REPORT ON REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS

**TO: THE SHAREHOLDERS OF
ETIHAD ATHEEB TELECOMMUNICATION COMPANY
(A Saudi Joint Stock Company)**

Introduction

We have reviewed the accompanying condensed interim statement of financial position of **ETIHAD ATHEEB TELECOMMUNICATION COMPANY** (the "Company") as at 31 December 2021, the related condensed interim statement of profit or loss and other comprehensive income for the three and nine months periods ended 31 December 2021, and the condensed interim statements of changes in equity and cash flows for the nine months period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Accounting Standard (34) "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia.

Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard (34) "Interim Financial Reporting" that is endorsed in the Kingdom of Saudi Arabia.

Emphasis of Matter

We draw attention to Note (1) to the accompanying condensed interim financial statements, which indicates that the accumulated losses of the Company amounted to SR 146 million as of 31 December 2021, exceeding half of the Company's share capital, and the Company's current liabilities exceeded its current assets by SR 178.3 million as at 31 December 2021 and it incurred a loss of SR 29.2 million for the nine months period then ended. These conditions indicate the existence of a material uncertainty, which may cast significant doubt about the Company's ability to continue as a going concern. As stated in Note (1), the management has made an assessment of the Company's ability to continue as a going concern, and as a result, the accompanying condensed interim financial statements have been prepared on a going concern basis. Our conclusion is not modified in respect of this matter.

1. ORGANIZATION AND ACTIVITIES (CONTINUED)

Going concern:

These condensed interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations.

As at 31 December 2021, the Company has accumulated losses amounting to SAR 146 million, which exceeded 50% of the Company's share capital (63.86 %), and the Company's current liabilities exceeded its current assets by SAR 178.3 million (31 March 2021: SAR 146.3 million). Moreover, the Company incurred a net loss of SAR 29.2 million for the nine months period then ended. In accordance with the requirements of Article (150) of the provisions of the Companies Law, the Company must follow certain steps and procedures, if its accumulated losses exceed half of its share capital. The Board of Directors assigned the Executive Management to study ways to restructure the capital, and a financial advisor to the Executive Management was appointed to present a future financial plan to the Board of Directors dealing with how to raise the Company's financial solvencies, strategic expansion, and improve operational and financial performance.

The Company has submitted the application file to reduce the share capital by SR 138,530,000 (from SR 228,529,000 to SR 89,999,000) for approval to the CMA on Wednesday 21/03/1443H corresponding to 27/10/2021, During December 2021 the Company received the approval from the CMA for the capital reduction and announced for the deadline for convening the 13th Extraordinary General Assembly Meeting to address the accumulated losses (refer to note 20.a).

The management believes that the cash inflows, in normal course of business, will be sufficient to meet its liabilities for a period at least 12 months from the date of the financial statements based on the following:

- In February 2021, the Company signed an agreement, with an effective date of December 31, 2020, with one of its major vendors to settle all balances and dues between the two parties which resulted in a net reduction (gain) of SAR 101 million on net balances payable to a major vendor. As of the effective date, the new balance payable to the major vendor was SAR 370 million and its payment was re-scheduled as a down-payment of SAR 125 million upon signing the agreement with the remaining amount of SAR 245 million (as shown below) to be paid in five equal installments resulting in an additional gain of SAR 36 million on rescheduling (refer Note 10).

<u>Installment No.</u>	<u>Amount (SAR)</u>	<u>Date of payment</u>
First	49 million	July 1, 2022
Second	49 million	July 1, 2023
Third	49 million	July 1, 2024
Fourth	49 million	July 1, 2025
Fifth	49 million	January 1, 2026
Total	<u>245 million</u>	

- The Company's business will improve by sealing new sales agreements which will result in the growth in revenue for the future periods and in the generation of cash that will enable the Company to meet its obligations as and when they become due.

- The management is also considering certain other aspects to improve the Company's performance mainly including the enhancement of the Company's existing network infrastructure, deployment of new technologies, exploring alternative uses of the Company's frequency spectrum, and cost optimization plans.

As described above, the management has a reasonable expectation that the Company has adequate resources to meet its liabilities as they become due. If for any reason the Company is unable to continue as a going concern, then this could have an impact on the Company's ability to realize assets at their recognized values and to extinguish liabilities in the normal course of business at the amounts stated in the condensed interim financial statements.

19. FINANCIAL INSTRUMENTS – FAIR VALUES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilize the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the condensed interim financial statements are categorized within the fair value hierarchy. This is described as follows based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable. For assets and liabilities that are recognized in the condensed interim financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company determines the policies and procedures for both recurring fair value measurement, and for non-recurring measurement. At each reporting date, the Company analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents. The Company also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.
