INDEPENDENT AUDITORS' REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS

TO: THE SHAREHOLDERS OF AL ALAMIYA FOR COOPERATIVE INSURANCE COMPANY (A SAUDI JOINT STOCK COMPANY)

Introduction

We have reviewed the accompanying interim condensed statement of financial position of Al Alamiya for Cooperative Insurance Company (the "Company") as at 30 June 2020, the related interim condensed statements of income and comprehensive income for the three-month and six-month periods then ended and interim condensed statements of changes in equity and cash flows for the six-month period then ended and notes to the interim condensed financial statements. Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") that is endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements as at 30 June 2020 of the Company are not prepared, in all material respects, in accordance with IAS 34 that is endorsed in the Kingdom of Saudi Arabia.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS

For the three and six month period ended June 30, 2020

1. ORGANISATION AND PRINCIPAL ACTIVITIES

Al Alamiya for Cooperative Insurance Company ("the Company" or "Al Alamiya") is a Saudi Joint Stock Company registered on 29 Dhu-al Qu'dah, 1430H (17 November 2009) under commercial registration (CR) number 4030194978. The registered head office of the Company is in Riyadh under CR number of 1010287831 with branches in Jeddah (CR 4030194978) and Khobar (CR 2051042939). The registered address of the Company's head office is as follows:

Al Alamiya for cooperative insurance company Prince Mohammed bin Abdul Aziz Road, Home Centre Building, P.O. Box: 6393, Riyadh 11442, Kingdom of Saudi Arabia

The activities of the Company are to transact cooperative insurance and reinsurance operations and all related activities in accordance with the Law on Supervision of Cooperative Insurance Companies and its implementing regulations in the Kingdom of Saudi Arabia. On 26 Dhu Al Hijjah, 1430H (13 December 2009), the Company received the license from Saudi Arabian Monetary Authority (SAMA) to transact insurance business in the Kingdom of Saudi Arabia.

2. BASIS OF PREPERATION

(a) Basis of presentation

The interim condensed financial information of the Company as at and for the period ended 30 June 2020 have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting (IAS 34) as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization of Certified Public Accountants (SOCPA).

The interim condensed financial statement are prepared under the going concern basis and the historical cost convention, except for the measurement at fair value of available for sale investments end of service at present value of future obligations using projected unit credit method. The Company's interim condensed statement of financial position is not presented using a current/non-current classification. However, the following balances would generally be classified as current: cash and cash equivalents, term deposits, premiums and reinsurers' receivable, net, reinsurance share of unearned premiums, reinsurance share of outstanding claims, deferred policy acquisition costs, deferred excess of loss premiums, prepaid expenses and other assets and investments with the exception of available for sale investments in insurance operations. The following balances would generally be classified as non-current property and equipment, intangible, statutory deposit, accrued income on statutory deposit and available for sale investments in insurance operations.

As required by the Saudi Arabian Insurance Regulations, the Company maintains separate books of accounts for Insurance Operations and Shareholders' Operations and presents the interim condensed financial statements accordingly. Assets, liabilities, revenues and expenses clearly attributable to either activity are recorded in the respective accounts.

The interim condensed statement of financial position, statement of income and statement of comprehensive income and cash flows of the insurance operations and shareholders operations which are presented in note 15 of the interim condensed financial statement have been provided as supplementary financial information and to comply with the requirements of the guidelines issued by SAMA implementing regulations. SAMA implementing regulations requires the clear segregation of the assets, liabilities, income and expenses of the Insurance Operations and the Shareholders Operations. Accordingly, the interim condensed statements of financial position, statements of income, comprehensive income and cash flows prepared for the insurance operations and shareholders operations as referred below in note 15 reflect only the assets, liabilities, income, expenses and comprehensive gains or losses of the respective operations.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS

For the three and six month period ended June 30, 2020

2. BASIS OF PREPERATION (CONTINUED)

(a) Basis of presentation (continued)

In preparing the Company-level financial information in compliance with IFRS, the balances and transactions of the insurance operations are amalgamated and combined with those of the shareholders' operations. Interoperation balances, transactions and unrealised gains or losses, if any, are eliminated in full during amalgamation. The accounting policies adopted for the Insurance Operations and Shareholders Operations are uniform for like transactions and events in similar circumstances. Surplus from insurance operations' and actuarial reserves from employee benefits are shown separately as Accumulated Surplus in the statement of financial position and as Actuarial reserve for employee benefits in the statement of equity.

