Independent Auditors' Review Report on the Interim Condensed Consolidated Financial Information

**To The shareholders of Saudi Awwal Bank
(A Saudi Joint Stock Company)**

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Saudi Awwal Bank (the "Bank") and its subsidiaries (collectively referred to as the "Group") as at 31 March 2026, and the related interim condensed consolidated statements of income, comprehensive income, changes in equity and cash flows for the three month period then ended, and explanatory notes (collectively referred to as "the interim condensed consolidated financial information").

Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

1.1. Basis of preparation

This interim condensed consolidated financial information of the Group as at and for the period ended 31 March 2026 has been prepared in accordance with International Accounting Standard (IAS) 34 “Interim Financial Reporting” as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (“SOCPA”). The interim condensed consolidated information does not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with Group’s annual consolidated financial statements as at 31 December 2025.

SAB presents its interim condensed consolidated statement of financial position in the order of liquidity.

This interim condensed consolidated financial information is expressed in Saudi Arabian Riyals (ﷲ) and is rounded off to the nearest thousands, except where otherwise indicated.

1.2. Basis of consolidation

This interim condensed consolidated financial information comprises the interim financial information of SAB and its subsidiaries, as mentioned in note 1 (collectively referred to as “the Group”). The financial information of the subsidiaries is prepared for the same reporting period as that of SAB, using consistent accounting policies.

Subsidiaries are entities which are directly or indirectly controlled by SAB. SAB controls an entity (“the Investee”) over which it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Subsidiaries are consolidated from the date on which control is transferred to SAB and cease to be consolidated from the date on which the control is transferred from SAB. Intra-group transactions and balances have been eliminated in preparing this interim condensed consolidated financial information.

The Group acts as a Fund Manager to a number of investment funds. Determining whether the Group controls such an investment fund usually focuses on the assessment of the aggregate economic interests of the Group in the Fund (comprising any carried interests and expected management fees) and the investors' rights to remove the Fund Manager. As a result, the Group has concluded that it acts as an agent for the investors in all cases except as mentioned in note 1, and therefore has not consolidated these funds.

2. Material accounting policies, estimates, assumptions, and impact of changes due to adoption of new standards

The accounting policies, estimates, and assumptions used in the preparation of this interim condensed consolidated financial information is consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2025 unless otherwise stated.

New standards, interpretations and amendments adopted by the Group

The following standards, interpretations or amendments are effective from the annual periods beginning on 1 January 2026 and are adopted by the Group, however, these do not have any significant impact on the interim condensed consolidated financial information for the period:

Accounting Standards, interpretations, amendments	Description
Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments	Under the amendments, certain financial assets including those with environmental, social governance (ESG) linked features could now meet the SPPI criterion, provided that their cash flows are not significantly different from an identical financial asset without such a feature. The IASB has amended IFRS 9 to clarify when a financial asset or a financial liability is recognised and derecognised and to provide an exception for certain financial liabilities settled using an electronic payment system.
Annual improvements to IFRS – Volume 11	Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards.

New standards, interpretations and amendments issued but not yet effective

The International Accounting Standard Board (IASB) has issued the following accounting standards and / or amendments, which will become effective from periods beginning on or after 1 January 2027. The Group has opted not to early adopt these pronouncements and is in the process of assessing the impact on the interim condensed consolidated financial information of the Group.

Accounting Standards, interpretations, amendments	Description	Effective periods beginning on or after
IFRS 18 - Presentation and Disclosure in Financial Statements	IFRS 18 provides guidance on items in statement of profit or loss classified into five categories: operating; investing; financing; income taxes and discontinued operations. It defines a subset of measures related to an entity's financial performance as 'management-defined performance measures' ('MPMs'). The totals, subtotals and line items presented in the primary financial statements and items disclosed in the notes need to be described in a way that represents the characteristics of the item. It requires foreign exchange differences to be classified in the same category as the income and expenses from the items that resulted in the foreign exchange differences. The group is in the process of enhancing its systems and allocating resources to align with the classification and disclosure requirements of IFRS 18, ensuring its readiness to apply IFRS 18 on its effective date.	1 January 2027
Amendments to IFRS 10 and IAS 28- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Partial gain or loss recognition for transactions between an investor and its associate or joint venture only apply to the gain or loss resulting from the sale or contribution of assets that do not constitute a business as defined in IFRS 3 (Business Combinations) and the gain or loss resulting from the sale or contribution to an associate or a joint venture of assets that constitute a business as defined in IFRS 3 is recognised in full.	Effective date deferred indefinitely

