#### INDEPENDENT AUDITOR'S REPORT

To the Shareholders of The National Agricultural Development Company (NADEC) (A Saudi Joint Stock Company)

#### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the financial statements of The National Agricultural Development Company (NADEC) (the "Company"), which comprise the statement of financial position as at 31 December 2022, and the statements of profit or loss and comprehensive income, statement of changes in shareholders' equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by the Saudi Organization for Chartered and Professional Accountants.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) that is endorsed in the Kingdom of Saudi Arabia that is relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with this Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Other matter

The financial statements of the Company for the year ended 31 December 2021 were audited by another auditor who expressed unmodified opinion on those financial statements on 24 Sha'ban 1443H (corresponding to 27 March 2022).

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming auditor's opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

To the Shareholders of The National Agricultural Development Company (NADEC) (A Saudi Joint Stock Company)

# **Key Audit Matters (continued)**

Key audit matter	How our audit addressed the key audit matter
Biological assets measurement:  The Company's assets include biological assets with net book value amounted SAR 763.2 million mostly representing diary herd.  IAS 41 "Agriculture" requires biological assets to be measured at fair value less costs to sell, unless the fair value cannot be reliably measured. In case the fair value of biological assets cannot be measured reliably, it is measured at historical cost less accumulated depreciation and accumulated impairment losses, if any.	Our audit procedures included, among others, the following:  • We evaluated the management's assumptions for not measuring the biological assets at fair value and discussed the reasonableness of measuring the biological assets at cost by taking into consideration the approach permitted as per the accounting standards and other related practices used for similar entities within the Kingdom of Saudi Arabia;
We considered this to be a key audit matter as the carrying value of such assets is material to the financial statements and the fair value cannot be reliably measured. These assets are measured at historical cost and the basis for capitalising the costs is largely dependent on management's judgement supported by internal processes.  Refer to note 3 for the accounting policy relating to biological assets measurement and note 16 for the related disclosures.	<ul> <li>We have evaluated the design and implementation and tested the operating effectiveness of management's key controls identified relating to the capitalisation of biological assets;</li> <li>We recalculated the depreciation expenses for the year based on the estimated useful life of biological assets; and</li> </ul>
	We reviewed the adequacy of disclosures in accordance with the requirements of relevant accounting standards relating to

biological assets.

To the Shareholders of The National Agricultural Development Company (NADEC) (A Saudi Joint Stock Company)

To the Shareholders of The National Agricultural Development Company (NADEC) (A Saudi Joint Stock Company)

#### Other information included in The Company's 2022 Annual Report

Other information consists of the information included in the Company's 2022 annual report, other than the financial statements and our auditor's report thereon. The Board of Directors is responsible for the other information in its annual report. The Company's 2022 annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

# Responsibilities of the Board of Directors and Those Charged with Governance for the Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are endorsed by the Saudi Organization for Chartered and Professional Accountants and the provisions of Companies' Law and Company's Bylaws, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, the Board of Directors, are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

To the Shareholders of The National Agricultural Development Company (NADEC) (A Saudi Joint Stock Company)

#### Auditor's Responsibilities for the Audit of the Financial Statements (continued)

As part of an audit, in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

To the Shareholders of The National Agricultural Development Company (NADEC) (A Saudi Joint Stock Company)

#### Auditor's Responsibilities for the Audit of the Financial Statements (continued)

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Hassan Aqrouq
Chief Financial Officer

Solaiman Al-Twaijri Chief Executive Officer Abdulaziz Saleh Alrebdi Chairman

#### 1. THE COMPANY AND ITS OPERATIONS

The National Agricultural Development Company (NADEC) (the "Company") is a Saudi Joint-Stock Company, formed under the Royal Decree No. M/41 dated 17 Shawwal 1401H (corresponding to 17 August 1981) and registered in Riyadh under Commercial Registration No. 1010018795 dated 26 Dhul-Hijjah 1398H (corresponding to 26 November 1978).

The Company is engaged in agricultural and livestock production, reclamation of agricultural land, food processing, marketing and distribution of its products.

The Company's financial year begins on January 1 and ends at the end of December of the same year.

The Company's registered office is located at the following address:

Riyadh - Kingdom of Saudi Arabia

P.O. Box 2557 Riyadh 11461

#### 2. BASIS OF PREPARATION

#### 2.1 Statement of Compliance

These annual Financial Statements of the Company have been prepared in accordance with the International Financial Reporting Standards ("IFRS") as endorsed in the Kingdom of Saudi Arabia (KSA) and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA"). Collectively referred as (International Financial Reporting Standards endorsed in the Kingdom of Saudi Arabia)

#### 2.2 Basis of Measurement

These annual Financial Statements have been prepared in accordance with historical cost except for the following significant items included in the Statement of Financial Position

- Equity Investments at FVOCI are valued at fair value in accordance with the requirements of IFRS 13 second level of valuation method.
- Biological assets are measured at fair value less cost to sell except when fair value cannot be measured reliably.
   This assumption can be refuted by the lack of reliable declared market prices.
- Derivative financial instruments are measured at Fair Value through Profit or Loss.
- Employee defined benefit obligations is recognized at the present value of future obligations using the Projected Unit Credit method.

#### 2.3 Functional and Presentation Currency

These annual Financial Statements have been presented in Saudi Riyal ("SAR") unless otherwise stated, which is also the functional currency of the Company.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied by the Company in the preparation of these financial statements are set out below.

#### C. Cash and Bank Balances

Cash and Bank Balances consist of Cash on hand, Cash with banks and other short-term liquid investments/ deposits with original maturities of three months or less which are available to use without any restrictions.

