**INDEPENDENT AUDITOR'S REVIEW REPORT ON THE INTERIM CONDENSED
CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF
MORABAHA MARINA FINANCING COMPANY
(A SAUDI JOINT STOCK COMPANY)**

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Morabaha Marina Financing Company - A Saudi Joint Stock Company ("the Company") and its subsidiary (collectively referred to as "the Group") as at 30 June 2023, and the related interim condensed consolidated statement of comprehensive income for the three-month and six-month periods ended 30 June 2023, and the related interim condensed consolidated statements of changes in equity and cash flows for the six-month period then ended, and explanatory notes. Board of Directors is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

1 ACTIVITIES (continued)

These interim condensed consolidated financial statements include the financial statements of the Company and the financial statements of Digital Payments Company for Financial Technology, a 80% owned subsidiary (collectively with the Company referred to as the “Group”). Digital Payments Company for Financial Technology is a limited liability company registered in the Kingdom of Saudi Arabia under Commercial Registration No. 1010949680 issued on 28 Sha’ban 1439H (corresponding to 14 May 2018). Digital Payments Company is engaged in building the technology of payments gateway (aggregation model), capable of satisfying the rapidly growing electronic commerce payments (Bayan) and providing electronic wallet services (Bayan wallet) in the Kingdom of Saudi Arabia.

2 BASIS OF PREPARATION

a. Statement of compliance

The interim condensed consolidated financial statements of the Group as at and for the three month and six-month period ended 30 June 2023 have been prepared in accordance with International Accounting Standard 34, “Interim Financial Reporting” (“IAS 34”) as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements endorsed by the Saudi Organization for Chartered and Professional Accountants. These interim condensed consolidated financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended 31 December 2022.

An interim period is considered an integral part of the whole fiscal year, however, the results of operations for the interim periods may not be a fair indication of the results of the full year operations.

These interim condensed consolidated financial statements have been presented in Saudi Riyals, as it is the functional currency of the Group.

The Group presents its statement of financial position in order of liquidity based on the Group’s intention and perceived ability to recover/settle the majority of assets/liabilities of the corresponding financial statement line item.

b. Significant accounting policies judgments, estimates and assumptions

The accounting policies, judgments, estimates and assumptions used in the preparation of these interim condensed financial statements are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2022.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS (UNAUDITED) (continued)

30 June 2023

2 BASIS OF PREPARATION (continued)

c. New standards, interpretations and amendments

Following standards, interpretations or amendments are effective from the beginning of the current year and are adopted by the Group, however, these do not have any impact on the accompanying interim condensed consolidated financial statements of the year. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

IFRS 17 Insurance Contracts

In May 2017, the IASB issued IFRS 17 Insurance Contracts, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. IFRS 17 replaces IFRS 4 Insurance Contracts that was issued in 2005. IFRS 17 applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. The overall objective of IFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in IFRS 4, which are largely based on grandfathering previous local accounting policies, IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. IFRS 17 is based on a general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

The amendments had no impact on the Group's interim condensed consolidated financial statements.

Definition of Accounting Estimates - Amendments to IAS 8

The amendments to IAS 8 clarify the distinction between changes in accounting estimates, and changes in accounting policies and the correction of errors. They also clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no impact on the Group's interim condensed consolidated financial statements.

Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2

The amendments to IAS 1 and IFRS Practice Statement 2 Making Materiality Judgements provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments had no impact on the Group's interim condensed consolidated financial statements but may affect the accounting policy disclosures in the Group's annual consolidated financial statements.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments to IAS 12 Income Tax narrow the scope of the initial recognition exception, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases and decommissioning liabilities. The amendments had no impact on the Group's interim condensed consolidated financial statements.

9 BORROWINGS (continued)

In December 2019, the Group issued a new Sukuk with an aggregate principal of SR 80 million. The Sukuk carried a fixed rate of interest at 6% per annum due for settlement on a quarterly basis. The Sukuk's principal was due to be repaid in quarterly instalments commencing from March 2020 with the final installment repaid during December 2022.

