**Independent Auditors' Review Report on**  
**Interim Condensed Consolidated Financial Statements**

To: The Shareholders of Arab National Bank  
(A Saudi Joint Stock Company)

**Introduction**

We have reviewed the accompanying interim consolidated statement of financial position of Arab National Bank ("the Bank") and its subsidiaries (collectively referred to as "the Group") as at 30 September 2020, and the related interim consolidated statements of income and comprehensive income for the three and nine month periods then ended and the related interim consolidated statements of changes in equity and cash flows for the nine month period then ended, and other explanatory notes (collectively referred to as "the interim condensed consolidated financial statements"). Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with the International Accounting Standard No. 34 "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

**Scope of Review**

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the International Standards on Auditing as endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

**Other Regulatory Matters**

As required by Saudi Arabian Monetary Authority ("SAMA"), certain capital adequacy information has been disclosed in note (18) to the accompanying interim condensed consolidated financial statements. As part of our review, we compared the information in note (18) to the relevant analysis prepared by the Bank for submission to SAMA and found no material inconsistencies.

**ARAB NATIONAL BANK**  
**(A Saudi Joint Stock Company)**  
**Notes to the Interim Condensed Consolidated Financial Statements**  
**For the nine month period ended September 30, 2020 and 2019**

**1. General**

Arab National Bank (a Saudi Joint Stock Company, the Bank) was formed pursuant to Royal Decree No. M/38 dated Rajab 18, 1399H (corresponding to June 13, 1979). The Bank commenced business on February 2, 1980 by taking over the operations of Arab Bank Limited in the Kingdom of Saudi Arabia. The Bank operates under Commercial Registration No. 1010027912 dated Rabi Awal 1, 1400H (corresponding to January 19, 1980) through its 137 branches (September 30, 2019: 138 branches) in the Kingdom of Saudi Arabia and one branch in the United Kingdom. The address of the Bank's head office is as follows:

Arab National Bank  
P.O. Box 56921  
Riyadh 11564  
Kingdom of Saudi Arabia

The objective of the Bank is to provide a full range of banking services. The Bank also provides its customers non-commission based banking products which are approved and supervised by an independent Shariah Board established by the Bank.

The interim condensed consolidated financial statements comprise the interim condensed financial statements of the Bank and its following subsidiaries (collectively referred to as the Group):

**Arab National Investment Company (ANB Invest)**

In accordance with the Capital Market Authority (CMA) directives, the Bank has established ANB Invest, a wholly owned subsidiary, a Saudi closed joint stock company, registered in the Kingdom under Commercial Registration No. 1010239908 issued on Shawwal 26, 1428H (corresponding to November 7, 2007), to takeover and manage the Bank's investment services and asset management activities related to dealing, managing, arranging, advising and custody of securities regulated by the CMA. The subsidiary commenced its operations effective Muharram 3, 1429H (corresponding to January 12, 2008). Accordingly, the Bank started consolidating the financial statements of the above mentioned subsidiary effective January 12, 2008. On Muharram 19, 1436H (corresponding to November 12, 2014), the subsidiary changed its legal structure from a limited liability company to a closed joint stock company. The objective of the subsidiary was amended and approved by CMA Board of Commissioners on Muharram 28, 1437H (corresponding to November 10, 2015) through a resolution number S/1/6/14832/15 to include dealing as a principal activity. The objective of the subsidiary was further amended on Sha'ban 26, 1437H (corresponding to June 2, 2016) to provide loans to the subsidiary's customers to trade in financial papers as per the Saudi Arabian Monetary Authority's circular No. 371000014867 dated 5/2/1437H, and the CMA's circular No. S/6/16287/15 dated 10/3/1437H.

**Arabian Heavy Equipment Leasing Company (AHEL)**

**Notes to the Interim Condensed Consolidated Financial Statements (continued)**  
**For the nine month period ended September 30, 2020 and 2019**

**1. General (continued)**

**ANB Global Markets Limited**

The Bank established on January 31, 2017 ANB Global Markets Limited, as a limited liability company registered in the Cayman Islands. The Bank has 100% (2019: 100%) ownership. The objective of ANB Global Markets Limited is trading in derivatives and Repo activities on behalf of the Bank.

