Directors' Report

The Board of Directors of Agthia Group PJSC (the "Company") is pleased to present the Company's financial results for the first six months ended June 30, 2011.

Sales and volume growth momentum was maintained across all categories during the first half of 2011.

Our investments remained focused on growth opportunities, while we continued addressing the challenge of higher input costs by pursuing cost savings, pricing opportunities, and by accelerating entry into new categories.

The new strategic initiatives announced in 2010, in relation to Agthia's entry into fresh dairy products (Yoplait) and processed fresh fruits and vegetables, as well as Agthia's recent announcement in relation to its entry into long shelf life juice segment under the Chiquita brand are all progressing well and are on track for a planned launch in Q4 of 2011.

Sales

Net sales for the first six months have increased by 17% year on year, reaching AED 559 million. This growth in sales was driven by consistent strong performance in the Company's Water & Beverages business which delivered 26% sales growth year on year; and a significant 14% year on year growth in Company's Flour & Animal Feed business.

Net Profit

Net profit for the first six months at AED 40 million reflects a drop of 25% versus the same period last year. This drop is mainly attributed to two factors (a) the continued increase in input cost of raw materials (grains and PET) and (b) during the same period last year Company's Flour business benefited from a decline in wheat prices which outpaced the drop in the market selling price of flour resulting in higher one off profit margin.

Other Income

During the first six months of the year, the Company recognized an income of AED 6.4 million, which includes the settlement of AED 4.3 million business interruption insurance claims relating to a fire incident in one of our flour mills in mid 2010.

Selling & General Administration Expenses (SG&A)

SG&A as a percentage of sales has declined to 14.4% from 16.4% of last year. Overall SG&A at AED 80.6 million has increased by 3% compared to the same period last year basically reflecting the higher distribution costs and other inflationary increases.

Cash Flow

Cash from operating activities totaled AED 40.4 million in the first six months of 2011, lower than a year ago mainly due to lower profit during the period under review. Cash used by investing activities during the six months period ended June 30, 2011 was AED 84.2 million, which primarily includes investment in plant and machinery and the new corporate office.

Cash and cash equivalents as at June 30, 2011 improved to AED 264.6 million versus last year of AED 239.4 million.

To ensure availability of funds, we maintain bank credit lines sufficient to cover our short term working capital requirements.

Unallocated Corporate Items

Under reportable segment assets, an unallocated amount of AED 397 million represents the Company's cash and bank balances, as fund management is centralized at the corporate level, as are the Company's goodwill and corporate office related current and fixed assets.

Capital Commitment and Contingencies

Capital commitments of AED 143 million relates to dairy and new flour mill projects, the expansion of existing animal feed and flour lines, as well as investments in delivery trucks and other capital items.

Bank Guarantees and letters of credit of AED 63.5 million have primarily been issued in favor of Company's vendors.

Flour and Animal Feed

The Company's Flour & Animal Feed business recorded a net sales growth of 14% year on year to AED 376 million, driven by pricing and 6% volume increase.

Net Profit for the segment has declined by 30% year on year. This is mainly attributed to the gross margin contraction of 600 basis points due to the increase in grain prices and as well as for the fact that the flour segment during the same period last year benefited from a decline in grain prices which outpaced the adjustment in market selling price resulting in higher one off profit margin.

Actions are under execution to improve the profitability of this segment which among others include the production capacity expansion of existing flour & animal feed mills. This incremental capacity will replace the currently higher cost of outsourced volume. The flour mill expansion has been completed in mid July while the feed mill expansion has now been delayed until Q4, 2011 due to some technical reasons.

Water and Beverages

The Company's Water & Beverages business has delivered strong consistent sales growth of 26% year on year, reaching AED 155 million. Overall net sales growth is attributed to strong volume growth, where water volume grew by 22% and Capri Sun juice volume grew by 32%.

Net profit in this business remained flat versus same period last year, affected by the rising cost of PET. Management is carefully monitoring the cost trends of PET, and while current PET prices are unlikely to drop in the short term, a price increase in both bottled water and Capri Sun juice in Q3 2011 should lead to improved profitability in the second half of the year.

Processed Fruits and Vegetables

Sales in the Processed Fruits & Vegetables business grew by 9% year on year. Branded business sales were up by 30%, in line with the Company's strategy to move away from the low margin private label export business.

Positive results have been achieved in the Company's Egypt business through the expanded product portfolio of tomato and chilli paste, fruit puree, frozen vegetables and private label tomato and chilli paste in glass jars. However, the current geopolitical unrest in the region has had an impact on expected export volumes and will remain an area of focus for management over the next quarter, as the Company considers the launch of branded tomato and chilli paste jars for the local Egyptian market in second half of the year.

Overall results for this business during the first six months of the year improved versus the same period last year. The Company remains focused on further improving profitability and expects the business to return to profitability in the short term.