Both the Sukuks were secured by assignment of Islamic financing receivables.

C) The table below shows the details of the loan obtained by the Group from a government entity:

	30 June 2023 (Unaudited) SR	31 December 2022 (Audited) SR
Current portion	89,348,518	129,302,272
Non-current portion	40,823,700	72,883,359
	<u>130,172,218</u>	<u>202,185,631</u>

During October 2021, the Group received loan from the Social Development Bank (government entity) amounting to SR 20 million. The loans are repayable in monthly instalments commencing from January 2022 with the final instalment due in December 2024.

During 2020 and 2021, the Group participated in funding for lending program by SAMA and received funding from SAMA in 21 instalments amounting to SR 279 million which is interest free funding with varying maturities, starting from March 2023 to September 2025.

The above loans received by the Group from the Social Development Bank carries special commission at rates significantly lower than the currently prevailing market rates while the loan received from SAMA is interest free. These loans provided to the Group carry a number of conditions, one of which is that these loans are to be used for providing loans to specific types/sectors of customers at discounted rates. The benefit being the impact of the "lower than market value" or "interest free" loans obtained by the Group had been identified and accounted for as "government grant" and has initially been recorded as deferred income and classified within "accounts payables, accruals and others". Such benefit is being recognised in statement of comprehensive income of the Group on a systematic basis as the expense, for which such grant is intended to compensate.

Further, during 2021 and 2022, the Group obtained loans from the Social Development Bank amounting to SR 200 million at the prevailing market rates ranging from 2.32% to 3.56% per annum. The maturities of the loans start from June 2023 to May 2026.

The Group is engaged in commission rate swap agreements with local banks for Notional amount of SR 176.3 million (31 December 2022: SR 211 million). The change in fair value of those commission rates that are not designed in hedge relationships, but are, nevertheless, intended to reduce the level of commission rate risk. As at 30 June 2023, the fair value of the derivative instrument at FVTPL amounted to SR 5.1 million (31 December 2022: SR 5.5 million).

The fair value hierarchy for derivatives not designated as hedging instruments for disclosure purpose is in level 2, with significant inputs being directly or indirectly observable.

12 FINANCIAL INSTRUMENTS AND FAIR VALUE

Financial instruments comprise financial assets and financial liabilities.

Financial assets consist of cash and cash equivalents, restricted cash deposits, investment, Islamic financing receivables and other receivables. Financial liabilities consist of borrowings, accrued expenses and other payables.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

Following table indicates fair value level hierarchy of the financial instruments of the Group. Islamic financing receivables, investment at Fair Value Through Other Comprehensive Income ("FVOCI") and borrowings are classified within level 3 of the fair value hierarchy while the rest of the financial assets and financial liabilities included in the below table are classified within level 2 of the fair value hierarchy. Management believes that the fair value of the financial assets and liabilities included in the table below at the reporting date, approximate their carrying values mainly due to the short maturities of most of these financial assets and liabilities.

	30 June 2023 (Unaudited) SR	31 December 2022 (Audited) SR
<i><u>Financial assets</u></i>		
Cash and cash equivalents	343,501,666	69,639,011
Restricted cash deposits	16,000,000	16,000,000
Other assets (excluding special commission receivable)	9,863,653	8,369,582
<i><u>Financial liabilities</u></i>		
Accounts payables, accruals and other liabilities (excluding accrued special commission expense)	11,690,551	9,701,802

For assets and liabilities that are recognised at fair values in the interim condensed consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Group's management determines the policies and procedures for both recurring fair value measurement, and for non-recurring measurement.

12 FINANCIAL INSTRUMENTS AND FAIR VALUE (continued)

Fair value of Islamic financing receivables

Islamic financing receivables	1,018,745,143	1,077,819,446	981,883,052	1,030,054,524

For determination of the fair value of Islamic financing receivables, management assesses the market under the current conditions, and assesses the profit rates that the Group could obtain against its current portfolio. The portfolio is segregated into various categories. The profit rates over the last 5 years have been assessed and used as a base for the discount rate relating to the valuation of the portfolio. Premiums have then been added to each category based on the prevailing economic conditions in the country. The premiums move from 50 basis points to 250 basis points.

