Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' that is endorsed in the Kingdom of Saudi Arabia. A review of condensed consolidated interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

2 Basis of preparation

2.1 Statement of compliance

These condensed consolidated interim financial statements of the Group have been prepared in accordance with IAS 34 - "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

These condensed consolidated interim financial statements should be read in conjunction with the Group's latest annual last consolidated financial statements as at and for the year ended 31 December 2024 and do not include all of the information normally required for a complete set of financial statements under International Financial Reporting Standards ("IFRS") that are endorsed in the Kingdom of Saudi Arabia. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since 31 December 2024.

The results for the six-month period ended 30 June 2025 are not necessarily indicative of the results that may be expected for the year ended 31 December 2025.

3 Material accounting policies

The principal accounting policies applied in the preparation of condensed consolidated interim financial statements of the Group are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2024, except for the adoption of certain amendments to the standards and interpretations as set out in Note 4.

4 Accounting standards issued but not yet effective

A number of new accounting standards and amendments to accounting standards are effective for annual reporting periods beginning after 1 January 2025 and earlier application is permitted.

However, the Group has not early adopted any of the forthcoming new or amended accounting standards in preparing these condensed consolidated interim financial statements.

These new and revised IFRSs are not expected to have a significant impact on the Group's financial statements.

5 Use of estimates, assumptions and judgements

The preparation of the Group's condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the assets and liabilities in the future periods.

These estimates and assumptions are based upon experience and various other factors that are believed to be reasonable under the circumstances and are used to judge the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised or in the revision period and future periods if the changed estimates affect both current and future periods.

The significant estimates made by the management when applying the Group's accounting policies and the significant sources of uncertainties of the estimates were similar to those shown in the Group's annual consolidated financial statements as at 31 December 2024.

6 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenue and incur expenses, including revenue and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Group's relevant Business Heads which in the Group's case is to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Group's relevant business heads include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The Group's operating segments are analysed and aggregated based on their geographical locations.

9 Trade receivables (Continued)

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade and other receivables.

Trade and other receivables are amounts due from customers for services performed in the ordinary course of business. They are generally due for settlement within 90 days and therefore are all classified as current. Trade and other receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at fair value. The Group holds the trade and other receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortized cost using the effective interest method.

17 Reclassification

The note below sets out the details of adjustments and the line items impacted in the condensed consolidated interim statements of financial position:

Reclassification:

In August 2022, the Group appointed a liquidator to manage the dissolution process for the subsidiary (SNS Algerian). However, the liquidation process remains ongoing, and the subsidiary has not been fully dissolved as of the reporting date, such that the operation is no longer active and there is no plan to recommence operations since 2022. The foreign operations have been in substance liquidated and the Group abandoned the foreign operation since that date. The foreign operations were classified as discontinued operations in the statement of comprehensive income and at the same time the Foreign Currency Translation Reserves (FCTR) was presented in equity as a separate line item. However, under IAS 21 the cumulative foreign currency translation reserve should be reclassified to profit or loss in this case, as the operations in Algeria were substantially abandoned.

As a result, these condensed consolidated interim financial statements have been reclassified to reflect the proper presentation.

<u>Impact of adjustments to condensed consolidated interim statement of financial position as at 31 December 2024:</u>

	31 December 2024 (as issued)	Reclassification	31 December 2024 (as reclassified)
<u>Equity</u>			
Retained earnings	53,724,707	(9,523,043)	44,201,664
Foreign currency translation reserve	(9,523,043)	9,523,043	-