#### D. Trade and Other Receivables

Trade and Other receivables are stated at amortized cost less Expected Credit Loss as per IFRS 9. Bad debts once identified are written off against the related provisions.

#### E. Inventories

Inventories are measured at the lower of cost and net realisable value. Cost is determined using the weighted average method. Inventory cost includes costs of purchase (including taxes, transport, and handling etc.) net of trade discounts received, costs of conversion (including fixed and variable manufacturing overheads) and any other costs incurred in bringing the inventories to their present location and condition. Provision is made, when necessary, for obsolete, slow moving and defective inventory.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The amount of any write-down of inventories to net realisable value and all losses of inventories shall be recognized as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, shall be recognized as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

#### F. Property, Plant and Equipment

Property, Plant and Equipment are recognized as assets if, and only if:

- a. It is probable that future economic benefits associated with the item will flow to the entity; and
- b. The cost of the item can be measured reliably.

Property, Plant and Equipment are initially recognized at cost and subsequently stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any. Subsequent and additional costs to existing asset are included in the asset's carrying amount or recognized as a separate asset, as appropriate, when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Finance costs on borrowings, to finance the construction of the qualifying assets, are capitalized during the period that is required to substantially complete and prepare the qualifying asset for its intended use. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria is satisfied. All other repair and maintenance costs are recognized in the profit or loss when incurred. The items of property, plant and equipment are subject to impairment test whenever there is a substantial evidence for impairment. The present value of the expected cost for the decommissioning of the asset after its use, is included in the cost of the respective asset if the recognition criteria for a provision are met.

#### F. Property, Plant and Equipment – (CONTINUED)

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets (except for land) as follows:

Description	Number of years
Concrete Buildings	50 years
Pre-fabricated Building	5-10 years
Wells and Civil works	7-50 years
Machinery and Equipment	7-25 years
Tanks and Silos	7-30 years
Agricultural Equipment	8-25 years
Vehicles and Trucks	4-8 years
Tools	5-10 years
Office Furniture	5-10 years
Bearer Plants	20 years
Leasehold Improvements	As per Lease Agreement

Property, Plant and Equipment are derecognized upon disposal or when no future economic benefits are expected from their use or disposal. The gain or loss arising on disposal of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss during the period when the asset is derecognized.

The residual values, useful lives and methods of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, where appropriate.

#### **G.** Capital Work in Progress

Capital Work in Progress is recorded according to acquisition cost plus all direct costs that are incurred on them to bring them to location and condition necessary to enable the Company to have these assets ready for intended use. These assets are transferred to relevant assets categories and are depreciated once they are available for their intended use.

#### H. Biological Assets

Biological Assets are the herd of productive and non-productive cows as well as the Biological Assets acquired for sale, including crops in the growth stage that have not yet reached the harvest point. Each of these items is presented separately in the Statement of Financial Position.

Biological assets are measured at fair value less cost to sell except when fair value cannot be measured reliably.

In case the fair value of biological assets cannot be measured reliably, it is measured at historical cost less accumulated depreciation and accumulated impairment losses. The Company's management has not been able to obtain reliable data that can be relied upon as inputs or indicators that support the measurement of biological assets at fair value as per the Income, replacement cost or market approach of IFRS 13 – Fair Value Measurement. If such data are available in the future, the Company will adjust the measurement of the biological assets to fair value rather than cost. Depreciation is calculated on a straight-line basis over the estimated useful lives of (5 years).

#### I. Intangible Assets

Internally generated Intangible Assets, excluding capitalized development costs, are not capitalized and the related expenditure is recognized in the Statement of Profit or Loss when it is incurred.

Intangible Assets are recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably. Amortization is calculated on a straight-line basis over the estimated useful lives of the assets i.e., 5-10 years.

Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each reporting year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the Statement of Profit or loss in the expense category consistent with the function of the intangible assets.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit or loss when the asset is derecognized.

#### J. Trade and Other Payables

Trade and Other payables are recognized based on the net payable amount or the expected payment for goods and services received whether invoiced by supplier or not.

#### K. Provisions

Provision is recognized if, and only if a present obligation (legal or constructive) has arisen as a result of a past event (the obligating event), payment is probable ('more likely than not'), and when the amount can be estimated reliably. An obligating event is an event that creates a legal or constructive obligation and, therefore, results in an entity having no realistic alternative but to settle the obligation. The amount recognized as a provision is the best estimate of the expenditure required to settle the present obligation at the reporting date. Provisions are reviewed at the end of each reporting year and adjusted to reflect the current best estimate.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a Contingent Liability, unless the probability of outflow of economic benefits is unreliable. Contingent liabilities, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company, are not recognized in the financial statements but are disclosed as Contingent Liabilities unless the possibility of an outflow of economic resources is considered unreliable.

#### L. Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### As a lessee

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

#### L. Leases— (Continued)

#### As a lessee (continued)

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

#### Short-term leases and leases of low-value assets

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### M. Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset (an asset that necessarily takes a substantial period of time to get ready for its intended use or sale) form part of the cost of that asset. No borrowing costs are capitalized during idle periods.

All other borrowing costs are recognized as an expense in the Statement of Profit or Loss.

#### N. Segment Reporting

An operating segment is a group of assets and processes that deliver products or services that are subject to risks and rewards that differ from those of other operating segments. Operating segments are segmented according to their geographical scope and each sector's performance is reviewed by the Company's decision makers. These sectors may operate within a specific economic environment that is subject to risks and rewards different from those of sectors operating in other economic environments.

#### O. Government Grants

Government grants, including non-monetary grants at fair value, shall not be recognized until there is reasonable assurance that, the entity will comply with the conditions attaching to them; and the grants will be received. When the grant relates to an expense item, it is recognized in Statement of Profit or Loss on a systematic basis over the periods that the costs which it is intended to compensate, are expensed. Where the grant relates to an asset, it is recognized on Statement of Financial Position as Deferred Income and is amortized in equal amounts over the expected useful life of the related asset.

