## AUDITORS' LIMITED REVIEW REPORT TO THE SHAREHOLDERS OF SAUDI PUBLIC TRANSPORT COMPANY (A SAUDI JOINT STOCK COMPANY)

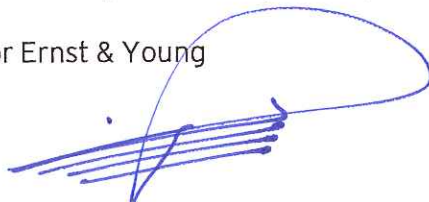

### Scope of Review

We have reviewed the accompanying interim consolidated balance sheet of Saudi Public Transport Company - A Saudi Joint Stock Company (the "Company") and its subsidiary ("the Group") as at 31 December 2016, and the related interim consolidated statement of income for the three month period and year ended 31 December 2016, and interim consolidated statement of cash flows for the year then ended. These interim consolidated financial statements are the responsibility of the Group's management and have been prepared by them and submitted to us together with all the information and explanations which we required. We conducted our limited review in accordance with the Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A limited review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

### Conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

# Saudi Public Transport Company and its Subsidiary (A Saudi Joint Stock Company)

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) 31 DECEMBER 2016

### 1 ACTIVITIES

Saudi Public Transport Company (the "Company") is a Saudi Joint Stock Company registered in Riyadh and formed under the Royal Decree No. M/11, dated 7 Rabi Awal 1399H (corresponding to 5 February 1979). The formation was declared pursuant to the resolution of His Excellency, The Minister of Commerce, No. 254 dated 14 Sha'ban 1399H (corresponding to 9 July 1979). The Company operates under commercial registration number 1010024335 dated 5 Ramadan 1399H (corresponding to 29 July 1979).

The Company is engaged in passenger land transport both intra and inter-city throughout the Kingdom and outside the Kingdom, as well as the transfer of non-postal parcels, cargo, school transport, teachers transport, car rental and sand and gravel transport. The Company is also engaged in operating and maintaining of trains, metros, motor vehicles and trucks, organizing tours, transporting pilgrims and visitors in and out of the Kingdom and importing spare parts and chemical detergents of vehicles.

Royal Decree No. (M / 48 ) dated 22 Dhul-Hijjah 1399H (corresponding to 12 November 1979) was issued to grant Saudi Public Transport Company a franchise contract whereby the Company commits to transport passengers on public roads network both intra and inter-city throughout the Kingdom of Saudi Arabia for a period of fifteen Hijri years .

The Council of Ministers in its resolution No. (57) issued on 1 Jumada Thani 1414H (corresponding to 15 November 1993) approved the renewal of the franchise contract for a period of fifteen years starting from 1 Rajab 1414H. On 21 Jumada Al-Awal 1429H (corresponding to 26 May 2008), the contract was renewed for another renewable five-year period starting from 1 Rajab 1429H (corresponding to 4 July 2008).

The Council of Ministers in its resolution No. (254 ) issued on 24 Rajab 1434H (corresponding to 3 September 2013) approved the extension of the franchise contract signed between the government and Saudi Public Transport Company (SAPTCO), whereby the Company is committed to carry passengers by buses within and between cities in the Kingdom for a period of three years starting 1 Rajab 1434H (corresponding to 11 May 2013). The concerned governmental authorities shall have the right during that period to partially reduce the spatial coverage of the franchise contract based on the phases of issuing new tender for providing public transportation between the cities inside the Kingdom of Saudi Arabia.

On 29 Dhul-Hijjah 1436H (corresponding to 12 October 2015), the Council of Ministers approved the extension of the franchise contract, signed between the government and Saudi Public Transport Company (SAPTCO) by virtue of the Royal Decree (No. M/48 dated 23 Dhul-Hijjah 1399H), for a period of five years starting 1 Rajab 1437H (corresponding to 8 April 2016), and without giving the Company or any other company any competitive advantage when issuing tenders for providing public transportation services between the cities of the Kingdom.

### 2 BASIS OF CONSOLIDATION

These interim consolidated financial statements include the financial statements of the Company and its subsidiary (the "Group"), as adjusted by the elimination of significant inter-group balances and transactions.

The financial statements of the subsidiary are prepared using accounting policies which are consistent with those adopted by the Company. The financial statements of the subsidiary company are consolidated from the date on which the Company is able to exercise effective control over the subsidiary company. A subsidiary is an entity in which the Company has, directly or indirectly, equity investment of more than 50% of the share capital and/or over which it exercise effective control.

Minority interest of the consolidated subsidiary is identified separately from the Company's shareholders' equity therein. Minority interests consist of the amount of those interests at the date of the original business combination and the minority interest's share of changes in equity since the date of the combination.

