Independent auditors' report

To the unitholders of Ashmore Saudi Equity Fund

Opinion

We have audited the financial statements of **Ashmore Saudi Equity Fund** ("the Fund"), managed by Ashmore Investment Saudi Arabia ("the Fund Manager"), which comprise of the statement of financial position as at 31 December 2018, the statements of comprehensive income, changes in net assets (equity) attributable to the unitholders and cash flows for the year then ended, and notes to the financial statements, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2018, and its financial performance and its cash flows for the year then ended in accordance with the International Financial Reporting Standards ("IFRS") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Certified Public Accountants ("SOCPA").

Basis for opinion

We conducted our audit in accordance with the International Standards on Auditing ("ISA") that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the financial statements* section of our report. We are independent of the Fund in accordance with the professional code of conduct and ethics that are endorsed in the Kingdom of Saudi Arabia that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Fund Manager and those charged with governance for the financial statements

The Fund Manager is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by SOCPA and to comply with the applicable provisions of the Investment Funds Regulations issued by the Capital Market Authority ("CMA"), the Fund's Terms and Conditions and the Information Memorandum and for such internal control as the Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Fund Manager either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Independent auditors' report

To the unitholders of Ashmore Saudi Equity Fund (continued)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. 'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA that are endorsed in the Kingdom of Saudi Arabia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISA that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Fund Manager.
- Conclude on the appropriateness of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, then we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit of **Ashmore Saudi Equity Fund** ("the Fund").

ASHMORE SAUDI EQUITY FUND
(An open-ended mutual fund)
Managed by
ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
For the year ended 31 December 2018

1. THE FUND AND ITS ACTIVITIES

Ashmore Saudi Equity Fund (“the Fund”) is an open-ended investment fund established and managed through an agreement between Ashmore Investment Saudi Arabia (“the Fund Manager”) and investors (“the Unitholders”). The Capital Market Authority (“CMA”) approval for the establishment of the Fund was granted in its letter dated 22 December 2014 (corresponding to 30 Safar 1436). The Fund commenced its operations on 5 January 2015.

The Fund’s investment objective is to achieve over the medium to long-term capital growth by investing in a diversified portfolio of equities of companies listed on the Saudi Stock Exchange (“the Tadawul”). The Fund benchmarks its performance to Tadawul and aims to provide comparatively better returns to the unitholders.

In dealing with the unitholders, the Fund Manager considers the Fund as an independent accounting unit. Accordingly, the Fund Manager prepares separate financial statements of the Fund.

The custodian, administrator and registrar of the Fund is HSBC Saudi Arabia.

2. REGULATORY AUTHORITY

The Fund is governed by the Investment Fund Regulations (“the Regulations”) published by CMA on 3 Dhul Hijja 1427 H (corresponding to 24 December 2006) thereafter amended (“the Amended Regulation”) on 16 Sha’ban 1437 H (corresponding to 23 May 2016), detailing requirements for all funds within the Kingdom of Saudi Arabia. The Amended Regulation came into effect on 6 Safar 1438 H (corresponding to 6 November 2016).

3. SUBSCRIPTION / REDEMPTION OF UNITS (DEALING DAY AND VALUATION DAY)

The Fund is open for subscriptions / redemptions every business day (each a “Dealing Day”) and performs valuations every Monday and Wednesday (each a “Valuation Day”). The “cut off” time for subscriptions / redemptions is 1:00pm of every Valuation Day. In case the Valuation and Dealing Day happen to fall on a day which is a public holiday in the Kingdom of Saudi Arabia, the Valuation, Dealing and Redemption Day will be on the immediate next Valuation and Dealing Day. The unit price on subscription or the unit price on redemption is represented in the Net Assets (equity) Value (“NAV”) per unit calculated by the administrator on the next Valuation Day on which the units were subscribed or redeemed for.

The NAV of the Fund for the purpose of purchase or redemption of units is calculated by subtracting from the value of the Fund’s total assets value the amount of the Fund’s total liabilities. The unit price is determined by dividing such resulting figure by the total number of outstanding units on the relevant Valuation Day. The unit price upon commencement of subscriptions was SAR 10.

ASHMORE SAUDI EQUITY FUND
(An open-ended mutual fund)
Managed by
ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
For the year ended 31 December 2018

4. BASIS OF PRESENTATION

4.1 *Statement of compliance*

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as endorsed in the Kingdom of Saudi Arabia, other standards and pronouncement issued by the Saudi Organization for Certified Public Accountants (“SOCPA”) and to comply with the applicable provisions of the Investment Funds Regulations issued by the CMA, the Fund’s Terms and Conditions and the Information Memorandum.

