ENVIRONMENT MATTERS

We are not aware of the content of any environmental audit or other environmental investigation or soil survey which may have been carried out on the properties and which may draw attention to any contamination or the possibility of any such contamination. In undertaking our work, we have been instructed to assume that no contaminative or potentially contaminative use has ever been carried out on the properties. We have not carried out any investigation into past or present use, either of the properties or of any neighboring land, to establish whether there is any contamination or potential for contamination to the subject properties from its use or site and have therefore assumed that none exist.

However, should it be established subsequently that contamination exists at the properties or on any neighboring land, or that the properties have been or is being put to any contaminative use, then this might reduce the value now reported.

LEGAL NOTICE

We are not aware of, nor have we been informed of any legal notices served for these properties, outstanding or pending in the court of law.

BASIS OF VALUATION

Market Value

The valuation of the subject properties, and for the above stated purpose, have been undertaken on the **Market Value** basis of valuation in compliance with the above-mentioned *Valuation Standards* as promulgated by the IVSC and adopted by the RICS. **Market Value** is defined as: -

The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.

The definition of **Market Value** is applied in accordance with the following conceptual framework:

"The estimated amount" refers to a price expressed in terms of money payable for the asset in an arm's-length market transaction. Market Value is the most probable price reasonably obtainable in the market on the valuation date in keeping with the Market Value definition. It is the best price reasonably obtainable by the seller and the most advantageous price reasonably obtainable by the buyer. This estimate specifically excludes an estimated price inflated or deflated by special terms or circumstances such as atypical financing, sale and leaseback arrangements, special considerations or concessions granted by anyone associated with the sale, or any element of value available only to a specific owner or purchaser;

"an asset or liability should exchange" refers to the fact that the value of an asset or liability is an estimated amount rather than a predetermined amount or actual sale price. It is the price in a transaction that meets all the elements of the Market Value definition at the valuation date;

"on the valuation date" requires that the value is time-specific as of a given date. Because markets and market conditions may change, the estimated value may be incorrect or inappropriate at another time. The valuation amount will reflect the market state and circumstances as at the *valuation date*, not those at any other date;

"between a willing buyer" refers to one who is motivated, but not compelled to buy. This buyer is neither over eager nor determined to buy at any price. This buyer is also one who

purchases in accordance with the realities of the current market and with current market expectations, rather than in relation to an imaginary or hypothetical market that cannot be demonstrated or anticipated to exist. The assumed buyer would not pay a higher price than the market requires. The present owner is included among those who constitute "the market";

"and a willing seller" is neither an over eager nor a forced seller prepared to sell at any price, nor one prepared to hold out for a price not considered reasonable in the current market. The willing seller is motivated to sell the asset at market terms for the best price attainable in the open market after proper marketing, whatever that price may be. The factual circumstances of the actual owner are not a part of this consideration because the willing seller is a hypothetical owner;

"in an arm's-length transaction" is one between parties who do not have a particular or special relationship e.g. Parent and subsidiary companies or landlord and tenant, that may make the price level uncharacteristic of the market or inflated. The Market Value transaction is presumed to be between unrelated parties each acting independently;

"after proper marketing" means that the asset would be exposed to the market in the most appropriate manner to affect its disposal at the best price reasonably obtainable in accordance with the Market Value definition. The method of sale is deemed to be that most appropriate to obtain the best price in the market to which the seller has access. The length of exposure time is not a fixed period but will vary according to the type of asset and market conditions. The only criterion is that there must have been sufficient time to allow the asset to be brought to the attention of an adequate number of market participants. The exposure period occurs prior to the valuation date;

'where the parties had each acted knowledgeably, prudently' presumes that both the willing buyer and the willing seller are reasonably informed about the nature and characteristics of the asset, its actual and potential uses and the state of the market as of the *valuation date*. Each is further presumed to use that knowledge prudently to seek the price that is most favorable for their respective positions in the transaction. Prudence is assessed by referring to the state of the market at the *valuation date*, not with benefit of hindsight at some later date. For example, it is not necessarily imprudent for a seller to sell assets in a market with falling prices at a price that is lower than previous market levels. In such cases, as is true for other exchanges in markets with changing prices, the prudent buyer or seller will act in accordance with the best market information available at the time;

'and without compulsion' establishes that each party is motivated to undertake the transaction, but neither is forced or unduly coerced to complete it.