Outlook

The challenges of rising soft commodity and PET prices persist hence pressuring our profit margins, while the repercussions of the recent regional unrest remain a concern. Nevertheless, the Company remains focused and committed to growing its existing businesses; effectively executing commencement of new category launches in fresh dairy products, long shelf life natural juices and processed fresh fruits and vegetables; and expects to deliver another year of good business growth.

Report on Review of Condensed Consolidated Interim Financial Information to the Shareholders of Agthia Group PJSC

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Agthia Group PJSC (the Company) as of 30 June 2011 and the related condensed consolidated interim statement of income, statement of comprehensive income, statement of changes in equity and statement of cash flows for the six month period then ended. Management is responsible for the preparation and presentation of the condensed interim financial information in accordance with International Accounting Standard 34 "Interim Financial Reporting." Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

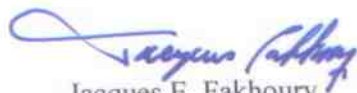

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting."

Agthia Group PJSC

Notes to the condensed consolidated interim financial information

1 Legal status and principal activities

Agthia Group PJSC (“the Company”) was incorporated as a Public Joint Stock Company pursuant to the Ministerial Resolution No. 324 for 2004. General Holding Corporation PJSC owns 51% of the Company’s shares. The principal activities of the Company are to establish, invest, trade and operate companies and businesses that are involved in the food and beverage sector.

The condensed consolidated interim financial information of the Company as at and for the six months ended 30 June 2011 comprise the Company and its below mentioned subsidiaries (together referred to as the “Group”).

Subsidiary	Country of Incorporation and operation	Share of equity (%)		Principal activity
		2011	2010	
Grand Mills PJSC	UAE	100	100	Production and sale of flour and animal feed
Al Ain Mineral Water Company PJSC	UAE	100	100	Production, bottling, sale of bottled water, water based drinks and beverages.
Al Ain Vegetable Processing and Canning Factory	UAE	100	100	Processing and sale of tomato paste and frozen vegetables.

The Board of Directors’ has approved the transfer of assets and liabilities of Al Ain Vegetable Processing and Canning Factory to Al Ain Mineral Water Company PJSC. The management is in the process of obtaining required approvals from relevant authorities and executing the necessary deeds to effect the transaction.

2 Statement of compliance

These condensed consolidated interim financial information have been prepared in accordance with International Financial Reporting Standard (IFRSs) *IAS 34 Interim Financial Reporting*. They do not include all of the information required for full annual consolidated financial information, and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2010.

3 Significant accounting policies

The accounting policies and methods of computation applied by the Group in these condensed consolidated interim financial information are the same as those applied by the Group in the consolidated financial statements as at and for the year ended 31 December 2010.

These condensed consolidated interim financial information are presented in United Arab Emirates Dirhams ("AED"), which is the functional currency, rounded to the nearest thousand.

Government compensation

Funds that compensate the Group for selling at subsidised prices in the Emirate of Abu Dhabi are recognised in the condensed consolidated interim statement of income, as a deduction from the cost of sales, on a systematic basis in the same period in which the sales transaction is affected.

Cost of sales as stated in condensed consolidated statement of income is after the deduction of Abu Dhabi Government compensation amounting to AED 131.79 million (*30 June 2010: AED 71.5 million*). The purpose of the compensation was to partially reduce the impact of increased and volatile global grain prices on food retail prices for the consumers in the Abu Dhabi emirate.

4 Estimates

The preparation of condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial information, the significant judgment made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the consolidated financial statements as at and for the year ended 31 December 2010.

5 Financial risk management

The Group's financial risk management objectives and processes are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2010.

6 Property, plant and equipment

Acquisitions and disposals

During the six months ended 30 June 2011, the Group acquired assets with a cost of AED 87,918 thousand (*30 June 2010: AED 53,929 thousand*)

Assets with a carrying amount of AED 93 thousand were disposed of during the six months ended 30 June 2011 (*30 June 2010: AED 492 thousand*), resulting in a profit of AED 170 thousand (*30 June 2010: loss of AED 148 thousand*) which is included in net other income.

12 Segment reporting

Information about reportable segment for the six months ended 30 June

The Group has 3 reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products and services, and are managed separately because they require different technology and marketing strategies. For each of the strategic business units, the Board of Directors review internal management reports on at least a quarterly basis.

The following summary describes the operations in each of the Group's reportable segment:

- Flour and Animal Feed, includes manufacturing and distribution of flour and animal feed.
- Bottled Water, includes manufacturing and distribution of drinking water, water based drinks and beverages.
- Tomato Paste and Frozen Vegetables, includes purchasing, manufacturing, selling and distribution of tomato and chilli paste, fruit concentrate, french fries and frozen vegetables.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit, as included in the internal management reports data reviewed by the Group's CEO. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.