For all periods up to and including the year ended 31 December 2017, the Fund prepared its financial statements in accordance with the generally accepted accounting standards as issued by the SOCPA. The financial statements for the year ended 31 December 2018 are the first set of annual financial statements of the Fund prepared in accordance with IFRS and IFRS 1 First-time Adoption of International Financial Reporting Standards has been applied.

Refer to Note 16 to the financial statements for information on how the Fund’s financial statements are impacted upon the adoption of IFRS.

4.2 *Basis of measurement*

The financial statements have been prepared on a historical cost basis, (except for investments at FVTPL which are stated at their fair value) using the accrual basis of accounting.

The Fund Manager has made an assessment of the Fund’s ability to continue as a going concern and is satisfied that the Fund has the resources to continue in business for the foreseeable future. Furthermore, the Fund Manager is not aware of any material uncertainties that may cast significant doubt upon the Fund’s ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

The line items in the statement of financial position have been presented in the order of liquidity.

4.3 *Functional and presentation currency*

These financial statements are presented in Saudi Arabian Riyals (SAR), which is also the functional currency of the Fund. All financial information presented has been rounded to the nearest SAR.

Functional currency is the currency of the primary economic environment in which the Fund operates. If indicators of the primary economic environment are mixed, then management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The majority of the Fund’s investments and transactions are denominated in Saudi Riyals. Investor subscriptions and redemptions are determined based on NAV, and received and paid in Saudi Riyals. The expenses (including management fees, custodian fees and administration fees) are denominated and paid in Saudi Riyals. Accordingly, management has determined that the functional currency of the Fund is Saudi Riyals.

ASHMORE SAUDI EQUITY FUND
(An open-ended mutual fund)
Managed by
ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
For the year ended 31 December 2018

4. BASIS OF PRESENTATION (CONTINUED)

4.4 Use of estimates and judgements

The preparation of these financial statements in conformity with IFRS requires the use of certain critical accounting judgements, estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires management to exercise its judgement in the process of applying the Funds' accounting policies. Such judgements, estimates and assumptions are continually evaluated and are based on historical experience and other factors, including obtaining professional advice and expectations of future events that are believed to be reasonable under the circumstances.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

5. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated. Where policies are applicable only after or before 1 January 2018, those policies have been particularly specified.

Revenue recognition

Net gains on investments at FVTPL

Net gains from investments at FVTPL includes all realised and unrealised fair value changes and foreign exchange differences (if any), but excludes special commission and dividend income, and dividend expense on securities sold short.

Net realised gains from financial instruments at FVTPL is calculated using the weighted average cost method.

Dividend income

Dividend income is recognized in comprehensive income on the date on which the right to receive payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the shareholders approve the payment of a dividend. Dividend income from equity securities designated as at FVTPL is recognized in comprehensive income in a separate line item.

Fees and other expenses

Fees and other expenses are recognized in comprehensive income as the related services are received.

Zakat and income tax

Under the current system of taxation in Kingdom of Saudi Arabia the Fund is not liable to pay any tax. Zakat and income tax are considered to be the obligation of the unitholders and are not provided in the accompanying financial statements.

The Value Added Tax (VAT) applicable for fees and expenses are recognized in the statement of comprehensive income.

ASHMORE SAUDI EQUITY FUND
(An open-ended mutual fund)
Managed by
ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
For the year ended 31 December 2018

5. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial assets and financial liabilities

Policy applicable before 1 January 2018

Investments held for trading

Investment securities purchased for trading are initially recognized at cost on the trade date and are subsequently measured at their market values. The unrealized gains and losses from revaluation of investments held for trading and realized gains and losses from sale of investments held for trading are recognized in the statement of comprehensive income.

Financial liabilities

The Fund classifies its financial liabilities at amortised cost. All financial liabilities are recognized initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these are measured at amortized cost using the effective interest method.

Policy applicable from 1 January 2018

Recognition and initial measurement

Financial assets and financial liabilities at FVTPL are initially recognized on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument. Other financial assets are recognized on the date on which they are originated.

Financial assets at FVTPL are initially recognised at fair value, with transaction costs recognised in profit or loss. Financial assets not at FVTPL are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue.

Classification of financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost, fair value through other comprehensive income (FVOCI) or FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and commission on the principal amount outstanding.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and commission on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in FVOCI. This election is made on an investment-by-investment basis.