**2. Basis of preparation**

The interim condensed consolidated financial statements of the Group as at and for the nine month period ended September 30, 2020 have been prepared in accordance with International Accounting Standard 34 interim financial reporting ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Certified Public Accountants ("SOCPA").

These interim condensed consolidated financial statements do not include all information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2019.

These interim condensed consolidated financial statements are expressed in Saudi Arabian Riyals (SAR) and are rounded off to the nearest thousand, except where indicated otherwise.

**3. Basis of consolidation**

The financial statements of the subsidiaries are prepared for the same reporting period as that of the Bank, using consistent accounting policies. Adjustments have been made to the financial statements of the subsidiaries where necessary to align them with the Bank's interim condensed consolidated financial statements.

Subsidiaries are investees controlled by the Group. The Group controls an investee when it is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The financial statements of subsidiaries are included in the interim condensed consolidated financial statements from the date that control commences until the date that control ceases.

Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangements with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group's voting rights and potential voting rights granted by equity instruments such as shares.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim consolidated statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary;
- Derecognises the carrying amount of any non-controlling interests;
- Derecognises the cumulative translation differences recorded in equity;
- Recognises the fair value of the consideration received;
- Recognises the fair value of any investment retained;
- Recognises any surplus or deficit in profit or loss; and
- Reclassifies the Group's share of components previously recognised in other comprehensive income to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

**ARAB NATIONAL BANK****(A Saudi Joint Stock Company)****Notes to the Interim Condensed Consolidated Financial Statements (continued)****For the nine month period ended September 30, 2020 and 2019****3. Basis of consolidation (continued)**

Non-controlling interests represent the portion of net income or loss and net assets not owned, directly or indirectly, by the Bank and are presented separately in the interim consolidated statement of income and within equity in the interim consolidated statement of financial position, separately from the equity holders of the Bank. Any losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance. Acquisitions of non-controlling interests are accounted for using the purchase method of accounting, whereby, the difference between the cost of acquisition and the fair value of the share of the net assets acquired is recognized as goodwill.

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

Non-controlling interests are subsequently adjusted for their share of changes in equity of the consolidated subsidiary after the date of acquisition.

All intra-group assets and liabilities, equity, income and expenses relating to transactions between members of the Group are eliminated in full on consolidation.

**4. Significant accounting policies**

The accounting policies, estimates and assumptions used in the preparation of these interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended December 31, 2019, except for the accounting policy explained below.

**Government grant**

The Bank recognizes a government grant related to income, if there is a reasonable assurance that it will be received and the Bank will comply with the conditions associated with the grant. The benefit of a government deposit at a below-market rate of profit is treated as a government grant related to income. The below-market rate deposit is recognised and measured in accordance with IFRS 9 Financial Instruments. The benefit of the below-market rate of interest is measured as the difference between the initial fair value of the deposit determined in accordance with IFRS 9 and the proceeds received. The benefit is accounted for in accordance with IAS 20. The government grant is recognised in the statement of income on a systematic basis over the period in which the Bank recognises as expenses the related costs for which the grant is intended to compensate. The grant income is only recognised when the ultimate beneficiary is the bank. Where the customer is the ultimate beneficiary, the bank only records the respective receivable and payable amounts. If the Grant is not directly attributable to any cost, it is deferred and amortized over the term of the deposit using effective interest rate.

The table below sets out the positive and negative fair values of derivative financial instruments, together with their notional amounts, analysed by the term to maturity. The notional amounts, which provide an indication of the volumes of the transactions outstanding at the end of the period, do not necessarily reflect the amounts of future cash flows involved. These notional amounts, therefore, are neither indicative of the Group's exposure to credit risk, which is generally limited to the positive fair value of the derivatives, nor to market risk.