The Company has elected to present the grant in the Statement of Financial Position as deferred income, which is recognized in Statement of Profit or Loss on a systematic and rational basis over the useful life of the asset. When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value and released to Statement of Profit or Loss over the expected useful life of the asset, based on the pattern of consumption of the benefits of the underlying asset.

#### P. Statutory Reserve

In accordance with the Regulations for Companies in Kingdom of Saudi Arabia and Company's Articles of Association, the Company is required to transfer 10% of its Net Income (Profit for the year) to a statutory reserve until such reserve equals 30% of its Share Capital. This Statutory Reserve is not available for distribution to shareholders. However, it can be used to cover the Company's losses or to increase its Capital.

#### Q. Impairment of Non-Financial Assets

Non-financial assets (other than biological assets measured at fair value, inventories) are reviewed by the Company at each reporting date to identify circumstances indicating occurrence of impairment loss or reversal of impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss or reversal of impairment loss (if any). Recoverable amount is the higher of fair value less costs to sell and value in use. It is determined for an individual asset, when it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit (CGU) to which the asset belongs. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of sell, recent market transactions are considered. If no such transactions can be identified, an appropriate valuation model is used.

#### R. Foreign Currency Transaction

Foreign currency transactions are translated to Saudi Riyal ('SAR') at the exchange rates prevailing at the dates of the respective transactions. At Statement of Financial Position date, balances of monetary assets and liabilities denominated in foreign currencies are translated to Saudi Riyal ('SAR') at the prevailing exchange rates on that date. Gains and losses resulting from changes in exchange rates are recognized in the Statement of Profit or Loss.

#### S. Revenue Recognition

Revenue represents the fair value of the consideration received or receivable for goods sold, net of returns, trade discounts and volume rebates. The Company recognizes revenue when a customer obtains control of the goods at a point in time i.e. on delivery and acknowledgement of goods.

Products are sold principally on a sale or return basis. Allowances for expected sales returns are calculated based on the forecasted return of expired products. Expected sales returns are netted off against revenue with the corresponding impact in Trade and Other Payables for cash sales and Trade Receivables for credit sales.

#### S. Revenue Recognition – (Continued)

The goods are often sold with retrospective volume discounts based on aggregate sales over a 12 months period. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A refund liability (included in trade and other payables) is recognized for expected volume discounts payable to customers in relation to sales made during the year.

#### T. Share Capital

Shares are classified as equity and are recorded at their face value. Incremental costs, if any, directly attributable to the issue of new shares, are recognized in Equity as a deduction from the proceeds.

#### **U.** Dividends

Dividends are recognized in the Financial Statements in the period in which it is approved by General Assembly Meeting.

#### V. Expenses

Selling and marketing expenses are those expenses arising from the Company's efforts underlying the marketing, selling and distribution functions. All other expenses, excluding Cost of Sales, Finance Cost and Zakat are classified as General and Administrative Expenses. Allocations between Cost of Sales, Selling and Distribution and General and Administration Expenses, when required, are made on a consistent basis.

#### W. Zakat

The Company is subject to Zakat according to the regulations of the Zakat, Tax and Customs Authority "ZATCA". Zakat provision is estimated and charged to the Statement of Profit of Loss. Any differences in the estimates are recognized when the final assessment is approved by "ZATCA", such differences are recognized in the Statement of Profit or Loss in the year in which the final assessment is approved by "ZATCA".

#### X. Employee Benefits

#### a) Saudi Employees

Pension and other social benefits for the Company's employees are covered by the applicable social insurance scheme of the countries in which they are employed and are considered as a defined contribution scheme. The employees and employer contribute monthly to the scheme on a fixed-percentage-of-salaries basis.

#### b) Foreign Employees

Foreign employees on limited-term contracts are entitled to end of service payments under the respective labour laws of the countries in which they are employed, based on length of service and final remuneration. Provision for this unfunded commitment has been made by calculating the full liability, had all employees left at the reporting date.

#### i. Defined Contribution Plan

Obligations for contributions to defined contribution plans are expensed as the related service is provided and the contributions paid in advance are recognized as an asset to the extent that the cash is recovered, or future payments reduced.

#### ii. Defined Benefit Plan

The net liability of the Company in respect of benefit plans is identified separately for each plan and is calculated by estimating the value of the future benefits realized by the employees in current and prior periods and determining that amount and the fair value discount on any of the plan's assets. The defined benefit obligations are calculated

#### X. Employee Benefits - (Continued)

#### ii. Defined Benefit Plan - (Continued)

annually by a qualified actuarial expert using the Projected Unit Credit method. Where the calculation results in potential assets of the Company, the recognized asset is limited to the present value of the economic benefits available in the form of any future recoveries from the benefit plan or reductions in future contributions to the plan. The calculation of the present value of economic benefits considers current financing requirements. The amounts of the net identifiable benefit obligations that include actuarial gains and losses, return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest) are recognized directly in Statement of Other Comprehensive Income. The Company determines the net interest expense (or income) on the Net Liabilities (Net Assets) determined for the period by applying the discount rate used to measure the obligation and benefits identified at the beginning of the annual period of the obligation (or the asset), considering any changes in net liabilities.

Net interest expense and other expense related to benefit plans are recognized in the Statement of Profit or Loss. When the benefits of the plan change or when the plan is amortized, the change in the benefits relating to the past service or the gain or loss resulting from the reduction in profit or loss is recognized immediately. The Company recognizes the gain or loss arising from settlement of the defined benefits plan when the settlement occurs.

