Report on review of condensed consolidated interim financial information

To the shareholders of Alujain Corporation
(A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Alujain Corporation (the “Company”) and its subsidiaries (together the “Group”) as of 30 June 2025 and the related condensed consolidated interim statement of profit or loss and other comprehensive income for the three-month and six-month periods then ended and the condensed consolidated interim statements of changes in equity and cash flows for the six-month period ended 30 June 2025 and other explanatory notes. Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 - “Interim Financial Reporting” (“IAS 34”), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of interim financial information performed by the independent auditor of the entity”, as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

2. BASIS OF PREPARATION**2.1 Statement of compliance**

This condensed consolidated interim financial information of the Group has been prepared in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA").

This condensed consolidated interim financial information does not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the annual consolidated financial statements of the Group for the year ended 31 December 2024. IAS 34 states that the interim financial information is intended to provide an update on the latest complete set of annual financial statements. Hence, IAS 34 requires less disclosures in interim financial information than International Financial Reporting Standards, that are endorsed in the Kingdom of Saudi Arabia, and other standards and pronouncements issued by SOCPA, require in annual financial statements. An interim period is considered as an integral part of the whole fiscal year, however, the results of operations for the interim periods may not be a fair indication of the results of the full year's operations.

The condensed consolidated interim financial information is prepared on a going concern basis.

2.2 Basis of measurement

The condensed consolidated interim financial information are prepared under the historical cost basis, except as explained in the relevant accounting policies in the annual consolidated financial statements for the year ended 31 December 2024.

This condensed consolidated interim financial information is presented in Saudi Riyals, which is the functional and presentation currency of the Group. All values are rounded to the nearest thousand Saudi Riyals, except when otherwise indicated.

The Group has elected to present a single condensed consolidated interim statement of profit or loss and other comprehensive income and presents its expenses by function. The Group reports cash flows from operating activities using the indirect method.

2.3 New standards and amendments**a) New and amended standards adopted by the Group**

Certain amendments to existing standards became applicable for the current reporting period. The amendments did not have an impact on the condensed consolidated interim financial information of the Group and, accordingly, the Group did not have to change its accounting policies or make any retrospective adjustments.

Title	Key requirements	Effective Date
Amendment to IAS 21 - Lack of Exchangeability	An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.	1 January 2025

b) Standards and interpretations issued but not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2025 reporting periods and have not been early adopted by the Group. The standards, interpretations and amendments issued that are relevant to the Group, but are not yet effective are disclosed below.

Title	Key requirements	Effective Date
Amendment to IFRS 9 and IFRS 7 - Classification and measurement of financial instruments	These amendments: - clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system; - clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion; - add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and - make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).	1 January 2026
Amendment to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity	These amendments change the 'own use' and hedge accounting requirements of IFRS 9 and include targeted disclosure requirements to IFRS 7. These amendments apply only to contracts that expose an entity to variability in the underlying amount of electricity because the source of its generation depends on uncontrollable natural conditions (such as the weather). These are described as 'contracts referencing nature-dependent electricity'.	1 January 2026
Annual improvements to IFRS – Volume 11	Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards. The 2024 amendments are to the following standards: <ul style="list-style-type: none"> • IFRS 1 First-time Adoption of International Financial Reporting Standards; • IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7; • IFRS 9 Financial Instruments; • IFRS 10 Consolidated Financial Statements; and • IAS 7 Statement of Cash Flows. 	1 January 2027
IFRS 18 – Presentation and disclosure in financial statements	The new standard on presentation and disclosure in financial statements, require more focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to: - the structure of the statement of profit or loss; - required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and - enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.	1 January 2027

ALUJAIN CORPORATION

(A Saudi Joint Stock Company)

Notes to the condensed consolidated interim financial information**For the three-month and six-month periods ended 30 June 2025**

(All amounts in Saudi Riyals thousands unless otherwise stated)

Title	Key requirements	Effective Date
IFRS 19 subsidiaries without Public accountability: disclosures	<p>This new standard works alongside other IFRS Accounting Standards. An eligible subsidiary applies the requirements in other IFRS Accounting Standards except for the disclosure requirements and instead applies the reduced disclosure requirements in IFRS 19. IFRS 19's reduced disclosure requirements balance the information needs of the users of eligible subsidiaries' financial statements with cost savings for preparers. IFRS 19 is a voluntary standard for eligible subsidiaries.</p> <p>A subsidiary is eligible if:</p> <ul style="list-style-type: none"> - it does not have public accountability; - it has ultimate or intermediate parent that produces consolidated financial statement available for public use that comply with IFRS Accounting Standards. 	1 January 2027

Management is in the process of assessing the impact, if any, these pronouncements may have in future reporting periods.

