Report on review of interim condensed financial information

To the Unitholders and Fund Manager of
Albilad MSCI US Equity ETF

Introduction

We have reviewed the accompanying interim condensed statement of financial position of Albilad MSCI US Equity ETF (the "Fund") as of 30 June 2025 and the related interim condensed statements of comprehensive income, changes in equity attributable to the Unitholders and cash flows for the six-month period then ended and explanatory notes. Fund Manager is responsible for the preparation and presentation of this interim condensed financial information in accordance with International Accounting Standard 34 - "Interim Financial Reporting" ("IAS 34"), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim condensed financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information performed by the Independent Auditor of the Entity", as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial information is not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

1 LEGAL STATUS AND PRINCIPAL ACTIVITIES

Albilad MSCI US Equity ETF (the "Fund") is an open-ended exchange traded fund established and managed by Albilad Investment Company ("Fund Manager"), a subsidiary of Bank Albilad (the "Bank") for the benefit of the Fund's Unitholders (the "Unitholders"). The objective of the Fund is to achieve long-term growth and capital gains through the Passive Management of a Basket of US stocks that comply with the Shariah Supervisory Committee Standards and are listed in the US Market, seeking to achieve a high performance level that simulates the performance of the Benchmark Index before calculating any dividends, fees or expenses.

The activities of the Fund conform to the rules and controls set by the Sharia Board.

In dealing with the Unitholders, Fund Manager considers the Fund as an independent accounting unit. Accordingly, Fund Manager prepares separate financial statements for the Fund. Furthermore, Unitholders are considered to be beneficial owners of the assets of the Fund. The management of the Fund is the responsibility of Fund Manager.

Riyad Capital is the "Custodian" of the Fund.

The Fund is governed by the Investment Fund Regulations (the "Regulations") issued by the Board of the Capital Market Authority (CMA) pursuant to its Resolution Number 1 - 219 - 2006 on 3 Dhul Hijja 1427H (corresponding to 24 December 2006) and new amendment number 2-22-2021 by resolution of the Board of the CMA on 12 Rajab 1442H (corresponding to 24 February 2021) effective from 19 Ramadan 1442H (corresponding 1 May 2021) by the New Investment Fund Regulations ("Amended Regulations") published by the Capital Market Authority on 17 Rajab 1442H (corresponding to 1 March 2021) detailing requirements for all funds within the Kingdom of Saudi Arabia. During the period ended 30 June 2025, CMA has issued another amendment to the regulation via amendment number 1-54-2025 issued on 23 Dhul Qidah 1446H (corresponding to 21 May 2025) which is effective subsequent to the period ended 30 June 2025, from 14 Muharram 1442H (corresponding 9 July 2025).

The registered office of the Fund is Albilad Investment Company, P.O. Box 8162, Riyadh 12313 – 3701, Kingdom of Saudi Arabia.

1.1 PRIMARY MARKET OPERATION (ISSUANCE AND REDEMPTION OF UNITS)

The primary market operations are only carried out by Fund Manager who is the authorised Market Maker Albilad Investment Company. The Issuance and Redemption activities are done on the basis of blocks of exchange traded fund (ETF) units (for the Fund, one block equals 100,000 ETF Units), referred to Issuance and Redemption of Units respectively. The process of issuance and redemption of ETF units is on an in-kind basis whereby the Market Maker interexchange ETF Units of the Fund and the basket of assets, through the Custodian, for the purpose of issuance and redemption of ETF units. The issued units are then freely floated on Tadawul for public trading.

2 BASIS OF PREPARATION

This interim condensed financial information of the Fund has been prepared in accordance with International Accounting Standard 34 – "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. This interim condensed financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2024. In addition, results for the six-month period ended 30 June 2025, are not necessarily indicative of the actual results for the full year ending on 31 December 2025 and final results may differ.

The interim condensed financial information has been prepared on a historical cost convention using the accrued basis of accounting, except for the fair valuation of investments held at fair value through statement of income (FVSI).

The principal accounting policies, estimates and assumptions used in the preparation of this interim condensed financial information are consistent with those of the previous financial year i.e. for the year ended 31 December 2024 except for note 3 below.

The Fund does not have a clearly identifiable operating cycle and therefore does not present current and non-current assets and liabilities separately in the interim condensed statement of financial position. Instead, assets and liabilities are presented in order of liquidity.

The preparation of this interim condensed financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. There are no areas of significant judgment or significant assumption used in the preparation of this interim condensed financial information.

The Fund can recover or settle all its assets and liabilities within 12 months from the reporting date.

In preparing this interim condensed financial information, the significant judgments made by management in applying the Fund's accounting policies and the key sources of estimation uncertainty including the risk management policies were the same as those that applied to the annual financial statements as at and for the year ended 31 December 2024.

The Fund enters into transactions in the normal course of business with these parties at prices and terms agreed between the parties.

6 FAIR VALUE ESTIMATION

The fair value of financial instruments traded in active markets is based on quoted market prices at the close of trading on the reporting date. Instruments for which no sales were reported on the valuation day are valued at the most recent bid price.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

The fair value hierarchy has the following levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The estimated fair value of the Fund's financial assets and liabilities is not carried at fair value, is not considered to be significantly different from their carrying values. The fair value of investments held at FVSI are based on quoted prices in active markets and are therefore classified within Level 1.

7 FINANCIAL RISK MANAGEMENT

7.1 Financial risk factors

The financial risk management policies are consistent with those disclosed in the Fund's financial statements as at and for the year ended 31 December 2024.

(c) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's Terms and Conditions provide for subscription and redemption of units on every Valuation Day and it is, therefore, exposed to the liquidity risk of meeting redemptions at any time. The Fund's securities are considered to be readily realisable and they can be liquidated at any time. However, Fund Manager has established certain liquidity guidelines for the Fund and monitors liquidity requirements on a regular basis to ensure sufficient funds are available to meet any commitments as they arise, either through new subscriptions, liquidation of the investment portfolio or by obtaining financing from the related parties of the Fund. The Fund settles its financial liabilities relating to accrued management fee and other expenses on quarterly basis.

Fund manager allows the redemption at the same business day after the request for redemption, if the day is not a business day then redemption will be executed on next business day.

The expected maturity of the assets and liabilities of the Fund is less than 12 months.

Interest rate and liquidity risk management

The Fund is not exposed to interest rate risk as it does not have any interest bearing financial assets. Ultimate responsibility for liquidity risk management rests with Fund Manager, which has established an appropriate liquidity risk management framework for the management of the Fund's short, medium and long-term funding and liquidity management requirements. The Fund manages liquidity risk by maintaining adequate reserves, banking facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for Unitholders, provide benefits for other stakeholders and maintain a strong capital base to support the development of the investment activities of the Fund.

In order to maintain the capital structure, the Fund's policy is to monitor the level of subscriptions and redemptions relative to the assets it expects to be able to liquidate and adjust the amount of dividend distributions the Fund pays to redeemable units.

The Fund Board and Fund Manager monitor capital on the basis of the value of equity attributable to redeemable Unitholders.