Market value is the basis of value that is most commonly required, being an internationally recognized definition. It describes an exchange between parties that are unconnected (acting at arm's length) and are operating freely in the marketplace and represents the figure that would appear in a hypothetical contract of sale, or equivalent legal document, on the valuation date, reflecting all those factors that would be taken into account in framing their bids by market participants at large and reflecting the highest and best use of the asset. The

highest and best use of an asset is the use of an asset that maximizes its productivity and that is possible, legally permissible and financially feasible.

Market value is the estimated exchange price of an asset without regard to the seller's costs of sale or the buyer's costs of purchase and without adjustment for any taxes payable by either party as a direct result of the transaction.

VALUATION ASSUMPTIONS / SPECIAL ASSUMPTIONS

1. The subject properties are being valued under the following assumption: -
 - iii. The subject properties are valued under the assumption of being Freehold Interest – superior, perpetual, legally un-encumbered and transferable ownership title (UAE/GCC/Non-GCC Nationals with vacant possession).
 - iv. Market Value of the subject properties under **Special Assumption that MEFIC REIT leased all 30 units through a 4-year binding triple net lease contract** as per the following conditions.

2. The written and verbal information provided to us by the Client is up to date, complete and correct in relation to issues such as title, and other relevant matters that are set out in the report.
3. That no contaminative or potentially contaminative use has ever been carried out on the site;
4. We assume no responsibility for matters legal in character, nor do we render any opinion as to the title of the properties, which we assume to be good and free of any undisclosed onerous burdens, outgoing, restrictions or other encumbrances;
5. The market value conclusion arrived at for the properties reflect the full contract value and no account is taken of any liability to taxation on sale or of the costs involved in effecting the sale.

VALUATION APPROACH AND REASONING

We have used the Direct Comparison Valuation Approach to ascertain the market value estimate of the subject properties to which has been added a premium to reflect the guaranteed income offered under the 4-year triple net lease Agreement. We have not been provided with a copy of this Agreement and have relied upon the information provided by the client. Should this prove to be otherwise incorrect, we reserve the right to re-assess.

The Direct Comparison Approach

The Direct Comparison Approach involves making adjustments to the sale price of comparable properties to account for differences in location, type of property, floor, date of sale, potential views and other individual characteristics. Comparison of transactional evidence of similar properties which have traded in the open market in arm's length transactions, provide the most accurate means of assessing worth.

In the use of this valuation approach we have had regard to both transactional data (from RERA's Dubai Lands Department data base) as well as property listings (from property firms, agents and brokers) of similar units in the area. It should be further noted that properties in this community generally trade at varying prices ranges reflecting on the property's location, site and situation, type, view, desirability and finishing specifications.

From Dubai Land Department's sales registry database, we have noted that there have been minimal sales transactions of similar type / size apartments in The Pad Tower and neighboring similar types of apartments buildings for example, Majestine Allure, Avanti Tower, Park Lane Tower, Al Habtoor City - Amna Tower, DAMAC Royale - Damac Towers by Paramount Tower A, B & D. During the period from March 2021 to June 2021 similar type units have sold in the range of AED 12,357 to 17,577 per sq m (AED 1,148 to 1,633 per sq. foot) of gross floor area depending upon influencing factors such as unit type (**Studio, 1BR & 2BR**), location / position, unit size (Net/Gross), condition, age of the building, and views offered.

Recorded transactions of similar type serviced apartment units that have sold in The Pad Tower and neighboring buildings were the following: -

Rental Summary

Calculation of Premium and Market Value

To the value achieved of **AED42,455,000** achieved by using the Direct Comparison Method we have added a premium to reflect the added value achieved by the income generated under the guaranteed 4-year binding triple net lease Agreement. As at the date of valuation 30 June 2021 some 33 months of the Agreement had lapsed with a remaining period of 15 months.

The income as reflected for the remaining 15-month period has been considered and apportioned as follows.

For the remaining **15 months** of the lease the Gross Anticipated Rental has been calculated at 8% of the acquisition cost of AED 61,149,536 less net current anticipated market rental of AED2,315,000 giving a top slice portion of **AED2,576,963** capitalized at a rate of 7.50% for 15 months to achieve a value of **AED3,107,820**.

The collective value using the Direct Comparison Method of **AED42,455,000** plus the remaining value derived from the Lease Contract of **AED3,107,820** (note the Special Assumption in place) achieves a value of **AED45,562,820** which over the saleable area of 28,108 sq ft gives a break back of **AED1,620/sq ft**. (rounded).