The comparative figures have been disaggregated to align with the current period's presentation. Other retail lending, previously presented as a single category, has been separated into Home Finance, Personal Finance and Other retail lending. Similarly, corporate and institutional banking previously presented as a single category, have been further disaggregated into Micro, Small and Medium Enterprises (MSME) exposures.

Lifetime ECL credit impaired includes non-performing loans and advances. It also includes exposures that are now performing but have yet to complete a period of 12 months of performance ('the curing period') to be eligible to be upgraded to a not-impaired category.

The financial assets recorded in each stage have the following characteristics:

- 12 month ECL not credit impaired (stage 1): without significant increase in credit risk on which a 12-month allowance (or lower if the tenor of the facility is less than 12 months) for ECL is recognised;
- Lifetime ECL not credit impaired (stage 2): a significant increase in credit risk has been experienced since initial recognition on which a lifetime ECL is recognised;
- Lifetime ECL credit impaired (stage 3): objective evidence of impairment, and are therefore considered to be in default or otherwise credit impaired on which a lifetime ECL is recognised; and
- Purchased or originated credit impaired ('POCI'): purchased or originated at a deep discount that reflects the expected lifetime credit losses at time of purchase or origination. A lifetime ECL is recognised if further credit losses are expected. POCI includes non-performing loans and advances acquired through the merger with Alawwal Bank (AAB) that were recorded at fair value as of acquisition date.

Impairment testing of goodwill

The goodwill acquired through business combination is reviewed annually for impairment. However, at each reporting period, an assessment is made for indicators of impairment. If indicators exist, an impairment test is required. The impairment test compares the estimated recoverable amount of the Group's CGUs that carry goodwill, as determined through a Value-In-Use (VIU) model, with the carrying amount of net assets of each CGU. The goodwill has been allocated to the following cash-generating units:

- Wealth & personal banking
- Corporate and institutional banking
- Treasury

As at 31 March 2026, no impairment indicators were identified. Therefore, no impairment test was performed. The key assumptions, valuations and techniques used in assessing the impairment's indicators are applied consistently as those at year end 31 December 2025.

9. Derivatives

The table below sets out the positive and negative fair values of derivative financial instruments together with their notional amounts. The notional amounts, which provide an indication of the volumes of the transactions outstanding at the end of the period, do not necessarily reflect the amounts of future cash flows involved. These notional amounts, therefore, are neither indicative of the Group's exposure to credit risk, which is generally limited to the positive fair value of the derivatives, nor to market risk.

11. Debt securities in issue and term loans

During the year ended 2025, SAB obtained the necessary approvals from SAMA for exercising its call option on its ₪ 5 billion Tier 2. The Sukuk was redeemed at face value (100% of issue price) at the end of 5 years from issuance.

During 2025, SAB issued USD 1.25 billion (equivalent to ₪ 4.688 billion) Tier 2 Notes, under the Group's Medium-Term Note Programme (the 'International Programme'). The Notes are unsecured and due in 2035, with SAB having an option to repay the Tier 2 Notes after 5 years, subject to prior approval of SAMA and terms and conditions of the International Programme. The Notes carry special commission expense rate of 5.95% (fixed rate) payable semi-annually.

In addition, SAB issued certificate of deposits (CDs) under its CDs programme and entered into an arrangement of bilateral borrowings (term loans).