2.4 Material accounting policies

The material accounting policies adopted by the Group in the preparation of the condensed consolidated interim financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2024, except the presentation of the condensed consolidated interim statement of profit or loss and other comprehensive income, which has been presented as a single statement in this condensed consolidated interim financial information.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the condensed consolidated interim financial information requires the use of certain critical estimates and judgments that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date and the reported amount of revenue and costs during the reporting period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Group makes estimates and judgments concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

These estimates and assumptions are based upon experience and various other factors that are believed to be reasonable under the circumstances and are used to judge the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised or in the revision period and future periods if the changed estimates affect both current and future periods.

Management has concluded that the Group's critical accounting judgements, estimates and assumptions remain appropriate under the current circumstances for the purpose of preparation of the condensed consolidated interim financial information. Management believes all sources of estimation uncertainty remain similar to those disclosed in the annual consolidated financial statements for the year ended 31 December 2024.

4. SIGNIFICANT MATTERS DURING THE PERIOD

During the six-month period ended 30 June 2025, the Group successfully completed a planned turnaround and maintenance shutdown of its polypropylene complex in Yanbu. The plant was taken offline to carry out essential maintenance, inspections, and reliability enhancements. This scheduled activity was part of the Group's commitment to operational excellence, safety, and long-term asset integrity. As a result, production volumes and sales were temporarily impacted, contributing to a decrease in revenue and cost of revenue.

5. PROPERTY, PLANT AND EQUIPMENT

The movement of property, plant, and equipment during the period / year is as follows:

8. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

Investment in financial assets comprise the following individual investments:

	30 June 2025 (Unaudited)	31 December 2024 (Audited)
Investment in financial assets at fair value through profit or loss (FVTPL)		
Current asset		
- Investment in mutual fund - Quoted (Note 8.1)	219,673	330,049
Non-current asset		
- Investment in sukuk - Unquoted (Note 8.2)	121,470	-

8.1 In 2024, the Group invested an amount of Saudi Riyals 330 million in a mutual fund managed by an investment management company. As at 30 June 2025, the total net asset value of the investment is Saudi Riyals 219.7 million with 16,253,484 number of units at the rate of Saudi Riyals 13.52 per unit (as at 31 December 2024, the total net asset value of the investment was Saudi Riyals 330 million with 25,070,254 number of units at the rate of Saudi Riyals 13.17 per unit).

8.2 During the three-month period ended 31 March 2025, the Group invested Saudi Riyals 120 million in Tier 1 sukuk issued with no fixed redemption/maturity dates (Perpetual Sukuk). These sukuk offer an annual profit at the rates ranging 6.2% - 6.3% and include an option available to issuer for early redemption on the call date, set five years after the date of issuance. Management had previously accounted for these financial instruments at amortised cost in the condensed consolidated interim financial information for the three-month period ended 31 March 2025.

In accordance with IFRS 9 'Financial instruments', that is endorsed in the Kingdom of Saudi Arabia, financial assets that are equity instruments from the perspective of the issuer, such as Tier 1 Sukuk should be classified at fair value. Management has not elected to classify these investments at fair value through other comprehensive income (FVOCI) and, therefore, these have been classified as financial instruments at FVTPL. Hence upon reassessment, management has concluded that such investment should have been presented as financial instruments at FVTPL from the date of acquisition. Accordingly, the classification of these sukuk have been amended from financial instruments at amortised cost to financial instruments at FVTPL in the condensed consolidated interim statement of financial position.

a. Project under construction

The project under construction is located in Yanbu Industrial City, Kingdom of Saudi Arabia, which includes the construction of the following:

1. Propane gas processing plant (to produce propylene).
2. Plant for the production of polypropylene, and
3. Complex to produce polypropylene compounds and polypropylene specialty materials.

The project, upon its completion, will produce more than 600,000 tons of polypropylene, polypropylene compounds, and specialized construction materials from polypropylene derivatives, in addition to about 25,000 tons of salable hydrogen annually.

