### INDEPENDENT AUDITOR'S REVIEW REPORT

TO THE SHAREHOLDERS OF HALWANI BROTHERS COMPANY (A SAUDI JOINT STOCK COMPANY) Jeddah - Kingdom of Saudi Arabia

### Introduction

We have reviewed the accompanying interim condensed consolidated statement of the financial position of Halwani Brothers Company - A Saudi Joint Stock Company - ("the Company") and its Subsidiary (referred together with "the Group"), as at 30 June 2023, and the related interim condensed consolidated statement of comprehensive income for the three-month and six-months period ended on June 30, 2023, and interim condensed consolidated statement of changes in shareholders' equity and cash flows for the six-month period then ended and a summary of significant accounting policies and other explanatory notes from 1 to 14 form an integral part of these interim condensed financial statements. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

### Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily to the persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, as endorsed in the Kingdom of Saudi Arabia

### 2 SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Basis of preparation

The interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" "IAS 34" which is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements. They should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2022. In addition, results for the interim period ended 30 June 2023 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2023.

The interim condensed consolidated financial statements have been prepared on a historical cost basis except for financial derivatives that have been measured at fair value and the employee benefits have been measured at the fair value of future obligation using the projected unit credit method. The interim condensed consolidated financial statements are presented in Saudi Riyals ("SR"), which is the functional and presentational currency of the Group.

## HALWANI BROTHERS COMPANY (A SAUDI JOINT STOCK COMPANY) NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

For the six-month period ended 30 June 2023

### 2 SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.5 Basis of consolidation

The interim condensed consolidated financial statements include the interim financial statements of the Company and the Subsidiary (the "Group") as of June 30, 2023. Control is achieved when the Group is exposed, or has rights, to variable returns from its transactions with the investee and has the ability to affect those returns through exercising its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).
- Exposure, or rights, to variable returns from its transactions with the investee.
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has control over an investee, including:

- The contractual arrangement(s) with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a Subsidiary begins when the Group obtains control over the Subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a Subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the it ceases to control the Subsidiary. When necessary, adjustments are made to the financial statements of the Subsidiaries to bring it's accounting policies in line with the Group's accounting policies. All intra-Group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a Subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a Subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest, and other components of equity, while any resultant gain or loss is recognized in the interim condensed consolidated statement of comprehensive income. Any investment retained is recognized at fair value.

### Below are the details of the Subsidiary:

Halwani Brothers Company (a closed Egyptian Joint stock Company)	Alsharqia - Arab Republic of Egypt	100%	100%	Manufacturing, packaging, canning and distribution of all foods.

### 11 FAIR VALUES OF FINANCIAL INSTRUMENTS

The Group's financial assets consist of cash in hand and at banks, trade and other receivables and due from related parties, while its financial liabilities consist of supplier's trade payables, Islamic Murabaha Contracts, term loans, obligation under finance leases, and due to related parties, as below:

### 11.1 Financial assets

All assets and liabilities for which fair value is measured or disclosed in the interim condensed consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

The Group enters into derivative financial instruments primarily with financial institutions that have credit ratings. The derivatives valued through technical valuation techniques with observable market data are interest rate swaps. The most widely used technical valuation techniques include price and swap models - using present value calculations.

As of June 30, 2023, and December 31, 2022, the fair values of the Group's financial instruments were estimated to approximate their book values and categorized within Level 2 of the fair value hierarchy. The fair value of financial assets as at June 30, 2023, and December 31, 2022 is the carrying value due to the fact that the balances of these receivables are short-term in nature.

There were no transfers between Level 1, Level 2, and Level 3 during the period ending on June 30, 2023 and June 30, 2022.

### 13 THE IMPACT OF THE POLITICAL SITUATION OF THE REPUBLIC OF SUDAN:

During the period, political turmoil broke out in the Republic of Sudan. This may have financial effects on many economic entities that have transactions with the Republic of Sudan, as well as on direct interests (such as suppliers, customers, investments, and lenders). The political events are constantly changing.

The main potential effects arising from the disruption of the political situation are as follows:

- Interruptions or suspension of production and closure of roads and facilities.
- Travel disturbances to the Republic of Sudan.
- Fluctuation of commodity and currency prices, which may lead to an increase in costs and expenses.
- Disruptions in banking systems and capital markets

The management closely monitors and analyzes market developments in this volatile situation. In spite of the current uncertainties, there is currently no indication of an impact on the Group's business or nonfulfillment of its obligations and future operational performance.
