Introduction

Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

2. Significant accounting policies (Continued)

2.3. Basis of consolidation (Continued)

The consolidated process of the subsidiary starts when the company can control the subsidiary, while that process is discontinued when the company losses the control over the subsidiary. In particular, revenue and expenses of the acquired or disposed of subsidiary are included during the period in the statement of consolidated profit or loss and the comprehensive income from the date of the control until the date of expiry of control of the company over the subsidiary.

Statement of consolidated profit or loss and all elements of the other comprehensive income are distributed to the shareholders of the company. The total other comprehensive income of the subsidiary is also distributed to the shareholders.

If necessary, adjustments would be made to the financial statements of the subsidiary so as its accounting policies to be in conformity with those used by the group.

All transactions and balances, including assets, liabilities, equity, revenue, expenses and cash flows arising from transactions between the companies of the group upon consolidation are disposed of.

Changes in the group's equity in existing subsidiaries

Changes in the group's ownership in subsidiaries that do not lead to a loss of control are accounted for as equity transactions. The reported values of the group's equity and the non-controlling interests are adjusted to reflect changes in their ownership in the subsidiaries. Any difference between the value of the amendment of non-controlling interests and the fair value of the consideration paid or received is directly included in the equity and is attributable to the shareholders of the company.

When the group loses control of the subsidiary, any profit or loss is recognized in the consolidated income statement and calculated based on the difference between

- 1. the total fair value of the amount received and the fair value of any retained interest and,
- 2. the previously recorded book value of the assets (including goodwill), the liabilities of the subsidiary and any non-controlling interests. All amounts previously recognized in other comprehensive income related to that subsidiary are accounted for as if the group had directly disposed of the assets or liabilities of the subsidiary (i.e. reclassification to profit, loss, or transfer to another classification in equity as specified/permitted) in accordance with international standards for financial reporting.

The fair value of the percentages that are retained from the investment in the previous subsidiary at the date of loss of control is considered as a fair value for the remaining investment upon initial recognition in subsequent periods and is in accordance with IFRS 9, and in the event the company becomes an associate or a joint venture, the fair value is considered as cost for initial recognition of investment in an associate or a joint venture.

2.4. New Standards, Amendments to Standards and Interpretations

There are no new standards issued, however, there are number of amendments to standards which are effective from 1 January 2021 and has been explained in Group annual Consolidated Financial Statements, but they do not have a material effect on the Group's Condensed Consolidated Interim Financial Statements.

During the period ended September 30, 2021, there has been non-compliance of certain covenants on outstanding loans and borrowings with various banks/financial institutions. The management has obtained final approval for restructuring credit facilities by the banks/financial institutions (except SABB and SIDF - under negotiation and RIYADH BANK — approved by bank, however, documentation pending). Accordingly, as at September 30, 2021, the management did not reclassified non-current portion of loans and borrowings to current portion relating to these loans. Therefore, the non-current portion of loans and borrowings will not be called as at period end.
