Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

#### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", endorsed in the Kingdom of Saudi Arabia. A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared in all material respects in accordance in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

#### **Other Matter**

The interim condensed consolidated financial statements of the Company for the period ended 31 March 2020, were reviewed by another auditor who expressed an unmodified conclusion on those consolidated financial statements on 30 April 2020.

The reasons of issuing these resolutions vary between linking ID for the issued prepaid SIM Cards and providing promotions that have not been approved by CITC and/or other reasons. The Group had finalized its zakat and tax status up to 2008 and obtained the related certificate.

The Group had submitted its financial statements along with zakat and returns for the years 2009 to 2019 and paid zakat and withholding tax according to the filed returns.

On 18 Ramadan 1436H (corresponding to 07 July 2015G), The Group received the zakat and withholding tax assessments from General Authority of Zakat and Tax (GAZT) for the years 2009 to 2011 whereby they asked to pay an additional amount of SR 620 million of which SR 352 million are related to zakat differences and SR 267 million as withholding tax subject to delay penalty payable from the due date up to the settlement date equals to 1% for every 30 days.

Zain appealed this claim for additional payments on 27 August 2015, and was able to have the amount of SR 352 million related to zakat revoked entirely. In addition, SR 219 million of the withholding tax claim was also revoked.

#### 13 ZAKAT (Continued)

To appeal before the High Appeal Committee (HAC), The Company completed the required conditions in the Articles of the Saudi Tax Law, by paying the invoices issued by GAZT amounting SR 48 million on 16 November 2017 related to Withholding Tax (WHT) and issued a bank guarantee for the amount of SR 43 million related to the penalty generated from the delay in paying the WHT.

Based on the above, The Group received the reassessment letter for the paid amount and presented its objections before the HAC on the preliminary Appeal Committee opinion on 19 November 2017.

Zain received additional assessment for the remaining years until 2019. The company has appealed those assessments in Q1 2021.

There is no financial impact as the Group has sufficient provisions to cover these amounts.

#### 14 FAIR VALUE OF FINANCIAL ASSETS AND LIABILTIES

#### 14.1 Fair value Hierarchy

Assets and liabilities measured at fair value in the interim condensed consolidated statement of financial position are grouped into three levels of fair value hierarchy. This grouping is determined based on the lowest level of significant inputs used in fair value measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

All the financial assets and liabilities of the Company are carried at amortized cost except for derivative financial instruments. Therefore, the fair value hierarchy disclosure which requires a three-level category of fair value is not disclosed.

#### 14.2 carrying amount vs fair value

The group considers that the carrying amount of the following financial assets and financial liabilities are a reasonable approximation of their fair value:

- Cash and cash equivalents
- Trade and other receivables
- Trade and other payables
- Borrowings
- Other non-current liabilities

		31 Mar	ch 2021	31 Decem	December 2020	
	Fair value measurement hierarchy	Carrying value	Fair value	Carrying value	Fair value	
Derivative financial instruments	Level 2	178,645	178,645	206,210	206,210	

#### 14.3 Valuation techniques

These derivatives are valued using widely recognized valuation models. The Company relies on the counterparty for the valuation of these derivatives. The valuation techniques applied by the counterparties include the use of forward pricing standard models using present value calculations and mid-market valuations.

# 14 FAIR VALUE OF FINANCIAL ASSETS AND LIABILTIES (Continued)

Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, credit spreads, foreign exchange rates, and forward and spot prices.

#### **15 DERIVATIVE FINANCIAL INSTRUMENTS**

The Company entered into profit rate swaps, which matures in 2025. The maturity of the profit rate swap has been extended till the extended maturity of the refinanced loan (refer note 6-1). The notional amount of the contract as at 31 March 2021 was SR 1,827 million (31 December 2020: SR 1,827 million) and the fair value was a negative amount of SR 178 million as at 31 March 2021 (31 December 2020: SR 206 million).

The average contracted fixed interest rate ranges from 2% to 3%. A gain of SR 27.5 million was recognized in other comprehensive income for the three month period ended 31 March 2021 (31 March 2020: loss: SR 67 million) as a result of fair value movements relating to this hedge. The fair value of interest rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract.

#### 16 IMPACT OF COVID-19

The outbreak of the novel Coronavirus (Covid-19) in early 2020 in most countries has caused widespread disruptions to business and continues to evolve with a consequential negative impact on economic activities. The Group is continually monitoring its impact, while working closely with the local regulatory authorities, to manage the evolving business disruption of the COVID-19 pandemic.

In light of COVID-19, the Group has considered whether any adjustments and changes in judgments, estimates and risk management are required to be considered and reported in the condensed consolidated interim financial information. Below are the key assumptions about the future and other key sources of estimation that may have a significant risk of causing material adjustments to the condensed consolidated interim financial information.

#### Impairment of non-financial assets

The Group has performed a qualitative assessment for its investment in CGUs, considering the minimal impact of COVID-19 on entities operating in the telecommunication sector, and compared the actual results for the period against the budget and industry benchmarks to conclude that the impairment assessment as at 31 December 2020 remains largely unchanged.

The Group has also considered any impairment indicators arising and any significant uncertainties around its property, plant and equipment, intangible assets and right-of-use assets especially arising from any change in lease terms and concluded there is no material impact due to COVID-19.

#### Expected Credit Losses ("ECL") and impairment of financial assets

The Group has applied management overlays on the existing ECL models by applying probability weightage scenarios on the relevant macroeconomic factors relative to the economic climate of the respective market in which it operates. The Group continues to monitor the appropriateness of the management overlays considering evolving impact of current pandemic situation in respective location.

The projections have been prepared covering the Group's future performance, capital and liquidity. The impact of COVID-19 may continue to evolve, but at the present time the projections show that the Group has ample resources to continue in operational existence and its going concern position remains largely unaffected and unchanged from 31 December 2020. As a result, this condensed consolidated interim financial information has been appropriately prepared on a going concern basis.