The initial base rate, before premiums, were calculated using the average quoted rate against contracts for the last 5 years. This quoted rate was compared to the average effective yield that the contracts generate to derive the factor to translate the quoted rate to an effective rate in order to lift the base rate from a quoted rate to an effective rate. The average of the quoted rate for the Group's portfolio over this period was 14.44% (2022: 14.86%), and the average effective rate for this same portfolio was 13.87% (2022: 13.97%), resulting in a lift factor of 0.96x (2022: 0.75x).

Deemed premium for each category has been added to the base quoted rate, and the lift factor was applied to arrive at the effective yield which was used as a proxy discount rate to fair value the portfolio.

The cash flows of each category were discounted using the proxy discount rate applicable to each category to arrive at the fair value of the portfolio. Provision carried against the portfolio was then deducted to compare the carrying value to the deemed fair value.

The discount rates used range from 14.35% to 16.3% (2022: 14.35% to 15.8%).

Fair value of borrowings (including accrued special commission expense):

The fair value of bank borrowings, sukuk payable and government loans is based on discounted value of expected future cash flows using the applicable market rates for similar types of instruments as of reporting date. The table below shows the fair value of bank borrowings as at 30 June 2023 and 31 December 2022, respectively:

	30 June 2023 (Unaudited)		31 December 2022 (Audited)

13 FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including special commission rate risk and foreign currency risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance. Risk management is carried out by management. The most important types of risk are summarized below.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and will cause the other party to incur a financial loss. The Group seeks to manage its credit risk with respect to customers by setting credit limits for individual customers and by monitoring outstanding receivables.

The Group's maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets as disclosed in the table below.

	30 June 2023 (Unaudited) SR	31 December 2022 (Audited) SR
Cash and cash equivalents	343,501,666	69,639,011
Islamic financing receivables	1,018,745,143	981,883,052

Restricted cash deposits	16,000,000	16,000,000
	<u>1,388,110,462</u>	<u>1,075,891,645</u>

Special commission rate risk

Special commission rate risk is the risk that the value of financial instruments will fluctuate due to changes in the market interest rates. The Group is subject to special commission rate risk on its special commission bearing assets and liabilities, including bank deposits, Islamic financing receivables and borrowings.

All of the Group's special commission bearing assets, sukuk payable and loans from a government entity carry special commission at fixed rates and therefore, management believes that the Group is not exposed to any special commission rate risk in respect of these assets.

The following table depicts the sensitivity to a reasonable possible change in special commission rates, with other variables held constant, on the Group's profit or loss relating to the floating rate borrowings for which the Group does not use derivatives for hedging. The sensitivity of the income is the effect of the assumed changes in special commission rates on the net commission income for one year, based on such floating rate borrowings held as at the reporting date.

Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at an amount close to its fair value. The Group manages its liquidity risk by ensuring that bank facilities are available.

Analysis of financial liabilities by remaining contractual maturities

The table below summarizes the maturity profile of the Group's financial liabilities at the reporting date based on contractual undiscounted repayment obligations. The contractual maturities of financial liabilities have been determined based on the remaining period at the reporting date to the contractual maturity date.

* Accrued special commission expense as at the reporting date has been included as part of borrowings for the purpose of the above disclosure.

Foreign currency risk

Foreign currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. The Group is not subject to fluctuations in foreign exchange rates in the normal course of its business as it does not have any significant financial assets and liabilities denominated in foreign currency.

14 CAPITAL MANAGEMENT

The Group's policy is to maintain a strong capital base to maintain creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders. The Group's objectives for managing capital are to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders and to provide an adequate return to shareholders by pricing the services commensurately with the level of risk.

The primary objective of the Group's capital management is to maximise the shareholder value.

The Group manages its capital structure and makes adjustments in light of changes in economic conditions. The Group informally monitors capital using a gearing ratio, which is 'net debt' divided by total capital plus net debt. The Group includes within net debt, short term loans, trade and other payables, less cash and bank balances.