13. Additional Tier 1 Sukuk

The Group has issued Additional Tier 1 Capital Sukuk by way of private placement as follows:

Issuance date	Amount (in ٫ billions)	Issuance Currency	Fixed / Floating	Coupon rate	Coupon Payment frequency
31 October 2023	4.00	SAR	Floating	3 months SAIBOR + 125 bps	Quarterly
12 December 2024	3.65	SAR	Fixed	6.07%	Quarterly
12 December 2024	0.35	SAR	Floating	3 months SAIBOR + 134 bps	Quarterly
21 May 2025	2.44	USD	Fixed	6.50%	Semi-annually
24 July 2025	2.00	SAR	Fixed	6.30%	Quarterly

The issuances were approved by the regulatory authorities and Board of Directors of the Group. These Sukuk are perpetual securities in respect of which there is no fixed redemption dates and represents an undivided ownership interest of the Sukuk-holders in the Sukuk assets. The applicable profit rate on the Sukuk is payable on each periodic distribution date, except in the event of a non-payment or non-payment election by the Group, whereby the Group may at its sole discretion (subject to certain terms and conditions) elect not to make any distributions. Such non-payment elections are not considered to be events of default.

14. Zakat and income tax

The Zakat base computed in accordance with the formula specified in the Zakat Regulations is also subject to thresholds for minimum and maximum liability. In addition, SAB is subject to pay corporate income tax to reflect the portion of the shareholder base that is non-Saudi. Corporate income tax is calculated at a rate of 20%, applied to the share of taxable income of the non-Saudi shareholders.

As of 31 March 2026, SAB has filed its Zakat and income tax return up to 2024. Income tax assessments from 2016 to 2018 have not been received by the Group. The assessment of Zakat and Income tax for 2019 up to 2023 are closed and settled. The assessment of 2024 are still under Zakat, Tax, and Customs Authority's (ZATCA) review.

15. Basic and diluted earnings per share

Basic and diluted earnings per share for the periods ended 31 March 2026 and 31 March 2025 are calculated by dividing the net income after Zakat and income tax (adjusted by profit paid on additional Tier 1 Sukuk), by the weighted average number of shares 2,054,794,522 (March 2025: 2,054,794,522) outstanding during the periods.

	31 March 2026 (Unaudited)	31 March 2025 (Unaudited)

Total	13,405,632	9,527,251	6,679,832

17. Operating segments

The Group's primary business is conducted in the Kingdom of Saudi Arabia. Transactions between the operating segments are on normal commercial terms and conditions. Segment assets and liabilities comprise operating assets and liabilities, being the majority of the balance. The Group's reportable segments are as follows:

- **Wealth & Personal Banking** – Wealth and Personal Banking offers a variety of wealth and consumer lending products. Having a mix of domestic and international customers, WPB aims to be the Bank of choice for wealth and internationally-minded customers.
- **Corporate and Institutional Banking** – The Corporate and Institutional Banking provides tailored solutions to a wide range of customer segments including Global Corporates and Institutional Banking, Multinational Corporates, Large and Commercial Banking Corporates, and Small and Medium Enterprises. CIB offers a wide range of products that includes core banking, liquidity management, trade-finance and treasury services.
- **Treasury** – The Treasury business provides Corporate, Institutional, Wealth and Private banking clients with access to treasury and capital markets products across multiple asset classes, including foreign exchange, interest rate, and commodities hedging solutions. In addition, Treasury manages the liquidity and market risk of the Bank, including deployment of its commercial surplus through its investment portfolio.
- **Capital Markets** – The Capital Markets segment brings together the margin lending, brokerage, and asset management business and are managed by our wholly-owned subsidiary SAB Invest.
- **Others** – Includes activities of the Group's investment in its associate, HSBC Saudi Arabia and equity investments. It also includes elimination of inter-group income and expense items.

