Statement of Directors' responsibilities for the preparation and approval of the consolidated interim financial statements for the quarter and six months ended June 30, 2016 (Unaudited)

The following statement, which should be read in conjunction with the independent auditor's responsibilities stated in the independent auditor's review report, set out on page 4, is made with a view to distinguish the responsibilities of management and those of the independent auditors in relation to the consolidated interim financial statements of Saudi Arabian Mining Company (Ma'aden) (the "Company") and its subsidiaries (the "Group")

Management is responsible for the preparation of the consolidated interim financial statements that present fairly the consolidated interim financial position of the Group as at June 30, 2016, the results of its operations, changes in equity and cash flows for the quarter and six months then ended, in accordance with the accounting standards issued by the Saudi Organization for Certified Public Accountants ("SOCPA").

In preparing the consolidated interim financial statements, the management is responsible for:

- selecting suitable accounting policies and applying them consistently;
- making judgments and estimates that are reasonable and prudent;
- stating whether SOCPA accounting standards have been followed, subject to any material departures disclosed and explained in the consolidated interim financial statements and
- preparing and presenting the consolidated interim financial statements on a going concern basis, unless it is inappropriate to presume that the Group will continue its business for the foreseeable future.

The management is also responsible for:

- designing, implementing and maintaining an effective system of internal controls throughout the Group;
- maintaining statutory accounting records in compliance with local legislation and accounting standards in the respective jurisdictions in which the Group operates;
- taking steps to safeguard the assets of the Group and
- detecting and preventing fraud and other irregularities.

The consolidated interim financial statements for the quarter and six months ended June 30, 2016 set out on pages 5 to 74, were approved and authorized for issue by the Board of Directors on July 18, 2016 and signed on its behalf by:

KAH
Mr. Abdullah Bin Ibrahim Al-Saadon
Authorized by the Board

Engr. Khalid Al-Mudaifer
President and
Chief Executive Officer

Mr. Darren C. Davis
Chief Financial Officer

**Independent auditor's review report to the shareholders of
Saudi Arabian Mining Company (Ma'aden)
(A Saudi Arabian Joint Stock Company)**

Scope of review

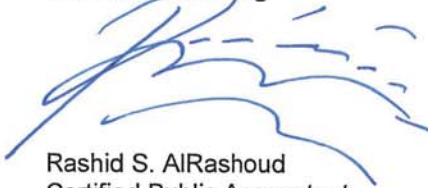

We have reviewed the accompanying consolidated interim statement of financial position of Saudi Arabian Mining Company "Ma'aden" (the "Company") and its subsidiaries (collectively referred to as the "Group") as at June 30, 2016 and the related consolidated interim statements of income and cash flows for the quarter and six month periods ended 30 June 2016, the changes in equity for the six month period then ended and the notes 1 to 50 which form an integral part of the consolidated interim financial statements. These consolidated interim financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us with all the information and explanations which we required.

We conducted our limited review in accordance with the Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants. A limited review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the consolidated interim financial statements taken as a whole. Accordingly, we do not express such an opinion.

Conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

For Ernst & Young

Rashid S. AlRashoud
Certified Public Accountant

1. General information

Saudi Arabian Mining Company ("Ma'aden") (the "Company") was formed as a Saudi joint stock company pursuant to the Council of Ministers Resolution No. 179 dated 8 Zul Qaida 1417H (corresponding to March 17, 1997) and Royal Decree No. M/17 dated 14 Zul Qaida 1417H (corresponding to March 23, 1997), with Commercial Registration No. 1010164391 dated 10 Zul Qaida 1421H (corresponding to February 4, 2001). The Company has an authorized and issued share capital of Saudi Riyals ("SAR") 11,684,782,610 divided into 1,168,478,261 ordinary shares with a nominal value of SAR 10 each (Note 30).

The objectives of the Company and its subsidiaries (the "Group") are to be engaged in various projects related to all stages of the mining industry, including development, advancement and improvement of the mineral industry, mineral products and by-products. These activities exclude:

- petroleum and natural gas and materials derived there from;
- any and all hydrocarbon substances, products, by-products and derivatives and
- activities related to all stages of the oil industry and the industries associated therewith and supplementary thereto.

The Group's principal mining activities are at the Mahd Ad' Dahab, Bulghah, Al-Amar, Sukhaybarat, As Suq, Ad Duwayhi, Al-Jalamid, Az Zabirah, Al-Ghazallah and Al Baitha mines. Currently the Group mainly mines gold, phosphate rock, bauxite, low-grade bauxite, kaolin and magnesite.

On February 14, 2012 the Board of Directors approved a plan, developed by the Company in collaboration with its joint venture partner Alcoa Inc. (Note 29), to extend the product mix of their aluminium complex, currently under construction at Ras Al-Khair, to include:

- automotive heat treated and non-heat treated sheet,
- building and construction sheet and
- foil stock sheet

2. Group structure

The Company has the following subsidiaries and jointly controlled entities, all incorporated in the Kingdom of Saudi Arabia:

Subsidiaries	Type of company	Effective ownership		
		June 30, 2016	June 30, 2015	Dec 31, 2015
Ma'aden Gold and Base Metals Company ("MGBM")	Limited liability company	100%	100%	100%
Ma'aden Infrastructure Company ("MIC")	Limited liability company	100%	100%	100%
Industrial Minerals Company ("IMC")	Limited liability company	100%	100%	100%
Ma'aden Aluminium Company ("MAC")	Limited liability company	74.9%	74.9%	74.9%
Ma'aden Rolling Company ("MRC")	Limited liability company	74.9%	74.9%	74.9%
Ma'aden Bauxite and Alumina Company ("MBAC")	Limited liability company	74.9%	74.9%	74.9%
Ma'aden Phosphate Company ("MPC")	Limited liability company	70%	70%	70%
Ma'aden Wa'ad Al Shamal Phosphate Company ("MWASPC")	Limited liability company	60%	60%	60%
Jointly controlled entities				
Sahara and Ma'aden Petrochemical Company ("SAMAPCO")	Limited liability company	50%	50%	50%
Ma'aden Barrick Copper Company ("MBCC")	Limited liability company	50%	50%	50%

The financial year end of all the subsidiaries and jointly controlled entities coincide with that of the parent company.

2.1 MGBM

The company was incorporated on August 9, 1989 in the Kingdom of Saudi Arabia. The objectives of the company are:

- the exploration and mining of gold and associated minerals within their existing mining lease area by way of drilling, mining, concentrating, smelting and refining;
- extract, refine, export and sell such minerals in their original or refined form and
- construct, operate and maintain all mines, buildings, highways, pipelines, refineries, treatment plants, communication systems, power plants and other facilities necessary or suitable for the purposes of the lease.

2.2 MIC

The company was incorporated on August 18, 2008 in the Kingdom of Saudi Arabia. The objectives of the company are to:

- manage the infrastructure project to develop, construct and operate the infrastructure and
- provide services to Ras Al-Khair area and other mining and industrial locations in the Kingdom of Saudi Arabia.

2.3 IMC

The company was incorporated on March 31, 2009 in the Kingdom of Saudi Arabia. The objectives of the company are:

- the exploitation of industrial minerals within the existing mining lease areas by way of drilling, mining, concentrating, smelting and refining and
- extract, refine, export and sell such minerals in their original or refined form.

The company currently operates a kaolin and low grade bauxite mine in the central zone of Az Zabirah and a high grade magnesite mine at Al-Ghazallah and a processing plant at Al-Madinah Al-Munawarah which partially commenced operations during 2011 and the remaining project is still in development stage.

2.4 MAC

The company was incorporated on October 10, 2010 in the Kingdom of Saudi Arabia and is owned:

- 74.9% by Saudi Arabian Mining Company ("Ma'aden") and
- 25.1% by Alcoa Saudi Smelting Inversiones S.L. ("ASSI"), a foreign shareholder, a company wholly owned by Alcoa Incorporated ("Alcoa Inc."), which is accounted for as a non-controlling interest in these consolidated interim financial statements.

The objectives of the company are the production of primary aluminium products:

- ingots;
- T-shape ingots;
- slabs and
- billets.

2.5 MRC

The company was incorporated on October 10, 2010 in the Kingdom of Saudi Arabia and is owned:

- 74.9% by Saudi Arabian Mining Company ("Ma'aden") and
- 25.1% by Alcoa Saudi Rolling Inversiones S.L. ("ASRI"), a foreign shareholder, a company wholly owned by Alcoa Incorporated ("Alcoa Inc."), which is accounted for as a non-controlling interest in these consolidated interim financial statements.