**14. Zakat and Income Tax**

On March 14, 2019, the General Authority of Zakat and Tax (the "GAZT") has issued new zakat rules through Ministerial Decree No. 2215 which provides the basis for the calculation of Zakat for companies engaged in financing activities and licensed by SAMA. The new Zakat regulations are issued pursuant to the Zakat Implementing Regulations and are applicable for the periods from January 1, 2019.

Zakat for the period ended September 30, 2020 attributable to Saudi Shareholders amounted to approximately SAR 190.1 million (September 30, 2019: SAR 177.2 million). Income tax attributable to the non-Saudi Shareholder on the current period's share of net income is SAR 166.6 million (September 30, 2019: SAR 216.5 million). The provision of Zakat and income tax is estimated based on the results of operations of the Bank for the nine month period ended and the consolidated financial position at September 30, 2020.

**15. Operating segments**

IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief executive officer in order to allocate resources to segments and to assess its performance.

For management purposes, the Group is organized into the following major operating segments:

**Retail banking**

Deposit, credit and investment products for individuals.

**Corporate banking**

Loans and advances, deposits and other credit products for corporate and institutional customers, small to medium sized businesses, and the Bank's London Branch.

**Treasury**

Manages the Bank's trading and investment portfolios and the Bank's funding, liquidity, currency and commission rate risks.

**Investment and brokerage services**

Investment management services and asset management activities related to dealing, managing, arranging and advising, and custody of securities.

**Other**

Includes income on capital and unallocated costs, assets and liabilities pertaining to the Head Office and other supporting departments.

Transactions between the operating segments are reported as recorded in the Group's transfer pricing system. The basis for determining intersegment operating income/(expense) for the current period are consistent with the basis used for September 30, 2019. Segment assets and liabilities comprise mainly operating assets and liabilities.

The Group's primary business is conducted in the Kingdom of Saudi Arabia with one international branch in London. However, the total assets, liabilities, commitments and results of operations of this branch are not material to the Group's overall interim condensed consolidated financial statements.

**16. Share capital, bonus shares and earnings per share**

As at September 30, 2020, the authorized, issued and fully paid share capital of the Bank consists of 1,500 million shares of SAR 10 each (December 31, 2019 and September 30, 2019; 1,500 million shares of SAR 10 each).

During 2019, the Board of Directors has proposed a bonus issue of 500 million shares of SAR 10 each, through a transfer of SAR 3 billion and SAR 2 billion from statutory reserves and retained earnings respectively, which was approved in the shareholders' extraordinary general assembly meeting, held on March 27, 2019.

Basic and diluted earnings per share for the period ended September 30, 2020 and 2019 is calculated by dividing the net income for the period attributable to the equity holders of the Bank by 1,500 million shares to give a retroactive effect of change in the number of shares increased as a result of the bonus share issue. The diluted earnings per share is the same as the basic earnings per share.

**17. Fair values of financial assets and liabilities**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i) In the accessible principal market for the asset or liability; or
- ii) In the absence of a principal market, in the most advantageous accessible market for the asset or liability.

The fair values of on-balance sheet financial instruments are not significantly different from their carrying amounts included in the interim condensed consolidated financial statements.

**Determination of fair value and fair value hierarchy**

The Bank uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: quoted prices in active markets for the same instrument (i.e., without modification or repacking);
- Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and
- Level 3: valuation techniques for which any significant input is not based on observable market data.

The following table shows the valuation techniques used in measuring level 2 and Level 3 fair values at September 30, 2020, September 30, 2019 and December 31, 2019 as well as the significant unobservable inputs used.