#### iii. Other Long-Term Employee Benefits

The net obligation of the Company in respect of other long-term employee benefits is the amount of future benefits to which the employees are entitled in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in the Statement of Profit or Loss in the period in which they arise.

#### Y. Financial instruments

#### I. Non-Derivative Financial Instruments

#### a. Non-Derivative Financial Assets

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through OCI or through profit or loss), and
- Those to be measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses are either recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

The Company initially recognizes financial assets on the date that they are originated. All other financial assets are recognized initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument.

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in the transferred financial asset that is created or retained by the Company is recognized as a separate asset or liability.

Financial assets and liabilities are offset, and the net amount is presented in the Statement of Financial Position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

- Y. Financial instruments (Continued)
- I. Non-Derivative Financial Instruments (Continued)
- a. Non-Derivative Financial Assets (Continued)

The Company has the following non-derivative financial assets;

#### **Financial Assets at Amortized Cost**

Financial assets held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest (SPPI), are measured at amortized cost. Gains or losses on debt investments are subsequently measured at amortized cost and are recognized in the Statement of Profit or Loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method. The Company classifies its Trade and Other receivables and Cash and Bank Balances under this category.

#### **Financial Assets at FVOCI**

Financial assets held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI.

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the Statement of Profit or Loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to the Statement of Profit or Loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

The Company has classified its Equity investment in other Companies as FVOCI.

#### b. Non-Derivative Financial Liabilities

Financial liabilities are recognized initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled or expired. Financial assets and liabilities are offset and the net amount is presented in the Statement of Financial Position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortized cost using the effective interest method.

Non-derivative financial liabilities of the Company comprise of bank borrowings, lease liabilities and trade and other payables.

#### **II.** Derivative Financial Instruments

All derivatives do not qualify as hedging instruments and are therefore held and accounted for as trading derivatives. These derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognized in the Statement of Profit or Loss.

#### Standards issued but not yet effective

The new and amended standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these new and amended standards and interpretations, if applicable, when they become effective.

#### Amendments to IAS 1: Classification of Liabilities as Current or Non-current

In January 2020, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms

of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and must be applied retrospectively. The Company is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

#### **Definition of Accounting Estimates - Amendments to IAS 8**

In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of 'accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted as long as this fact is disclosed.

The amendments are not expected to have a material impact on the Company's financial statements.

#### Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2

In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to IAS 1 are applicable for annual periods beginning on or after 1 January 2023 with earlier application permitted. Since the amendments to the Practice Statement 2 provide non-mandatory guidance on the application of the definition of material to accounting policy information, an effective date for these amendments is not necessary.

The Company is currently revisiting their accounting policy information disclosures to ensure consistency with the amended requirements.

#### Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to IAS 12

In May 2021, the Board issued amendments to IAS 12, which narrow the scope of the initial recognition exception under IAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, at the beginning of the earliest comparative period presented, a deferred tax asset (provided that sufficient taxable profit is available) and a deferred tax liability should also be recognised for all deductible and taxable temporary differences associated with leases and decommissioning obligations.

The Company is currently assessing the impact of the amendments.

#### New and amended standards and interpretations.

The Company applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2022 (unless otherwise stated). The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

#### Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16 Leases

The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment, any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

In accordance with the transitional provisions, the Company applies the amendments retrospectively only to items of PP&E made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment (the date of initial application).

These amendments had no impact on the financial statements of the Company as there were no sales of such items produced by property, plant and equipment made available for use on or after the beginning of the earliest period presented.

#### IFRS 9 Financial Instruments - Fees in the '10 per cent' test for derecognition of financial liabilities

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. There is no similar amendment proposed for IAS 39 Financial Instruments: Recognition and Measurement.

In accordance with the transitional provisions, the Company applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment (the date of initial application). These amendments had no impact on the financial statements of the Company as there were no modifications of the Company's financial instruments during the period.

#### 4. SIGNIFICANT ACCOUNTING ESTIMATES, JUDGEMENTS AND ASSUMPTIONS

The preparation of the Company's Financial Statements requires management to make judgments, estimates and assumptions that affect the reported amounts of Revenues, Expenses, Assets and Liabilities, and the accompanying Disclosures, and the disclosure of Contingent Liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial years, are described below. The Company based its assumptions and estimates on parameters available when the Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### 4.1. Impairment of Non-Financial Assets

A non-financial asset is impaired when the carrying amount of the asset or cash-generating unit exceeds the asset's recoverable amount (which represents the fair value of the asset less costs to sell or its value in use, whichever is greater). The fair value of the asset is estimated through sales that are on a purely commercial basis for similar assets. Market prices are observable minus the incremental costs of selling the asset. The value in use is calculated based on the present value of the expected cash flows of the asset over the next five years. These expected cash flows do not include restructuring activities for which the Company is not yet committed or significant future investments that enhance the asset performance of the cash-generating unit under consideration. The recoverable amount is most sensitive to the discount rate used to calculate the cash flows as well as the expected future cash flows and the growth rate used to estimate the value in use.

22

#### 4. SIGNIFICANT ACCOUNTING ESTIMATES, JUDGEMENTS AND ASSUMPTIONS – (CONTINUED)

#### 4.2. Fair Value Measurement of Financial Instruments including derivative financial instruments

When the fair value of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be measured based on quoted prices in active markets, their fair value is determined using valuation techniques including the DCF (discounted cash flows) model that includes the use of the present value of expected cash flows from such assets or using other methods as provided for in IFRS 13. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include considerations of inputs such as Liquidity risk, Credit risk and Volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments.

