Independent Auditor's Review Report on the Condensed Interim Consolidated Financial Statements

To the shareholders of
Arab Sea Information Systems Company
(A Saudi Joint Stock Company)

Introduction:

We have reviewed the accompanying condensed interim consolidated statement of financial position of **Arab Sea Information Systems Company** (the Company) and its subsidiaries (collectively referred to as the "Group") as at September 30, 2023, and the condensed interim consolidated statement of profit or loss and other comprehensive income for the three and nine-months periods ended September 30, 2023 and the related condensed interim consolidated statements of changes in equity and cash flows for the nine months period then ended, and other explanatory notes. Management is responsible for preparation and presentation of these condensed interim consolidated financial statements in accordance with International Accounting Standard (34) "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these condensed interim consolidated financial statements based on our review.

Scope of review:

We conducted our review in accordance with International Standard on Review Engagements (2410) "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of condensed interim consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia and consequently doesn't enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

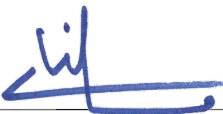

Basis for qualified conclusion:

The condensed interim consolidated statement of financial position as at September 30, 2023 includes intangible assets which certain impairment indicators were identified. Management is currently in the process of determining recoverable amount of such intangible assets. In absence of such information, we were unable to obtain sufficient and appropriate evidence about the recoverable amount of such intangible assets and if any adjustments are needed to the accompanying condensed interim consolidated financial statements as at and for the nine-month period ended September 30, 2023.

Qualified conclusion:

Based on our review, and except of the possible effect of the matter described in the basis for qualified conclusion section above, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard (34) "Interim Financial Reporting" as endorsed in the Kingdom of Saudi Arabia.

2- BASIS OF PREPARATION

2-1 Statement of compliance

The Group's condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard number (34) "Interim Financial Reporting" that are endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncement approved by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

These condensed interim consolidated financial statements do not include all the information and disclosures required for a complete set of financial statements prepared in accordance with International Financial Reporting Standards, and therefore they should be read in conjunction with the Group's annual consolidated financial statements for the year ended December 31, 2022. The results for the period are not indicative of the annual results for the Group.

2-2 Basis of measurement

These condensed interim consolidated financial statements have been prepared under historical cost basis, except for what was described in the relevant accounting policies in the annual consolidated financial statements for the year ended December 31, 2022.

2.3 Basis of consolidation

The Group re-assesses whether or not it has a control over an investee if facts and circumstance indicate that there is a change to the elements of the control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control over the subsidiary. Assets, liabilities, revenues, and expenses of the acquired subsidiary during the period are included within the condensed interim consolidated financial statements effective from the date the Group gains control until the date the Group ceases such control over the investee.

In particular, the Group controls an investee only when the Group has:

- Power over the investee (i.e. existence of rights that gives the Group the current ability to direct the relevant activities of the investee)
- Exposure to risks, or has rights, to variable returns from its direct relationship with the investee.
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting rights or similar rights of the investee, the Group considers all relevant facts and circumstances in assessing whether it has power over the investee, including:

- The contractual arrangement (arrangements) with the other voting rights holders in the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.

Income and each items of the other comprehensive income (OCI) is attributed to the equity of the Group. When necessary, adjustments are made to the financial statements of the subsidiaries to bring their accounting policies in line with the Group's applied accounting policies.

Assets, liabilities, equity, revenues, expenses and cash flows related to transactions between Group's companies are fully eliminated upon consolidating the condensed interim consolidated financial statements.

2-4 Significant accounting estimates and assumptions

In preparing these condensed interim consolidated financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, revenues and expenses. Actual results may differ from these estimates. The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual consolidated financial statements of the Group for the year ended December 31, 2022.

2-5 Functional and presentation currency

These condensed interim consolidated financial statements are presented in Saudi Riyal, unless otherwise stated. The Saudi Riyal is the functional and presentation currency of the Group.

13- LOSS PER SHARE – BASIC AND DILUTED

Basic and diluted loss per share is calculated by dividing the loss attributable to the shareholders of the Company by the weighted average number of ordinary shares issued during the period and previous period (Saudi Riyals 100 million). Since the Group does not have any diluted potential shares, the diluted loss per share is the same as the basic loss per share.

The number of shares for the period ended September 30, 2023 has been adjusted to reflect the stock split as stated in Note (9). As this split represents an increase in the number of underlying shares, without a corresponding change in resources, the weighted average number of underlying shares available during all periods presented has been adjusted retrospectively.

14- SEGMENT INFORMATION