The objectives of the company are the production of:

- can body sheets and
- can ends stock.

The company is currently in its commissioning phase.

2.6 MBAC

The company was incorporated on January 22, 2011 in the Kingdom of Saudi Arabia and is owned:

- 74.9% by Saudi Arabian Mining Company ("Ma'aden") and
- 25.1% by AWA Saudi Limited ("AWA"), a foreign shareholder, which is owned 60% by Alcoa Inc. and 40% by Alumina Limited, an unrelated third party, which is accounted for as a non-controlling interest in these consolidated interim financial statements.

The objectives of the company are to:

- produce and refine bauxite and
- produce alumina.

The company is currently in its commissioning phase.

2.7 MPC

The company was incorporated on January 1, 2008 in the Kingdom of Saudi Arabia and is owned:

- 70% by Saudi Arabian Mining Company ("Ma'aden") and
- 30% by Saudi Basic Industries Corporation ("SABIC") which is accounted for as a non-controlling interest in these consolidated interim financial statements.

The objectives of the company are to:

- exploit the Al-Jalamid phosphate deposits;
- utilize local natural gas and sulphur resources to manufacture Phosphate fertilizers at the processing facilities at Ras Al-Khair and
- produce ammonia as a raw material feed stock for the production of fertilizer with the excess ammonia exported and sold domestically.

2.8 MWSPC

The company was incorporated on January 27, 2014 in the Kingdom of Saudi Arabia and is owned:

- 60% by Saudi Arabian Mining Company ("Ma'aden");
- 25% by Mosaic Phosphate B.V., a foreign shareholder, a limited liability company registered in Netherlands wholly owned by The Mosaic Company ("Mosaic") which is accounted for as a non-controlling interest in these consolidated interim financial statements and
- 15% by Saudi Basic Industries Corporation ("SABIC") which is accounted for as a non-controlling interest in these consolidated interim financial statements.

The objectives of the Company are the production of:

- Di-ammonium and Mono-ammonium phosphate fertilizer,
- ammonia,
- purified phosphoric acid,
- phosphoric acid,
- sulphuric acid and
- sulphate of potash.

2.9 SAMAPCO

The company was incorporated on August 14, 2011 in the Kingdom of Saudi Arabia and is owned:

- 50% by Saudi Arabian Mining Company ("Ma'aden") and
- 50% by Sahara Petrochemical Company.

SAMAPCO is a joint venture project and is accounted for as an investment in a jointly controlled entity under the equity method of accounting in these consolidated interim financial statements.

The objectives of the company are the production of:

- concentrated caustic soda;
- chlorine and
- ethylene dichloride.

The operations of the company includes the production and supply of:

- concentrated caustic soda ("CCS") feed stock to the alumina refinery at MBAC and to sell any excess production in the local wholesale and retail markets and
- ethylene dichloride ("EDC") in the international and local wholesale and retail markets.

SAMAPCO has started commercial production on July 1, 2014.

2.10 MBCC

The company was incorporated on November 2, 2014 in the Kingdom of Saudi Arabia and is owned:

- 50% by Saudi Arabian Mining Company ("Ma'aden") and
- 50% by Barrick Middle East PTY Limited ("Barrick").

MBCC is a joint venture project and is accounted for as an investment in a jointly controlled entity under the equity method of accounting in these consolidated interim financial statements.

The objectives of the company are the production of copper and associated minerals within their existing mining lease area by way of drilling, mining, concentrating, smelting and refining.

3. Basis of preparation

The accompanying consolidated interim financial statements have been prepared under the historic cost convention on the accrual basis of accounting and in compliance with the accounting standards promulgated by the Saudi Organization for Certified Public Accountants ("SOCPA").

The consolidated interim financial statements have been prepared in accordance with SOCPA's Standard of Interim Financial Reporting, on the basis of integrated periods, which views each interim period as an integral part of the financial year. Accordingly, revenues, gains, expenses, and losses of the period are recognized during the relevant period.

The results of the operations for an interim period may not be indicative of the annual results of the operations.

These consolidated interim financial statements are presented in SAR which is both the functional and reporting currency of the Group.

The Group has carried out impairment assessments on its cash generating units "CGUs" i.e. MAC, MRC, MBAC, MGBM, Magnesia and SAMAPCO during the year ended December 31, 2015. The Group has used the undiscounted cash flow projections as per the accounting standards generally accepted in the Kingdom of Saudi Arabia that have shown no impairment and that the undiscounted recoverable amounts were higher than the carrying amounts of the net assets involved in the CGUs.

4. Summary of significant accounting policies

The significant accounting policies applied in the preparation of these consolidated interim financial statements are set out below. These policies have been consistently applied to all quarters / periods / year presented.

4.1 Basis of consolidation

Subsidiaries

Subsidiaries are entities over which the Group has the power to govern the financial and operating policies to obtain an economic benefit, generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries. The cost of an acquisition is measured as the fair value of the assets acquired or liabilities incurred or assumed at the date of acquisition. Costs directly related to the acquisition, other than those associated with the issue of debt or equity securities that the company incurs in connection with an acquisition, are expensed as incurred and included in general and administrative expenses. The excess of the aggregate of the consideration transferred and the fair value of the minority interest over the fair value of the identifiable net assets acquired is recorded as goodwill. Goodwill arising from acquisition of subsidiaries is reported under "intangible assets" in the accompanying consolidated statement of financial position. Goodwill is tested annually for impairment and carried at cost, net of any accumulated amortization and impairment losses, if any.

Inter-company investments, transactions, balances and unrealized gains or losses on transactions between Group companies are eliminated. The accounting policies of all the subsidiaries are in consistency with those adopted by the Group.

Jointly controlled entities

A joint venture exists where the Group has a contractual arrangement with one or more parties to undertake activities typically, however not necessarily, through entities that are subject to joint control.

The Group recognises its interests in jointly controlled entities using the equity method of accounting. The Group's share of the results of joint ventures is based on the financial statements prepared up to a date not earlier than three months before the consolidated statement of financial position date, adjusted to conform with the accounting policies of the Group, if any. Intragroup gains on transactions are eliminated to the extent of the Group's interest in the investee. Intragroup losses are also eliminated unless the transaction provides evidence of impairment in the asset transferred.

4.2 Foreign currency translation

Foreign currency transactions are translated into SAR at the rates of exchange prevailing at the time of the transactions. Monetary assets and liabilities denominated in foreign currencies at the consolidated statement of financial position date are translated at the exchange rates prevailing at that date. Gains and losses from settlement and translation of foreign currency transactions are included in the consolidated statement of income.

4.3 Cash and cash equivalents

Cash and cash equivalents includes cash on hand, cash in banks and time deposits with an original maturity of three months or less at the date of acquisition, which are convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Restricted cash and cash equivalents are excluded from cash and cash equivalents for the purpose of the consolidated statement of cash flows. Restricted cash and cash equivalents are related to the following:

- cash accumulated in the debt service reserve account for the next scheduled repayment of long-term borrowings, six months prior to the due date, as per the financing agreements and
- employees' savings plan obligation

4.4 Short-term investments

Short-term investments include placements with banks and other short-term highly liquid investments with original maturities of more than three months but not more than one year from the date of acquisition.

4.5 Trade receivables

Trade receivables are carried at the original sales invoice amount less an allowance for doubtful debts (if any). An allowance for doubtful debts is established when there is objective evidence that the Group will not be able to collect all the amounts due according to the original terms of the receivables. Such allowances are charged to the consolidated statement of income and reported under "General and administrative expenses". When a trade receivable is uncollectible, it is written-off against the allowance for doubtful debts. Any subsequent recoveries of amounts previously written-off are credited against "General and administrative expenses" in the consolidated statement of income.

4.6 Inventories

Finished goods

Finished goods are measured at the lower of unit cost of production or net realizable value. The unit cost of production is determined as the total cost of production divided by the saleable unit output.

Production costs include:

- labor costs, materials and contractor expenses which are directly attributable to the extraction and processing of ore;
- the depreciation of mining properties and leases of property, plant and equipment used in the extraction and processing of ore and the amortization of any deferred stripping assets;
- production overheads and
- the revenue generated from the sale of by-products is credited against production costs.

By-products are valued at net realizable value, with reference to the spot price of the commodities ruling at the reporting date.