The Company is required to distribute 10% of the net surplus from insurance operations to policyholders and the remaining 90% is to be allocated to the shareholders of the Company in accordance with the Insurance Law and Implementation Regulations issued by the Saudi Arabian Monetary Authority (SAMA). Any deficit arising on insurance operations is transferred to the shareholders' operations in full.

The interim condensed financial information do not include all of the information required for full annual financial information and should be read in conjunction with the annual financial information as of and for the year ended December 31, 2019.

These interim condensed financial statements are expressed in Saudi Arabian Riyals (SAR) thousands and are rounded off to the nearest thousands.

(b) Critical accounting judgments, estimates and assumptions

The preparation of interim financial statement requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these interim condensed financial statement, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty including the risk management policies were the same as those that were applied to the annual financial statement as at and for the year ended 31 December 2019. Further, the Company has considered the following:

- On 11 March 2020, the World Health Organisation ("WHO") declared the Coronavirus ("Covid-19") outbreak as a pandemic in recognition of its rapid spread across the globe. This outbreak has also affected the GCC region including the Kingdom of Saudi Arabia. Governments all over the world took steps to contain the spread of the virus. Saudi Arabia in particular has implemented closure of borders, released social distancing guidelines and enforced country wide lockdowns and curfews.
- In response to the spread of the Covid-19 virus in the Kingdom of Saudi Arabia where the Company operates and its consequential disruption to the social and economic activities, the Company's management has proactively assessed its impacts on its operations and has taken a series of proactive and preventative measures and processes to ensure:
 - the health and safety of its employees and the wider community where it is operating
 - the continuity of its business throughout the Kingdom is protected and kept intact.

(c) Seasonality of operations

The Company operates in an industry where significant seasonal or cyclical variations in operating income are experienced during the financial year.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS

For the three and six month period ended June 30, 2020

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies used in the preparation of these unaudited interim condensed financial statements are consistent with those used in the preparation of the annual financial statements for the year ended 31 December 2019.

i) IFRS 9 Financial Instruments

This standard was published on July 24, 2014 to replace IAS 39. The new standard addresses the following items related to financial instruments:

Classification and measurement

IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss. A financial asset is measured at amortized cost if both:

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows and;
- ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding ("SPPI").

The financial asset is measured at fair value through other comprehensive income and realized gains or losses would be recycled through profit or loss upon sale, if both conditions are met:

- i) the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows and for sale and;
- ii) the contractual terms of cash flows are SPPI.

Assets not meeting either of these categories are measured at fair value through profit or loss. Additionally, at initial recognition, an entity can use the option to designate a financial asset at fair value through profit or loss if doing so eliminates or significantly reduces an accounting mismatch.

For equity instruments that are not held for trading, an entity can also make an irrevocable election to present in other comprehensive income subsequent changes in the fair value of the instruments (including realized gains and losses), dividends being recognized in profit or loss.

Additionally, for financial liabilities that are designated as at fair value through profit or loss, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss.

Impairment

The impairment model under IFRS 9 reflects expected credit losses, as opposed to incurred credit losses under IAS 39. Under the IFRS 9 approach, it is no longer necessary for a credit event to have occurred before credit losses are recognized. Instead, an entity always accounts for expected credit losses and changes in those expected credit losses. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS For the three and six month period ended June 30, 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

i) IFRS 9 Financial Instruments (continued)

Effective date

The published effective date of IFRS 9 was January 1, 2018. However, amendments to IFRS 4 – Insurance Contracts: Applying IFRS 9 – Financial Instruments with IFRS 4 – Insurance Contracts, published on September 12, 2016, changes the existing IFRS 4 to allow entities issuing insurance contracts within the scope of IFRS 4 to mitigate certain effects of applying IFRS 9 before the IASB's new insurance contract standard (IFRS 17 – Insurance Contracts) becomes effective. The amendments introduce two alternative options:

- 1) apply a temporary exemption from implementing IFRS 9 until the earlier of:
 - a) the effective date of a new insurance contract standard; or
 - b) annual reporting periods beginning on or after January 1, 2023. On 17 March 2020, the International Accounting Standards Board ("IASB") decided to extend the effective date of IFRS 17 and the IFRS 9 temporary exemption in IFRS 4 from January 1, 2021 to January 1, 2023. Additional disclosures related to financial assets are required during the deferral period. This option is only available to entities whose activities are predominately connected with insurance and have not applied IFRS 9 previously; or;
- 2) adopt IFRS 9 but, for designated financial assets, remove from profit or loss the effects of some of the accounting mismatches that may occur before the new insurance contract standard is implemented. During the interim period, additional disclosures are required.

