TO:

THE SHAREHOLDERS OF

ETIHAD ATHEEB TELECOMMUNICATION COMPANY

(A Saudi Joint Stock Company)

Introduction

We have reviewed the accompanying condensed interim statement of financial position of ETIHAD ATHEEB TELECOMMUNICATION COMPANY (the "Company") as at 30 June 2023, the related condensed interim financial statements of profit or loss and other comprehensive income, changes in equity and cash flows for the three months' period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Accounting Standard (34) "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia.

Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard (34) "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia.

23. FINANCIAL INSTRUMENTS - FAIR VALUES

Fair values

The fair values of financial and non-financial assets and liabilities are determined for measurement and/or disclosure purposes on the basis of the accounting policies disclosed in the financial statements. As at the reporting date, the fair value of the Company's financial assets and liabilities was a reasonable fair value

Fair Value levels

The fair values of financial instruments such as cash and cash equivalents, trade receivables, contract assets, other receivables, short-term and other payables approximate their book value largely due to their short maturity. The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable:
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS

For The Three Months Period Ended June 30, 2023

(Saudi Rival)

Assets and liabilities that are not measured at fair value on a recurring basis:

	As of June 30, 2023 (Unaudited)			
	Book value		Fair value	
SAR		Level 1	Level 2	Level 3
Financial Liabilities	· ·			
Long term accounts payable	193,509,139	~	•	185,776,431
	As of March 31, 2023 (Audited)			
	Book value		Fair value	
SAR		Level 1	Level 2	Level 3
Financial Liabilities Long term accounts payable	151,905,754	-		142,795,397

The fair value of other non-current financial liabilities is estimated by discounting future cash flows using currently available rates for debt on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in expected cash flows or the discount rate. The evaluation requires management to use unobservable inputs in the model. Significant unobservable inputs are disclosed in the tables below. Management regularly evaluates a range of reasonably possible alternatives to these significant unobservable inputs and determines their effect on the total fair value

The book value of the financial assets and financial liabilities stated in the Company's financial statements approximates their fair values.

Describe the significant unobservable inputs to be evaluated:

Type of financial instrument	Fair value as at June 30, 2023	Valuation technique	Unobservable inputs	value sensitivity of the fair measurement to unobservable inputs
Long term payables	185,776,431	Discounted cash flows	Future periods interest rate	A 1% increase / (decrease) in the interest rate would lead to an increase / (decrease) in the fair value by SAR 4.8 million