Work-in-process

The cost of work-in-process is determined using unit cost of production for the period based on the percentage of completion at the applicable stage and includes:

- labor costs, materials and contractor expenses which are directly attributable to the extraction and processing of ore;
- the depreciation of mining properties and leases of property, plant and equipment used in the extraction and processing of ore and the amortization of any deferred stripping assets and
- production overheads;

Ore stockpiles

Ore stockpiles represent ore that has been extracted and is available for further processing. If there is significant uncertainty as to when the stockpiled ore will be processed, the cost is expensed as incurred. Where the future processing of this ore can be predicted with confidence because it exceeds the mine's cut-off grade and is economically viable, it is valued at the lower of unit cost of production or net realizable value. Recoverable quantities and grades of stockpiles and work-in-process are assessed primarily through surveys and assays.

Spare parts, consumables and raw materials

Spare parts, consumable and raw materials are valued at the weighted average cost basis less an allowance for obsolete and slow moving items.

Net realizable value is the estimated selling price in the ordinary course of business, less the costs of completion and selling expenses.

4.7 Financial assets and liabilities

Financial assets and liabilities carried on the consolidated statement of financial position principally include cash and cash equivalents, short-term investments, trade and other receivables, projects and other payables, accrued expenses and borrowings.

A financial asset and liability is offset and net amount reported in the consolidated financial statements, when the Group has a legally enforceable right to set-off the recognized amounts and intends either to settle on a net basis, or to realize the asset and liability simultaneously.

4.8 Property, plant and equipment

Property, plant and equipment are carried at the cost less accumulated depreciation. Land is not depreciated. Depreciation is charged to the consolidated statement of income, using the straight line method or on a unit of production basis for certain mining assets and processing plants where applicable, to allocate the costs of the related assets less their residual values over the following estimated economic useful lives:

	Number of years
• Buildings	9 – 40
• Heavy equipment	5 – 40
• Mobile and workshop equipment	5 – 10
• Laboratory and safety equipment	5
• Civil works	4 – 50
• Fixed plant and heap leaching facilities	4 – 20
• Other equipment	4 – 20
• Office equipment	4 – 10
• Furniture and fittings	4 – 10
• Computer equipment	4 – 5
• Motor vehicles	4
• Mining assets	Units of production method / over the life of the mine

Maintenance and normal repairs which do not materially extend the estimated economic useful life of an asset or increase its production capacity are charged to the consolidated statement of income as and when incurred. Major renewals and improvements, if any, are capitalized and the assets so replaced are retired.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount and are included in the consolidated statement of income.

Borrowing costs related to qualifying assets are capitalized as part of the cost of the qualified assets until the commencement of commercial production.

4.9 Capital work-in-progress

Assets in the course of construction are capitalized in the capital work-in-progress account. On completion, the cost of the related asset is transferred to the appropriate category of property, plant and equipment. The cost of property, plant and equipment comprises its purchase price and any costs directly attributable to bringing it into working condition for its intended use. Costs associated with commissioning the plant are capitalized net of the proceeds from the sale of any production during the commissioning period. Capital work-in-progress is not depreciated.

4.10 Exploration and evaluation assets

Exploration expenditures are the costs incurred in the initial search for mineral deposits with economic potential or in the process of obtaining more information about existing mineral deposits. Exploration expenditures typically include costs associated with:

- acquisition of exploration rights to explore;
- topographical, geological, geochemical and geophysical studies;
- exploration drilling;
- trenching;
- sampling and
- activities in relation to evaluating the technical feasibility and commercial viability of extracting a mineral resource.

Evaluation expenditures are the costs incurred to establish the technical and commercial viability of developing mineral deposits identified through exploration activities or by acquisition. Evaluation expenditures include the cost of:

- establishing the volume and grade of deposits through drilling of core samples, trenching and sampling activities in an ore body that is classified as either a mineral resource or a proven and probable reserve;
- determining the optimal methods of extraction and metallurgical and treatment processes;
- studies related to surveying, transportation and infrastructure requirements in relation to both production and shipping;
- permitting activities and
- economic evaluations to determine whether development of the mineralized material is commercially justified, including scoping, prefeasibility and final feasibility studies.

All exploration and evaluation costs are expensed until it is concluded that a future economic benefit is more likely to be realized than not, i.e. 'probable'. The information used to make that determination depends on the level of exploration as well as the degree of confidence in the ore body. Exploration and evaluation expenditures are capitalized if management determines that probable future economic benefits will be generated as a result of the expenditures.

Exploration and evaluation expenditure relating to extensions of mineral deposits which are already being mined or developed, including expenditure on the definition of mineralization of such mineral deposits, is capitalized as mine development cost following the completion of an economic evaluation equivalent to a feasibility study.

All exploration and evaluation costs incurred after it is concluded that economic benefit is more likely to be realized than not, i.e. 'probable' are capitalized as "Exploration and evaluation assets" only until the technical feasibility and commercial viability of extracting of mineral resource are demonstrable. Once the technical and commercial viability is demonstrable i.e. economic benefit will or will not be realized, the asset is tested for impairment and any impairment loss is recognized. Based on the final technical scope, receipt of mining license and commercial feasibility, if the economic benefit will be realized and management intends to develop and execute the mine, only then is the exploration and evaluation asset reclassified to "Capital work-in progress".

Cash flows attributable to capitalized exploration and evaluation expenditures are classified as investing activities in the consolidated statement of cash flow. Once the commercial production stage is reached, the capitalized capital work-in-progress is reclassified to "Property, plant and equipment".

For the purposes of exploration and evaluation assets only, one or more of the following facts and circumstances are considered for identifying that exploration and evaluation asset may be impaired. These include the following:

- the period for which the entity has the right to explore in the specific area has expired during the period or will expire in the near future, and is not expected to be renewed.
- substantive expenditure on further exploration and evaluation of mineral resources in the specific area is neither budgeted nor planned.
- exploration for and evaluation of mineral resources in the specific area have not led to the discovery of commercially viable quantities of mineral resources and the entity has decided to discontinue such activities in the specific area.
- sufficient data exist to indicate that, although a development in the specific area is likely to proceed, the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or by sale.

Once it has been identified that exploration and evaluation asset may be impaired, the entity performs an impairment and the reversal of impairment on exploration and evaluation assets, as specified in note 4.13.

4.11 Stripping ratio and deferred stripping expense

The Group also defers waste mining costs and has estimated the average of the waste-to-ore ratio for the quantities contained within the final pit design of the mine. This average is used to calculate the annual waste mining costs to be expensed as follows:

Average ratio of waste to ore mined x Quantity of ore mined x Average unit cost of total tonnes mined

In periods when the actual costs of waste are higher than the costs expensed according to this formula, the difference is deferred to be expensed in a future period when the actual costs are less than the amount to be expensed.

4.12 Intangible assets

Intangible assets are measured at cost less accumulated amortization and accumulated impairment losses, where applicable. Intangible assets acquired as part of a business combination are capitalized where those assets are separable or arise from contractual or legal rights and their fair values can be measured reliably on initial recognition. Goodwill arising from a business combination and those intangible assets that are estimated to have indefinite lives are tested annually for impairment. Intangible assets are amortized over the shorter of their estimated economic / statutory useful lives using the straight-line method. Amortization methods, residual values and estimated economic useful lives are reviewed at least annually.

Pre-operating expenses and deferred charges deemed of having future economic benefits are capitalized as Intangible assets and are amortized when completed over seven years.

4.13 Asset impairment

The Group assesses its assets at each reporting date for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value-in-use based on the estimated future undiscounted cash flows.

Assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date. When it becomes evident that the circumstances which resulted in the impairment no longer exist, the impairment amount is reversed (with the exception of goodwill) and recorded as income in the consolidated statement of income in the quarter / period / year in which such reversal is determined.

4.14 Projects, other payables and accrued expenses

Liabilities in respect of contract costs for capital projects, including trade payables, are recognized at amounts to be paid for goods and services received. The amount recognized is the present value of the future obligations; unless they are due in less than one year.

Liabilities in respect of other payables are recognized at amounts to be paid for goods and services received.

4.15 Zakat, income tax and withholding tax

The Company is subject to zakat in accordance with the regulations of the General Authority for Zakat and Tax (GAZT). A provision for zakat for the Company and zakat related to the Company's wholly owned subsidiaries is charged to the consolidated statement of income. Differences, if any, at the finalization of final assessments are accounted for when such amounts are determined.