<b>Type</b>	<b>Valuation technique</b>	<b>Significant unobservable inputs</b>	<b>Inter-relationship between significant unobservable inputs and fair value measurement</b>
FVTPL investments	Fair value is determined based on the investee fund's most recent reported net assets value.	None	Not applicable
FVOCI investments classified as Level 2 include plain vanilla bonds for which market quotes are not available	Fair valued using simple discounted cash flow techniques that use observable market data inputs for yield curves and credit spreads.	None	Not applicable
FVOCI investments classified as Level 3 include Private Equity Funds	Fair value is determined based on the fund's most recent reported net assets value.	None	Not applicable
Derivatives classified as Level 2 are comprised of over the counter special commission rate swaps, currency swaps, special commission rate futures and options, spot and forward foreign exchange contracts, currency and commodity options and other derivative financial instruments	These instruments are fair valued using the Bank's proprietary valuation models that are based on discounted cash flow techniques. The data inputs on these models are based on observable market parameters relevant to the markets in which they are traded and are sourced from widely used market data service providers.	None	Not applicable
Financial assets and liabilities that are disclosed at fair value and classified as Level 2 include investments held at amortized cost	These instruments are fair valued using simple discounted cash flow techniques that use observable market data inputs for yield curves and credit spreads.	Additional buffer is added to account for any potential model discrepancy or any stressed market conditions.	Not applicable
Financial assets and liabilities that are disclosed at fair value and classified as Level 3 include loans and advances and debt issuances	These instruments are fair valued using simple discounted cash flow techniques that use observable market data inputs for yield curves and credit spreads.	Additional buffer is added to the credit spreads to account for any potential model discrepancy or any stressed market conditions.	The higher the credit spread, the lower is the valuation; vice versa.

**ARAB NATIONAL BANK****(A Saudi Joint Stock Company)****Notes to the Interim Condensed Consolidated Financial Statements (continued)****For the nine month period ended September 30, 2020 and 2019****Amounts in SAR '000****18. Capital Adequacy**

The Group's objectives when managing capital are, to comply with the capital requirements set by SAMA; to safeguard the Group's ability to continue as a going concern; and to maintain a strong capital base. During the period, the Group has fully complied with regular capital requirements.

The Group monitors the adequacy of its capital using ratios established by SAMA. These ratios measure capital adequacy by comparing the Group's eligible capital with its interim consolidated statement of financial position assets, commitments and notional amount of derivatives at a weighted amount to reflect their relative risk.

SAMA has issued the framework and guidance regarding implementation of the capital reforms under Basel III – which are effective starting January 1, 2013. Accordingly, the Group's pillar I consolidated Risk Weighted Assets (RWA), total capital and related ratios are as follows:

	<b>September 30 2020 (Unaudited)</b>	December 31 2019 (Audited)	September 30 2019 (Unaudited)
Credit Risk RWA	<b>147,303,613</b>	147,798,558	147,230,594
Operational Risk RWA	<b>13,843,613</b>	13,670,185	13,615,678
Market Risk RWA	<b>1,288,336</b>	1,603,591	2,065,483
<b>Total Pillar-I RWA</b>	<b>162,435,562</b>	163,072,334	162,911,755
Tier I Capital	<b>29,890,037</b>	27,944,791	27,944,792
Tier II Capital	<b>3,041,784</b>	2,951,286	2,958,048
<b>Total Tier I &amp; II Capital</b>	<b>32,931,821</b>	30,896,077	30,902,840
<b>Capital Adequacy Ratio %</b>			
Tier I ratio	<b>18.40%</b>	17.14%	17.15%
Tier I + Tier II ratio	<b>20.27%</b>	18.95%	18.97%

The Group maintains an actively managed capital base to cover risks inherent in the business. The adequacy of the Group's capital is monitored using, among other measures, the rules and ratios established by the Basel Committee on Banking Supervision as adopted by the SAMA in supervising the Bank.

**19. Subsequent event**

Subsequent to the period ended September 30, 2020, the Bank issued a fixed rate Tier 2 Sukuk amounting to USD 750 million (SAR 2.8 billion). The Sukuk will be matured in 2030, however, the Bank has an option to repay the Sukuk after 5 years, subject to prior approval of SAMA and terms and conditions of the sukuk. The Sukuk is listed at London stock exchange (LSE) and carry a special commission rate of 3.326% per annum.