#### 4.3. Impairment of Non-Derivative Financial Assets

The Company recognizes loss allowances for ECLs (Expected Credit Loss) on Financial Assets measured at amortized cost i.e. Trade Receivables of the Company. The Company assesses on a forward-looking basis the Expected Credit Losses ("ECL") associated with its financial assets carried at amortized cost.

For trade receivables, the Company applies the simplified approach, which requires expected lifetime losses to be recognized from initial recognition of the receivables. To measure the expected credit losses, receivables have been grouped based on shared credit risk characteristics and the days past due. Expected loss rates were derived from historical information of the Company and are adjusted to reflect the expected future outcome which also incorporates forward looking information for macroeconomic factors such as inflation and gross domestic product growth rate. Other financial assets such as employees' receivables, bank balances have low credit risk and the impact of applying ECL is immaterial.

#### 4.4. Provision for Slow Moving Inventory Items

The management makes a provision for slow moving and obsolete inventory items. Estimates of net realizable value of inventories are based on the most reliable evidence at the time the estimates are made. These estimates take into consideration fluctuations of price or cost directly related to events occurring subsequent to the Statement of Financial Position date to the extent that such events confirm conditions existing at the end of year. (Note 20)

#### 4.5. Useful Lives of Property, Plant and Equipment

The management determines the estimated useful lives of Property, Plant and Equipment for calculating depreciation. This estimate is determined after considering expected usage of the assets and physical wear and tear. Management reviews the residual value and useful lives annually and change in depreciation charges are adjusted in current and future periods, if any.

#### 4.6. Judgements

The Company has evaluated its Biological Assets at cost as there is no active market to obtain the fair value of these assets and there are no indications that fair value can be reliably determined. Equity Investments are measured at fair value and any changes in fair value are recognized through OCI. The cumulative change in the fair value of those investments is reported under Other Reserves under Equity in Statement of Financial Position. (Note 16,18 and 19).

#### 5. OPERATING SEGMENTS

IFRS 8 requires operating segments to be identified based on internal reports that are regularly reviewed by the Company's executive management and used to allocate resources to segments and assess their performance. The operating segments described below has been prepared in accordance with IFRS 8. The Company operates in two main business segments: Manufacturing of Dairy and Foods and Production of Agricultural Products. Most of the Company's revenues, profits and assets relate to its operations in Saudi Arabia and arise from these reportable business segments. The executive management monitors the operational results of these operating segments separately for making decisions about resource allocation and performance evaluation. The performance of the segment is evaluated on a profit or loss basis and is measured in a manner consistent with the profit or loss recognized in the Financial Statements.

The following is a summary of the operating segments as at and for the year ended 31 December 2022

			Elimination of Inter-	
	Dairy and Food	Agriculture	Segment Sales	Total
	SAR	SAR	SAR	SAR
Revenue

The Company was granted a loan from the Saudi Agricultural Development Fund to finance and expand the olive trees and olive pressing plant in Al Jouf with the guarantee against the property and equipment of Al-Sali Center, including the land on which it is built and the additions and expansions thereof as well as some of the vehicles, machinery and equipment owned by the Company, with a net book value of SAR 26.58 Million, as at 31 December 2022 (31 December 2021: SAR 28.90 Million). (Note 28).

<sup>\*</sup> During 2021 the management has performed physical verification of fixed assets with external consultants and as result of physical verification the management identified idle assets with net book value of SAR 40.26 million and accordingly considered for impairment. Also, assets with net book value of SAR 41.41 million were not available for use and accordingly written off and reclassifications were done due to componentization of assets.

<sup>\*\*</sup> During the year, the Company recognized an impairment provision for a portion of the land occupied by Saudi Aramco in amounted to SAR 2.5 million (Note 13-2). During the year, the Company did not record any profits resulting from the dates business and there is no alternative use of date palm, accordingly, the management recognized an impairment provision of SAR 4 million.

#### 13. PROPERTY, PLANT AND EQUIPMENT – (CONTINUED)

#### 13.1 Capitalization of Borrowing Cost

The value of borrowing costs capitalized during the year ended 31 December 2022 amounted to SAR 14.34 million (31 December 2021: SAR 8.3 million). Effective interest rate was used to determine the amount of borrowing cost eligible for capitalization. (Refer Note 27).

#### 13.2 Land

The following matters related to Lands held by the Company at the reporting date:

#### Land under the Company's control but pending transfer of legal title

The details of the land and government grant are as follows:

The Company originally received certain area of land in Hail, Wadi Al Dawasir and Al Jouf as a conditional non-monetary grant under the Ministry of Environment, Water and Agriculture under the Royal Order M/41 issued on 17 Shawwal 1401H (corresponding to 17 August 1981) hereinafter referred to as "Royal Order of 1981" which stated that the Company will be entitled to the ownership of the land which is revived by the Company. Until 31 March 2020, the Company had recognized portion of these lands at a value of SAR 120.86 million for which the conditions of the grant were met.

On 2 Dhul-Qadah 1441H (corresponding to 23 June 2020), the Company received a letter from Ministry of Environment, Water and Agriculture under number 600/1057/1438 regarding issuance of Royal Order No. 58378 dated 28 Shawwal 1441H (corresponding to 20 June 2020) hereinafter referred to as "Royal Order of 2020" confirming the land which the Company has right to own.

Based on the Royal Order of 2020, the Company has recorded the additional land granted for Al Jouf and Wadi Al Dawasir at its current fair value and has derecognized the unconfirmed land area of Hail from the books which has resulted in a net gain of SAR 111.8 million and have increased the carrying value of land to SAR 232.67 million during the year 2020. During the year 2021, the Company received the legal titles of lands in Wadi Al Dawasir and Al Jouf.

During the current year, the Company received the legal title of the land in Hail as well.