All other financial assets are classified as measured at FVTPL.

ASHMORE SAUDI EQUITY FUND
(An open-ended mutual fund)
Managed by
ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
For the year ended 31 December 2018

5. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial assets and financial liabilities (continued)

Business model assessment

The Fund makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and the information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual commission revenue, maintaining a particular commission rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Fund's managers;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Funds's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows are solely payments of principal and commission

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Special commission' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and commission, the Fund considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Fund considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Fund's claim to cash flows from specified assets (e.g. non-recourse asset arrangements); and
- features that modify consideration of the time value of money – e.g. periodical reset of commission rates.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Fund changes its business model for managing the financial assets.

ASHMORE SAUDI EQUITY FUND
(An open-ended mutual fund)
Managed by
ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
For the year ended 31 December 2018

5. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial assets and financial liabilities (continued)

Classification of financial liabilities

The Fund classifies its financial liabilities at amortised cost unless it has designated liabilities at FVTPL.

Derecognition

The Fund derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Fund neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in OCI is recognized in profit or loss.

Transactions in which the Fund transfers assets recognized on its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets or portion of them, the transferred assets are not derecognized. Transfers of assets with retention of all or substantially all of the risks and rewards include sale and repurchase transactions.

Transactions in which the Fund neither retains nor transfers substantially all of the risks and rewards of ownership of a financial asset and it retains control over the asset, the Fund continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

The Fund derecognises a financial liability when its contractual obligations are either discharged or cancelled, or expire.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Fund currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS, or for gains and losses arising from similar investment transactions such as in the Fund's trading activity.

Cash and cash equivalents

Cash and cash equivalents comprise deposits with banks and highly liquid financial assets with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value.

ASHMORE SAUDI EQUITY FUND
(An open-ended mutual fund)
Managed by
ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
For the year ended 31 December 2018
(Amounts in SAR)

5. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurement

When available, the Fund measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an on-going basis. The Fund measures instruments quoted in an active market at a mid price, because this price provides a reasonable approximation of the exit price.

If there is no quoted price in an active market, then the Fund uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The Fund recognises transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred.

Subscription and redemption on units

Units subscribed and redeemed are recorded at net asset (equity) value per unit on the Valuation Day for which the subscription request and redemption applications are received.

Redeemable units

The redeemable units are as equity instruments as they meet certain strict criteria. Those criteria include:

- the redeemable units must entitle the holder to a pro-rata share of net assets;
- the redeemable units must be the most subordinated class and class features must be identical;
- there must be no contractual obligations to deliver cash or another financial asset other than the obligation on the issuer to repurchase; and
- the total expected cash flows from the redeemable units over its life must be based substantially on the profit or loss of the issuer.

Net asset (equity) value

Net assets (equity) value per unit, as disclosed in the statement of financial position is calculated by dividing the net assets (equity) of the Fund by the numbers of units in issue as at the period end.

6. STANDARDS ISSUED BUT NOT YET EFFECTIVE

A number of amendments and standards are effective for the period beginning on or after 1 January 2019 and earlier application is permitted; however, the Fund has not early applied these new amendments and standard in preparing these financial statements as these do not have material impact on the Fund's financial statements.

10. TRANSACTIONS WITH RELATED PARTIES

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. The related parties of the Fund include the Fund Manager, the Fund's Board and other funds being managed by the Fund Manager. In the ordinary course of its activities, the Fund transacts business with the Fund Manager.

The Fund does not charge any subscription fee on subscription of units and redemption fees on redemption of units. Other expenses paid by the Fund Manager on the behalf of the Fund are recharged to the Fund as they are incurred.

In addition to the related party transactions disclosed elsewhere in these financial statements, the significant transactions with related parties for the period are as follows:

<u>Related party</u>	<u>Nature of transaction</u>	<u>Transactions</u>		<u>Balance</u>		
		<u>For the year ended 31 December 2018</u>	<u>For the year ended 31 December 2017</u>	<u>31 December 2018</u>	<u>31 December 2017</u>	<u>1 January 2017</u>
The Fund Manager	Management fee	366,245	226,232	29,951	26,064	17,896
The Fund Board	Board remuneration	10,000	10,000	--	--	10,000
HSBC Saudi Arabia	Custody fees	141,750	135,000	11,250	11,250	11,250

CMA fee	7,500	7,500
Tadawul charges	5,250	5,000
	90,083	96,356

14. RISK MANAGEMENT POLICIES

The Fund has exposure to the following risks from financial instruments:

- credit risk;
- liquidity risk;
- market risks; and
- operational risk

This note presents information about the Fund's objectives, policies and processes for measuring and managing risk, and the Fund's management of capital.