The Company has performed a preliminary assessment which included below:

- (1) The carrying amount of the Company's liabilities arising from contracts within the scope of IFRS 4 (including deposit components or embedded derivatives unbundled from insurance contracts) were compared to the total carrying amount of all its liabilities; and
- (2) the total carrying amount of the company's liabilities connected with insurance were compared to the total carrying amount of all its liabilities. Based on these assessments the Company determined that it is eligible for the temporary exemption. Consequently, the Company has decided to defer the implementation of IFRS 9 until the effective date of the new insurance contracts standard. Disclosures related to financial assets required during the deferral period are included in the Company's interim condensed financial statements.

Impact assessment

The Company is currently assessing the impact of the application and implementation of IFRS 9. As of the date of the publication of these interim condensed financial statements, the financial impact of adopting the standard has yet to be fully assessed by the Company.

The Company is currently assessing the impact on application and implementation of IFRS 9, however, the Company expects the classification and measurement of financial assets to be impacted from implementation of IFRS 9.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ii) IFRS 17 Insurance Contracts

Overview

This standard was published on May 18, 2017, it establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts and supersedes IFRS 4 – Insurance contracts.

The new standard applies to insurance contracts issued, to all reinsurance contracts and to investment contracts with discretionary participating features provided the entity also issues insurance contracts. It requires to separate the following components from insurance contracts:

- i) embedded derivatives, if they meet certain specified criteria;
- ii) distinct investment components; and
- iii) any promise to transfer distinct goods or non-insurance services.

These components should be accounted for separately in accordance with the related standards (IFRS 9 and IFRS 15).

Measurement

In contrast to the requirements in IFRS 4, which permitted insurers to continue to use the accounting policies for measurement purposes that existed prior to January 2015, IFRS 17 provides the following different measurement models:

The General Measurement Model (GMM) is based on the following "building blocks":

- a) the fulfilment cash flows (FCF), which comprise:
- probability-weighted estimates of future cash flows,
- an adjustment to reflect the time value of money (i.e. discounting) and the financial risks associated with those future cash flows.
- and a risk adjustment for non-financial risk;
- b) the Contractual Service Margin (CSM). The CSM represents the unearned profit for a group of insurance contracts and will be recognized as the entity provides services in the future. The CSM cannot be negative at inception; any net negative amount of the fulfilment cash flows at inception will be recorded in profit or loss immediately.

At the end of each subsequent reporting period the carrying amount of a group of insurance contracts is remeasured to be the sum of:

- the liability for remaining coverage, which comprises the FCF related to future services and the CSM of the group at that date; and
- the liability for incurred claims, which is measured as the FCF related to past services allocated to the group at that date.

The CSM is adjusted subsequently for changes in cash flows related to future services but the CSM cannot be negative, so changes in future cash flows that are greater than the remaining CSM are recognized in profit or loss.

The effect of changes in discount rates will be reported in either profit or loss or other comprehensive income, determined by an accounting policy choice.

The Variable Fee Approach (VFA) is a mandatory model for measuring contracts with direct participation features (also referred to as 'direct participating contracts'). This assessment of whether the contract meets these criteria is made at inception of the contract and not reassessed subsequently. For these contracts, in addition to adjustment under GMM, the CSM is also adjusted for:

- i) the entity's share of the changes in the fair value of underlying items;
- ii) the effect of changes in the time value of money and in financial risks not relating to the underlying items.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS For the three and six month period ended June 30, 2020

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ii) IFRS 17 Insurance Contracts (continued)

In addition, a simplified Premium Allocation Approach (PAA) is permitted for the measurement of the liability for remaining coverage if it provides a measurement that is not materially different from the General Measurement Model for the group of contracts or if the coverage period for each contract in the group is one year or less. With the PAA, the liability for remaining coverage corresponds to premiums received at initial recognition less insurance acquisition cash flows. The General Measurement Model remains applicable for the measurement of the liability for incurred claims. However, the entity is not required to adjust future cash flows for the time value of money and the effect of financial risk if those cash flows are expected to be paid/received in one year or less from the date the claims are incurred.