Notes to the Interim Condensed Consolidated Financial Information

For the three-month period ended 31 March 2026

All amounts in thousands of Saudi Riyals unless otherwise stated

Transactions between the operating segments are reported as per the Group's transfer pricing policy. The Group's total assets and liabilities as at 31 March 2026 and 31 March 2025, its total operating income and expenses, and the results for the periods then ended, by operating segment, are as follows:

18. Financial risk management

Credit risk

The Group follows SAMA Rules on Credit Risk Management whereby the Board of Directors has ultimate responsibility for the effective management of risk and approves the risk appetite. The Board has constituted a Board Risk Committee (BRC) for the ongoing monitoring, assessment and management of the risk environment and the effectiveness of the risk management framework. Day-to-day responsibility for risk management is delegated to senior managers with individual accountability for decision making.

Credit risk is the risk of financial loss if a customer or counterparty fails to meet an obligation under a contract. Credit risk arises principally from direct lending, trade finance and leasing activities, but also from other products such as guarantees and derivatives.

The Group continues to assess the impact of economic developments on specific customers, customer segments or portfolios. As credit conditions change, the Group takes mitigating actions, including the revision of risk appetites or limits and tenors, as appropriate. In addition, the Group continues to manage credit risk by monitoring credit exposures, limiting transactions with specific counterparties, and continually assessing the creditworthiness of counterparties. Credit approval authorities are delegated by the Board to the Managing Director together with the authority to sub-delegate them. The Credit Risk function is responsible for the key policies and processes for managing credit risk, which include formulating credit policies and risk rating frameworks, guiding the Group's appetite for credit risk exposures, undertaking independent reviews and objective assessment of credit risk, and monitoring performance and management of portfolios.

Concentrations of credit risk arise when a number of counterparties have comparable economic characteristics, or such counterparties are engaged in similar business activities, or operate in the same geographical areas or industry sectors so that their collective ability to meet contractual obligations is uniformly affected by changes in economic, political, or other conditions. The Group uses a number of controls and measures to minimize undue concentration of exposure in the portfolios. These include portfolio and counterparty limits, approval and review controls, and stress testing.

a. Provision for expected credit losses, net

The following table shows the provision for expected credit losses for due from banks and other financial institutions, investments, loans and advances and off balance sheet exposures:

	Notes	31 March 2026 (Unaudited)	31 March 2025 (Unaudited)

Net charge for the period		(166,497)	(141,666)

b. Collateral

The Group in the ordinary course of lending activities holds collaterals as security to mitigate credit risk in the loans and advances. These collaterals mostly include time, demand, and other cash deposits, financial guarantees, local and international equities, real estate and other fixed assets. The collateral is held mainly against commercial and consumer loans and are managed against relevant exposures at their net realizable values. For financial assets that are credit impaired at the reporting period, quantitative information about the collateral held as security is needed to the extent that such collateral mitigates credit risk.

19. Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or the most advantageous) market between market participants at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Consequently, differences can arise between the carrying values and fair value estimates.

Determination of fair value and fair value hierarchy:

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- **Level 1:** quoted prices in active markets for the same instrument;
- **Level 2:** quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and
- **Level 3:** valuation techniques for which any significant input is not based on observable market data.

The Group uses widely recognized valuation models for determining the fair value of common and simpler financial instruments. Observable prices or model inputs are usually available in the market for listed debt and equity securities, exchange-traded derivatives, and simple over-the-counter derivatives such as interest rate swaps. Availability of observable market prices and model inputs reduces the need for management judgment and estimation and also reduces the uncertainty associated with determining fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets. The difference between the transaction price and the model value is commonly referred to as 'day one profit or loss'. It is either amortised over the life of the transaction or deferred until the instrument's fair value can be determined using market observable data or realized through disposal. Subsequent changes in fair value are recognized immediately in the consolidated statement of income without reversal of deferred day one profits and losses.

Valuation techniques include net present value and discounted cash flow models, and comparison with similar instruments for which market observable prices exist. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other premiums used in estimating discount rates, bond and equity prices and foreign currency exchange rates.

