In continuation of the company's approach and achieving its strategic goals in development, growth and spread, protecting the rights of the insured and shareholders, and working to meet the risks it faces and reduce their impact, the company will adopt the following policies and plans in the future to achieve its aspirations:

- 1. Creating new insurance products that meet market needs and keep pace with changes in the Kingdom.
- 2. Continuing the company's expansion in using and innovating new technical channels in production to achieve the company's strategic objective, which is digital transformation.
- 3. Raising the level of reliance on modern technical means in serving the company's customers to improve the level of service on one hand and reach the customers' needs in an easier and faster way on the other hand.
- 4. Expanding the work of the bancassurance by concluding new agreements with local banks to provide the appropriate insurance coverage for their customers through them.

- 5. Expanding the electronic link base with insurance brokers and banks to diversify production sources for producers of vehicle insurance for individuals and medical insurance for small and medium businesses.
- 6. Develop relationships with major insurance brokers and intensify visits to existing and direct customers to increase production in the general insurance branch.
- 7. Continuing the company's policy of qualifying employees, providing them with appropriate training, employing good cadres, and focusing on Saudi national experiences within the company's leadership positions, to ensure an increase in the percentage of Saudization in the company at all administrative levels.
- 8. Continuing to adopt a conservative investment policy that takes into account the quality of the investment, the rate of return from it and the level of risk related to it.
- 9. Continuing to raise the level of the information security environment by keeping pace with the application of the highest standards of information security.
- 10. Continuing to develop and implement a risk management policy that aims to protect the company from the risks it faces or reduce their impact, as the company faces some risks, the most important of which have been mentioned below, Where the company exerts the necessary effort in taking the necessary measures and setting the necessary policies and procedures to prevent the impact of these risks or reduce their impact on the company as much as possible and to monitor and follow them diligently:
 - Insurance risks: the risks that may result from all insurance operations including risk assessment and acceptance (underwriting process), pricing, reinsurance, compensation settlement, allotment of necessary provisions and other operations related to the company's main activity. To manage these risks, the company has developed and applied sound underwriting rules and studied foundations for settling compensation and monitoring provisions, in addition to dealing with reinsurers with high credit ratings from international rating agencies.
 - Market risks: These are risks that may result from fluctuations in the investments owned by the company, including
 fluctuations in the Saudi financial market. As well as fluctuations in interest rates. The company follows a conservative
 investment policy that limits the impact of these risks.
 - Credit Risk: It is the risk that may result from the inability of the other party to fulfill its obligations towards the company, whether from the company's clients, insurance and reinsurance companies, banks and others who have an obligation to the company. The company has adopted a conservative credit policy to limit the impact of these risks, in addition to dealing with reinsurers with high credit ratings from international rating agencies.

- Non-compliance risks: These are risks that may result from non-compliance with the laws, regulations, and instructions issued by all the regulatory and governmental duties to which the company is subject, as the company implements all laws and instructions issued and follows up on any new instructions to comply with them. The company also has control departments (compliance management, internal audit management, and a risk management) that perform its oversight role in this regard.
- The risk of losing clients: It is the risk resulting from the loss of the company's clients, whether due to the failure to provide good service or as a result of raising insurance prices to match the volume of the subscribed risk and the client's non-acceptance of that. Where the company is constantly evaluating the services provided to its customers to ensure their continuity with the company. In addition to adopting a reasonable pricing mechanism for risk without exaggeration within sound technical rules.
- The risk of the company's systems being exposed to electronic attacks: the risk that the company's technical systems will stop working or the company's information will be lost as a result of the systems being exposed to electronic attacks that fail the work of the systems and delete the stored information, as the company has developed an integrated framework for information security that includes all relevant policies and procedures in addition to the technical aspect in this regard. The company is conducting a periodic review of this framework to ensure that it keeps pace with the development taking place in it.
- The risk that the company's business is concentrated in certain types of insurance or through certain production sources: It is the risk that the company's business is concentrated mainly in the vehicle and medical insurance producers and its concentration in a specific number of production sources. Where the company is striving to develop the marketing tools necessary to diversify its insurance portfolio, whether in terms of the source of production or the type of production.
- Strategic risk: It is the risks associated with the company's inability to achieve its strategic objectives. These risks are considered general, such as lowering the financial solvency than the permissible limit, the impact of competition, the impact of prices on the market, the general economic situation, the lack of qualified people, and the absence of strategic planning, in addition to many reasons that hinder the company from achieving its results. The company annually reviews its strategic plan in line with changes in the financial situation, the market situation and the economic situation in order to achieve its strategic objectives.
- Disaster risk: It is the risk resulting from the company's exposure to a natural disaster or serious damage, which limits
 the company's ability to conduct business. The company has developed a clear plan to recover from disasters and ensure
 business continuity to reduce the impact of any cause that may hinder the company's ability to conduct its business
 normally.

