations in the prevailing interest rates on the Group's consolidated financial position and cash flows. As at 31 December 2020 the Group did not have any floating rate financial assets or liabilities (2019: nil).

The long-term loan carries a fixed interest rate.

(A Saudi Joint Stock Company)

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

#### FOR THE YEAR ENDED 31 DECEMBER 2020

#### 30 SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies applied by the Group in preparing its consolidated financial statements:

#### BASIS OF CONSOLIDATION

The consolidated financial statements comprise the consolidated financial statements of the Company and its subsidiaries.

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if, and only if, the Company directly or indirectly has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee).
- Exposure, or rights, to variable returns from its involvement with the investee.
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- Any contractual arrangement(s) with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Company's voting rights and potential voting rights.

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the shareholders of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Company loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

## CURRENT VERSUS NON-CURRENT CLASSIFICATION

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

(A Saudi Joint Stock Company)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

#### FOR THE YEAR ENDED 31 DECEMBER 2020

# 30 SIGNIFICANT ACCOUNTING POLICIES (continued) CURRENT VERSUS NON-CURRENT CLASSIFICATION (continued)

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

## FOREIGN CURRENCIES

#### Transactions and balances

Transactions in foreign currencies are initially recorded by the Group at the spot rate ruling at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are retranslated at the spot rate of exchange ruling at the reporting date. Differences arising on settlement or translation of monetary items are recognized in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value in the item (i.e., the translation differences on items whose fair value gain or loss is recognized in profit or loss.

#### Group companies

On consolidation, the assets and liabilities of foreign operations are translated into Saudi Riyals at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognized in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to profit or loss.

## PROPERTY, PLANT AND EQUIPMENT

Plant and equipment are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any, construction work in progress are not depreciated. Such cost includes the cost of replacing parts of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Repair and maintenance costs are recognized in profit or loss as incurred.

Land and buildings are measured at cost, less accumulated depreciation on buildings, and any accumulated impairment losses.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

- Buildings: 20 years
- Leasehold improvements: 5 to 7 years
- Operating machinery and equipment: 5 to 10 years
- Vehicles: 4 to 5 years
- Furniture and fixtures: 5 to 10 years

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit or loss when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

(A Saudi Joint Stock Company)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 31 DECEMBER 2020

# 30 SIGNIFICANT ACCOUNTING POLICIES (continued) INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets are not capitalized and expenditure is recognized in the statement of profit or loss when it is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of profit or loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the CGU level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statement of profit or loss when the asset is derecognized.

#### **BORROWING COSTS**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### **LEASES**

The determination of whether an arrangement is, or contains, a lease is decided at the inception date. An arrangement is, or contains, a lease if it grants the right to control a particular asset or assets for a period of time in exchange for compensation.

Group as a lessee

## A- Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. The recognized right-of-use assets are depreciated on a straight-line basis over its estimated useful life.

#### **B-** Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including insubstance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

(A Saudi Joint Stock Company)

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 31 DECEMBER 2020

#### 30 SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **LEASES** (continued)

#### **Group** as a lessee (continued)

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

#### C- Short-term leases and leases of low-value assets

Short-term leases are leases with a lease term of 12 months or less. Low value assets are items that do not meet the Group's capitalization threshold and are considered to be insignificant for the consolidated statement of financial position for the Group as a whole. Payments for short-term leases and leases of low value assets are recognized on a straight-line basis in the consolidated statement of profit or loss.

#### Group as a lessor

Leases where the Group does not substantially transfer all risks and rewards of ownership are classified as operating leases. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same bases as rental income. Contingent rents are recognized as revenue once they are earned.

#### INVESTMENT IN ASSOCIATES

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Group's investments in its associates are accounted for using the equity method.

Under the equity method, the investment in an associate is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment separately.

The consolidated statement of profit or loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognized directly in the equity of the associate, the Group recognizes its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the subsidiary.

The consolidated financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognizes the loss as 'Share of profit of an associate in the consolidated statement of profit or loss.

Upon loss of significant influence, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the investment upon loss of significant influence and the fair value of the remaining investment and proceeds from disposal is recognized in profit or loss.

(A Saudi Joint Stock Company)

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 31 DECEMBER 2020

# 30 SIGNIFICANT ACCOUNTING POLICIES (continued) IMPAIRMENT OF NON-FINANCIAL ASSETS

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company's of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecasts which are prepared separately for each of the Group's CGU to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. A long-term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations are recognized in the consolidated statement of profit or loss in those expense categories consistent with the function of the impaired asset. Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date. Such reversal is recognized in the consolidated statement of profit or loss.