Derivatives classified as Level 2 comprise Over the Counter (OTC) special commission rate swaps, currency swaps, special commission rate options, forward foreign exchange contracts, currency options and other derivative financial instruments. These derivatives are fair valued using the Group's proprietary valuation models that are based on discounted cash flow techniques. The data inputs to these models are based on observable market parameters relevant to the markets in which they are traded and are sourced from widely used market data service providers.

FVOCI equity investments include investments in local listed shares carried at market price listed on the local stock exchange.

FVOCI investments classified as Level 2 include bonds and sukuks for which market quotes are not available. These are fair valued using simple discounted cash flow techniques that use observable market data inputs for yield curves and credit spreads.

FVOCI investments classified as Level 3 represents private equity investments and valued at their respective fair value. The movement in Level 3 financial instruments during the period relates to fair value and capital repayment movements only.

Fair values of listed investments are determined using mid marked prices. Fair values of unlisted investments are determined using valuation techniques that incorporate the prices and future earning streams of equivalent quoted securities.

Loans and advances are classified as Level 3, the fair value of which is determined by discounting future cash flows using risk adjusted expected SAIBOR rates.

The fair values of due from and due to banks which are carried at amortised cost, are not significantly different from the carrying values included in the consolidated financial information, since these are short dated and the current market special commission rates for similar financial instruments are not significantly different from the contracted rates.

The fair values of demand deposits are approximated by their carrying value. For deposits with longer-term maturities, fair values are estimated using discounted cash flows, applying current rates offered for deposits of similar remaining maturities.

Debt securities in issue and term loans contain fixed instruments and floating rate instruments are floating rate instruments that re-price within a year (every 3 months) and accordingly, the fair value of this portfolio approximates the carrying value. The fair value of the remaining portfolio is not significantly different from its carrying value.

There were no transfers between the levels of fair value hierarchies during the period. The values obtained from valuation models may be different from the transaction price of financial instruments on transaction date.

Reconciliation of Level 3 fair values

The following table shows reconciliation from the opening balances to the closing balances for Level 3 fair values for Investment held at FVOCI – equity.

	31 March 2026 (Unaudited)	31 December 2025 (Audited)
Opening balance	1,443,324	1,136,187
Net change in fair value (unrealized)	3,354	307,137
Closing balance	1,446,678	1,443,324

20. Capital adequacy

The Group's objectives when managing capital are to comply with the capital requirements set by SAMA to safeguard the Group's ability to continue as a going concern and to maintain a strong capital base.

Capital adequacy and the use of regulatory capital are monitored regularly by management. SAMA requires holding a minimum level of regulatory capital and maintaining a ratio of total regulatory capital to the risk weighted assets at or above Basel prescribed minimum.

The Group monitors the adequacy of its capital using the methodology and ratios established by SAMA. These ratios measure capital adequacy by comparing the Group's eligible capital with its assets, commitments and contingencies, and notional amounts of derivatives at a weighted amount to reflect their relative risk.

The following table summarises the Group's Pillar-1 Risk Weighted Assets, Tier 1 and Tier 2 capital and capital adequacy ratios:

	31 March 2026 (Unaudited)	31 December 2025 (Audited)	31 March 2025 (Restated) (Unaudited)
Risk Weighted Assets (RWA)			
Credit Risk RWA	376,363,194	359,687,719	326,526,892

Total Pillar 1 RWA	394,567,223	375,643,256	345,109,638
Common Equity Tier 1 (CET1) Capital	57,442,465	55,732,713	54,224,861
Additional Tier 1 Capital (Note 13)	12,386,500	12,386,500	7,965,000
Core capital (Tier 1)	69,828,965	68,119,213	62,189,861
Supplementary capital (Tier 2)	6,193,738	5,695,047	5,857,628
Core and supplementary capital (Tier 1 and Tier 2)	76,022,703	73,814,260	68,047,489
Capital Adequacy Ratio %			
Common Equity Tier 1 Capital (CET1)	14.56%	14.84%	15.71%
Core capital (Tier 1)	17.70%	18.13%	18.02%
Core and supplementary capital (Tier 1 and Tier 2 ratios)	19.27%	19.65%	19.72%

The Group uses the Standardised approach of SAMA's Basel Framework to calculate the Risk-Weighted Assets and required regulatory capital for Pillar 1 (including Credit Risk, Market Risk and Operational Risk). The management are responsible for ensuring that minimum required Regulatory Capital calculated is compliant with SAMA's Basel Framework requirements. Quarterly prudential returns are submitted to SAMA showing the Capital Adequacy Ratio.

