INDEPENDENT AUDITORS' REPORT ON THE REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders of
Bupa Arabia for Cooperative Insurance Company
(A Saudi Joint Stock Company)
Kingdom of Saudi Arabia

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Bupa Arabia for Cooperative Insurance Company (the "Company") and its subsidiaries (collectively referred to as the "Group") as at 30 June 2025, and the related interim condensed consolidated statements of income and comprehensive income for the three-month and six-month periods then ended, and the interim condensed consolidated statements of changes in equity and cash flows for the six-month period then ended and other explanatory notes (collectively referred to as the "interim condensed consolidated financial statements"). Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 - "Interim Financial Reporting" (IAS 34), as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, as endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34, as endorsed in the Kingdom of Saudi Arabia.

8. STATUTORY DEPOSIT

As required by Insurance Regulations, the Group deposited an amount equivalent to 10% of its paid-up share capital, amounting to SR 150 million, in a bank designated by regulator. Accrued income on this deposit is payable to Insurance Authority amounting to SR 2.87 million (31 December 2024: SR 4.38 million) and this deposit cannot be withdrawn without approval from Insurance Authority. The statutory deposit is shown on the statement of financial position net of impairment allowance.

9. FIDUCIARY ASSETS

During the year ended 31 December 2018, after obtaining SAMA's approvals, the Group entered into a Third-Party Administration agreement (TPA) with a customer under which the Group facilitates healthcare services to Customer's employees with specific terms and conditions. The agreement is effective from 1 March 2018. The services are remunerated against administration fees.

In order to fulfil the commitment relating to this agreement, the Group receives funds in advance from the customer to settle anticipated claims from medical service providers. As the Group acts as an agent, the relevant bank balance and related payables at the reporting date, are excluded from the condensed interim consolidated statement of financial position. The assets and liabilities held in fiduciary capacity amounted to SR 496 million as of 30 June 2025 (31 December 2024: SR 224 million).

10. COMMITMENTS AND CONTINGENCIES

The Group's commitments and contingencies are as follows:

- There was no material change in the status of legal proceedings as of 30 June 2025 since the last annual consolidated audited financial statements.
- As of 30 June 2025, total letters of guarantee issued by banks amounted to SR 295 million (31 December 2024: SR 261 million).
- Refer to Note 14 for zakat and income tax related matters.

11. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction takes place either:

- in the accessible principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous accessible market for the asset or liability.

a) Determination of fair value and fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for the same or identical instrument that an entity can access at the measurement date.

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

b) Carrying amounts and fair value

The following table shows the carrying amount and fair value of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and financial liabilities not measured at fair value (financial assets and liabilities at amortized cost) as the carrying amount is a reasonable approximation to fair value (except for certain term deposits and sukuks at amortized cost for which the difference between carrying amount and the fair value is not material to the interim condensed consolidated financial statements), as these are either short-term in nature or carry interest rates which are based on prevalent market interest rates

11. FAIR VALUE OF FINANCIAL INSTRUMENTS (continued)

c) Measurement of fair value

Valuation technique and significant unobservable inputs

The following table shows the valuation techniques used in measuring Level 3 fair value at 30 June 2025 and 31 December 2024, as well as the significant unobservable inputs used. The fair value used for valuation of Level 2 Sukuks and mutual funds are based on prices quoted on reliable third-party sources.

Type	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Mutual funds	Mutual funds classified as Level 3 are fair valued based on the latest available NAV communicated by the fund manager.	Fair value of underlying assets	The estimated fair value will increase / decrease directly in line with the change in fair value of underlying assets.

Sensitivity analysis:

The impact of change in net assets value reported in level 3 on net income and total equity is as follows:

	30 June 2025 (unaudited)	31 December 2024 (audited)
+/- 5% change in net assets value	+/- 3,167	+/- 3,219