Effective date

The Company intends to apply the Standard on its effective date i.e. 1 January 2023. The IASB issued an Exposure Draft Amendments to IFRS 17 proposing certain amendments to IFRS 17 during June 2019 and received comments from various stakeholders. On 17 March 2020, the IASB completed its discussions on the amendments to IFRS 17 Insurance Contracts that were proposed for public consultation in June 2019. It decided that the effective date of the Standard will be deferred to annual reporting periods beginning on or after 1 January 2023. The IASB expects to issue the amendments to IFRS 17 in the second quarter of 2020. Earlier application is permitted if both IFRS 15 – Revenue from Contracts with Customers and IFRS 9 – Financial Instruments have also been applied.

Retrospective application is required. However, if full retrospective application for a group of insurance contracts is impracticable, then the entity is required to choose either a modified retrospective approach or a fair value approach.

Presentation and Disclosures

The Company expects that the new standard will result in a change to the accounting policies for insurance contracts and reinsurance and investment contracts with discretionary participating features, if applicable together with amendments to presentation and disclosures.

Impact assessment:

The Company is currently assessing the impact of the application and implementation of IFRS 17. As of the date of the publication of these financial statements, the financial impact of adopting the standard has yet to be fully assessed by the Company. The Company expects a material impact on measurement and disclosure of insurance and reinsurance that will affect both the statement of income and the statement of financial position. The Company has decided not to early adopt this new standard.

The Company has started its implementation process and has set up a project team, supervised by a steering committee.

b) The Company is subject to legal proceedings in the ordinary course of business. While it is not practicable to forecast or determine the final results of all pending or threatened legal proceedings, management believes that such proceedings (including litigations) will not have a material effect on its results and financial position. The Company did not have any significant outstanding legal proceedings as at the reporting date.

9. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction takes place either:

- in the accessible principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous accessible market for the asset or liability

The fair values of on-balance sheet financial instruments are not significantly different from their carrying amounts included in the interim condensed financial information.

Determination of fair value and fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments:

Level 1: quoted prices in active markets for the same or identical instrument that an entity can access at the measurement date:

Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data; and

Level 3: valuation techniques for which any significant input is not based on observable market data.

10. OPERATING SEGMENTS

Operating segments are identified on the basis of internal reports about components of the Company that are regularly reviewed by the Company's Board of Directors in their function as chief operating decision maker in order to allocate resources to the segments and to assess their performance.

Transactions between the operating segments are on normal commercial terms and conditions. The revenue from external parties reported to the Board is measured in a manner consistent with that in the interim condensed statement of income.

Segment assets and liabilities comprise operating assets and liabilities.

There have been no changes to the basis of segmentation or the measurement basis for the segment profit or loss since December 31, 2019.

Segment assets do not include (in respect of insurance operations) property and equipment, term deposits, investments, due from shareholders' operations, cash and cash equivalents, prepaid expenses and other assets, premiums and reinsurance balances receivable, net. Accordingly, these are included in unallocated assets and are managed and reported to the chief operating decision maker on a centralized basis.

Segment liabilities do not include (in respect of insurance operations) employees' end of service benefits, Reinsurers balances payable, accrued expenses and other liabilities, due to related parties, zakat and income tax, accrued commission income payable to SAMA and due from insurance operations. Accordingly, these are included in unallocated liabilities and are managed and reported to the chief operating decision maker on a centralized basis.

These unallocated assets and liabilities are not reported to chief operating decision maker under related segments and are monitored on a centralized basis.