Risk management framework

The Fund maintains positions in non-derivative financial instruments in accordance with its investment management strategy. The Fund's investment portfolio comprises units of equity shares of listed company.

The Fund's investment manager has been given discretionary authority to manage the assets in line with the Fund's investment objectives. Compliance with the target asset allocations and the composition of the portfolio are monitored by the Fund Board on a semi-annual basis.

In instances where the portfolio has diverged from target asset allocations, the Fund's investment manager is obliged to take actions to rebalance the portfolio in line with the established targets, within prescribed time limits.

The Fund uses different methods to measure and manage the various types of risk to which it is exposed; these methods are explained below.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

The Fund is exposed to credit risk for its cash and cash equivalents and dividend receivable. The Fund Manager seeks to limit its credit risk by monitoring credit exposures and by dealing with only reputable counterparties.

The Fund's policy over credit risk is to minimize its exposure to counterparties with perceived higher risk of default by dealing only with counterparties that meet the certain credit standards.

(Amounts in SAR)

14. RISK MANAGEMENT POLICIES (CONTINUED)

Credit risk (continued)

Credit risk is monitored on a regular basis by the Fund Manager to ensure it is in line with the investment guidelines of the Fund Board.

The Fund's activities may give rise to settlement risk. 'Settlement risk' is the risk of loss due to the failure of an entity to honor its obligations to deliver cash, securities or other assets as contractually agreed.

For all of transactions, the Fund mitigates this risk by conducting settlements through a regulated broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations.

The table below shows the maximum exposure to credit risk for the components of the statement of financial position.

	31 December <u>2018</u>	31 December <u>2017</u>	1 January <u>2017</u>
Cash and cash equivalents	49,611	847,365	1,664,259
Dividend receivable	43,174	--	--
Total exposure to credit risk	<u>92,785</u>	<u>847,365</u>	<u>1,664,259</u>

The Fund does not have a formal internal grading mechanism. Credit risk is managed and controlled by monitoring credit exposures, limiting transactions with specific counterparties and continually assessing the creditworthiness of counterparties. Credit risks are generally managed on the basis of external credit ratings of the counterparties.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in releasing funds to meet commitments associated with financial liabilities.

The Fund's Terms and Conditions provide for the subscriptions and redemptions of units throughout the week and it is, therefore, exposed to the liquidity risk of meeting unitholders redemptions. As at 31 December 2018, the Fund's cash and cash equivalents, investments at FVTPL, dividend receivable are considered to be short-term in nature and readily realisable. The Fund Manager monitors liquidity requirements on a regular basis and seeks to ensure that funds are available to meet commitments as they arise.

Market risk

Market risk is the risk that changes in market prices – such as interest rates, foreign exchange rates, and credit spreads – will affect the Fund's income or the fair value of its holdings in financial instruments.

The Fund's strategy for the management of market risk is driven by the Fund's investment objective as per the Fund's Terms and Conditions. The Fund's market risk is managed on a timely basis by the investment manager in accordance with the policies and procedures in place. The Fund's market positions are monitored on a timely basis by the Fund Manager.

ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
 For the year ended 31 December 2018
(Amounts in SAR)

14. RISK MANAGEMENT POLICIES (CONTINUED)

Equity price risk

Equity price risk is the risk that the value of financial instruments will fluctuate because of changes in market prices.

The Fund's investments are susceptible to equity price risk arising from uncertainties about future prices. The Fund Manager manages this risk through diversification of its investment portfolio in terms of geographical distribution and industry concentration

Sensitivity analysis

The table below sets out the effect on equity attributable to the unitholders of a reasonably possible weakening / strengthening in the individual equity market prices of 5% at reporting date. The estimates are made on an individual investment basis. The analysis assumes that all other variables, in particular commission and foreign currency rates, remain constant.

	December 2018		December 2017	
<i>Net gain / (loss) on investments at FVTPL</i>	+ 5%	1,408,486	+ 5%	1,190,275
	- 5%	(1,408,486)	- 5%	(1,190,275)

Operational risk

Operational risk is the risk of direct or indirect loss arising from a variety of causes associated with the processes, technology and infrastructure supporting the Fund's activities either internally or externally at the Fund's service provider and from external factors other than credit, liquidity, currency and market risks such as those arising from the legal and regulatory requirements.