Foreign shareholders in subsidiaries are subject to income tax which is included in non-controlling interest in the consolidated statement of income.

The Group withholds taxes on certain transactions with non-resident parties in the Kingdom of Saudi Arabia as required under Saudi Arabian Income Tax Law.

4.16 Severance fees

Effective from year 2005 onwards, as per Article No. 71 of the Saudi Mining Investment Code issued based on the Royal Decree No. 47/M dated 20 Sha'aban 1425H (corresponding to October 4, 2004), the Group is required to pay to the Government of Saudi Arabia severance fee representing 25% of the annual net income per mining license or the equivalent of the hypothetical income tax, whichever is the lower.

The Zakat due shall be deducted from gross severance fee and the net severance fee amount is shown as part of cost of sales in the consolidated statement of income (Note 35).

4.17 Provisions

Provisions are recognized when the Group has:

- a present legal or constructive obligation as a result of a past event;
- it is probable that an outflow of economic resources will be required to settle the obligation in the future and
- the amount can be reliably estimated.

4.18 Employees' termination benefits

Employee termination benefits are payable as a lump sum to all employees employed under the terms and conditions of Saudi Labor and Workman Law on termination of their employment contracts. The liability is calculated as the current value of the vested benefits to which the employee is entitled, should the employee leave at the consolidated statement of financial position date. Termination payments are based on employees' final salaries and allowances and their cumulative years of service, as defined by the conditions stated in the laws of the Kingdom of Saudi Arabia.

4.19 Employees' savings plan program

In accordance with Article 145 of the Labor Regulations, and in furtherance to Article 76 of the Company's Internal Work Regulation approved by resolution No. 424 dated 6th of Rabi II 1420H (corresponding to July 19, 1999) issued by His Highness the Minister of Labor and Social development, a Savings Plan Program was introduced to encourage the Saudi employees of the Group to save and invest their savings in areas more beneficial to them, to secure their future and as an incentive for them to continue working with the Group.

Participation in the Savings Plan Program is restricted to Saudi Nationals only and optional with employees required to contribute a monthly minimum installment of 1% to a maximum of 15% of their basic salary subject to a minimum of SAR 300 per month.

The Group will contribute an amount equaling 10% per year of the monthly savings of each member per annum for the first year and increase it by 10% per year the years thereafter until it reaches 100% in the 10th year, which will in turn be credited to the savings accounts of the member. The Group's portion is charged to the consolidated statement of income on a monthly basis. The Group's portion will only be paid upon termination or resignation of the employee.

4.20 Mine closure and reclamation

The mining, extraction and processing activities of the Group normally give rise to obligations for mine closure or reclamation. Mine closure and reclamation works can include facility decommissioning and dismantling; removal or treatment of waste materials; site and land rehabilitation. The extent of work required and the associated costs are dependent on the requirements of current laws and regulations.

The full estimated costs are capitalized as part of mining assets under property, plant and equipment and then depreciated as an expense over the expected life-of-mine on a straight-line basis.

Adjustments to the estimated amount and timing of future closure and reclamation cash flows are a normal occurrence in light of the significant judgments and estimates involved. Factors influencing those changes include:

- revisions to estimated ore reserves, mineral resources and lives of mines;
- developments in technology;
- regulatory requirements and environmental management strategies and
- changes in the estimated extent and costs of anticipated activities, including the effects of inflation and changes in economic sustainability.

The costs for reclamation of ongoing site damage arise from rectifying work and are reported through the consolidated statement of income, as part of Cost of sales. Mine closure and reclamation costs should be provided at the present value of the expenditures expected to settle the obligation, using estimate cash flows based on current prices, without any adjustment for inflation.

The appropriate discount rate to be used should be based on the company's weighted average cost of capital or if it's not available then the borrowing rate currently available to the entity for a long term loan for a similar period for which the provision is created. The provision for Mine closure and reclamation costs will accordingly increase over time, as the discount unwinds. The unwinding of the discount is recorded as a charge through financial charges within the consolidated statement of income.

Costs arising from unforeseen circumstances, such as the contamination caused by unplanned discharges, are recognized as an expense and liability when the event gives rise to an obligation which is probable and capable of reliable estimation. The timing of the actual closure and reclamation expenditure is dependent upon a number of factors such as:

- the life-of-mine;
- developments in technology;
- the operating license conditions;
- the environment in which the mine operates and
- changes in economic sustainability.

4.21 Leasing

Leases are classified as capital leases whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under capital leases are recognized as assets of the Group at the lower of the present value of the future minimum lease payments or the fair market value of the assets at the inception of the lease. Depreciation is provided over the estimated economic useful lives of the assets.

Finance costs, which represent the difference between the total lease commitments and the lower of the present value of the future minimum lease payments or the fair market value of the assets at the inception of the lease, are charged to the consolidated statement of income over the term of the relevant lease in order to produce a constant periodic rate of return on the remaining balance of the obligation for each accounting year.

Rentals payable under operating leases are charged to consolidated statement of income on a straight-line basis over the term of the operating lease.

4.22 Borrowings

Borrowings are initially recognized at the proceeds received, net of transaction costs incurred, if any. Subsequent to initial recognition long-term borrowings are measured at amortized cost using the effective interest rate method. Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized as part of the cost of those assets. Other borrowing costs are charged to the consolidated statement of income.

Transaction costs incurred upfront which are amortized over the term of the loan, capitalized as part of the cost of the qualifying asset until the commencement of commercial production and then charged to the statement of income as an expense.

4.23 Revenue recognition

Revenue is recognized when all the following conditions are met:

- the significant risks and rewards of ownership of goods / services have been transferred to the buyer;
- neither continuing managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold, has been retained;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the sale will flow to the Group and
- the costs incurred or to be incurred in respect of the sale can be measured reliably.

Revenues are shown net of all discounts and rebates and after eliminating sales within the Group.

Sales revenue is commonly subject to an adjustment based on an inspection of the product by the customer or post assay finalization. In such cases, sales revenue is initially recognized on a provisional basis using the Company's best estimate of the product at the current market price and adjusted subsequently within revenue at the quantity and market price when finalized.

Revenue from the sale of by-products is credited against production costs.

Investment income consists of earnings on bank deposits and is recognized on an accrual basis.

4.24 Selling, marketing and logistic expenses

Selling, marketing and logistic expenses comprise of all costs for selling and marketing the Group's products and include expenses for advertising, marketing fees and other sales related overheads. Basis of allocations between selling, marketing and logistic expenses and cost of sales, when required, are made on a consistent basis.

4.25 General and administrative expenses

General and administrative expenses include direct and indirect costs not specifically part of cost of sales as required under generally accepted accounting standards. Allocations between general and administrative expenses and cost of sales, when required, are made on a consistent basis.

5. Critical accounting estimates, assumptions and judgments

The preparation of consolidated interim financial statements in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia, requires the Group's management to make estimates and assumptions that affect amounts reported in the consolidated interim financial statements and accompanying notes.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. The accounting estimates will, by definition, seldom equal the related actual results.

5.1 Critical judgements in applying accounting standards

The following critical judgements have the most significant effect on the amounts recognized in the consolidated interim financial statements:

- economic useful lives of property, plant and equipment;
- impairment and reversal of impairment of assets and
- zakat and income taxes

Economic useful lives of property, plant and equipment

The Group's mining assets, classified within property, plant and equipment, are amortized on a straight-line basis over the lesser of their economic useful lives or the life-of-mine. When determining the life-of-mine, assumptions that were valid at the time of estimation, may change when new information becomes available.

The factors that could affect the estimation of the life-of-mine include the following:

- changes in proven and probable ore reserves;
- the grade of ore reserves varying significantly from time to time;
- differences between actual commodity prices and commodity price assumptions used in the estimation and classification of ore reserves;
- unforeseen operational issues at mine sites and
- changes in capital, operating, mining, processing and reclamation costs, discount rates could possibly adversely affect the economic viability of ore reserves.

Any of these changes could affect prospective depreciation of mining assets and their carrying value. The economic useful lives of non-mining property, plant and equipment is reviewed by management periodically. The review is based on the current condition of the assets and the estimated period during which they will continue to bring economic benefit to the Group.

Impairment and reversal of impairment of assets

The Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets are impaired or whether there is any indicator that an impairment loss recognized in previous years may no longer exist or may have decreased.