#### Land Occupied by Saudi Aramco

As per the Royal Decree number (151) dated 5 Shawwal 1401H (corresponding to 5 August 1981), The Company was granted the Haradh project. This included a piece of agricultural land, fixed and movable facilities and assets as well as the energy sources being part of the site. Notary Public at Haradh issued land title deed to the Company through title deed number (333801001781).

The Supreme Court issued its final decision on 18 Rabi ul Awal 1442H (corresponding to 4 November 2020) to cancel the previous decisions issued in favor of the Company and to cancel the title deeds issued to it. Based on discussions with the respective officials, The Company's management is reasonably certain that the legal title of the revived lands under the Company's use and control will be issued to the Company after obtaining agreements between related parties and all the approvals from related government authorities.

Consequently, when the new title deed will be issued, there will be reduction of Company's assets, due to removal of a limited portion of the land, which is currently being occupied by ARAMCO and a small piece of land in the southern area which is not suitable for agricultural production and consequently is not being used by the Company. Consequently, the Company has booked a provision amounted SAR 2.5 million (note 13)

#### 16. BIOLOGICAL ASSETS (NON-CURRENT)

The Company's Biological Assets consist of the dairy herd, which are classified as milk producing cows or non-milk producing cows. The non-productive cows include milk cows, which are raised up to the production stage. Such herd on the production of raw milk are converted into the category of productive cows and are depreciated at an estimated useful life of five years. Their value increases as they age, based on milk production or production of offspring. The cattle breeding is exposed to disease risk. Therefore, the Company separates all the other farms and activities from cattle farms to prevent the transmission of diseases to the herd, and the herd is subject to very strict medical standards and precautionary measures are in place to prevent such diseases from transmission or infection.

The Company's Biological Assets as at 31 December 2022 and their changes during the year, and the comparative amounts are as follows;

#### 27.2 Agricultural Development Fund Loan

The Company was granted a loan from the Agricultural Development Fund under number 803405009 dated 24 Jumada II 1433H (corresponding to 5 May 2012) with a total value of SAR 8.35 million. This loan is secured by a mortgage of specific land owned by the Company along with building on it and any new additions and expansions. Annual installments started from 4 Muharram 1440H (corresponding to 14 September 2018) and ending on 4 Muharram 1449H (corresponding to 8 September 2027), the loan amount was used to finance the irrigation netting pivots of olive seedlings. The Company paid SAR 4.16 million out of the total loan as at 31 December 2022.

The Company was granted another loan on 1 Dhul Qa'da 1433H (corresponding to 17 September 2012 with a total value of SAR 1.6 million under Loan number 803805048. This loan is secured by mortgage on cars, machines and equipment owned by the Company. This loan is payable on annual installments basis starting from 1 Dhul al-Qa'da 1436H (corresponding to 15 August 2015) and ending on 1 Dhul al-Qa'da 1445H (corresponding to 8 May 2024). This loan was fully utilized in Olive project. The Company paid SAR 1.25 million out of the total loan as at 31 December 2022.

On 22 Rabi Al-Thani 1444H (Corresponding to 16 November 2022), the Company was granted short-term loan of SAR 93.3 million for a period of one year. This loan is secured by Inventory owned by the Company. The effective date of this loan starting from 28 Rabi Al-Awwal 1445H (corresponding to 13 October 2023)

The balance of these loans from Agricultural Development Fund on 31 December 2022 amounted to SAR 97.7 million (31 December 2021: SAR 5.5 million).

#### 28. EMPLOYEE BENEFITS OBLIGATION

The entity operates a defined benefit plan (as defined in IAS 19) to provide a lump-sum compensation when the employee leaves the service, in line with the current labor law in the Kingdom of Saudi Arabia. The plan and its obligations are therefore more sensitive to changes in future salary increases, future withdrawal rates and the discount rate used to assess commitments, and the Company is not required to finance the plan, the plan's liabilities have been assessed using the projected credit unit method in accordance with IAS 19. Since the amount and timing of future maturities are not known currently, assumptions have been made to value the obligations relating to the past service. These assumptions have been derived using methodologies consistent with the requirements of IAS 19. Any changes in assumptions in financial, economic and demographic conditions over time, where future experience does not match established assumptions, that change is included in Other Comprehensive Income in the future financial year.

The movement in the present value of the liability for the benefits of the end of service plan of the enterprise is as follows:

	31 December	31 December
	2022	2021
	SAR	SAR
Opening balance for Employee Benefits Obligation	163,003,443	165,619,617
Interest Cost	4,543,802	4,176,210
Current Service Cost	15,308,849	17,892,038
Benefits Paid	(23,086,773)	(27,514,846)
Actuarial gain /loss in Other Comprehensive Income	(6,998,496)	2,830,424
Closing Balance for Employee Benefits Obligation	152,770,825	163,003,443

The value of the amounts that have been adjusted for the year ended 31 December 2022 and 31 December 2021 are as follows, according to the Actuarial study conducted

	31 December	31 December
	2022	2021
	SAR	SAR
Current Service cost	15,308,849	17,892,038
Interest cost	4,543,802	4,176,210
Expense charged to Statement of Profit or Loss for the year	19,852,651	22,068,248

#### 28. EMPLOYEE BENEFITS OBLIGATION – (CONTINUED)

Other comprehensive income related to the Employee Benefits Plan for the years 2022 and 2021 consists of the following items:

	31 December	31 December
	2022	2021
	SAR	SAR
Actuarial loss resulting from changes in financial assumptions	(737,149)	-
Actuarial loss/ (gain) resulting from experience adjustment	(6,261,347)	2,830,424
Actuarial loss/ (gain) in Other Comprehensive Income	(6,998,496)	2,830,424