The Fund's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation with achieving its investment objective of generating returns to unitholders.

The primary responsibility for the development and implementation of control over operational risks rests with the Fund Board. This responsibility is supported by the development of overall standard for the management of operational risk, which encompasses the controls and processes at the service providers.

15. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market are accessible by the Fund.

Financial instruments comprise financial assets and financial liabilities. The Fund's financial assets consist of financial assets held at FVTPL, and financial assets measured at amortize cost.

(An open-ended mutual fund)
 Managed by
ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
 For the year ended 31 December 2018
(Amounts in SAR)

15. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value hierarchy

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The table below presents the Investments measured at their fair values as of reporting date based on the fair value hierarchy:

		31 December 2018				
		Carrying Value	Level 1	Level 2	Level 3	Total
Investments at FVTPL		28,169,727	28,169,727	--	--	28,169,727
Total		28,169,727	28,169,727	--	--	28,169,727
		31 December 2017				
		Carrying Value	Level 1	Level 2	Level 3	Total
Investments at FVTPL		23,805,498	23,805,498	--	--	23,805,498
Total		23,805,498	23,805,498	--	--	23,805,498
		1 January 2017				
		Carrying Value	Level 1	Level 2	Level 3	Total
Investments at FVTPL		15,571,505	15,571,505	--	--	15,571,505
Total		15,571,505	15,571,505	--	--	15,571,505

During the year, there were no transfers between the fair value levels.

The carrying amounts of the financial assets such as cash and cash equivalents and dividend receivable approximate fair value because of their short-term nature and the high credit quality of counterparties. The carrying amount of accrued expenses approximate fair value because of its short-term nature.

(Amounts in SAR)

15. EXPLANATION OF TRANSITION TO IFRS

As stated in Note 4.1, these are the Fund's first annual financial statements prepared in accordance with IFRS as endorsed in the Kingdom of Saudi Arabia.

The accounting policies set out in note 5 have been applied in preparing the financial statements for the year ended 31 December 2018, the comparative information presented in these financial statements for the year ended 31 December 2017 and in the preparation of an opening IFRS statement of financial position at 1 January 2017 (the Fund's date of transition) except for IFRS 9 as disclosed in note 17.

The transition from previous GAAP i.e. generally accepted accounting standards in the Kingdom of Saudi Arabia as issued by SOCPA to IFRSs as endorsed in the Kingdom of Saudi Arabia has no significant impact on the Fund's financial position, comprehensive income, statement of changes in net assets attributable to the Unitholders and cash flows.

Hence, no separate reconciliation statement is prepared to reconcile the Fund's financial statements from SOCPA to IFRS.

16. IMPACT OF CHANGE IN ACCOUNTING POLICIES

IFRS 9, Financial Instruments

The Fund has adopted IFRS 9 with date of transition of 1 January 2018, opting to apply exemption allowed under IFRS 1 "First-time Adoption of International Financial Reporting Standards" from retrospective application. Accordingly, comparative information has been presented under the previous GAAP.

The assessment relating to determination of business model within which a financial instrument is held and classification and measurements of all of the Fund's financial instruments have been made based on the facts and circumstances that existed at the date of transition.

As all of the Fund's investments are either held for trading and/or managed and evaluated on a fair value basis, they have remained classified as fair value through profit or loss (FVTPL) upon adoption of IFRS 9. Therefore, transition to IFRS 9 has not resulted in any change to the classification or measurement of investments, in the current period. Accordingly, no separate reconciliation statement is prepared to reconcile the financial position balances from previous GAAP to IFRS 9.

ASHMORE INVESTMENT SAUDI ARABIA
Notes to the financial statements
For the year ended 31 December 2018
(Amounts in SAR)

17. LAST VALUATION DAY

The last valuation day of the year was 31 December 2018 (2017: 31 December 2017).

19. NET ASSETS (EQUITY) VALUE

The Capital Market Authority (CMA), through its circular dated 10 Rabi Al Thani 1439H (corresponding to 28 December 2017), has approved the Dual NAV approach for investment funds. In accordance with the circular, IFRS 9 will be applied for accounting and reporting purposes and dealing NAV will remain unaffected until further notice.

20. SUBSEQUENT EVENTS

There were no significant events after the reporting period that require disclosure or adjustment in these financial statements.

21. DATE OF AUTHORISATION

These financial statements were authorised for issue by the Fund Board on 28 Rajab 1440H (corresponding to 4 April 2019).