Zakat and income taxes

During the period ended June 30, 2016 an amount of SAR 44,082,363 was paid to GAZT pertaining to the year ended December 31, 2015 (during the period ended June 30, 2015 an amount of SAR 54,147,978 was paid to GAZT pertaining to the year ended December 31, 2014).

No zakat assessments were finalized by the GAZT and where the final zakat outcome of these matters is different from the amounts that were initially paid, such differences will impact the zakat provisions in the quarter / period / year in which such determinations are made.

5.2 Key sources of estimation uncertainty

The following are the key sources of estimation uncertainty that have a significant risk of causing a material adjustment to the carrying amounts of the assets and liabilities within the next financial year:

- ore reserve and mineral resource estimates;
- mine closure and environmental obligation;
- allowances and
- contingencies

Ore reserve and mineral resource estimates

There is a degree of uncertainty involved in the estimation and classification of ore reserves and mineral resources and corresponding grades being mined or dedicated to future production. Until ore reserves or mineral resources are actually mined and processed, the quantity of ore reserve and mineral resource grades must be considered as estimates only. What is more, the quantity of ore reserves and mineral resources may vary depending on, amongst other things, metal prices and currency exchange rates.

The ore reserve estimates of the Group have been determined based on management long-term commodity price, forecasts cut-off grades and costs that may prove to be inaccurate. Any material change in the quantity of reserves, grades or stripping ratio may affect the economic viability of the properties. In addition, there can be no assurance that gold recoveries or other metal recoveries in small scale laboratory tests will give the same result in larger scale tests under on-site conditions or during production.

Fluctuation in commodity prices, the results of drilling, metallurgical testing and production and the evaluation of mine plans subsequent to the date of any estimate may require estimates to be revised. The volume and grade of ore reserves mined and processed and recovery rates may not be the same as currently anticipated. Any material reductions in estimates of ore reserves and mineral resources, or of the Group's ability to extract these ore reserves, could have a material adverse effect of the Group's business, prospects, financial condition and operating results.

Mine closure and environmental obligations

The Group's mining and exploration activities are subject to various environmental laws and regulations. The Group estimates environmental obligations based on management's understanding of the current legal requirements in the various jurisdictions in which it operates, terms of the license agreements and engineering estimates. Provision is made, for decommissioning and land restoration costs as soon as the obligation arises. Actual costs incurred in future years could differ materially from the amounts provided. Additionally, future changes to environmental laws and regulations and life-of-mine estimates could affect the carrying amount of this provision.

Allowances

The Group also creates an allowance for obsolete and slow-moving spare parts. At June 30, 2016, the allowance for obsolete slow-moving items amounted to SAR 15,984,849 (June 30, 2015: SAR 15,359,183 and December 31, 2015: SAR 15,984,849) (Note 10). These estimates take into consideration fluctuations of price or cost directly relating to events occurring subsequent to the consolidated statement of financial position date to the extent that such events confirm conditions existing at the end of the year.

Contingencies

By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of such contingencies inherently involves the exercise of significant judgement and estimates of the outcome of future events.

6. Segmental information

6.1 Business segment

A business segment is a group of assets, operations or entities:

- engaged in revenue producing activities;
- results of its operations are continuously analyzed by management in order to make decisions related to resource allocation and performance assessment and
- financial information is separately available.

The Group's operations consist of the following business segments:

- **Phosphate Strategic Business Unit Segment**, consist of operations related to:
 - **MPC** – the mining and beneficiation of phosphate concentrated rock at Al-Jalamid. The utilization of natural gas and sulphur to produce phosphate fertilizers as well as ammonia products at Ras Al-Khair.
 - **IMC** – the mining of industrial minerals at a kaolin and low grade bauxite mine in the central zone of Az Zabirah and a high grade magnesite mine at Al-Ghazallah and a processing plant at Al-Madinah Al-Munawarah.
 - **MWSPC** – the development of a mine to exploit the Al-Khabra phosphate deposit. The project is in the development stage.
 - **Phosphate and Industrial Minerals division under Corporate** – related cost and exploration expenses in Ma'aden Corporate has been allocated to this segment.
 - **MIC** – is responsible for the development, construction and delivery of services to Ma'aden entities in the Ras Al-Khair area and other mining and industrial locations in the Kingdom of Saudi Arabia. Therefore, a 33% proportionate share of MIC's revenues, costs, assets and liabilities have been allocated to this segment.
- **Aluminium Strategic Business Unit Segment**, consists of the operations related to:
 - **MAC** – operates the smelter at Ras Al-Khair and it currently processes the alumina feedstock that it purchases from MBAC and Alcoa and produces aluminium products. MAC started commercial production on September 1, 2014.
 - **MRC** – in the process of constructing a rolling mill. The project is in the commissioning phase.
 - **MBAC** – the mining of bauxite at the Al-Baitha mine and the transportation thereof to its refinery at Ras Al-Khair. Both the mine and the refinery are in their commissioning phase.
 - **SAMAPCO** – a jointly controlled entity that produces concentrated caustic soda, chlorine and ethylene dichloride and supply all the required feedstock for use in the alumina refinery at MBAC, any excess production is sold in the international and domestic market. SAMAPCO started commercial production on July 1, 2014.
 - **Automotive sheet** project include automotive heat treated and non-treated sheet, building and construction sheet and foil stock sheet. The project is in the development stage (Note 1).
 - **Aluminium division under Corporate** – related cost and external sales revenue have been allocated to this segment.
 - **MIC** – is responsible for the development, construction and delivery of services to Ma'aden entities in the Ras Al-Khair area and other mining and industrial locations in the Kingdom of Saudi Arabia. Therefore, a 67% proportionate share of MIC's revenues, costs, assets and liabilities have been allocated to this segment.

6.1 Business segment (continued)

- **Precious and Base Metals Strategic Business Unit Segment**, consists of operations related to:
 - **MGBM** – that operates five gold mines, i.e. Mahd Ad Dahab, Al-Amar, Bulghah, As Suq and Ad Duwayhi (which came into commercial production on April 1, 2016) and a processing plant at Sukhaybarat which are located in different geographical areas in the Kingdom of Saudi Arabia.
 - **MBCC** – a jointly controlled entity that produces copper and associated minerals located in the southeast of Al-Madinah Al-Munawarah. MBCC started commercial production on July 1, 2016.
 - **Precious and base metals division under Corporate** – related cost and exploration expenses in Ma'aden Corporate has been allocated to this segment.

- **Corporate**
 - Is responsible for effective management and governance including funding of subsidiaries and jointly controlled entities that carry out various projects related to all stages of the mining industry, including development, advancement and improvement of the mineral industry, mineral products and by products.

6.2 Geographical segment

A geographical segment is a group of assets, operations or entities engaged in revenue producing activities within a particular economic environment that are subject to risks and returns different from those operating in other economic environments. The Group's operation is conducted only in the Kingdom of Saudi Arabia and therefore all the non-current assets of the Group is located within the Kingdom of Saudi Arabia. All the subsidiaries and jointly controlled entities included in the above consolidated numbers are incorporated in the Kingdom of Saudi Arabia.

7. Cash and cash equivalents

	<u>June 30, 2016</u>	<u>June 30, 2015</u>	<u>December 31, 2015</u>
Term deposits with original maturities equal to or less than three months at the date of acquisition			
- unrestricted	2,423,603,812	1,923,089,685	3,397,121,398
- restricted	-	308,333,736	544,554,663
Sub-total	2,423,603,812	2,231,423,421	3,941,676,061
Cash and bank balances			
- unrestricted	742,336,526	3,295,628,227	317,824,870
- restricted	55,429,062	39,747,977	48,808,593
Sub-total	797,765,588	3,335,376,204	366,633,463
Total	3,221,369,400	5,566,799,625	4,308,309,524

Restricted cash and cash equivalents are related to the following:

Cash accumulated in the debt service reserve account for the next scheduled repayment of long-term borrowings, six months prior to the due date, as per the financing agreement (Note 28.7)	-	13,685	1,539
Employees' savings plan obligation (Note 4.19 and 25.2)	55,429,062	39,734,292	48,807,054
Sub-total	55,429,062	39,747,977	48,808,593
Balance portion accumulated for the scheduled repayment of long-term borrowings, six months prior to due date, invested and included in short-term deposits with original maturities equal to or less than three months at the date of acquisition (Note 28.7)	-	308,333,736	544,554,663
Total restricted cash	55,429,062	348,081,713	593,363,256
Total unrestricted cash	3,165,940,338	5,218,717,912	3,714,946,268

8. Short-term investments

	<u>June 30, 2016</u>	<u>June 30, 2015</u>	<u>December 31, 2015</u>
Term deposits with original maturities of more than three months and less than a year at the date of acquisition	4,993,750,000	2,493,915,385	899,052,989

Short-term investments yield financial income at prevailing market rates.

