A Discription of the Company's significant plans and decisions and Future expectations

Significant Plans and decisions

At present, the Management has no intention of restructuring the Company or discontinuing its operations.

Future Expectations

The company's total sales in 2020 were at the same rate in 2019, where the increase was 0.6% due to the delay to start new projects due to the impact of the markets on the Covid-19 pandemic, which affected most economic sectors, both domestically and globally, hoping to end soon, especially in the KSA as a result of its great efforts, which will certainly have a positive impact on the progress of projects as well as the launch of new projects during the year 2021. and the following years, however, the work in many of the current projects has developed steadily during the year 2020, which has led to the maintenance of the demand for the company's products in a stable manner while maintaining the rate of production capacity of the company and consequently improving production costs, which in turn led to an increase in operating profits by 8.72% from the previous year, which is expected to continue during the year 2021..

There are expectations of a return of activity to the markets at the beginning of next year 2021, it is expected a positive impact of performance and market demands and expected growth in the completion of projects during next year, which will positively affect the volume of sales according to current indicators, as the company will focus on export markets to increase sales.

International Financial Reporting Standards

The company applied the international standards for financial reports from 01/01/2017 which became mandatory for listed companies as of 01/01/2017. The company has prepared its initial and annual financial statements for the fiscal year 2020 accordingly and during the specified regular periods.

Value Added Tax

The company applies VAT in line with regulations in Saudi Arabia from 01/01/2018. The company has been registered in VAT with the General Authority for Zakat and Income, although VAT will not have a substantial impact on the company's results.

Information on any risks facing the company and the policy of managing and monitoring these risks

The risks described below do not include all the risks that the Company may face, but there may be additional risks that are not currently known to the Company, or may be considered insignificant by the Company, that may hinder its operations.

A- The company's market is influenced by economic factors affecting the economy in general, and related to the financial ituation and income level, where the oil sector is the most influential sector on the Saudi economy and where the volatility of oil prices affects the level of expenditure in general.

B- Since its inception, the company has relied on an experienced management team in management and operation, and the approval of these leaders is one of the most important elements affecting the development and progress of the company's performance.

Commission rate risk

The risk of commission rates represents the risks of a financial instrument's fluctuation as a result of changes in the prevailing commission rates in the market. The company manages its cash flows by monitoring the timing between the cash flow collected and the cash flow used. However, the risk of commission rates in this regard is not considered substantial. The company is subject to the risk of commission rates on its commission-related liabilities including term loans.

Currency risk

Currency risk resulting from fluctuations in the value of financial instruments due to changes in foreign exchangerates. The management monitors the volatility of foreign exchange rates and believes that the company is not subject to the risk of exchange rate change significantly except the Euro, since the official currency of the company is the Saudi riyal, which is the main currency that the company deals with and its price is currently fixed and by a small margin against the USdollar. The company also deals in Euro currency according to the prevailing exchange rates in the market, and the company also uses derivative financial instruments to reduce exchange rate risk.

Credit risk

Credit risk represents the inability of one party to meet its Liabilities, resulting in the other party incurring a financial loss. Financial instruments that may expose the company to debt concentration risks consist mainly of balances with banks, cash in the fund and debtors' accounts. The Company deposits its cash balances in several of financial institutions with high credit capabilities and embarks on a policy to reduce the size of its holdings deposited in each financial institution. The company does not believe that there is a significant risk of inefficiency from these financial institutions. The company does not believe that it is subject to debt risk in relation to debtors' accounts due to its client base directly or indirectly linked to government contracts.

Liquidity risk

The difficulties faced by the company are in providing funds to fulfill pledges related to financial instruments. The Company manages liquidity risk by ensuring that fundsare available to meet any future Liabilities. The Company does not consider that it is subject to substantial liquidity risks.

Dividends distributing policy

As stipulated in the Article of Association, the distribution of profits depends on the amount of net profits achieved, their financial situation, the state of the market, the company's needs for reinvestment and monetary and capital requirements. The Board of Directors proposes at the end of each financial year to the General Assembly to distribute the company's net profits after all public expenses and other costs, including zakat, which are paid legally as follows:

- 1. Set a side (10%) From the net profits to form the company's satutory reserve, the General Assembly may decide to stop this sparing when the reserve reaches 30% of the paid-up capital.
- 2. The General Assembly may decides to form other reserves, to the extent that is in the company's interest or ensures that fixed profits are distributed as much as possible to shareholders. The association may also deduct from the net profits amounts to establish social institutions for the company's workers or to assist those which exist.
- **3.** From the remainder after that, a percentage of not less than (5%) of the paid-up capital of the company shall be distributed to the shareholders.
- **4.** Subject to the provisions stipulated in Article (20) of the company's Articles of Association, and Article (76) of the Companies Law, after the aforementioned, a percentage not exceeding 10% of the remainder shall be allocated to the

Co.

remuneration of the Board of Directors, provided that the entitlement of this remuneration is proportional to the number of sessions attended by the member.

- **5.** The General Assembly shall decide to distribute interim dividends to its shareholders on a quarterly or semi-annual basis and may authorize the Board of Directors to do so by a decision of which is renewed annually.
- **6.** The shareholder shall be entitled to his share of the profits in accordance with the General Assembly resolution issued in this matter and the decision indicates the date of maturity and the date of distribution and the entitlement of the dividend stake of the shareholders registered in the shareholders' registers at the end of the specified day of maturity.
- 7. Dividends to be distributed to shareholders, through banks, will be disbursed by depositing in their investment portfolios on the dates set by the Board of Directors.

The Board of Directors has three committees:

1- Executive Committee

Is a subsidiary committee of the Board of Directors, consisting of three (3) members, appointed by the Board of Directors, and whose membership is determined so that this period does not exceed the term of the Board of Directors.

The committee's functions and responsibilities:

- Holding periodic meetings to study the new work and obstacles, and to propose appropriate solutions to them, and they should present to the Board of Directors issues that require a decision by the Board.
- Field visits to the factory whenever the requirements of the work are required.
- Review the studies, reports and presentations received by the Committee, and make suggestions and recommendations to the management of the company and the Board of Directors to improve and develop the work.
- Guide sales and marketing, and explore ways to activate them.
- Carrying out the tasks and competencies to which the Board of Directors considers to be mandated by the Committee.
- Exercising the powers vested in it under the Directory of Powers approved by the Board of Directors.