The significant assumptions used to determine the defined benefit obligations of the employees' end of service plan are as follows:

	31 December	31 December
	2022	2021
Discount rate	4.30%	2.75%
Expected salary increase rate	5.00%	3.5%
Withdrawal from work	Age: Ratio	Age: Ratio
(Average Ratio)	18-25:18.75%	18-25:18.75%
	26-30:15.00%	26-30:15.00%
	31-50:7.50%	31-50:7.50%
	+51:3.75%	+51:3.75%

#### 29. TRADE AND OTHER PAYABLES

	31 December	31 December
	2022	2021
	SAR	SAR
Trade Creditors	452,222,391	495,794,383
Accrued Expenses	128,653,169	140,244,891
Employee Benefits	60,910,897	44,581,842
Payable to Related Parties	11,266,109	6,242,750
Advances from Customers	7,014,307	5,634,187
Other Payables	18,363,980	21,402,776
	678,430,853	713,900,829

#### 30. DIVIDEND PAYABLES

Below table represents the movement in the Dividend Payables.

	SAR
Balance as at 01 January 2021	33,130,736
Paid during the year 2021	(320,958)
Balance as at 31 December 2021	32,809,778
Paid during the year 2022	(229,455)
Balance as at 31 December 2022	32,580,323

#### 31. PROVISION FOR ZAKAT

	31 December 2022	31 December 2021
	SAR	SAR
Opening balance	72,250,415	33,392,599
Zakat provision for current year	6,000,000	6,000,000
Zakat provision for earlier years	-	33,665,809
Zakat on Crops (Sudan)	2,624	35,864
Total charged to Statement of Profit or Loss	6,002,624	39,701,673
Zakat paid during the Year	(1,091,904)	(843,857)
Closing Balance	77,161,135	72,250,415

The Company obtained the final Zakat certificates for the years up to 2013 from the Zakat, Tax and Customs Authority ("ZATCA" or "the Authority"). The Authority issued Zakat assessments for the years 2014-2020, the Company objected to some of its items with the Authority and presently these objections are pending for discussion. During the current previous year the company made provision of SR 33.7 million for aforesaid years based on external consultant opinion.

#### 32. COMMITMENT AND CONTINGENCIES

#### **Capital Commitments**

Capital commitments amounted to SAR 67.78 million against contracts for the supply of property, plant and equipment as at 31 December 2022 (31 December 2021: SAR 67.36 million)

#### **Letters of credit**

The contingent liabilities against letters of credit are SAR 172.65 million as at 31 December 2022 (31 December 2021: SAR 228.31 million).

#### Letters of guarantee

The contingent liabilities against letters of guarantee are SAR 44.60 million as at 31 December 2022 (31 December 2021: SAR 54.34 million).

#### 33. FAIR VALUE

Financial Assets and Liabilities are measured at amortized cost except for Equity Investments at Fair value through Other Comprehensive Income (FVOCI) which are measured at fair value. The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under market conditions. In the absence of an active market, the asset or liability is measured in the most advantageous market for the asset or liability and relies on the perceptions of market participants to maximize the benefits of using the asset. The Company relied on valuation methods for Equity Investments at FVOCI based on the performance of similar financial assets in an active market considering the performance of the asset itself to maximize benefits from the asset.

The book value and the fair value of all the disclosed financial assets and financial liabilities does not vary significantly.

#### 34. Financial Risk Management

The Company is exposed to the following risks through its use of financial instruments:

- A. Credit Risk.
- B. Liquidity Risk.
- C. Market Risk

This note provides information on the Company's exposure to each of the above risks, the Company's objectives, policies and procedures for measuring and managing risks, and the Company's capital management. Further quantitative disclosures are included in these financial statements. The overall risk management program focuses on the unpredictability of financial markets and seeks to minimize the potential negative impact on the financial performance of the Company. Financial instruments included in the Statement of Financial Position include cash and cash equivalents, short-term investments, receivables, due from related parties, short- and long-term loans, due to related parties and accrued expenses, as well as other current liabilities.

#### 34.1 Credit Risk

Credit risk is the risk that the counter party will not meet its obligations under a financial instrument or a business contract resulting in a financial loss. The Company is exposed to credit risk from its operating activities (mainly trade receivables) and from financing activities. The financial assets subject to credit risk are set out in table below:

	31 December	31 December
	2022_	2021
	SAR	SAR
Cash and Bank Balances	112,761,952	81,918,355
Trade and Other Receivables	368,435,704	277,659,662
	481,197,656	359,578,017

#### Trade Receivables

Customer credit risk is managed by each business segment in accordance with the Company's business policy, procedures and control related to business risk management. The credit quality of the customer is assessed on the basis of an evaluation card for each customer based on the date of the customer's dealings with the Company and the extent of his obligation to pay by setting a grace period and credit limit for each customer. The Company calculates impairment losses on the basis of its estimate of losses incurred in respect of trade receivables. The main components of this provision are the expected loss element of specific customers as well as the aggregate loss element that is estimated for a group of similar customers in respect of losses that may be incurred, and which have not yet been determined. The consolidated loss provision is determined based on historical data of collection statistics for similar customers. Management believes that there is no additional allowance for credit risk required in excess of the normal decrease in receivables.

Trade Receivables consist of 84% of the balances in Saudi Arabia and 16% of the outstanding balances in the GCC as at 31 December 2022 (31 December 2021: 82% and 18% respectively).

Bank balances are kept with banks of BBB rating or higher rating banks.