9. Trade and other receivables

Prepaid insurance	32,701,338	38,804,011	44,442,651
Other prepayments	9,464,155	10,120,399	4,874,582
Sub-total	245,877,405	331,877,948	248,716,039
Non-current portion:			
Other prepayments	17,386,312	18,897,644	21,645,868
Total	263,263,717	350,775,592	270,361,907

12. Due from joint venture partners

	Notes	June 30, 2016	June 30, 2015	December 31, 2015
Due from Mosaic	43.2	450,000,000	450,000,000	450,000,000
Due from SABIC	43.2	-	270,000,000	270,000,000
Total		450,000,000	720,000,000	720,000,000

On August 5, 2013, the Company entered into an agreement with Mosaic and SABIC to jointly develop a fully integrated phosphate production facility known as the Umm Wu'al phosphate project (Note 2.8).

As per the agreement Mosaic and SABIC are liable to pay contractual dues to Ma'aden of SAR 1.44 billion in two installments and has been recorded as other income. This amount is in addition to the historical cost incurred by Ma'aden on the project. First installment, 50% of SAR 1.44 billion, was received by Ma'aden during the year ended December 31, 2013 while due from joint venture partners represents the second installment of the remaining 50% of SAR 1.44 billion which is due on June 30, 2016. The contractual dues pertaining to Mosaic were received on July 1, 2016.

SAUDI ARABIAN MINING COMPANY (MA'ADEN)
(A Saudi Arabian joint stock company)
Notes to the consolidated interim financial statements for the quarter and six months ended June 30, 2016 (Unaudited)
 (All amounts in Saudi Riyals unless otherwise stated)

Notes to the consolidated interim financial statements for the quarter and six months ended June 30, 2016 (Unaudited)
 (All amounts in Saudi Riyals unless otherwise stated)

17. Intangible assets (continued)

Intangible assets of MAC, MRC and MBAC with a net book value at June 30, 2016 of SAR 101,092,597 (June 30, 2015: 99,116,070 and December 31, 2015: SAR 85,374,130) are pledged as security to SIDF and other lenders (Note 28.9).

Intangible assets for infrastructure comprises the infrastructure and support services assets at Ras Al Khair that were transferred to Royal Commission of Jubail and Yanbu ("RCJY") as stated in the Implementation Agreement signed between Ma'aden and RCJY. The cost of the intangible assets comprises its purchase price and any costs directly attributable to bringing such assets to working condition for their intended use. Such intangible assets are carried at historical cost less accumulated amortization. Amortization is provided over the remaining period of LUSA (Land Usage and Service Agreement) term.

Trade	566,300,213	739,418,579	635,989,401
Employees	160,291,929	175,193,623	246,454,809
Accrued expenses – Alcoa Inc. (Note 43.2)	69,032,678	98,732,590	67,026,655
Finance charges	216,626,168	9,474,515	13,889,780
Total	<u>3,591,694,019</u>	<u>3,092,365,039</u>	<u>4,505,942,128</u>

Accrued expenses for projects mainly represents the contracts cost accruals in relation to MRC, MBAC and MWSPC.

Accrued expenses for Alcoa Inc. mainly represents the personnel and other cost accruals related to the Alcoa Inc. employees seconded to MAC, MRC and MBAC.

23. Zakat

23.1. Components of zakat base

The significant components of the zakat base of each company under the zakat and income tax regulation are as follows:

- shareholders' equity at the beginning of the quarter / period / year;
- provisions at the beginning of the quarter / period / year;
- long term borrowings;
- adjusted net income;
- spare parts and consumable materials:
- net book value of property, plant and equipment;
- net book value of capital work-in-progress;
- net book value of exploration and evaluation assets;
- net book value of intangible assets;
- carrying value of investment in a jointly controlled entity; and
- other items.

Zakat is calculated at 2.5% of the higher of the zakat base or adjusted net income.

23.2. Zakat payable

	Quarter ended		Six months ended		Year ended

23.4. Status of final assessments

The Company and its subsidiaries received provisional zakat certificates from the years ended December 31, 2008 to December 31, 2014, however, no zakat assessments were finalized by the GAZT.

24. Severance fees payable

	Quarter ended		Six months ended		Year ended
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015	December 31, 2015
April 1 / January 1	20,604,660	3,951,877	16,096,147	29,638,170	29,638,170
Provision for severance fees (Note 35)	287,209	3,486,439	6,568,848	7,456,901	17,934,852
Current quarter / period / year (Note 24.1)	279,806	2,816,439	6,561,445	5,618,196	16,096,147
Previous year under provision	7,403	670,000	7,403	1,838,705	1,838,705
Paid during the quarter / period / year to the authorities	(14,330,424)	(1,820,120)	(16,103,550)	(31,476,875)	(31,476,875)
June 30 / December 31	6,561,445	5,618,196	6,561,445	5,618,196	16,096,147

In accordance with the Saudi Mining Code based on the Royal Decree No. 47/M dated 20 Sha'aban 1425H (corresponding to October 4, 2004), the Group is required to pay to the Government of Saudi Arabia severance fees, representing 25% of the annual net income per mining license, as defined, or the equivalent of a hypothetical income tax, based on the annual net income, whichever is lower. The zakat due shall be deducted from this amount. Therefore the net income for each mining license registered in the name of MGBM, MPC and MBAC is subject to severance fees.

Severance fees are paid by IMC, the registered holder of a small mining license, at a fixed tariff per tonnes sold of low grade bauxite, kaolin and magnesite.

Severance fees are shown as part of cost of sales in the consolidated interim statement of income.

24.1. Provision for severance fees consists of:

	Quarter ended		Six months ended		Year ended
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015	December 31, 2015
Gold mines (Note 24.2)	(47,160)	2,428,705	5,822,971	4,767,660	14,323,021
Low grade bauxite	245,266	292,498	569,322	653,524	1,383,664
Kaolin	52,437	54,011	112,602	114,626	240,154
Magnesite	29,263	41,225	56,550	82,386	149,308
Total (Note 24)	279,806	2,816,439	6,561,445	5,618,196	16,096,147

24.2 The provision for severance fees payable by gold mines is calculated as follows:

	Quarter ended		Six months ended		Year ended
	June 30, 2016	June 30, 2015	June 30, 2016	June 30, 2015	December 31, 2015
Net income from operating gold mines before severance fees and zakat for the quarter / period / year	45,023,424	23,114,896	74,803,194	38,067,092	72,914,394
25% of the quarter's / period's / year's net income as defined	11,255,856	5,778,724	18,700,799	9,516,773	18,228,599

26. Obligation under capital lease

During 2013, MAC on behalf of MBAC entered in a capital lease agreement with a financial institution. The lease payments under such agreements are due in monthly installments. The amounts of future payments under the leases are as follows:

	<u>June 30, 2016</u>	<u>June 30, 2015</u>	<u>December 31, 2015</u>
Future minimum lease payments	37,705,075	53,307,175	45,506,127
Less: financial charges not yet due	<u>(4,450,845)</u>	<u>(8,528,011)</u>	<u>(6,341,750)</u>
Net present value of minimum lease payments	33,254,230	44,779,164	39,164,377
Less: Current portion shown under current liabilities	<u>(12,769,325)</u>	<u>(11,524,932)</u>	<u>(12,131,184)</u>
Long term portion of obligation under capital lease	<u>20,484,905</u>	<u>33,254,232</u>	<u>27,033,193</u>

Maturity profile

Minimum lease payment falling due during the period / year:

2015	-	7,801,050	-
2016	7,801,050	15,602,100	15,602,100
2017	15,602,100	15,602,100	15,602,100
2018	14,301,925	14,301,925	14,301,927
Total	<u>37,705,075</u>	<u>53,307,175</u>	<u>45,506,127</u>

The present value of minimum lease payments has been discounted at an effective interest rate of approximately 0.858% per month. The leased assets as at June 30, 2016 of SAR 41,149,047 (June 30, 2015: SAR 48,745,803 and December 31, 2015: SAR 44,947,425) are pledged as security to the lessor (Note 13).