**20. Impact of Covid-19 on Expected Credit Losses ("ECL") and SAMA programs**

The Coronavirus ("COVID-19") pandemic continues to disrupt global markets as many geographies are beginning to experience a "second wave" of infections despite having previously controlled the outbreak through aggressive precautionary measures such as imposing restrictions on travel, lockdowns and strict social distancing rules. The Government of Kingdom of Saudi Arabia ("the Government") however has managed to successfully control the outbreak to date, owing primarily to the effective measures taken by the Government, following which the Government has now ended the lockdowns and has begun taking phased measures to normalize international travel and resume Umrah pilgrimages.

The Bank continues to be cognisant of both the micro and macroeconomic challenges that COVID-19 has posed, the teething effects of which may be felt for some time, and is closely monitoring its exposures at a granular level. This has entailed reviewing specific economic sectors, regions, counterparties and collateral protection and taking appropriate customer credit rating actions and initiating restructuring of loans, where required.

**20. Impact of Covid-19 on Expected Credit Losses ("ECL") and SAMA programs (continued)**

The Bank has also revised certain inputs and assumptions used for the determination of expected credit losses ("ECL"). The revisions mainly revolved around:

- adjusting macroeconomic factors/inputs used by the Bank in its ECL model including observed default rates;
- refinement of staging criteria in light of the SAMA support measures and to effectively identify exposures where lifetime ECL losses may have been triggered despite repayment holidays.

The Bank's ECL model continues to be sensitive to the above assumptions and are continually reassessed as part of its business as usual model refinement exercise. As with any forecasts, the projections and likelihoods of occurrence are underpinned by significant judgement and uncertainty and therefore, the actual outcomes may be different to those projected. The adjustments to macroeconomic factors resulted in an additional ECL of SAR 37.4 million for the nine month period ended September 30, 2020 for the Bank.

**SAMA support programs and initiatives**

**Private Sector Financing Support Program ("PSFSP")**

In response to COVID-19, SAMA launched the Private Sector Financing Support Program ("PSFSP") in March 2020 to provide the necessary support to the Micro Small and Medium Enterprises ("MSME") as per the definition issued by SAMA via Circular No. 381000064902 dated 16 Jumada II 1438H. The PSFSP mainly encompasses the following programs:

- Deferred payments program;
- Funding for lending program;
- Loan guarantee program; and
- Point of sale ("POS") and e-commerce service fee support program.

As part of the deferred payments program, the Bank is required to defer payments for six months on lending facilities to those companies that qualify as MSMEs. The payment reliefs are considered as short-term liquidity support to address the borrower's potential cash flow issues. The Bank has effected the payment reliefs by deferring the instalments falling due within the period from March 14, 2020 to September 14, 2020 for a period of six months without increasing the facility tenure. The accounting impact of these changes in terms of the credit facilities has been assessed and are treated as per the requirements of IFRS 9 as modification in terms of arrangement. This resulted in modification losses which have been presented as part of net financing income. The Bank continues to believe that in the absence of other factors, participation in the deferment programme on its own, is not considered a significant increase in credit risk. This has resulted in the Bank recognising a day 1 modification loss of SAR 103.6 million for the nine month period ended September 30, 2020 and this has been presented as part of net financing income. In the absence of other factors, participation in this deferment is not considered a significant increase in credit risk.

Further to the above, on September 01, 2020, SAMA extended the deferred payments program by allowing additional three months payment deferrals for eligible MSMEs until December 14, 2020. The Bank has affected the payment reliefs by deferring the instalments falling due within the period from September 15, 2020 to December 14, 2020 for a period of additional three months without increasing the facility tenure. The accounting impact of these changes in terms of the credit facilities has been assessed and are treated as per the requirements of IFRS 9 as modification in terms of the arrangement. This resulted in the Bank recognizing an additional modification loss of SAR 24.3 million during the period ended September 30, 2020.