#### 34.2 Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting obligations associated with financial liabilities settled through the delivery of cash or other financial assets. The Company's approach to liquidity management is to ensure, as far as possible, that it always has sufficient liquidity to meet its obligations when due in normal and difficult circumstances without incurring unacceptable losses or risking the Company's reputation. Liquidity risk may result from the inability to sell the financial asset quickly near its fair value. A significant portion of the Company's funds are in Cash and Bank balances and are readily available to cover expected operating expenses, including servicing of financial obligations. In order to improve the liquidity of the Company, the Company will develop a plan to develop working capital performance and restructure its capital components.

#### • Capital Management

Equity includes the equity of the Company's shareholders. The main objective of the Company's Capital Management is to ensure that it maintains a strong credit rating and decent capital ratios to support the Company's business and increase the value of the Company. The Company manages and adjusts the capital structure in light of changes in economic conditions and the requirements of financial commitments. To maintain or adjust the capital structure, the Company may amend dividend payments to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using the Lending Ratio (debt), which is Shareholders' Equity plus Net Debt divided by Net Debt. The Company's policy is to maintain a debt ratio between 1.8 and 2.5. The Company includes in its net debt interest bearing loans and borrowings and trade payables other credit balances less cash deposits.

	31 December	31 December
	2022	2021
	SAR	SAR
Islamic and Government Murabaha Loans	1,525,487,745	1,636,502,989
Trade and Other Payables	678,430,853	713,900,829
Employee Benefit Obligations	152,770,825	163,003,443
Provision for Zakat	77,161,135	72,250,415
Dividend Payable	32,580,323	32,809,778
Lease Liabilities	55,371,282	70,349,282
Total Debt	2,521,802,163	2,688,816,736
Cash and Bank Balances	(112,761,952)	(81,918,355)
Net Debt	2,409,040,211	2,606,898,381
Shareholders' Equity	1,295,145,709	1,195,812,698
Shareholders' Equity and Net Debt	3,704,185,920	3,802,711,079
Ratio of Borrowing (indebtedness)	1.54	1.46

To achieve this objective, the Company's capital management aims, among other things, to ensure that the financial commitments associated with interest bearing loans and advances that meet the requirements of the capital structure are met.

#### 34. FINANCIAL RISK MANAGEMENT – (CONTINUED)

#### 34.2 Liquidity Risk – (Continued)

#### Capital Management – (Continued)

In the event of a breach of compliance with these financial commitments, banks may be allowed to claim loans and bank facilities granted to the Company. There have been no violations of the financial commitments contracted with banks that lend to those loans, and in the event of such irregularities, the Company gets exemptions from banks for periods to be determined by those banks.

No changes were made in the objectives, policies and processes for capital management during the year ended 31 December 2022 and the year ended 31 December 2021.

#### 34.3 Market Risk

Market risk is the risk of changes in market prices such as foreign exchange rates, profit rates and equity prices. These risks affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable limits, while improving returns.

The Company's exposure to market risk arises from:

- Currency risk
- Interest rate risk

#### Currency Risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates

**Currency Movement vs. Saudi Riyal (SAR)** Average Fx Rate Upward Upward **Foreign Currency** % Change (Foreign Currency/ SAR) Downward Downward 2022 2021 2022 2021 SAR 252,865 Price for \$1 1.00% 3.75 3.750 (352,164)352,164 (252,865)Price for €1 1.00% 3.98 4.250 (73,372)73,372 (31,309)31,309 (425,536)425,536 (284, 174)284,174

The Company mainly trades in Saudi Riyal and US Dollars. The exchange rate fluctuations are closely monitored by management. Based on its experience, management does not believe it is necessary to hedge against the impact of foreign currency risk as most transactions are in Saudi Riyal and US Dollars. The Saudi Riyal is pegged to the US Dollar and there are no other significant foreign currency instruments other than the US Dollar and thus foreign currency risk is mitigated.

#### Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to market risk of changes in interest rates mainly relates to the Company's borrowed loans to finance working capital requirements and capital expenditures. These loans are repriced periodically, and the Company is exposed to interest rate risk related to cash flows. The Company's practice is to manage bank interest costs by improving available cash flow and reducing borrowing. When borrowing is necessary, the loan term is matched with the expected repayments. There is a regular review of bank interest rates to ensure that these risks are mitigated.

The following table shows the impact on finance cost of the Company based on interest rate movement:

	Change	Interest Rate Upward	Interest Rate Downward	
	%	Movement	Movement	
		SAR	SAR	
31 December 2022	1%	15,809,954	(15,809,954)	
31 December 2021	1%	15,636,178	(15,636,178)	

#### 35. KEY RELATED PARTIES, TRANSACTIONS AND BALANCES

Related parties in the Company include companies and business entities owned or managed by some of the Company's Board of Directors. In the normal course of business, the Company deals with these companies through contracts approved by the management.

Details of key transactions with related parties are as follows:

			Receivables/	Sales/	Payments/	Receivables/

#### **Proposal of the Board of Directors**

Dated 27<sup>th</sup> Jumada Al-Akhirah 1444H (corresponding to 20 January 2023), the Board of Directors recommended the payment of Saudi Riyal One Million and Seven Hundred Fifty Thousand as remuneration to the members of the Board of Directors. This amount is subject to the approval of shareholders during the Annual General Assembly meeting.

#### **36. SUBSEQUENT EVENTS**

In the opinion of the management, there have been no significant subsequent events since the year-end and up to the approval of these Financial Statements that require disclosure or adjustment in these Financial Statements.

#### 37. RECLASSIFICATION IN COMPARATIVE NUMBERS

Certain of the last year amounts have been reclassified to conform to the presentation in the current year.

#### 38. APPROVAL BY THE BOARD OF DIRECTORS

These Financial Statements for the year ended 31 December 2022 were approved by the Board of Directors on 27 Rajab 1444H corresponding to 18 February 2023.