VALUATION

MARKET VALUE

It is our considered opinion that the Market Value estimate for the Freehold Interest – superior, perpetual, legally un-encumbered and transferable ownership title (UAE/GCC/Non-GCC Nationals) with vacant possession in the subject properties; subject to the contents herein, and valued using the direct comparison valuation approach taking into consideration particulars / features of the property, prevailing market conditions/sentiments, and other relevant factors as at the date of valuation (30th June 2021).

The Market Value of the subject properties is further based on the Special Assumption (as per information provided by the client – extract only of Master Lease Agreement) **that MEFIC REIT leased all units through a 4-year binding triple net lease contract as per the following conditions;**

- (m) For the first six months, the amount equal to 12% of the Purchase Price for each Unit
- (n) For the remaining term (42 months), the amount equal to 8% of the Purchase Price for each unit
- (o) Rent term: Four (4 years) commencing on the Effective date (Acquisition date 25 September 2018)
- (p) That the annual guarantee returns of 8% is net of all fees
- (q) The acquisition cost being **AED61,149,536** (As per e mail of 7 February 2019) the
- (r) **As per Master Lease Agreement provided via e-mail on 28 January 2020, stating “Initial Period” means the period commencing on the Effective Date and ending on the later of:**
 - (a) the BCC Date: and
 - (c) The date falling six (6) months after the Effective date.

Should the terms and conditions of the Agreement as stipulated above show any variance we reserve the right to re-assess

The above aggregate Market Value estimate for the subject properties represents the total of the market values for each individual apartment unit, and this figure should not be taken as being a representation of a portfolio valuation as one grouping value for the properties. The individual units are held on individual titles which can be sold separately, and the above valuation figure takes into account this assumption as the possibility of selling of the entire group of properties at once on the market may result in a flooding effect which may likely affect the value / sale price of the properties.

PRINCIPAL GAINS AND RISK ASSESSMENT (Swot Analysis)

ABOUT BUSINESS BAY

Business Bay (Al Khaleej Al Tejari) is dubbed as the region's business capital and offers a large supply of prime commercial office space.

Business Bay is an area that features upscale commercial, residential and hospitality properties spread across a total gross leasable area of 78.5 million sq ft. Strategically located next to Burj Khalifa area and accessible through main arterial highways, Sheikh Zayed Road (E11) and Al Khail Road (E44). The opening of the Dubai Water Canal last October 2016 along the banks of Business Bay has fueled the desirability for residential, commercial and infrastructural investments from major developers and investors.

- Strengths
 - Driving proximity to Downtown Dubai, DIFC, Al Khail Rd, Sheikh Zayed Road
 - Views of canal
 - Access to Marasi Business Bay
 - Iconic design
 - Freehold Ownership
 - Dubai Mall and Burj Khalifa in close proximity
 - Metro within short walking distance
 - Entertainment, Hotels, Restaurants and Retail

- Weakness
 - Underdeveloped area, a number of vacant plots evident - construction in surrounding area ongoing for medium term
 - Delayed project, project began in 2006 with Zaha Hadid Architects as the initial designer, now no longer involved, the project was put on hold from December 2009 to October 2013
 - No Schools
 - Business Bay is high built by nature and design.
 - Not many green spaces

- Can be heavily trafficked and congested in peak periods.
- Noise levels – close to Skh Zayed Road and ongoing construction
- Opportunities
 - Potential vibrant waterfront community
 - Possible uses, residential, serviced apartments, short-term rentals
- Threats
 - **New supply entering the market.**

DUBAI RESIDENTIAL MARKET

The ValuStrat Price Index (VPI) Residential Performance

The ValuStrat Price Index (VPI) is a valuation-based index that tracks change in capital values for a representative fixed basket of properties. The VPI showed an average quarterly improvement of 0.8%, as the first three months of the year saw accelerated positive trends for the first time since 2014. All established freehold villa locations monitored by the VPI saw capital values improve since the last quarter, ranging from 1.8% to 5.4%. However, only half of apartment locations improved in value, some areas saw declines of up to 2.8%. On an annual basis, all locations witnessed price drops, some in single digits. Best performing freehold areas were International City, Arabian Ranches, The Meadows, The Lakes and Palm Jumeirah. Citywide, residential capital values were 10.9% lower than the same period last year. The Dubai VPI for residential rental values stood at 61.9 points, remained stable quarterly for the first time in two years. The average residential annual rent in Dubai was AED 76,910, apartments at AED 55,000 and villas at AED 211,485. Dubai’s residential net yields averaged 6.1%, with apartments at 6.4% and villas at 4.9%.