Since the inception of the deferred payments program by SAMA and by the end of Q3 2020, the Bank has recognised SAR 127.9 million of related modification losses of which SAR 61.9 million has been charged to the statement of income relating to unwinding of modification losses.

In order to compensate the related cost that the Bank is expected to incur under the SAMA and other public authorities program, during the nine months period ended September 30, 2020 the Bank received profit free deposits from SAMA amounting to SAR 5.04 billion with varying maturities, which qualify as government grants. Management has determined based on the communication from SAMA, that the government grant primarily relates to compensation for the modification loss incurred on the deferral of payments. The benefit of the subsidised funding rate has been accounted for on a systematic basis, in accordance with government grant accounting requirements. By the end of September 30, 2020, total income of SAR 377.2 million has been recognised in the statement of income and SR 249.3 million deferred. The management has exercised certain

judgements in the recognition and measurement of this grant income. During the nine months period ended 30 September 2020, SAR 17.3 million has been charged to the statement of income relating to unwinding.

As at September 30, 2020, the Bank has participated in SAMA's facility guarantee programs and the accounting impact for the period is immaterial.

**SAMA liquidity support for the Saudi banking sector amounting to SAR 50 billion**

In line with its monetary and financial stability mandate, SAMA injected an amount of fifty billion riyals in order to:

- enhance the liquidity in the banking sector and enable it to continue its role in providing credit facilities to private sector companies;
- restructure current credit facilities without any additional fees;
- support plans to maintain employment levels in the private sector; and
- provide relief for a number of banking fees that have been waived for customers.

In this regard, during Q2 2020, the Bank received SAR 4.02 billion profit free deposit with one year maturity. Management has determined based on the communication received from SAMA, that this government grant primarily relates to liquidity support. The benefit of the subsidized funding rate has been accounted for on a systematic basis, in accordance with government grant accounting requirements. This resulted in a total income of SAR 71.9 million, which has been deferred to be accounted for on a systematic basis.

**Health care sector support**

In recognition of the significant efforts that our healthcare workers are putting in to safeguard the health of our citizens and residents in response to the COVID-19 outbreak, the Bank has decided to voluntarily postpone payments for all public and private health care workers who have credit facilities with the Bank for three months. This has resulted in the Bank recognising a day 1 modification loss of SAR 45.2 million for the nine month period ended September 30, 2020 and this has been presented as part of net financing income.

**21. IBOR Transition (Interest Rate Benchmark Reforms):**

A fundamental review and reform of major interest rate benchmarks is being undertaken globally. The International Accounting Standards Board ("IASB") is engaged in a two-phase process of amending its guidance to assist in a smoother transition away from IBOR.

- Phase 1 – The first phase of amendments to IFRS 9 Financial Instruments, IAS 39 Financial Instruments: Recognition and Measurement and IFRS 7 Financial Instruments: Disclosures focused on hedge accounting issues. The final amendments, issued in September 2019, amended specific hedge accounting requirements to provide relief from the potential effects of the uncertainty caused by IBOR reform. The amendments are effective from 1 January 2020 and are mandatory for all hedge relationships directly affected by IBOR reform. The Group has adopted these amendments along with the hedging relief for pre-replacement hedges.
- Phase 2 – The second phase relates to the replacement of benchmark rates with alternative risk-free rates. Currently, there is uncertainty as to the timing and the methods of transition for phase 2. As a result of these uncertainties, IBOR continues to be used as a reference rate in financial markets and is used in the valuation of instruments with maturities that exceed the expected end date for IBOR. Therefore, the Group believes the current market structure supports the continuation of hedge accounting as at September 30, 2020.

Management is running a project on the Group's overall transition activities and continues to engage with various stakeholders to support an orderly transition. The project is significant in terms of scale and complexity and will impact products, internal systems and processes.

**22. Board of Directors' approval**

The interim condensed consolidated financial statements were approved by the Board on Rabi Awal 10, 1442 (corresponding to October 27, 2020).