The provision for mine closure and reclamation represents the full amount of the estimated future closure and reclamation costs for the various operational mining properties, based on information currently available including closure plans and applicable regulations. Future changes, if any, in regulations and cost assumptions may be significant and will be recognized when determined.

The provision for mine closure and reclamation relates to the Group's gold, bauxite, low grade bauxite, kaolin and magnesite mining activity. An updated estimation of the phosphate mine and plant closure and rehabilitation works including facility decommissioning and dismantling; removal or treatment of waste materials; site and land rehabilitation is in progress.

28.1 Facilities approved (continued)

The CTAs impose the following conditions and financial covenants on each of the borrowing legal entities of the Group and if the conditions are met, the financial institutions will provide the long-term borrowing:

- the limitation on the creation of additional liens and/or financing obligations by MAC, MRC, MBAC and MWASPC, unless specifically allowed under the CTA;
- financial ratio maintenance;
- maximum capital expenditures allowed;
- restriction on dividend distribution to shareholders and
- restriction on the term of the short-term investment with maturities of not more than six (6) months from the date of acquisition, of any Saudi Arabian commercial bank or any other international commercial bank of recognized standing.

The MFAs imposed certain conditions and special covenants which include:

- safeguarding the entities' existence as a limited liability company validly existing under the laws of the Kingdom of Saudi Arabia;
- restriction to substantial change in the general nature of company's business, unless specifically allowed under the MFA;
- restriction to enter into a single transaction or a series of transactions and whether voluntary or involuntary to sell, lease, transfer or otherwise dispose of any asset, unless specifically allowed under the MFA;
- payment obligations under MFA at all times rank at least pari passu with the claims of all its other unsecured and unsubordinated creditors except those creditors whose claims are mandatorily preferred by laws of general application to companies;
- financial ratio maintenance and
- restriction on dividend distribution to shareholders.

MAC facility

On November 26, 2012, the contracts for US Dollar procurement and Saudi Riyal procurement were revised to increase the respective facility amounts. Accordingly, the CTA was also revised to reflect the new facility arrangement.

*Facility Agents:

- Standard Chartered Bank acts as inter-creditor agent and as commercial facility agent,
- Bank Al Jazira acts as US Dollar procurement facility agent, as Saudi Riyal procurement facility agent, as US Dollar Wakala facility agent and as Saudi Riyal Wakala facility agent,
- SABB Securities Limited acts as onshore security agent and
- Riyadh Bank, London Branch acts as offshore security trustee and agent.

MRC facility

*Facility Agents:

- SABB Securities Limited acts as Onshore Security Agent and
- Riyadh Bank, London Branch acts as Offshore Security Trustee and Agent.

MBAC facility

*Facility Agents:

- HSBC Saudi Arabia Limited acts as Inter-creditor Agent and as Commercial Facility Agent,
- National Commercial bank acts as Dollar Procurement Facility Agent and Riyal Procurement Facility Agent,
- Bank Al Jazira acts as Wakala Facility Agent, HSBC Saudi Arabia Limited acts as Onshore Security Agent and
- Riyadh Bank, London Branch acts as Offshore Security Trustee and Agent.

28.1 Facilities approved (continued)

MWASPC facility

*Facility Agents:

- Islamic Development Bank and HSBC Saudi Arabia act as agents for procurement facility and
- Mizuho Corporate Bank Limited and Sumitomo Mitsui Banking Corporation act as agents for commercial facility.

Saudi Arabian Mining Company ("Ma'aden")

On December 18, 2012, the Company entered into a Shariah compliant Syndicated Revolving Credit Facility Agreement ("Murabaha Facility Agreement") and other agreements (together referred to as "financing agreements") totaling to SAR 9 billion. Final maturity for repayment of the loan is five years from the date of signing of the agreement. The facility is with a syndicate of local and international financial institutions, comprising of the following financial institutions:

- Al-Rajhi Bank
- Arab National Bank
- Bank Al-Bilad
- Bank AlJazira
- Banque Saudi Fransi
- J.P.Morgan Chase Bank, N.A., Riyadh Branch
- Riyadh Bank
- Samba Financial Group
- The National Commercial Bank
- The Saudi British Bank
- The Saudi Investment Bank

The financial covenants and conditions include the following with respect to standalone parent company only:

- EBITDA to Interest ratio shall not be less than three times otherwise dividend block will be triggered; and
- the total net debt to tangible net worth (parent company only) shall be less than or equal to three times otherwise an event of default will be triggered which is subject to a cure period of six months, or nine months if the Company has acted expeditiously to cure such breach by initiating the process for a rights issue.

MGBM Facility

The company entered into two secured loan arrangements with Saudi Industrial Development Fund ("SIDF"). The facilities granted to the Company comprise of the following:

<u>Date approved</u>	<u>Purpose</u>	<u>Facility SAR</u>
March 24, 2015	To provide funding for the production of a semi alloy of gold at As Suq mine	179,000,000
April 26, 2015	To provide funding for the capital expenditure of the new gold mine at Ad-Duwayhi	1,200,000,000
Total facilities granted		<u>1,379,000,000</u>

The financing arrangements impose certain conditions and special covenants which include:

- the limitation of the creation of additional liens and/or financing obligations by the Company, unless specifically allowed under the loan agreement,
- financial ratio maintenance,
- maximum capital expenditures allowed,
- restriction on dividend distribution to shareholders, and
- restriction on the term of the short-term investment with maturities of not more than six (6) months from the date of acquisition, of any Saudi Arabian commercial bank or any other international commercial bank of recognized standing.

28.1 Facilities approved (continued)**MIC facility**

On December 30, 2015 the company entered into a Murabaha Facility Agreement ("MFA") with HSBC Saudi Arabia Limited, comprising of:

Murabaha facility	<u>Facility granted</u>
HSBC Saudi Arabia Limited – as agent for the Murabaha facility participants	<u>1,000,000,000</u>

The facility was drawn down on February 17, 2016.

MPC facility

On June 15, 2008 the company had entered into a CTA with a consortium of financial institutions, however, the facility had been repaid in full from a drawing on March 30, 2016 under a new MFA signed by the company on February 25, 2016 with a Murabaha facility participants comprising of:

Murabaha facility	<u>Facility granted</u>
Riyad Bank – as agent for the Murabaha facility participants	<u>11,493,750,000</u>

The details of the CTA signed on June 15, 2008 were as follows:

Public Investment Fund ("PIF")	4,000,001,250
--------------------------------	---------------

Islamic and commercial banks

Banque Saudi Fransi – as agent for the procurement facility participants	4,269,892,500
Mizuho Corporate Bank Limited – as agent for the commercial facility participants	1,491,562,500
Al-Rajhi Bank	2,343,750,000
The Export Import Bank of Korea	1,500,000,000
Korea Export Insurance corporation	<u>750,000,000</u>

Sub-total	10,355,205,000
------------------	-----------------------

Saudi Industrial Development Fund ("SIDF")	600,000,000
--	-------------

Total facilities granted	<u>14,955,206,250</u>
---------------------------------	------------------------------

28.2 Facilities utilized under the different CTAs

MPC facility

This loan was repaid in full on February 25, 2016.

	June 30, 2016	June 30, 2015	December 31, 2015
Public Investment Fund	2,668,800,835	3,001,600,938	3,001,600,938
Less: Repaid during the period / year	2,668,800,835	166,400,051	332,800,103
Sub-total (Note 43.2)	-	2,835,200,887	2,668,800,835

The rate of commission on the principal amount of the loan drawdown and outstanding for each commission period was LIBOR plus 0.5% per annum.

Loan repayment started on June 30, 2012, on a six monthly basis, in equal principal repayments of SAR 166.4 million, with the final repayment of SAR 172.8 million on December 31, 2023 (Note 28.7).