21. Proposed dividends

The Board of Directors has proposed on 5 Ramdan 1447H (Corresponding 22 February 2026) a net dividend of ₪ 2,055 million for the second half of year 2025, resulting in ₪ 1.00 per share for Saudi shareholder's net of Zakat. The income tax of the foreign shareholders will be deducted from their share of the dividends.

22. Geopolitical impact on expected credit losses

The geopolitical situation in the MiddleEast has intensified since 28 February 2026. While a temporary ceasefire was reached in early April 2026, the situation continues to evolve and has had secondary impacts in several countries in the Middle East including Kingdom of Saudi Arabia, causing disruption to some business and economic activities. This has brought about uncertainties in the economic environment and outlook.

The Bank is closely monitoring the situation and potential implications for the financing portfolio. In considering ECL estimates as at 31 March 2026, the Bank performed targeted sector level assessments for its financing portfolio potentially exposed to trade and supply chain disruptions, incorporating both qualitative and quantitative indicators when evaluating for SICR. This has resulted in an overall increase in ECL in isolation of other factors. In addition, given the elevated uncertainty, the Bank reassessed the weightages assigned to the forward looking macroeconomic scenarios used in the ECL model resulting in no change in the current circumstances.

The situation remains fluid, and management will continue to adopt a proactive approach towards monitoring and stress testing of its financing portfolio.

23. Comparative figures

During the year ended 31 December 2025, the Bank corrected the valuation of its interest in an equity investment that is classified as investments at fair value through other comprehensive income (FVOCI) which was historically valued at net asset value instead of fair value. The impact of the change in valuation method from net asset value to fair value has resulted in an increase in carrying value of ₪ 918 million as of 1 January 2025.

During the year ended 31 December 2025, Management has identified an equity investment held by the Bank that was not recorded in prior years. This has resulted in an understatement of investments at "fair value through statement of income (FVSI)" and the corresponding net gains. Upon identification, management classified this investment at FVSI in accordance with IFRS 9, at the amount of ₪ 242 million as of 1 January 2025.

These adjustments are considered as a correction of errors as per IAS 8 (Accounting policies, Changes in Accounting Estimates and Errors) and are material to the interim condensed consolidated financial information and accordingly the interim condensed consolidated statement of financial position and interim condensed consolidated statement of changes in equity have been restated. The impact of these equity investments on the interim condensed consolidated statement of income and interim condensed consolidated statement of other comprehensive income for the period ended 31 March 2025 was insignificant and accordingly, comparatives have not been restated.

Accordingly, the Bank has restated the impacted line items to correct the financial statement for prior period as follows:

	As previously presented	Restatement	Restated
As at 1 January 2025			
Interim condensed consolidated statement of financial position			
Investments, net	103,542,875	1,160,570	104,703,445
Interim condensed consolidated statement of financial position and interim condensed consolidated statement of changes in equity			
Retained earnings	13,468,630	242,086	13,710,716
Other reserves	(1,360,396)	918,484	(441,912)

Further, the Bank has reclassified corporate management fee previously recorded in fee and commission income to special commission income amounting to ₪ 61.5 million, net in accordance with the requirement of IFRS 9 (Financial Instruments) in the interim condensed consolidated statement of income. Accordingly, the reclassification has been reflected in interim condensed consolidated statement of cashflow and note 17 to the Interim condensed consolidated financial information.

24. Board of Directors' approval

This interim condensed consolidated financial information was approved and authorized for issue by the Board of Directors of the Group on 5 Dhul al-Qi'dah 1447H (Corresponding to 22 April 2026).
