Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

## Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2022 condensed consolidated interim financial statements of Electrical Industries Company and its subsidiaries are not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting' that is endorsed in the Kingdom of Saudi Arabia.

**7. Contingencies and commitments**

- i) At 30 June 2022, the Group was contingently liable for bank guarantees and letters of credit issued in the normal course of business amounting to Saudi Riyals 676.3 million (31 December 2021: Saudi Riyals 412.9 million).
- ii) The capital expenditure contracted by the Group but not yet incurred until 30 June 2022 was approximately Saudi Riyals 3.3 million (31 December 2021: Saudi Riyals 4.6 million).

**8. Zakat assessment**

In 2020, the Group received additional zakat and withholding tax assessments for the years from 2015 to 2018 amounting to Saudi Riyals 6.4 million and Saudi Riyals 1.3 million, respectively. The Group filed appeals against such assessments with Zakat, Tax and Customs Authority (“ZATCA”), and ZATCA accepted the appeals for 2015 and 2017 in full, with partial acceptance of 2016 and 2018 objections. Accordingly, the Group filed appeals against such revised assessments related to 2016 and 2018 with the General Secretariat of Tax Committees (“GSTC”) relating to additional zakat and withholding tax assessments of Saudi Riyals 6.2 million and Saudi Riyals 0.4 million, respectively. In 2021, the GSTC issued revised assessments and reduced the Zakat and withholding tax assessments to Saudi Riyals 3.9 million and Saudi Riyals 80 thousand respectively. The Group has not accepted the revised assessments and filed appeals against GSTC decision. The Group believes that their contentions are in accordance with the applicable ZATCA regulations, and no material liability will arise upon finalization of such assessments. Accordingly, no provision for such outstanding assessments has been made in the condensed consolidated interim financial statements for the six-month period ended 30 June 2022.

**9. Fair value measurement**

The Group’s principal financial assets include cash and cash equivalents, investments classified at fair value through other comprehensive income, trade and certain other receivables that arise directly from its operations. The Group’s principal financial liabilities comprise long term and short-term loans, trade and other payables.

*Fair values hierarchy*

All financial instruments for which fair value is recognized or disclosed are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. There were no such transfers during the period and year ended 30 June 2022 and 31 December 2021 respectively.

**9. Fair value measurement (Continued)**

The table below presents the financial assets at their fair values as at 30 June 2022 and 31 December 2021 based on the fair value hierarchy:

	Carrying amount	Fair value			
		Level 1	Level 2	Level 3	Total
Financial assets at FVOCI					
As on 30 June 2022	15,496,610	196,610	-	15,300,000	15,496,610
As on 31 December 2021	15,410,544	110,544	-	15,300,000	15,410,544

As on 30 June 2022, the Group has investment of SR 15.3 million (31 December 2021: SR 15.3 million) in a non-listed company which is classified under level 3. This represents the cost of investment which approximates to its fair value as on 30 June 2022 and as on 31 December 2021.

Further, the Group has purchased shares of a listed company during the year ended 31 December 2021, which have been valued using Level 1 fair value hierarchy. Therefore the fair value is calculated with reference to the quoted price as on 30 June 2022 and 31 December 2021. The Group has recorded fair value gain of SR 0.086 million in other comprehensive income during the period ended 30 June 2022.

As at 30 June 2022 and 31 December 2021, the fair values of the Group's financial instruments, other than mentioned above, are estimated to approximate their carrying values since the financial instruments are short term in nature, carry interest rates which are based on prevailing market interest rates and are expected to be realized at their current carrying values within twelve months from the date of condensed consolidated statement of financial position. The fair values of the non-current financial liabilities are estimated to approximate their carrying values as these carry interest rates which are based on prevailing market interest rates.
