Report on review of condensed consolidated interim financial information

To the Shareholders of Saudia Dairy & Foodstuff Company (SADAFCO): (A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Saudia Dairy & Foodstuff Company (the "Company" or "SADAFCO"), together with its subsidiaries (collectively referred to as the "Group") as of December 31, 2021 and the related condensed consolidated interim statements of profit or loss and comprehensive income for the three-month and nine-month periods then ended and the condensed consolidated interim statements of changes in equity and cash flows for the nine-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 - "Interim Financial Reporting" (IAS 34), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

(A Saudi Joint Stock Company)

Notes to the condensed consolidated interim financial information for the three-month and nine-month periods ended December 31, 2021 (Unaudited)

(All amounts in Saudi Rivals thousands unless otherwise stated)

1. General Information

Saudia Dairy & Foodstuff Company (the "Company" or "SADAFCO"), together with its subsidiaries (collectively referred to as the "Group"), is a Saudi Joint Stock Company registered in the Kingdom of Saudi Arabia under Commercial Registration number 4030009917 issued in Jeddah dated Rabi Al-Akhar 21, 1396H (April 21, 1976).

The Company and its subsidiaries are primarily engaged in the production and distribution of dairy products, beverages and various foodstuff in the Kingdom of Saudi Arabia, Poland and certain other Gulf and Arab countries. Information on the Group's structure is provided in Note 5 of these condensed consolidated interim financial information.

Impact of COVID - 19

The novel Coronavirus (COVID-19) pandemic has spread across various geographies globally, disrupting business and economic activities. COVID-19 has brought about uncertainties in the global economic environment. The fiscal and monetary authorities, both domestic and international, have announced various support measures across the globe to counter possible adverse implications.

In response to the spread of COVID-19 in Gulf Cooperation Council ("GCC") countries and other markets in which the Group operates, and its resulting disruptions to the social and economic activities in those markets, the Group's management has proactively assessed its impacts on its operations and has taken a series of preventive measures to ensure the health and safety of its employees, customers, consumers and wider community as well as to ensure the continuity of supply of its products throughout its markets. Notwithstanding these challenges, the Group's operations remained largely unaffected as the food industry in general was exempt from the various bans and constraints imposed by various regulatory authorities including exemption from curfew hours and cargo shipping and flight operations restrictions. The underlying demand from retail and wholesale customers for the Group's products has been largely unaffected. Based on these factors, management believes that the COVID-19 pandemic has had no material effect on Group's reported financial results for the three-month and nine-month periods ended December 31, 2021 and no significant changes were required to the key judgements and estimates. The Group is continuously monitoring the evolving scenario and any change in the judgements and key estimates will be reflected as part of the operating results and cash flows of the future reporting periods.

2. Basis of preparation

2.1 Statement of compliance

This condensed consolidated interim financial information of the Group has been prepared in compliance with International Accounting Standard 34 - Interim Financial Reporting (IAS 34), as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA").

The condensed consolidated interim financial information does not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the annual audited consolidated financial statements of the Group for the year ended March 31, 2021. IAS 34 states that the condensed interim financial information is intended to provide an update on the latest complete set of annual financial statements. Hence, IAS 34 requires less disclosures in interim financial information than International Financial Reporting Standards (IFRS) requires in annual financial statements.

2. Basis of preparation (continued)

2.2 Accounting convention / Basis of measurement

This condensed consolidated interim financial information has been prepared on a historical cost basis except for the following material items in the condensed consolidated interim statement of financial position:

- Non-controlling interest put option is recognised at the present value of redemption amount;
- The defined benefit obligation is recognised at the present value of future obligations using the Projected Unit Credit Method; and
- Derivative financial instruments and certain non-current assets measured at fair value.

This condensed consolidated interim financial information is presented in Saudi Riyals being the functional currency of the Company and currency of presentation of the Group. All amounts are rounded to nearest thousand Saudi Riyals, unless otherwise indicated.

2.3 New and amended standards adopted by the Group

There are no other new standards issued during the current reporting period. However, there are number of amendments to standards, which are effective from April 1, 2021 but they do not have any material effect on Group's condensed consolidated interim financial information.

2.4 Standards and interpretations issued but not yet effective and not applied by the Group

There are no other relevant standards, amendments or interpretations issued by IFRS Interpretation Committee that are issued but not yet effective that would be expected to have a material impact on the Group's condensed consolidated interim financial information.

2.5 Critical accounting estimates and judgements

In preparing this condensed consolidated interim financial information, management has made judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense and accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities were the same as those described in the last annual consolidated financial statements.

The Group has reviewed the key sources of estimation uncertainties against the backdrop of COVID-19 pandemic. Management believes all sources of estimation uncertainty remain similar to those disclosed in the annual audited consolidated financial statements for the year ended March 31, 2021. Management continues to monitor the situation and any changes required will be reflected in future reporting periods.

3. Significant accounting policies

The accounting policies adopted by the Group for the preparation of the condensed consolidated interim financial information are consistent with those followed in preparation of the Group's annual consolidated financial statements for the year ended March 31, 2021.

4. Segment information

4.1 Operating segment

Following the management approach in regard to IFRS 8, operating segments are reported in accordance with the internal reporting provided to the Board of Directors and CEO, (together chief operating decision maker, CODM), who is responsible for allocating the reportable segments and assessing their performance. The drinks segment represents milk and juice products, while non–drinks represent ice creams, tomato paste, cheese and snacks.

10.3 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilize the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the condensed consolidated interim financial information are categorized within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the condensed consolidated interim financial information at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

10.4 Financial instruments carried at fair value

a) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include:

- For contingent consideration payable expected future sales and net margins targets
- For non-controlling interest put option present value of future earnings
- Forward currency contracts present value of future earnings

c) Derivative financial instruments

The Group's Polish subsidiaries entered into multiple foreign currency forward contracts to cover the volatility in foreign currency transactions. At December 31, 2021, the Group had 38 (March 31, 2021: 38) foreign currency forward contracts in place with a total notional amount of Saudi Riyals 46.7 million (March 31, 2021: Saudi Riyals 35.5 million) and net negative carrying amount of Saudi Riyals 0.44 million (March 31, 2021: Saudi Riyals 0.65 million).

Net realized loss on matured foreign currency forwards recognized in the condensed consolidated interim statement of profit or loss during the three-month and nine-month periods ended December 31, 2021 amounted to Saudi Riyals 0.64 million (three-month period ended December 31, 2020: Saudi Riyals 0.12 million) and Saudi Riyals 1.16 million (nine-month period ended December 31, 2020: net realized gain of Saudi Riyals 0.17 million), respectively. All these contracts have been classified as 'held for trading' for accounting purposes on a net basis under current liabilities and designated as level 2 in the condensed consolidated interim financial information. The Group relies on the counterparty for the valuation of these derivatives.

The analysis of derivative financial instruments and the related fair values together with the notional amounts classified by the term to maturity is as follows:

				Notional a	amounts by term to maturity	
	Positive fair value	Negative fair value	Notional amount	Within 3 months	3 to 12 months	1 – 5 years
Foreign currency forward	ds					
As at December 31, 2021	389	832	46,664	42,493	4,171	-
As at March 31, 2021	689	1,339	35,459	25,684	9,775	-

The maturities of the foreign currency forwards are less than 6 months as at December 31, 2021.