Twenty-seventh: Procedures taken by the Board of Directors to inform its members - especially non-executives - taking note of the shareholders' proposals and observations about the company and its performance:

During the year 2022, the company did not receive any proposal or substantive note from shareholders about the company and its performance, bearing in mind that the company has clear, written procedures approved by the Board of Directors on how to deal with any note or suggestion received from shareholders about the company, as all members of the Board of Directors are immediately informed of this note. To be discussed in the first meeting of the Board of Directors to be held after receiving this note to be studied, evaluated and answered accordingly.

Twenty-eighth: Methods applied by Board of Directors in evaluating its performance and the performance of its committees and members:

During the year 2022, the performance of the Board of Directors and its committees and members was evaluated based on internal means without resorting to an external party to carry out this task, as this was done through:

- 1. Nominations and Remunerations Committee: The Committee evaluated the composition of the Board and its committees, identified weaknesses in them during 2022 and suggested the necessary steps to address them. The Committee also evaluated the performance of Board members and committees for the year 2022, where the Committee adopted the following criteria in evaluating the performance of Board members:
- Attending board meetings and giving sufficient time for the tasks required of him as a board member.
- The extent of interaction and participation in the discussion during the meetings of the Board of Directors.
- The extent of the response to the decisions of the Board of Directors by passing.
- Attend the meetings of the committees emanating from the Council.
- The extent of communication with the executive management, whether directly or indirectly.
- The results of the measurement indicators related to the extent to which the company's strategic objectives are achieved and the adequacy of the internal control and risk management systems.
- 2. Self-evaluation: All members of the board and sub-committees conducted a self-assessment by answering the questions of the self-assessment questionnaire, which includes all the necessary aspects to determine the performance and the needs required to improve and raise the level of efficiency of the members.

Twenty-ninth: Annual review of the effectiveness of the company's internal control procedures during the year 2022.

The results of the annual audit, the effectiveness of the internal control procedures, and the audit committee's opinion on the adequacy of the control system:

Internal audit is an objective and independent confirmatory and advisory activity with the aim of adding value and improving the company's operations. The internal audit helps the company achieve its strategic objectives by providing a regular basis for evaluating and improving the effectiveness and adequacy of internal control systems and the processes involved in the company's control performance. Accordingly, the Internal Audit Department has carried out many operations The periodic and special review that would ensure the accuracy and effectiveness of performance, regulatory control processes, financial management, health and vehicle insurance management, in addition to contributing to the review of the preliminary and final financial statements and coordinating the work of external control authorities.

The Board of Directors reviewed the minutes of the Audit Committee's meetings on a regular basis. The results of the audit also resulted in the presence of observations related to the management of vehicle claims, as well as the management of medical insurance claims, the management of customer care, and the processes of developing the technical system, including recommendations and notes on the performance of the mentioned departments that need to increase procedures to achieve the strategic goals of the company.

With regard to the committee's assessment of the adequacy of the control system, the committee was briefed on the effectiveness and adequacy of the internal control system and where the weaknesses lie in it. Due to the Corona pandemic, the period of completion of the new system has been extended) as the Board of Directors confirmed the recommendations of the Audit Committee in this regard to strengthen and raise the level of effectiveness of the control procedures in the company and increase its efficiency.

During the year 2022, the Audit Committee made several main and specific recommendations to the Board of Directors, aimed at improving the supervision and internal control processes to meet the current and future needs of the company in the best way. These efforts can be summarized in the following points:

- 1. Approval of the internal audit plan for the year 2022
- 2. Follow up the development of the company's technical system, accounting system and asset management
- 3. Continuity of work to follow up on the corrective measures taken by the company, especially with regard to claims, customer care, and vehicle underwriting
- 4. Continuity of follow-up development of the human resources system and policy.
- 5. A number of (6) meetings of the Audit Committee were held

It should also be noted here that there are no decisions or recommendations of the Audit Committee, there is a conflict between them and the decisions of the Board of Directors, knowing that the Board of Directors of the company has approved, approved and adopted all the observations received from the Audit Committee.

Thirtieth: External Auditors

The Audit Committee received the offers submitted by the major external auditing companies regarding the audit of the company's accounts for the year 2022, where a comparison was made between the offers submitted by the Audit Committee on multiple bases, the most important of which is the work plan proposed by the external auditor, reputation and experience in the Saudi insurance market, fees and practical experience, and the committee concluded by recommending to the company's general assembly the selection of Suleiman Abdullah Al-Kharashi Company (Al-Kharashi & Co. Accountants and Legal Auditors) in cooperation with the external auditor, Mr. Al-Ayouti & Co. Certified Public Accountants, in order to examine, review and audit the financial statements for the second, third quarters and the full year 2022 And the first quarter of 2023, and the Assembly agreed to that, as the external auditors elected by the General Assembly completed their work for the year 2022 completely without replacing any of them during the year.