The subsidiary included in these interim consolidated financial statements is as follows:

Subsidiary	Shareholding		Principle Activity	Country of Incorporation
	2016	2015		
Public Transport Company	80%	80%	Executing King Abdulaziz Project for Public Transport in Riyadh	Saudi Arabia

Saudi Public Transport Company and its Subsidiary  
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)  
31 DECEMBER 2016

**2 BASIS OF CONSOLIDATION (continued)**

On 8 Rabi Al Awal 1436H (corresponding to 30 December 2014), the Company participated in establishing Public Transportation Company (the "subsidiary") with a capital of ten million Saudi Riyal. Saudi Public Transport Company (SAPTCO) owns 80% of the share capital. Public Transport Company is engaged in execution of King Abdul-Aziz Project for Public Transport in Riyadh. Accordingly, the subsidiary's financial statements have been consolidated effective from the fourth quarter of the year ended 31 December 2015 due to lack of its relative importance in prior periods. The subsidiary has not started its commercial operations yet.

**3 SIGNIFICANT ACCOUNTING POLICIES**

The interim consolidated financial statements have been prepared in accordance with standard on Interim Financial Reporting issued by Saudi Organization for Certified Public Accountants. The significant accounting policies adopted by the Company and its subsidiary in preparation of the interim consolidated financial statements and summarized below are consistent with those adopted in the preparation of annual consolidated financial statements for the year ended 31 December 2015, except for zakat and income tax provisions which are calculated in accordance with recently issued circular submittal numbered 6718/16/1437 and dated 5 Rabi Awal 1438 (corresponding to 4 December 2016) as issued by General Authority for Zakat and Tax ("GAZT"), and should be read in conjunction with those annual financial statements.

Significant accounting policies adopted by the Group are as follows:

***Accounting convention***

The interim consolidated financial statements have been prepared under the historical cost convention except for investments in available for sale securities which are measured at fair value.

***Use of estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that might affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

***Cash and cash equivalents***

Cash and cash equivalents consist of bank balances, cash on hand, and Murabaha investments that are readily convertible into known amounts of cash and have a maturity of three months or less when purchased.

***Inventory***

The spare parts inventory is stated at cost. Cost is determined on the weighted average basis. Material repair costs of spare parts are capitalized. An appropriate provision is provided for any obsolete and slow moving items. Spare parts inventory is not available for resale.

***Accounts receivable***

Accounts receivable are stated at original invoice amount less a provision for any uncollectible amounts. An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

***Property, Plant and Equipment***

Property, plant and equipment are stated at cost, net of accumulated depreciation and any impairment in value, except for freehold lands and projects under construction which are stated at cost. Expenditures for maintenance and repairs are considered operating expense, while expenditures for improvements are considered capital expenses, and are amortized on a straight-line basis over the estimated useful lives of the improvements.

The estimated useful lives of the main classes of assets for the calculation of depreciation are as follows:

	<u>Years</u>
Buildings	33 years
Buses, trucks and trailers	6-12 years
Tools and equipment	5-20 years
Furniture and fixtures	3-10 years
Motor vehicles	3-6 years

Saudi Public Transport Company and its Subsidiary  
(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)  
31 DECEMBER 2016

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

***Property, Plant and Equipment (continued)***

All costs associated with the renovation of buses, trucks and trailers are capitalized and added to the cost of the renovated buses, trucks and trailers.

Buses, trucks and trailers renovation costs are depreciated effective from the date of operating the renovated buses, trucks and trailers by equal annual installments over their expected residual useful lives.

**Investments**

***a) Investments in available for sale securities***

Investments, that are bought neither with the intention of being held to maturity nor for trading purposes, are stated as investments in available for sale securities and recorded at fair value and are included under non-current assets unless they will be sold in the next fiscal year. Unrealized gains or losses from valuation of these investments at fair value, are included, as a separate item within the statement of changes in shareholders' equity. A decline in value considered to be other than temporary, is charged to the interim consolidated statement of income. Income from such investments is recognized when declared.

Fair value is determined by reference to the market value if an open market exists or on the basis of other alternative methods. Otherwise, cost is considered to be the fair value. Where partial holdings are sold, these are accounted for on a weighted average basis.

***b) Investments accounted for under equity method***

***- Investment in an associate***

An associate is that in which the Group has a long-term investment comprising an interest of 20% or more of the voting capital and over which it exercises significant influence, where it is accounted for under the equity method in the interim consolidated financial statements.

Under the equity method, the Group's share in the investee companies is recorded in the interim consolidated balance sheet at cost, adjusted by the post-acquisition/incorporation changes of the Group's share in the net assets of the investees companies, less any impairment in investments. The Group's share in the financial results of these investee companies is recognized in the interim consolidated statement of income.

***- Investments in joint ventures***

A joint venture is a contractual arrangement whereby the Group and other parties undertake an economic activity that is subject to joint control, i.e. the strategic financial and operating policy decisions relating to the activities require the unanimous consent of the parties sharing control. Joint venture arrangements that involve the establishment of a separate entity in which each party has an interest are referred to as "jointly controlled entities". The Group accounts for its interests in jointly controlled entities on the equity method basis. Under the equity method, the Group's interest in the jointly controlled entity is carried in the interim consolidated balance sheet at cost and adjusted by post-incorporation changes in the Group's share of the net assets of the jointly controlled entity, less any impairment in the value of individual investment, if any.