The project has progressed beyond the Front-End Engineering Design (FEED) phase, which has been successfully completed. Procurement activities are underway, with long-lead items already ordered. Early civil works have commenced on site. In parallel, a financial advisor has been appointed to support project financing activities. Furthermore, Requests for Proposals (RFPs) for the Engineering, Procurement, and Construction (EPC) scope, covering both Inside Battery Limits (ISBL) and Outside Battery Limits (OSBL) have been issued to a shortlist of pre-qualified EPC contractors.

b. Others

Other capital work-in-progress primarily includes ongoing projects in addition to cost being incurred on existing plants regarding major overhauling. Transfer made during the six-month period ended 30 June 2025 represent turnaround costs capitalised to property, plant and equipment, upon the completion of the turnaround activity during the period.

15. FAIR VALUE MEASUREMENT

The Group has a number of financial instruments which are measured at amortised cost and the fair value of majority of these instruments approximate their carrying values. The management assessed that the fair value of cash and cash equivalents, trade and other receivables, trade and other payables and accruals approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair values of the non-current financial instruments are estimated to approximate their carrying values as these are determined through cash flows discounted using interest rates which are based on prevailing market interest rates.

Fair value of trade receivables related to contracts with provisional pricing arrangements and financial assets at FVTPL are disclosed below:

30 June 2025 (Unaudited)	Level 1	Level 2	Level 3	Total
Trade receivables related to contracts with provisional pricing arrangements	-	-	295,286	295,286

17. COMPARATIVE FIGURES

During 2025, management of the Group reassessed the presentation of certain transactions and balances and concluded that certain restatements are required to comply with the requirements of International Financial Reporting Standards that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants ("SOCPA"). Accordingly, management has restated the comparative condensed consolidated interim financial information as summarized below. The restatements below had no impact on the net profit / (loss) for the period:

- i) For the three-month and six-month periods ended 30 June 2024, amortisation of customer relationships was presented as a separate line item within the condensed consolidated interim statement of profit or loss and other comprehensive income. In accordance with IAS 1 'Presentation of Financial Statements', an entity should present its statement of profit or loss either by nature or by function. Management has assessed that in prior periods the condensed consolidated interim statement of profit or loss and other comprehensive income had shown a mixed presentation, including both nature and function, which is contrary to the requirements of IAS 1. Management also assessed that amortisation of customer relationships relates to the operations of the Group and, therefore, should form part of the results from operations and such amortisation should be presented within the "selling and marketing expenses" function.
- ii) For the six-month period ended 30 June 2024, proceeds from long-term borrowings and repayment of long-term borrowing were presented on a net basis within the condensed consolidated interim statement of cash flows. In accordance with IAS 7 'Statement of Cash Flows', proceeds from long-term borrowings and repayment of long-term borrowings should be presented on a gross basis. Accordingly, management has amended the comparatives of the condensed consolidated interim statement of cash flows and presented proceeds and repayments of long-term borrowings on a gross basis.
- iii) In the prior periods, the Group presented a "Reserve for acquisition of additional shares in a subsidiary" separately within the condensed consolidated interim statement of financial position and the condensed consolidated interim statement of changes in equity. During 2024, management had changed its policy for the presentation of this reserve and elected to present these changes directly within retained earnings as management believes that this presentation provides more reliable and relevant information. However, management had not applied the change in policy retrospectively as required by IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' and, accordingly, the impacted comparative figures of the condensed consolidated interim statement of financial position and condensed consolidated interim statement of changes in equity have been restated.
- iv) For the six-month period ended 30 June 2024, the Group presented the consideration paid for 'purchase of additional shares in a subsidiary' within the condensed consolidated interim statement of cash flows as the contractual amount, rather than the actual cash consideration paid which was not in accordance with the requirements of IAS 7 'Statement of Cash Flows'. This also resulted in the understatement of the 'cash and cash equivalents at the end of the period'.

Furthermore, the transactions 'purchase of additional shares in a subsidiary' and 'proceeds from the sale of shares in a subsidiary' were previously classified as cash flows from investing activities. However, in accordance with IAS 7 'Statement of Cash Flows', changes in ownership interests in a subsidiary that do not result in a loss of control should be classified as cash flows from financing activities.

Accordingly, management has amended the comparatives of the condensed consolidated interim statement of cash flows and adjusted the purchase of additional shares to reflect the cash effect of the transaction and classified the purchase of additional shares in a subsidiary and proceeds from sale of shares in a subsidiary as cash flows from financing activities.
