REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF UNIKAI FOODS (P.J.S.C.)

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Unikai Foods (P.J.S.C.) (the “Company”) and its subsidiary (collectively referred to as the “Group”) which comprise the interim condensed consolidated statement of financial position as at 30 June 2020 and the related condensed interim consolidated statements of income, comprehensive income, changes in equity and cash flows for the three-month and six-month periods then ended, and explanatory notes. Management is responsible for the preparation and fair presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, *Interim Financial Reporting* (“IAS 34”). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, “*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

The interim condensed consolidated financial statements have been approved by the Board of Directors on 12 August 2020.

2 BASIS OF PREPARATION AND CHANGES TO THE GROUP’S ACCOUNTING POLICIES

Basis of preparation

The interim condensed consolidated financial statements for the six months period ended 30 June 2020 have been prepared in accordance with IAS 34 “*Interim Financial Reporting*”.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements as at 31 December 2019.

In addition, results for the six months period ended 30 June 2020 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2020.

These condensed consolidated interim financial statements have been presented on the historical cost basis except for investment properties and investments carried at fair value through profit or loss (“FVTPL”), which are measured at fair value.

These condensed consolidated interim financial statements are presented in United Arab Emirates Dirhams (“AED”), rounded to nearest thousand except when otherwise indicated, which is the Group’s functional and presentation currency.

New standards, interpretations and amendments thereof, adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group’s consolidated financial statements for the year ended 31 December 2019. Except for the adoption of new standards effective as of 1 January 2020. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The adoption of following new standards, with effect from 1 January 2020 or after, has had no significant effect on the interim condensed consolidated financial statements of the Group:

- Definitions of a Business – Amendments to IFRS 3
- Interest Rate Benchmark Reform – Amendments to IFRS 9, IAS 39 and IFRS 7
- Definition of Material – Amendments to IAS 1 and IAS 8
- The Conceptual Framework for Financial Reporting
- Covid-19- Related Rent Concessions – Amendments to IFRS 16

Investments represents unquoted equity instruments of an entity operating in dairy and poultry industry.

At 31 December 2019, the fair value of the investment was determined by an external valuer. The fair value of investments was measured by using capitalization of future maintainable earnings of the investee using a market valuation multiple. Valuation multiple is based on market expectations after considering conditions including the economy in general and the business and industry of the investee in particular, using market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in valuation techniques.

For the period ended 30 June 2020, the change in fair value of the investment was estimated by the management using comparable market data. The management has assessed the value of shares considering the impact of current global pandemic and market situation and using market observable data as far as possible.

15 PROVISION FOR INCOME TAX

The provision for taxation is in respect of the Group's operations carried out by a subsidiary in the Sultanate of Oman ("Oman"). The Subsidiary is liable to income tax in accordance with the income tax laws of the Oman depending on the level of its taxable profit. Although, the subsidiary has made tax profits for the six-month period ended 30 June 2020, however, the subsidiary has sufficient existing provision for income tax to meet the subsidiary's tax liabilities, and therefore no tax charge is recognised for that period. In the opinion of the management the provision for taxation of AED 987 thousand (unaudited) (31 December 2019: AED 987 thousand) as at reporting date remains adequate to meet the Group's tax liabilities.that may result from finalisation of tax assessments for the years from 2013 up to tax year 2019 and results for the six months period ended 30 June 2020.

Legal cases

As at 30 June 2020, the Group has no legal cases. All these cases are pending before the Court for the hearings and final decisions. The management has reviewed the status of all of these legal cases and believes that no additional provision is required as at 30 June 2020 (31 December 2019: AED Nil).

18 EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the loss for the period amounting to AED 2,184 thousand (30 June 2019: net profit of AED 2,429 thousand) by the weighted average number of shares outstanding during the period ended 30 June 2020 of 32,368,000 shares (period ended 30 June 2019: 32,368,000 shares).

The Group has not issued any instruments which would have a dilutive impact on earnings per share when exercised.

19 SEGMENTAL REPORTING

The Group operates in the single reporting segment of diary, juice, ice cream, and other food products. All the relevant information relating to this reporting/operating segment is disclosed in the interim condensed consolidated statement of financial position, condensed consolidated income statement, condensed consolidated statement of profit or loss and other comprehensive income and notes to the interim condensed consolidated financial statements.