***Work in progress***

Work in progress is stated at cost incurred until the asset is ready for its intended use, thereafter; this cost is capitalized on the related assets. Work in progress includes the cost of contractors, materials, services, borrowing, salaries and other direct costs and overheads allocated on a consistence basis.

***Deferred charges / amortization***

Deferred charges comprise upfront fees related to bank guarantees and are amortized over the period of the related guarantee.

Deferred charges also comprise training consulting costs and integration of operating systems which will be deferred and amortized over the period of benefit.

***Accounts payable and accruals***

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the suppliers or not

(A Saudi Joint Stock Company)

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(continued)  
31 DECEMBER 2016

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

***Employees' terminal benefits***

Provision is made for amounts payable under the Saudi Arabian Labor Law applicable to employees' accumulated periods of service at the balance sheet date.

***Deferred revenue***

Deferred revenue represents the fair market value of the buses and equipment granted to the Group, and are amortized using the straight-line method over the estimated period of benefit.

***Impairment of non-current assets***

The Group regularly reviews the carrying amounts of non-current assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. Impairment losses are recognized immediately in the interim consolidated statement of income.

Where an impairment loss subsequently reverses, the carrying amount of the asset or cash-generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset or cash-generating unit in prior years. A reversal of an impairment loss is recognized as income immediately in the interim consolidated statement of income.

***Islamic Murabaha contracts***

Murabaha costs relating to the property, plant and equipment acquired under Islamic Murabaha contracts, are stated as deferred Murabaha loan commissions and are amortized over the period of the contract, as per the practice adopted in respect of Murabaha transactions in the Kingdom of Saudi Arabia.

***Statutory reserve***

In accordance with the Saudi Arabian Regulations for Companies, the Company must set aside 10% of its net income to the statutory reserve. The Company may resolve to discontinue such transfer when the reserve equals 50% of the capital. The reserve is not available for distribution.

***Revenues***

Revenue is recognized when services are rendered to the customers. Rent and contract revenues are proportionately recognized over the terms of these agreements. Other income is recognized when earned.

***Expenses***

Marketing expenses are those which specifically relate to advertising, and promotion agents' commissions, other marketing expenses as well as the provision for doubtful debts. All other expenses are classified as general and administrative expenses.

***Operating leases***

Operating lease payments are recognized as an expense in the interim consolidated statement of income. Prepaid rent is amortized on a straight line basis over the lease term.

***Zakat and Income Tax***

The Company is subject to the Regulations of the General Authority of Zakat and Tax ("GAZT") in the Kingdom of Saudi Arabia. Zakat and income tax is determined based on effective ownership interest reflected in the register of shareholders in the capital market authority (CMA) at the end of the period. Zakat and income tax estimate is provided on an accruals basis and charged to the interim statement of income. The zakat charge is computed at 2.5% on the zakat base or adjusted net income, whichever is higher while income tax relating to the non-Saudi ownership has been provided for based on share of estimated taxable profit at 20%. Any difference in the estimate is recorded when the final declaration is approved, at which time the provision is cleared.

3 SIGNIFICANT ACCOUNTING POLICIES (continued)

*Foreign currencies*

Transactions in foreign currencies are recorded in Saudi Riyals at the rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the interim consolidated balance sheet date. All differences are taken to the interim consolidated statement of income.

*Segmental reporting*

A segment is a distinguishable component of the Group that is engaged either in providing products or services (a business segment) or in providing products or services within a particular economic environment (a geographic segment), which is subject to gains and losses that are different from those of other segments. As the Group carries out most of its activities entirely in the Kingdom of Saudi Arabia, reporting is provided by business segment only.

4 BUSINESS RESULTS AND SEASONAL EFFECTS

The Group's revenue is affected by seasons in which the operation rates are high. These seasons are the Hajj, summer vacation, the holy month of Ramadan and the public holidays. The Group's interim results may not be an accurate indicative of its annual results.

- a) Investment in an associate represents the Company's 40% ownership of Saudi Bahraini Transport Company, a limited liability company registered in the Kingdom of Saudi Arabia. This investment is accounted for under the equity method based on the latest available financial statements. The audited financial statements of the associate for 2014 have not been issued as at the date of the preparation of these interim consolidated financial statements.

On 31 December 2015, the Partners' Extraordinary General Assembly of Saudi Bahraini Transport Company agreed on dissolving and liquidating the company, and nominating a liquidator. Accordingly, a provision has been made for the investment in full as the Company is unable to estimate the recoverable amount of this investment.

- b) On 20 Safar 1435H (corresponding to 23 December 2013), the Company has agreed with Emirates Transport on establishing Saudi Emirates Integrated Transport Company (SEITCO) with a capital of one hundred thousand Saudi Riyal, so that each party owns 50% of the capital. Saudi Emirates Integrated Transport Company is engaged in educational transportation services, ownership of buses, fleet management for other companies and the provision of transport services by automobiles. SEITCO started its operations during the third quarter of 2014. This investment is accounted for under the equity method, based on interim financial statements prepared by SEITCO.