VPI Summary

The VPI for High specification properties stood at 66.1 points, stable QoQ and fell 12.2% YoY
The VPI for Medium specification properties stood at 73. points, stable QoQ and fell 12.5% YoY

The VPI for Low specification properties stood at 60.7 points, down 2.3% QoQ and fell 14.7% YoY

MARKET COMMENTARY

Dubai

Dubai is a member of the seven emirates federation forming the United Arab Emirates. The emirate is located on the south-east coast of the Arabian Gulf. It is the most populous city and has reached more than 3.4 million residents by the month of March 2021, growing slower at approximately 5% on average during the last five years. It also occupies the second-largest land territory (4,114 sq km) after the capital, Abu Dhabi. The city of Dubai shares borders with Sharjah in the northeast, Abu Dhabi to the south, and Sultanate of Oman in the southeast.

Residential

The year 2020 saw the completion of total 36,015 units of which 27,435 were apartments and 8,580 were villas/townhouses. Notable completed projects were Harbour Views (764 units), Wasl1 Park Gate Residences (746 units), Noor Townhouses (745 units) and Maple 3 Dubai Hills Estate (546 units). For 2021, estimated upcoming supply currently stands at 46,316 apartments and 10,563 villas/townhouses. More than fifty percent of new build properties will be located in Dubailand, Jumeirah Village Circle, Downtown Dubai, and Dubai Creek Harbour. Approximately 7,294 units finished construction during the first quarter, equivalent to more than twelve percent of total expected supply this year. Key off-plan projects announced included The Pulse Villas Dubai South (268 units), Joya Blanca Arjan (313 units) and La Rosa IV Villanova.

The first quarter of 2021 saw the highest recorded number of home sales transactions since 2010. This quarter witnessed the sales of more than 6,000 ready homes worth AED 13.5 billion

and 3,600 off-plan properties worth AED 5 billion. Annually, non-mortgage sales volumes of ready homes grew 76.1%, however off-plan sales declined 30.2%. When compared to the previous quarter, ready home sales were up 17.4% and off-plan sales were 8.9% higher. Ready homes ticket sizes grew 0.9% QoQ, and off-plan homes leaped 8.2% quarterly to AED 2.3 million and 1.4 million, respectively. The median transacted price for ready apartments stood at AED 9,171 per sq m (AED 852 per sq ft), up 9.8% QoQ, 1.5% YoY. For ready villas, the median transacted price was AED 9,580 per sq m (890 per sq ft), up 15.3% QoQ and 13.7% YoY.

VALUATION UNCERTAINTY

The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a "Global Pandemic" on 11 March 2020, has impacted global financial markets. Travel restrictions have been implemented by many countries. Market activity is being impacted in many sectors. As at the valuation date, we, ValuStrat Management Consultancies, consider that we can attach less weight to previous market evidence for comparison purposes, to inform opinions of value. Indeed, the current response to COVID-19 means that we are faced with an unprecedented set of circumstances on which to base a judgement. Our valuation is therefore reported on the basis of 'material valuation uncertainty' as per VPS 3 and VPGA 10 of the RICS Red Book Global. Consequently, less certainty – and a higher degree of caution – should be attached to our valuation than would normally be the case. Given the unknown future impact that COVID-19 might have on the real estate market, we recommend that you keep the valuation of the Subject Property under frequent review.

Property prices could be adversely affected in the near future and longer depending how long Covid-19 lasts together with the current restrictions on movement, social distancing etc.

The RICS valuation standards consider it essential to draw attention to foreseen valuation uncertainties that could have a material effect on valuations, and further advises to indicate the cause of the uncertainty and the degree to which this is reflected in reported valuations.

For the avoidance of doubt this explanatory note, including the 'material valuation uncertainty' declaration, does not mean that the valuation(s) cannot be relied upon. Rather, this explanatory note has been included to ensure transparency and to provide further insight as to the market context under which the valuation opinion was prepared. In recognition of the potential for market conditions to move rapidly in response to changes in the control or future spread of COVID-19 we highlight the importance of the valuation date.

Where a material uncertainty declaration is being used, its purpose is to ensure that any client relying upon that specific valuation report understands that it has been prepared under extraordinary circumstances. The term is not meant to suggest that the valuation cannot be relied upon; rather, it is used in order to be clear and transparent with all parties, in a professional manner that – in the current extraordinary circumstances – less certainty can be attached to the valuation than would otherwise be the case. Indeed, with regard to the process itself, professional valuers will almost certainly have undertaken far more due diligence than normal, in order to arrive at their estimate of value.'