IFRS also requires an entity to report its segment assets and revenue along geographical regions. All significant activities of the Group are performed on an integrated basis in the Gulf region and the Directors consider an analysis by individual country would not be meaningful.

Additional information required by IFRS 8, "Segment reporting", is disclosed below:

Major customers

During the three-month period ended 30 June 2020, there were no customers of the Group with the revenues greater than 10% of the total revenue of the Group (six-month period ended 30 June 2019: None).

20 FAIR VALUES OF FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets and financial liabilities.

Financial assets consist of cash on hand and bank balances, trade and other receivables, due from a related party and investments at fair value through profit and loss. Financial liabilities consist of borrowings, trade and other payables and due to related parties.

The fair values of financial instruments are not materially different from their carrying values.

Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

As at 31 March 2020, the Group held the following financial instruments measured at fair value:

21 SEASONALITY

Due to seasonal nature of the business of the Group, the results of operations of certain quarters, which fall in off peak periods may be substantially different from other quarters, which fall in the peak seasons (i.e. during summer season). Therefore, revenue from operations may not be evenly distributed over the four quarters of the same year and thus the results of operations of each quarter may not be comparable to other quarters of the same year.

22 UNCERTAINTY RELATED TO KEY ESTIMATES

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates, and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. In preparing these interim condensed consolidated financial statements, significant judgement is exercised by management in applying the Group's accounting policies. The key sources of estimation uncertainty are consistent with the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2019, with the exception of the impact of the COVID - 19 outbreak on the Group which is detailed below:

The outbreak of a coronavirus (COVID-19) has resulted in various restrictions in all countries around the world in order to try and mitigate the spread of the virus, including the lockdown of countries, travel restrictions and closing of non-essential services. These factors have negatively affected the economies and the businesses of the regions where the Group operates. The management has assessed that there is no severe impact of COVID-19 on the operations of the Group due to nature of its products being foods and beverages.

Impact of COVID-19

However, investments have seen some volatility in market prices of investments. The management is continuously observing the developments to ensure that any direct or indirect impacts, if any (e.g. impairment of receivables, impairment of inventories and valuation of investments), are identified and addressed on timely basis. The UAE Government and regulators have taken measures and issued directives to support businesses at large, including extensions of deadlines, facilitating continued business through social-distancing and easing pressure on credit and liquidity.

22 UNCERTAINTY RELATED TO KEY ESTIMATES (continued)

Measurement of ECL

The Group uses a provision matrix to calculate ECLs for trade receivables and contract assets. The provision matrix is initially based on the Group's historical observed default rates. The Group calibrates the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed. The management has assessed that, upto the date of issuance of these interim condensed consolidated financial statements, the COVID-19 has no significant impact on historical observed default rates and no patterns are observed or expected requiring significant adjustment to forward looking information.

The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. Accordingly, the actual credit losses may be significantly different than those recorded in these financial statements if actual defaults and economic conditions are significantly different than forecasted. The observed default rates and forward-looking information will be reassessed at each reporting date to consider the impact of Covid-19.

Fair values of the investment properties

The Group carries its investment properties at fair value, with changes in fair value being recognised in the statement of profit or loss. For investment properties, valuation methodology based on the Direct Comparison approach or Income Capitalisation approach was used, as there is a lack of comparable market data because of the nature of the properties. The management has assessed that, upto the date of issuance of these financial statements, the COVID-19 has no significant impact on inputs used for the valuation of investments properties at 31 December 2019.

Fair value of investments at fair value through profit or loss

For the period ended 30 June 2020, the change in fair value of the investment was estimated by the management using comparable market data. The management has assessed the value of shares considering the impact of current global pandemic and market situation and using market observable data as far as possible.

The Group incurred a loss of AED 2,184 thousand during the period ended 30 June 2020 and as of that date, it has accumulated losses of AED 21,313 thousand, which is more than 50% of its share capital, and its current liabilities exceeded its current assets by AED 24,736 thousand. Notwithstanding these facts, the interim condensed consolidated financial statements of the Group have been prepared on a going concern basis as the management of the Group believes that the future operations of the Group will generate sufficient profits and positive cashflows. Further, as required by Federal Law No.(2) of 2015, the shareholders have resolved to continue its operations in the Annual General Meeting held on 26 April 2020.