14. CAPITAL MANAGEMENT

The Company manages its capital to ensure that it is able to continue as going concern and comply with the regulator's capital requirements of the market in which the Company operates while maximizing the return to stakeholders through the optimization of equity balance. The capital structure of the Company consists of equity attributable to equity holders comprising paid share capital and reserves. The operations of the Company are subject to local regulatory requirements in the Kingdom of Saudi Arabia. Such regulations not only prescribe approval and monitoring of activities but also impose certain restrictive provisions e.g. capital adequacy to minimize the risk of default and insolvency on the part of the insurance companies and to enable them to meet unforeseen liabilities as these arise. In order to maintain or adjust the capital structure, the Company may issue right shares. As per guidelines laid out by SAMA in Article 66 table 3 and 4 of the Implementing Insurance Regulations detailing the solvency margin required to be maintained, the Company maintains solvency margin equivalent to the highest of the three methods as per SAMA Implementing Regulations.

The Company has fully complied with the externally imposed capital requirements during the reported financial period.

The Company's management, through various scenario analysis as required by the regulator, has assessed the potential of the Covid-19 pandemic by performing stress testing for various variables like: gross premium growth, increase in employee cost, YTD loss ratio, outstanding premium provisions etc. and the related impact on the revenue, profitability, loss ratio and solvency ratio. The Company's management has concluded that based on the stress testing performed the solvency margin of the Company can be reduced from 199% to 198%. As with any forecasts, the projections and likelihoods of occurrence are underpinned by significant judgements and uncertainties and, therefore, the actual outcomes may be different to those projected. As the situation is fluid and rapidly evolving, the Company will continue to reassess its position and the related impact on a regular basis.

16. STATUTORY RESERVE

In accordance with Regulations for Companies in Saudi Arabia and the by-laws of the Company, the Company is required to establish a statutory reserve by appropriating 20% of net income until the reserve equals 100% of the share capital. This reserve is not available for dividend distribution.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS For the three and six month period ended June 30, 2020

17. IMPACT OF COVID 19 OUTBREAK AND SUBSEQUENT EVENTS

The outbreak of novel coronavirus ("COVID-19") since early 2020, its spread across mainland China and then globally including the Kingdom of Saudi Arabia and the declaration of this pandemic by the World Health Organization has resulted globally in governmental authorities imposing quarantines and travel restrictions of varying scope; has led to significant disruptions in the retail, travel and hospitality industries, and in global trade. It has resulted in decreased economic activity and lowered estimates for future economic growth and has caused global financial markets to experience significant volatility. The Company has considered the following while assessing the impact of COVID-19 outbreak:

• Medical technical reserves

Notwithstanding these challenges, the Company's management believes that the technical reserves for medical line of business remain largely unaffected as the insurance industry is facilitated by the Saudi Arabian Government initiative of bearing all costs associated with Covid-19 pandemic, which include testing and treatment cost. Moreover, there is a general decrease in trend in medical claims which are of routine nature. Furthermore, the industry has not experienced significantly high number of reported claims and therefore has helped the Company to sustain the profitability. Based on these factors, the Company's management believes that the Covid-19 pandemic has had no material effects on Company's reported results for the three-month and sixmonth periods ended 30 June 2020. The Company's management continues to monitor the situation closely.

• Financial assets

The Company has performed an assessment in accordance with its accounting policy due to the Covid-19 pandemic to determine whether there is objective evidence that a financial asset or group of financial assets has been impaired. These include factors such as, significant financial difficulties of issuers or debtors, default or delinquency in payments, probability that the issuer or debtor will enter bankruptcy or other financial reorganization, etc. In case of equities classified under available-for-sale, the Company has performed an assessment to determine whether there is a significant decline in the fair value of financial assets below their cost. Based on these assessments, the Company's management believes that the Covid-19 pandemic has had no material effects on Company's reported results for the three-month and six-month periods ended 30 June 2020. The Company's management continues to monitor the situation closely.

Credit risk management

The Company has strengthened its credit risk management policies to address the fast changing and evolving risks posed by the current circumstances. These include review of credit concentrations at granular economic sector, region, counterparty level and take appropriate action where required. Based on the review, the Company has identified the following sectors being impacted significantly by the Covid-19 pandemic and lower oil prices:

- Foods
- Airlines
- Freight companies
- Hotels
- Retail
- Construction
- Entertainment
- Tourism

• Liquidity Risk

The Company is aware of the need to keep a close focus on liquidity management during this period and has enhanced its monitoring of current liquidity needs as well as the pandemic in its entirety. The Company regularly reviews and updates the liquidity forecast based on the individual liquidity balance as well as the continued development of external economic factors.