#### **INVENTORIES**

Inventories are valued at the lower of cost and net realizable value. Cost is calculated based on the weighted average prices.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs to sell.

#### FINANCIAL ASSETS

#### Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

All financial assets are recognized initially at fair value plus, in the case of assets not at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

## Subsequent measurement

The subsequent measurement of financial assets depends on their classification as described below:

## Financial assets at amortized cost

After initial measurement, financial assets at amortized cost are measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in the consolidated statement of profit or loss when the asset is derecognized, modified or impaired.

# Derecognition

A financial asset is primarily derecognized when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

(A Saudi Joint Stock Company)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 31 DECEMBER 2020

## 30 SIGNIFICANT ACCOUNTING POLICIES (continued)

#### FINANCIAL ASSETS (continued)

## Derecognition (continued)

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

# Impairment of financial assets

The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

#### **CASH AND CASH EQUIVALENTS**

Cash and cash equivalents in the statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

#### STATUTORY RESERVE

As required by the Saudi Arabian Regulations for Companies, the Company transfers 10% of its profit for the year to the statutory reserve until the reserve equals 30% of capital. The reserve is not available for distribution as dividends.

# **PROVISIONS**

## General

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

#### EMPLOYEE TERMINATION BENEFITS

The cost of providing benefits under the defined benefit plans is determined separately for each plan using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses are recognized immediately in the consolidated statement of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

(A Saudi Joint Stock Company)

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 31 DECEMBER 2020

# 30 SIGNIFICANT ACCOUNTING POLICIES (continued)

# FINANCIAL LIABILITIES

## Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

#### Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as described below:

#### Loans and borrowings

After initial recognition, loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the consolidated statement of profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

## Accounts payable and accruals

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether or not the Group is billed.

# Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

## Offsetting financial instruments

Offsetting is made between financial assets and financial liabilities with the net amount being shown in the consolidated statement of financial position in the event that there is a right guaranteed by law to set off the amounts recognized, and there is an intention to settle with the net or to realize the assets and settlement of liabilities at the same time.

## REVENUE FROM CONTRACTS WITH CUSTOMERS

## Revenue from sales of food and beverage

Revenue is recognized when the invoice is issued and the meals are delivered to customers, revenue is shown net of commercial discount.

#### Franchise revenue

Franchise revenue consists of sales percentages and initial franchise fees.

Percentages are calculated from the total sales of the franchise agent based on the percentages agreed in the franchise contract and are recognized at a specific point in time. The initial fees are recognized equally over the term of the concession contract.

#### Trade receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets.

# **OPERATION SEGMENT**

A segment is a separate and distinct part of the Group that engages in business activities from which it earns revenue or incurs expenses. The operating segments are disclosed on the basis of internal reports that are reviewed by the chief operating decision-maker, who is the person responsible for allocating resources, evaluating performance and making strategic decisions about the operating segments. The operating segments that show similar economic characteristics, products, services, and similar customer categories are grouped and recorded whenever possible as reportable sectors.

(A Saudi Joint Stock Company)

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

FOR THE YEAR ENDED 31 DECEMBER 2020

# **30 SIGNIFICANT ACCOUNTING POLICIES (continued)**

#### **EXPENSES**

Expenses related to operations are allocated on a consistent basis to cost of sales, selling and marketing expenses and general and administration expenses in accordance with consistent allocation factors determined as appropriate by the Group.

#### ZAKAT AND TAX

#### Zakat and income tax

The Group provide for zakat and income tax in accordance with the regulations of the authorities in the areas which it opperate. The provision is charged to the consolidated statement of profit or loss.

#### Uncertain zakat and tax positions

Differences that may arise at the finalization of an assessment are accounted for when the assessment is finalized with the authorities.

#### Value added tax

Revenues, expenses and assets are recognized net of the amount of value added tax, except:

- Where the value added tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the value added tax is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- Receivables and payables are stated with the amount of value added tax included

The net amount of value added tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the consolidated statement of financial position.

# 31 STANDARDS ISSUED BUT NOT YET EFFECTIVE

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group's consolidated financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective. The following amended standards and interpretations are not expected to have a significant impact on the Group's consolidated financial statements:

- Amendments to IFRS 1 "First-time adoption of IFRS" regarding initial application by a subsidiary.
- Amendments to IFRS 3 "Business Combinations" regarding remarks to the conceptual framework.