Syndicated Revolving Credit Facility	640,000,000	226,666,667	-
Total	14,133,638,515	11,787,773,212	12,106,410,132

28.9 Security

The following assets were pledged as security for these long-term borrowings in accordance with the applicable CTAs:

	June 30, 2016	June 30, 2015	December 31, 2015
Property, plant and equipment (Note 13)	21,685,743,425	36,424,163,607	35,706,647,560
Capital work-in-progress (Note 14)	40,613,187,653	28,405,794,656	37,197,115,376
Intangible assets (Note 17)	101,092,597	99,116,070	85,374,130
Total	62,400,023,675	64,929,074,333	72,989,137,066

29. Due to joint venture partners

	Notes	June 30, 2016	June 30, 2015	December 31, 2015
Due to Alcoa Inc.*	43.2	306,790,113	275,760,238	300,703,363
Due to Mosaic **	43.2	4,940,178	203,949,242	14,983,460
Due to SABIC **	43.2	-	112,489,397	-
Total		311,730,291	592,198,877	315,686,823

*Due to Alcoa Inc. represents their share of 25.1% in the joint venture project cost to extend the product mix of the aluminium complex, currently under construction at Ras Al-Khair, to include:

- automotive heat treated and non-heat treated sheet,
- building and construction sheet and
- foil stock sheet (Note 1).

**Due to Mosaic and SABIC as at June 30, 2015 represents their capital contribution to jointly develop a fully integrated phosphate production facility at Wa'ad Al-Shamal Mineral Industrial City, such facility was incorporated in the Kingdom of Saudi Arabia under MWSPC.

30. Share capital

	June 30, 2016	June 30, 2015	December 31, 2015
Authorized, issued and fully paid			
1,168,478,261 Ordinary shares with a nominal value of SAR 10 per share (Note 1 and 42)	11,684,782,610	11,684,782,610	11,684,782,610

31. Share premium

	June 30, 2016	June 30, 2015	December 31, 2015
525,000,000 Ordinary shares with a nominal value of SAR 10 per share, issued at a premium of SAR 10 per share	5,250,000,000	5,250,000,000	5,250,000,000
243,478,261 Ordinary shares with a nominal value of SAR 10 per share, issued at a premium of SAR 13 per share, net after transaction cost	3,141,351,697	3,141,351,697	3,141,351,697
768,478,261 Total	8,391,351,697	8,391,351,697	8,391,351,697

32. Transfer of net income

	June 30, 2016	June 30, 2015	December 31, 2015
January 1	757,911,634	697,394,239	697,394,239
Transfer of 10% of net income for the year	-	-	60,517,395
June 30 / December 31	757,911,634	697,394,239	757,911,634

In accordance with the Company's Articles of Association, the Company is required to establish a statutory reserve by apportioning 10% of its annual net income to the statutory reserve, until the statutory reserve equals or exceeds 50% of the Company's paid up share capital. Such transfer is to be made on an annual basis and the statutory reserve is not available for dividend distribution.

Total	4,401,161,175	3,100,865,548	4,821,161,175

45.1 Commitments (continued)

*Ma'aden has received a back-to-back letter of credit, for the development of the aluminium project, from Alcoa Inc. for their proportionate share of 25.1% in aluminium companies, of the total amount of letter of credits submitted by Ma'aden to the Government.

**Ma'aden guarantees to SIDF and other financial institutions for granting financing facilities as follows:

- MAC, MRC and MBAC to the extent of its shareholding of 74.9% (Note 28.1 and 28.2)
- MGBM to the extent of its shareholding of 100% (Note 28.4) and
- SAMAPCO and MBCC to the extent of its shareholding of 50%

45.2 Contingent liabilities

The Group has contingent liabilities from time to time with respect to certain disputed matters, including claims by and against contractors and lawsuits and arbitrations involving a variety of issues. These contingent liabilities arise out of the ordinary course of business. It is not anticipated that any material liabilities will be incurred as a result of these contingent liabilities. There are no material environmental obligations or decommissioning liabilities.

46. Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value risk, commission rate risk and commodity price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

46.1 Currency risk

Is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group transactions are principally in Saudi Riyals and US Dollars. Management monitors the fluctuations in currency exchange rates and believes that the currency risk is not significant.

46.2 Fair value risk

Is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction. As the Group's financial instruments are compiled under the historical cost convention, differences can arise between the book values and fair value estimates. Management believes that the fair values of the Group's financial assets and liabilities are not materially different from their carrying values.

46.3 Commission rate risk

Is the exposure to various risks associated with the effect of fluctuations in the prevailing commission rates on the Group's financial position and cash flows. The Group's commission rate risks arise mainly from its short-term investments and long term-borrowings, which are at floating rate of commission and are subject to re-pricing on a regular basis. The Group monitors the fluctuations in commission rate.

Based on the Groups net debt outstanding as at June 30, 2016, the effect on its annual net earnings of a 1% movement in the US Dollar LIBOR and SAR SIBOR commission rate would be SAR 448 million (June 30, 2015: SAR 365 million and December 31, 2015: SAR 408 million). These effects will not remain consistent throughout 2016 due to drawdown and repayment of long-term borrowing facilities.

46.4 Commodity price risk

Most of the commodities sold by the Group are priced in an active market in which prices respond to daily changes in quantities. The Group's normal policy is to sell its products at prevailing market prices. The Group does not generally believe commodity price hedging would provide long-term benefit to the shareholders.

46.5 Credit risk

Is the risk that one party will fail to discharge an obligation and cause the other party to incur a financial loss. The Group is exposed to credit risk from its operating activities (pertaining to trade receivables mainly). However, the cash collection is made at time of sales delivery and from its financing activities, including deposits with banks and financial institutions. Credit limits are established for all customers based on internal rating criteria. Outstanding trade receivables are regularly monitored and any credit concerns highlighted to senior management. Cash and short-term investments are substantially placed with commercial banks with sound credit ratings.

The Group currently has three major customers which account for sales of approximately SAR 1,540 million, representing 32% of the Group's sales for the period ended June 30, 2016 (June 30, 2015: SAR 2,231 million representing 39% of the Group's sales and December 31, 2015: SAR 4,544 million representing 41% of Group's sales from three major customers). Trade receivables are carried net of allowance for doubtful debts, if needed.

46.6 Liquidity risk

Is the risk that the Group will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at an amount close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available to meet any future commitments.

47. Events after the reporting date

On July 1, 2016, the Company announced the commencement of commercial production at Jabal Sayid copper mine of its jointly controlled entity MBCC. The mine has an estimated annual production capacity of approximately 45,000 tonnes of copper in concentrate per year over its mine life and has an estimated reserves of about 635,000 tonnes of copper concentrate. The financial impact of this event will be reflected from third quarter of 2016 onwards.

No other events have arisen subsequent to June 30, 2016 and before the date of signing of the external auditor's review report, that could have a significant effect on the consolidated interim financial statements as at June 30, 2016.

48. Comparative figures

Certain comparative figures of the previous quarter / period / year have been reclassified, wherever necessary, to conform with the current quarter's / period's presentation. Such reclassifications did not affect either the net worth or the net income of the Group for the previous quarter / period / year.

49. Contingent assets held and liabilities incurred under fiduciary administration

On January 6, 2013 MIC, a wholly owned subsidiary of Ma'aden, received an amount of USD 140 million (in a fiduciary capacity) from the Ministry of Finance of the Kingdom of Saudi Arabia, in accordance with the Council of Ministers' Resolution No 87, dated 28 Rabi ul Awal 1433H (corresponding to February 20, 2012), for the purpose of establishing an industrial city in the Northern Borders Province, by the name of "Waad Al-Shamal City for Mining Industries". The aggregate amount represents part payment of the following two amounts approved by the Council of Ministers:

- USD 500 million for the design and construction of the basic infrastructure and required utilities of the industrial city, and
- USD 200 million for the design and construction of the housing and required social facilities for the proposed industrial city.

An additional amount of USD 250 million has been received during the year ended December 31, 2014 and these amounts have been deposited in a separate bank account and does not form part of MIC's available cash resources and has been accounted for in its own standalone accounting records and has not been integrated with MIC's accounting records. Therefore the total amount received from the USD 700 million approved by the Council of Ministers, equals USD 390 million, with the remaining balance still to be received of USD 310 million. The amounts can only be utilized for the designated purpose in accordance with the Council of Ministers Resolution and replenished based on the presentation of supporting documents for the expenditures incurred, in accordance with the applicable Governments Regulations. Total net assets of the project as of June 30, 2016 amounted to SAR 1,462,500,000 (June 30, 2015: SAR 1,462,500,000 and December 31, 2015: SAR 1,462,500,000).

SAUDI ARABIAN MINING COMPANY (MA'ADEN)
(A Saudi Arabian joint stock company)

Notes to the consolidated interim financial statements for the quarter and six months ended June 30, 2016 (Unaudited)

(All amounts in Saudi Riyals unless otherwise stated)

50. Detailed information about the subsidiaries and jointly controlled entities
